An International Suit IS CHEAP IN PRICE ONLY

Compare the prices of International made-to-measure suits with those of other tailors. I will be satisfied, and you will be convinced that you cannot get better value for your money.

Because the International Tailoring Company do such an enormous business, they buy their cloth and supplies in big quantities, thereby securing them at prices that it is impossible for the ordinary tailor to secure. Let me prove it.

I make no extra charge for

A Pretty Wedding.

Mr. William D. Sloan, of Greenwich, N. J., and Miss Ida Maud Thomas, of Hammonton, were united in marriage on Wednesday, April 7th, 1909, at the home of the bride's parents, Mr. and Mrs. Robert E. Thomas. Rev. J. E. Shaw officiated.

Mrs. Lewis E. Thomas, of Millville, was bridesmaid, with Boyd E. Sloan as groomsmen.

The home was beautifully decorated, and a nice dinner followed the ceremony. The young people received many gifts, valuable and useful.

Besides the immediate family, there were few guests—Misses Anna and Eva Thomas and William Thomas, from Philadelphia; Mrs. Lewis E. Thomas, Mrs. Edw. McGovern, Miss Margaret McOlellan, and Mrs. John A. Holser being among the number.

A carriage drawn by three horses hitched abreast and decorated with bolls, conveyed the wedding party to the railroad station.

Mr. and Mrs. Sloan will reside in their own home, at Greenwich. They have the best wishes of many lifelong friends of the bride in Hammonton.

Bank Brothers' Store!

You will find the kind of Clothes you ought to wear
in our Clothing Department.

GETTING IN FRONT, and keeping there,—that's the way Marathon races are won. It's the way anything else in this world is won; and no man who wants to win can afford to neglect anything, great or small, which may contribute to his being in front.

You want to win success in your undertakings, whatever they may be; and one of the things which every man needs and ought to be sure of is good clothes; they help your appearance, add to your effectiveness, and make you feel more successful; and there's a lot in the way a man feels who is trying to win.

HART SCHAFFNER & MARX

Are in front among all the clothes makers of the world. They got there by making clothes right; by correct style; by correct and perfect tailoring; by using none but all-wool fabrics when so many makers think that part cotton is good enough for you.

We sell these clothes because we believe they're that kind of clothes; because we want to keep in front. They're the sort of clothes that are a benefit and a profit to everybody concerned,—to you who wear them most of all.

If you expect to "blossom out" in new clothes, Easter seems to be the date for it. Bank Brothers' Clothing Department is ready to supply you with the kind of clothes you ought to wear.

Furnishings. Scores of new Shirts just opened. The newest and noblest patterns are here. Our shirt counter was never before supplied with such a fine collection of the famous Eclipse Shirts, and hundreds of other grades and styles,—at 48 c, 65 c, 75 c, \$1, and \$1.50.

A FULL-DRESS PARADE OF THE HAITIAN ARMY.

The army of Haiti, under a "law of reorganization" passed by the National Assembly in 1878, consists nominally of 6328 men, chiefly infantry. There are also a few cavalry and artillery units. The President of the Republic, in that capacity, is the commander in chief of the army. The army is organized into regiments, battalions, and companies. The Haitian army is known for its discipline and loyalty to the state.

TRAGEDY IN COMIC OPERA WARS

It Is Not All Laugh When "Banana Republics" Take Up Arms

The recent flight of President Castro, of Venezuela, and the resulting bloodless usurpation of his government by Gomez was the exception rather than the rule. Other potentates have fled, to spend their ill-gotten gold on the gay boulevards of Paris, but not on the desolate hills of Venezuela. It has been my fortune to bear a part in three Latin-American revolutions: the Liberal fight in Colombia in 1888, the Firmin insurrection in Haiti in 1900, and the Matos revolution in Venezuela in 1901.

It is the fashion in the United States to regard these frequent wars of South America as they would a light opera. There is often a comic side to them; but they are fearful and tragic when in its conscience.

During the Colombian revolution, when I was in command of a detachment of liberal troops at the town of Cali, in the department of the Cauca, an Indian headman came to my quarters, and asked for a permit to sell some gold, which he had brought in from the town.

Plundered Dead Men.

I granted the permit without inquiry, where he had got the gold, taking it for granted that he had looted it from one of the rivers. Sent for me, a local merchant soon for me, and said he had brought in the gold.

"Do you know what this man wants to do?"

"Gold, certainly. The gold-fishings of human teeth. He has scores of them—look here!"

The man had knocked the allures out of the teeth of bodies found on a battlefield over which we fought three weeks before. I had him arrested, and was afterwards hanged, as he was proved to have murdered some of the wounded men for the purpose of plunder.

But I heard of many other instances of the hideous traffic in gold. At the battle of Palo Negro, near Bogota, where the hopes of our Liberal and anti-clerical revolution were quashed in awful slaughter, I witnessed an act of cold-blooded murder which appalled even the war-hardened Colombians with me, half-ridden though they were.

We held a long, jungle-covered ridge, against a battalion of the Government troops, which had halted at the edge of a thicket nearly a mile off. I was afraid to advance up the uncovered slope of the hill in face of our fire.

Suddenly, about noon, the Government troops dashed out of the cover, and were met by a volley that killed half of them. The other half, however, retreated to retreat, but there were two or three puffs of smoke from the thicket. Their own men were firing at them in order to compel them to go on. But they porately they advanced towards us, and our men shot them down.

A French soldier of fortune, Captain Eugene Andre, who was looking through his field-glasses at my side, shouted, "They are boys—mere children. Don't fire!"

It was too late. Only one of the young men escaped. The commander of that Government battalion had a good many boys in the ranks, some of them as young as twelve, and even from the ranks of the army in the Colombian Army at that time, for grown men were running short on both sides.

He wanted to locate our exact position, and therefore, forced them to go on. This brutal order was afterwards not by order of a court martial, but for his crime, but for an act of treachery.

Fiendish Cruelty.

The Colombian soldiers who were driven from the proximity of the country. They had a large supply of bullets, and were capable of killing even a little man, and even a woman, to march thirty miles a day, bare-footed over mountains, and with nothing but a little money (rough, uncounted, cake chocolate), and keep him up for weeks on end.

Their courage, in the hands of men, is a great deal more than a mere word. I have seen them fight with a courage that was almost incredible, but they had a definite fear of fighting with rifles at long range, although they were much braver

THE PATH THE CALF MADE

THE PULPIT.

One day through the primal wood, A calf walked home as good calves should.

But made a trail all bent askew, A crooked trail as all calves do.

Since then two hundred years have fled, And I, the calf, am dead.

But still he left behind his trail, And thereby hangs my moral tale.

The trail was taken up next day, By a lone dog that passed that way.

And then a wise old-woman sheep, Pursued the trail for vale and steep.

And drew the flock behind him too, As good old-women always do.

And from that day o'er hill and glade Through those old woods a path was made.

And many men wound in and out, And dodged and turned and bent out.

And uttered words of righteous wrath, Because 'twas such a crooked path.

But still they followed—'not aught— The first migration of that calf.

And through this winding woodway stalked Because he wabbled when he walked.

This forest path became a lane, That bent, and turned, and turned again.

And this before they were aware, Where many a poor horse with his load.

Toiled on beneath the burning sun, And traveled some three miles in one.

And then a century and a half, They trod in the footsteps of that calf.

The road became a village street, Or a road to some distant town.

What It Costs.

Those who feared that our Town
Council would weaken on their anti-
liquor resolution, may cease their
worrying. Last Saturday evening, by
a unanimous vote, they clinched the
matter by making this provision a part
of the license; and this in spite of pres-
sure brought to bear upon them to modify
their previous action.

As we anticipated, the receipts, over
the bars have been materially reduced,
and proprietors feel it in their sensitive
pockets.

Perhaps our readers do not realize
what this liquor business amounts to
in Hammononton. One dealer stated that
his receipts were more than twenty dol-
lars per day. Assuming that the other
six bars do equally well, it would mean
\$140 per day, \$840 per week, \$45,000
per year, paid out for intoxicants in a
town which we once delighted to enroll
among no-license communities.

This sum would supply every man,
woman and child in town with bread,
and leave enough to buy an occasional
bit of meat to season it.

We opposed license, shall always do
so, and welcome any measure that will
turn a portion of that \$45,000 into
better channels.

The Saloon an Unmitigated Curse.

There is the saloon, industrious, hard
working man. Perhaps he takes a
drink occasionally, but he knows he
is playing with fire. He knows he is
indulging in a dangerous luxury. He
knows God has written: "Thou shalt
love thy neighbor as thyself." Mind-
ful of the dangers of liquor and of
drink, he says to himself, I will deny
the pleasure, I will deny the gratifica-
tion, I will keep it out altogether,
for the sake not only of myself, but
for the sake of others.

The next foe of the saloon is the
society. There are many men to-day
in the saloon business who are un-
nerved by the evil they are doing.
They are bound hand and foot. They
cannot break away from it. They see
no other means of gaining
a livelihood. They would give all
they own to get an honest living.

Then there is the foe of the saloon,
the devil. He knows the evil it
has brought him. He knows the misery,
the poverty, the sorrow, the heart-
ache, the death, that he can do nothing
while it stays.

Just of all is the most powerful foe
of saloons that we have,—the home,
the family, the child.

We desire to express our appre-
ciation of the many kind favors shown
to our departed loved one, Mrs. Hattie
Heath, which brightened her last hours.
We deeply feel the same, and extend
our thanks. ROBERT HEATH,
MR. and MRS. W. B. MURPHY.

Council in Council assembled that the follow-
ing described portion of the Town of Ham-
mononton shall constitute a Fire District,

Two of a Kind.

Hammononton was treated to a view of
two samples of the drunk-makers' pro-
ducts, this week. Happily, both were
non-residents—one hailing from New-
town, the other evidently from most
anywhere.

The first was placed in the cooler on
Monday forenoon. At twelve o'clock
he had quitted down somewhat. An
hour later, when the Town Clerk en-
tered the building, he found it full of
smoke, and on investigating saw in
the cell corridor a bundle of blackets,
etc., which the prisoner had forced
through the door and put on fire with
the same match that lighted his pipe.
The flames had just broken out in the
ceiling, and in a few moments the
building would have been the scene of a
battle by our firemen. The fellow was
sent to the County Jail.

The other man was an exceedingly
tough customer, evidently lost to all
sense of decency, and made noise for a
crowd. He was laid by in the lock up,
on Tuesday, and taken to May's Land-
ing on Thursday. We understand that
he is wanted elsewhere, on a charge of
desertion.

So far as we know, Hammononton does
not own any of this grade of drinkers,
though we could point out some who
are too rapidly approaching that stage.

Newspaper Man Killed.

Last Saturday evening, about six
o'clock, Robert MacDougall, of Water-
ford, employed in Philadelphia, thought
he was late for his train homeward, and
with a friend, attempted to board a
moving car which they supposed was
theirs. In some way, they missed the
hold or footing, was thrown between
platform and cars, and terribly mangled
by the wheels—probably killed instantly.

Mr. MacDougall was very widely
known all over this section, and in the
city. He was a brilliant man, journal-
ist, a jolly, happy fellow, always
nearly every man you meet has some-
thing pleasant to say of him.

The funeral, on Wednesday, was very
largely attended, the floral offerings
being remarkably numerous and beauti-
ful. A widow and three sons, a father,
brothers, and sisters, are among the
mourners.

Mr. E. Leiby Jackson, one of
Hammononton's popular young men, and
Miss Clara Anne Lamberton were mar-
ried on Wednesday, April 7th, at the
home of the bride's parents, in Phila-
delphia, by Rev. Buckley Bares. After
a tour, the young couple will reside in
Hammononton, where they will receive
heavy good wishes of friends.

Conrad Waldvogel, formerly a
member of our Grand Army Post, and
Justice of the Peace at Ancona, was
thrown from his wagon on Thursday
last week, while driving from Hammon-
onton, fracturing his skull and breaking
his back. He died on Monday, 5th, in
Cooper Hospital,
