Bank Brothers

WE have been telling you so often, through the newspapers, about our Clothes, and about the entire building which we have devoted exclusively to our Clothing Department, owing to the increased business and the bigger stock we carry, that we have no doubt that every man in Hammonton and vicinity knows about it. - But what we do doubt is whether every man around here knows by actual experience the high class of Clothes we sell. We are sure that we haven't as yet succeeded in getting every one of our fellow townsmen-tocome in and give us a chance to show him the Fine Clothes we talk about so much. If we could do that, we are quite positive that our list of Clothing customers would increase still more than it did. And why shouldn't you men come in and look over the many hundreds of new Spring and Summer Suits and Overcoats we have assembled for you?

We don't ask you to buy; just come in and look around. You owe it to yourselves to learn by a personal inspection the kind of Clothing we have for sale.

Critical aressers, look for correct style, all wool fabric, and master workmanship, will find us well prepared with hundreds of the newest models that were made for us by

Hart Schaffner & Marx.

You are sure of all wool quality, as they don't make anything else; and the confidence that the makers, and we have in the clothes enables us to guarantee every garment. We will give a new suit if anything goes wrong with the one you buy.

The prices on suits are from \$18 to \$28, and we have them in the new grays, blues, blacks, and dark mixed goods.

Should you wish to invest \$15, or \$12.50, and even if your price for a suit is as low us \$7.50 or \$5, we have the best that each price can command, and hundreds to choose from, in the new grays, blues, blacks, and many shades of neat dark mixtures.

Spring Overcoats at \$7.50, \$10, \$12.50 and \$15, in grays and black, silk lined, - some faced with sllk. They are excellent values.

Suppose you step in some time during the day or evening. Just say you only want to look; you will not be asked to buy.

After you have personally looked at the quality and workmanship, and noted the prices, we are perfectly satisfied to leave it to your good judgment whether we are entitled to your clothing business or not.

The Home of Hart Schaffner & Mark Clothes, Dutchess Trousers, Eclipse Shirts, Stetson Hats, and Walk-Over Shoes,

FROM THE TREE-TOP.

What would you see if I took you up To my little nest in the air? You would see the sky like a clear blue cup Turned upside downwards there.

What would you do if I took you there To my little nest in the tree? My child with cries would trouble the air, To get what she could but sec.

What would you get in the top of the tre For all your crying and grief? Not a star-would you clutch of all you see-You could only gather a leaf.

But when you had lost your greedy grief. Content to see from afar, You would find in your hand a withering leaf In your heart a shining star.

-George Macdonald.

EXCOMMUNICATED

nad been telling my friend Time 1 the Peak whose invitations to dinner of Hong Kong, whom I was visiting, for tennis would establish him "under of an unmarried follow who came up the gentle and distinguished anapices through the ranks for his briftiancy of," and give his human soul which and courage in the field to second lieu-lionged for company some answer to Mcon. The sunset glow stained the tenant was snubbed by the West Its cries. The gentleman marked his Point set when there was nothing but name on cards within the next five Island, which shut out the rolling sea the high and hop kind, and days and stuck them in the rack at to the westward, for a moment only to the lead kind—to which he was to glue for his excommunical to the westward, for a moment only to the lead kind—to which he was to glue for him, but they might just to the westward, for a moment only to which he was to glue for him, but they might just to the westward, for a moment only the lead kind—to which he was to glue for him, but they might just to the westward, for a moment only the lead kind—to which he was to glue for him, but they might just to the westward. not of the lead kind—to which he was the club for him, but they might just was a cone of gold. The lights on the his firm like a dog. He would do last and plentifully. To tell it right, more used to—to attend to, and went as well have written "P. P. Looking for a House?

Open every evening.

If you haven't been living in a house that is wired for electricity, pick out one this time that is.

If you have been living in a wired house, our advice isunnecessary, for you wouldn't think of moving into one that is not wired.

A wired house means a great deal more than the only absolutely safe light; it means relief from many forms of domestic drudgery, at a surprisingly small cost, and affords many inexpensive little luxuries that you couldn't otherwise enjoy.

Visit our office, and learn how much a few cents. worth of electricity will do for you; how much pleasure a few cents' worth will enable you to

> The Simplex system of driving concrete piles, which the British admiralty is trying at Rosyth, is the invention of an American, F. Shuman. A steel tube, having a loose point or a pair of hinged jaws at the lower end is first driven to the required depth. Then, as the tube is withdrawn, concrete is introduced, and this passes through the now opened lower en and fills up the hole made by the tube. The concrete is filled up to a level several feet above the finished head of the pile, in order to allow for sink--ing as the tube is withdrawn. The plan has been successfully tried many places.

In an English review of the progress we believe, is not always theirs. Too in aeronautics during 1909 the first often the doctors who laugh so loudly place in the list of unsolved problems are to blame. Many of them still cling is given to that of obtaining a certain to the ancient hocus-pocus of the me- degree of automatic stability at slow diaeval leeches. Medicine, as it is speeds. 267- Although several ressons are advanced against it, we believe the extension of Third Street to the Park would benefit the entire town, and open a quiet drive and walk to the beautyspot of south Jersey.

Hammonton will receive this year \$32,274.83 State School money. In 1909 we had 29,127.88,— an increase of \$3,146.95. This will make a neat sum to inaugurate the manual training department for which the annual meeting voted.

DY Using the Campbell Varnish Stain D Graining process you can produce a fine effect over any old discolored floor. First apply the Ground-Color, then the Surfacer, going over it with the Graining Roller: finish with Campbell's Varnish Stain, Light Oak, or any desired shade. It wears like iron. Ask J. W. Roller about it.

165 Don, ten year old con of Frank Strolli, was seriously injured by falling from a wagon at Elm, Wednesday. Dr. Cunningham found the entire scalp torn off, and an extensive fracture of the skull. He was immediately taken to Jefferson Hospital, where, after being trephined, the surgeons gave little hope of his recovery.

The Hammonton Paint Is the very best paint that was ever used in Hammontony,

There are scores of buildings that you see every day, painted with the Hammonton Paint eight to twelve years ago, and looking well at the present time.

The Hammonton Paint is sold for less than any other first-oless Parity. It lies no equal, as it works well, powers well, and wears well. . Bold by
