#### Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems, at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit, he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all throat, lung, and chest affections. Trial bottles free at Cocran's drug store. Large bottles, one dollar.

# LYLY'S RESOLVE.

LYLY'S RESOLVE.

All seemed at peace that beautiful, warm, summer afternoon; but a tumult was raging in the heart of a little girl, who sat on a rock in the shade of some apple trees, and with her head buried in her hand, as she read the written words, her brown eyes flashed, and she burst into tears.

# FASHION NOTES.

FASHION NOTES.

All kinds, styles, sizes, and colors of caps for the shoulders will be worn in the spring. The most popular will be the bow, round, or pointed styles. Tan, cream, or gray will be worn with any costume, but those of light colors, especially white, will be most popular.

# FARM NOTES.

FARM NOTES.

THE SILK-WORMS.—Secretary Bunk, of the Department of Agriculture, announces the receipt from Europe, of a shipment of silkworm eggs, which he will distribute free to those who desire to start in the silk-producing business, and have facilities for doing so.

# HOUSEHOLD.

HOUSEHOLD.

HOUSE CLEANING HELPS.—So much has been said and said about this subject, that it may be, I am late in the subject. But I have a few hints, which may be of some use to you. The first is, to get new positions for the furniture, new covers, new cushions, and perhaps new paper and new curtains.

# SCIENTIFIC.

SCIENTIFIC.

Dr. F. Mendel has recently enjoyed opportunities of studying the results of an unbridled abuse of coffee, and his results are of great interest. The great industrial center round Essen includes a very large female population. While the women of the working class, in this case, were not addicted to dosing themselves with tea that has stood too long, it appears that the workingmen's wives at Essen drink coffee from a small cup, and are not addicted to dosing themselves with tea that has stood too long.

### OUR HOPE.

BY W. H. HOPKINS.

Above me, on the quiet air above,  
The fleecy clouds float slowly thro' the blue  
Whose depths serene by tempests are not  
Torn.

Oh, could my vision those calm depths pierce  
Through,  
And those dim eyes behind my loved ones  
There—

But I must wait—a little longer here!

A little longer hear the sobs of pain,  
The loneliness that comes with fleeting years,  
This yearning of my soul to meet again  
Those who have passed I've shed my restless tears—

Oh, I must yet a little longer hear,  
A little longer wait my summons there?

Oh, then when tender love is infinite,  
Thro' ways of sorrow thou dost lead to Thee!  
Thought cruel seemed thy hand, and dark  
The night.

When, one by one, my loved ones passed  
From me,  
I learned, at last, how sweet it is to hear,  
For thou hast gathered all my loved ones  
There!

Aye, in those depths serene the tried and  
True,  
The cherished friends of youth and drooping  
age,  
Contently, with power restful as a win  
Us hence to our eternal heritage!

Oh, soon the hour will come! Yes, we can  
bear—  
A little longer wait to meet them there!

We are reminded that Monday was a  
marked day in the nation's history.  
Twenty-nine years preceding Major  
Anderson surrendered Fort Sumter,  
and twenty-five years preceding Abra-  
ham Lincoln was assassinated by the  
actor Booth.

The United States wants now what it  
has before had, a fleet strong enough  
to defend itself against sudden attacks.  
It began such a fleet as soon as it be-  
came a nation. With brief lapses, it  
has had such a fleet ever since. It  
needs one now. It will not have it un-  
less the house votes for at least three  
battleships now and five next winter.  
Even if those vessels are ordered now,  
they will not be ready for use until a  
year after the next Presidential election.

Speaker Reed is an unfortunate man  
in some respects. Since the Democratic  
bawlers stopped abusing him he excites  
no more attention than Mr. Carlisle did  
when he was Speaker.

We are told by the free traders, that  
the farmer and mechanic both pay more  
for the clothes they wear because of  
the tariff than they would if free trade  
ruled in this country. Opposed to this  
we have the testimony of the Super-  
intendent of Emigration at Castle Gar-  
den, that emigrants bring less clothing  
to this country than ever before, be-  
cause they have learned that clothing  
and household necessities as well, are  
as cheap here as in countries from which  
they emigrate. Here are the cold hard  
facts, and they challenge refutation.

Chief John Grass, of the Sioux, tells  
his followers that if they want to become  
independent they must settle down and  
go to work. Obviously, Grass is not as  
green as his name might seem to imply.

Stanley claims to have discovered  
vast forests of India rubber trees in the  
interior of Africa. Whether he has  
gotten perchance a claim to the territory  
or not remains to be seen.

Pension applications are pouring in  
upon Commissioner Baum at the rate  
of 450 a day. At this rate it won't be  
long before Uncle Sam has every old  
soldier on the list.

Hailstones weighing half a pound  
each fell in Illinois, the other day.  
That is, they did unless somebody out  
there is lying like sin.

Mrs. John Towril, living near Akron,  
Ohio, gave birth to four children at one  
time. This makes nine at three births.

A Sound Legal Opinion.  
E. Bainbridge Munday, Esq., County  
Attorney, Clay Co., Texas, says: "Have  
used Electric Bitters with most happy  
results. My brother who was very low  
with malarial fever and jaundice, but was  
cured by the timely use of this medicine.  
An afflicted that Electric Bitters saved  
his life."

Mr. D. I. Wilkinson, of Horse Cave, Ky.,  
adds a like testimony, saying: "He pos-  
sibly believes he would have died had it  
not been for Electric Bitters."  
This great remedy will ward off, as well  
as cure all malarial diseases, and for all  
kidney, liver and stomach disorders stands  
unequaled. Price, 50 cents and \$1 at A.  
W. Woolley's.

A. J. KING,  
Resident Lawyer,  
Master in Chancery, Notary Public, Real  
Estate and Insurance Agent,  
Insures in No. 1 companies, and at the  
lowest rates. Personal attention given to  
all business.

We are reminded that Monday was a  
marked day in the nation's history.  
Twenty-nine years preceding Major  
Anderson surrendered Fort Sumter,  
and twenty-five years preceding Abra-  
ham Lincoln was assassinated by the  
actor Booth.

The United States wants now what it  
has before had, a fleet strong enough  
to defend itself against sudden attacks.  
It began such a fleet as soon as it be-  
came a nation. With brief lapses, it  
has had such a fleet ever since. It  
needs one now. It will not have it un-  
less the house votes for at least three  
battleships now and five next winter.  
Even if those vessels are ordered now,  
they will not be ready for use until a  
year after the next Presidential election.

Speaker Reed is an unfortunate man  
in some respects. Since the Democratic  
bawlers stopped abusing him he excites  
no more attention than Mr. Carlisle did  
when he was Speaker.

We are told by the free traders, that  
the farmer and mechanic both pay more  
for the clothes they wear because of  
the tariff than they would if free trade  
ruled in this country. Opposed to this  
we have the testimony of the Super-  
intendent of Emigration at Castle Gar-  
den, that emigrants bring less clothing  
to this country than ever before, be-  
cause they have learned that clothing  
and household necessities as well, are  
as cheap here as in countries from which  
they emigrate. Here are the cold hard  
facts, and they challenge refutation.

Chief John Grass, of the Sioux, tells  
his followers that if they want to become  
independent they must settle down and  
go to work. Obviously, Grass is not as  
green as his name might seem to imply.

Stanley claims to have discovered  
vast forests of India rubber trees in the  
interior of Africa. Whether he has  
gotten perchance a claim to the territory  
or not remains to be seen.

Pension applications are pouring in  
upon Commissioner Baum at the rate  
of 450 a day. At this rate it won't be  
long before Uncle Sam has every old  
soldier on the list.

Hailstones weighing half a pound  
each fell in Illinois, the other day.  
That is, they did unless somebody out  
there is lying like sin.

Mrs. John Towril, living near Akron,  
Ohio, gave birth to four children at one  
time. This makes nine at three births.

A Sound Legal Opinion.  
E. Bainbridge Munday, Esq., County  
Attorney, Clay Co., Texas, says: "Have  
used Electric Bitters with most happy  
results. My brother who was very low  
with malarial fever and jaundice, but was  
cured by the timely use of this medicine.  
An afflicted that Electric Bitters saved  
his life."

Mr. D. I. Wilkinson, of Horse Cave, Ky.,  
adds a like testimony, saying: "He pos-  
sibly believes he would have died had it  
not been for Electric Bitters."  
This great remedy will ward off, as well  
as cure all malarial diseases, and for all  
kidney, liver and stomach disorders stands  
unequaled. Price, 50 cents and \$1 at A.  
W. Woolley's.
