## ELVINS & ROBERTS

HAMMONTON, N. J.

Those Breakfast Flakes advertised last week are simply delicious, and are meeting with a ready sale. Have you tried them? If not, would be pleased to furnish you with a sample package, at least. They are made from the very choicest white wheat, carefully prepared. Anything more healthful and more easily digested cannot be imagined. Try 'em.

Don't like to repeat too often,—but have you tried **Hasty Lunch Chocolate**? If not, you are missing a treat. Secure at least a half-pound pkg., and serve for breakfast instead of coffee. You'll be pleased with the change. 30 c. per pound.

Loose Macaroni and Vermicelli seem to be good sellers. Served with cheese or tomatoes, it is very fine; and our prices make it within the reach of every one. We quote Macaroni at 8 c., Vermicelli at 9 cents a pound.

Now that house-cleaning is upon us, Tacks become a very important item of household supplies. We think we have the acme of perfection in this line. No more blistered fingers, pushing tacks thro' the carpet. These are made of stout round wire, very sharp at the point, broad flat heads, making them easy to drive into the hardest wood. Put up in stout wooden boxes. Give you any size you wish—6, 8, or 10 ounce,—5 cents per box.

Prices of Canned Goods of all kinds have been advanced somewhat, but we hold ours down to old figures, with one exception, viz: Canned Peaches, which we move up one cent per can.

Peerless Tomatoes are still 10 cents.

Heavy Syrup Table Peaches, 14 c.

Paris Corn, 2 for 25 c.

Sugar Corn (very fine goods), 7 c.

Lima Beans, 12 c.

Succotash (corn and beans), 11 c.

Coreless and eyeless Pineapple, 15 c.

Egg Plums, 10 c.

California Apricots, 15 c.

Canned Fish remains about the same. We quote:

Horse-Shoe Salmon, nice solid red fish, 12 c.

Hapgood Salmon, 17 c.

Fresh Mackerel, 10 c.

Kipperd Herring, 20 c.

Sardines (Domestic), 5 c.

Sardines (imported), 15 and 20 c.

### HAY.

We have recently received a car of the finest hay we ever handled,—being bright, sweet, and well cured. Can give you either clear Timothy or the mixed. We quote at 85 and 95 c. per 100.

### FLOUR.

Although the Flour Market has advanced from 15 to 25 c. per barrel recently, we hold our price at the old figures, viz: \$3.75 for good Family, to \$5. for best Spring or Winter Wheat.

Pardon us, but we would like to call attention to Chicago Gluten Meal once more. Since our advertisement appeared concerning it, several of our patrons have given it a trial, and without exception all speak in the highest terms of its milk-producing qualities. We have several statements from stock raisers, wherein they say that the increase in flow of milk has been 25 per cent. We reduce our price to \$1.35 per 100 pounds.

Don't forget we are headquarters for Garden and Field Seeds, for Farm and Garden Implements, for Fertilizers, etc.

## ELVINS & ROBERTS.

Bellevue Ave. & Main Road, and S. 2nd St.  
(Telephone connection)

A lady, wife of one of our mechanics who voted for "Cleveland and reform," was down town the other day, trading. She was well-acquainted with the proprietor of the store, and after completing her business chatted a while. Soon she started up, saying, "Well this won't do; I must hurry home and finish my husband's Cleveland badge!" The storekeeper isn't a Democrat, now, and he flew up in a minute, and said: "I should think you would be thinking of anything but making Cleveland badges these hard times; and I can't imagine what sort of a badge you would make." "I'll tell you what it is, sir," the spunky woman retorted; "it's a patch about the size of a palm-leaf fan on the seat of his trousers! it's the prevailing fad up our way, since the present administration began business. Why, even Republicans are putting them on; and there never was a more appropriate badge in the world." And the dealer said to the cheese-box: "That woman diagnosed the case properly. It's as appropriate a badge for Cleveland and reform as the skull and cross-bones is the proper coat-of-arms for a druggist's poison label."

A diversity of beliefs was represented at a confirmation service held in St. George's Episcopal Church, New York City, on Palm Sunday. There were presented to the Bishop, for confirmation, 216 persons, their denominational classification being as follows: Episcopalian, 107; Lutheran, 59; Presbyterian, 15; Roman Catholic, 9; Methodist, 9; Congregationalist, 3; Baptist, 2; Unitarian, 2; Dutch Reformed, 1; Wesleyan, 1; Christian Church, 1; no Church, 1; unclassified, 3; Protestant, 2; Nestorian, 1.

Ex-Speaker Reed can now slightly paraphrase the famous saying into 'Tis better to be right than to be Speaker.

If the cuckoo Democrats succeed in driving Hill out of the Democratic party where can he go? He has bitterly abused the Populists, and Republicans don't want him.

Democratic Senators talk very valiantly against trusts, but when it comes to legislation they invariably do what the trusts order them to do.

A more complete wreck than the Democratic party is to-day was never seen on land or sea. Incompetent pilots have done the business.

It is not surprising that some of the Democrats in the House should make ugly faces over surrendering to ex-Speaker Reed to the extent of authorizing the counting of a quorum. Still it is only a repetition of the old-old story. Surrendering is nothing new to them.

Mrs. U. S. Grant has an annual income of \$24,000 a year.

Abraham Lincoln's autograph, it is said, has been stolen by autograph hunters from every paper on file in the county courts in Illinois. The abstractions have been made, it is said, by connivance of the custodians of the papers in very many instances.

Corporal Tanner, ex-Pension Commissioner, is about to become the editor of a magazine in New York.

Secretary Dan Lambert is credited with saying, "the Administration and the Democratic party are under a cloud, and the future is uncertain." The country agrees with Daniel.

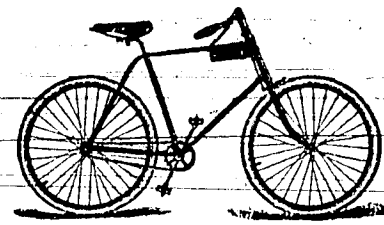

The six Democrats who by some apparent oversight were elected to the Rhode Island Legislature will hardly try to carry out the Democratic ante-election program of electing a Senator from "little Rhody" to succeed Senator Dixon, whose term expires next March.

What is invariably the beginning of love?—The letter "I."

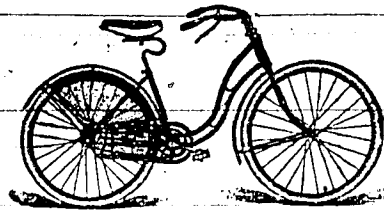

It is Good. The more Chamberlain's Cough Remedy is used, the better it is liked. We know of no other remedy that always gives satisfaction. It's good when you first catch cold. It's good when your cough's seated and your lungs are sore. It is good in any kind of a cough. We have sold twenty five dozen of it, and every bottle has given satisfaction. ## The Republican.

(Entered as second class matter.)

SATURDAY, APRIL 21, 1894.

The Weekly Crop Bulletin of our State Weather Service, in co-operation with the U. S. Department of Agriculture, will be resumed for the season of 1894, on the first Tuesday in May. Additional crop correspondents for the various sections of this county are desired, to whom will be supplied, free of expense, the necessary postal cards. Farmers and others interested should address the "Director State Experiment Station, New Brunswick, N. J."

A special meeting of the Egg Harbor City Board of Health was held Wednesday evening in regard to an alleged mad dog of Jacob Kimblich, and a thorough investigation was ordered. A veterinary surgeon, Geo. Gebbel, made an autopsy and found all symptoms of rabies. The dog was at large Monday night and quite a number of dogs have been bitten. As far as can be ascertained about seven persons have been bitten.

Ex-Speaker Tom. Reed was the happiest man in Congress on Tuesday last, when the Democratic majority in the House adopted with but slight modifications his rule for securing a quorum, counting as present every member who is in the room. It was a bitter pill for those who so bitterly denounced it, but was the only remedy, and was bolted quite gracefully, considering.

If Senator Smith and his party imagine for one moment that the Republican landslide in New Jersey last Fall and this Spring was mainly due to the income feature of the Wilson bill, they are likely to encounter a very disagreeable surprise whenever the question is put to the test.

According to Representative Holman, of Indiana, the Democratic party is doomed if Congress does not adjourn before the 15th of June. According to the people the Democratic party is doomed regardless of Congressional adjournment.

The man who expects to get something for nothing should always be watched. If somebody doesn't give him what he wants he is apt to steal it.

BILIOUS COLIC PREVENTED. Persons who are subject to attacks of bilious colic can almost invariably tell, by their feelings, when to expect an attack. If Chamberlain's Colic, Cholera, and Diarrhoea Remedy is taken as soon as these symptoms appear, they can ward off the disease. Such persons should always keep the Remedy at hand, ready for immediate use when needed. Two or three doses of it at the right time will save them much suffering. For sale by A. W. Cochran, druggist.

Dr. Phillips Brooks said: "To believe is to live. Skepticism as a habit, is a sign of deficient vitality. It is a vastly nobler fear which dreads lest it should lose some truth than that which trembles lest it should believe something which is not wholly true. Of course, seeking the Truth, you will hate and avoid the lie—that goes without saying—but not to avoid the lie, but to find the Truth." To learn the truth about your eyes, call on D. B. Berry.

Italian laborers at the Winslow brick works were dissatisfied with their pay, and quit work in a body (twenty-five of them) last Monday morning. They state that Americans are paid \$1.20 per day, and they want the same—an increase of 20 cents. Mr. Turner, Superintendent, says, all men of whatever nationality, are paid equal wages for the same kind of work. Americans in the pits receive \$1.00; a better class, competent to do a higher grade of work, receive \$1.20; others, \$1.35 or \$1.50, up to \$2.50; that if the strikers had proven competent to earn higher pay, they would have received it.

Governor Werts has issued his proclamation, naming May next, the 27th inst., as "Archery Day." We have received from Mr. J. J. Wilson, our County Superintendent of Schools, a neat pamphlet containing a program of Exercises for the day—authentic history of the movement, regulations, etc. Hammonon schools have usually observed the day, by setting trees, etc., but we have heard of no preparations for it this year.

There was an Italian funeral on Sunday last. As the procession was passing out Twelfth Street, Pete and Tony Lerro, brothers, got out of their carriage and proceeded to settle a quarrel right there in the street, pounding and kicking each other in rough and tumble fashion. Their noise and the women's screams attracted a crowd, and the combatants were lodged in the cooler, giving Constable Berenshouse and his deputy, Mr. Parry, a lively tussle on the way. At six o'clock Monday morning, the prisoners were brought before Justice Atkinson, charged with being drunk and disorderly, and interfering with a funeral. The Squire fined them each ten dollars and costs. They could neither pay nor furnish security, so accompanied the Constable to the County Jail.

Dick Hicks—Nothing, only he will have to beat out luck if he does.—New York Herald.

An Echo: Wife—My goodness! How did you lose your eye? Was it one of those horrid boys with an air gun? There is a law against—

Husband—No, it's all right and legal. It was a woman with an umbrella.—Puck.

Old Coins: Seventy old gold coins were found by a peasant in a jar unearthed upon his estate at Wurzenburg, Germany. LESSON OBJECTS: 1. Personal Worth Recognized. 2. Personal Worth Honored. 3. Personal Worth Effective.

DAILY HOME READINGS: M.—Gen. 41:38-48. Joseph ruler in Egypt. T.—Gen. 41:1-13. Pharaoh's dream. W.—Gen. 41:14-24. Joseph called. T.—Gen. 41:25-37. The interpretation.

No Good without Rain: A very curious fact is that a cloud is always raining. Even in summer, when the clouds over our head are white, the drops are falling from it. But they are very small, and they evaporate before they reach the earth. In evaporating they pass from the cloud particle stage to the haze particle stage, from saturation to simple condensation, or the dry dust particles on which the condensation takes place may be left perfectly dry. It is a general truth that when a cloud is formed it begins to rain. The minute particles of water come down in millions. The distance they fall depends on their size. If the air the cloud rests on is dry and warm they do not get far. If it is chilly they collect in masses and form drops of rain that reach the earth.

Not Professional: Hotel Doctor—I hope there will be no mistake in administering these medicines, for I have a feeling that I am a professional nurse and madam is a professional invalid.—New York Weekly.

Self-Appreciation: He—Now that you have rejected me, may I say one word to you as a friend? She—Certainly. He—Well, I think you're making the greatest mistake of your life.—Puck.

Tempting Viands: Hungry Guest—What have you got to eat? New Waiter—We have some fried fish. "Is it ready?" "Oh, yes, it was cooked the day before yesterday."—Texas Sittings.

Impaired Her Hearing: Jess—Miss Sears has given up the use of night caps. Jess—Why, Jess? A man got into the house and she didn't hear him.—Smith, Gray & Co.'s Monthly.

Healthy Vicinity: Resident—Healthy? I should say it was. Why, there's only been one death here in ten years. Visitor—Who was it died? Resident—Dr. Barker; died of starvation.—Life.

The Mission: Teacher—Who was Henry Clay and what did he do? Little Boy—He was the first man who introduced cigars into America.—Truth.

A Much-Engaged Man: When the effects of a man who died recently in Louisville, Col., were examined, it was discovered that he was under engagement to marry twelve different girls in various parts of the country. He had a photograph of each, and on the back had written the date fixed for the marriage.

They Change About: Pastor—Is a fact that I've thrown your boots at your wife, and that she pounds you with the broomstick? Husband—Yes; but sometimes we "change about, and I pound her with the broom handle, and she bounces the boots on me.—Texas Sittings.

## FACTS ABOUT NEW YORK.

CURIOUS INFORMATION CONCERNING THE EMPIRE STATE.

Its Great Size and Immense Population Picturesquely Shown by Contrast With Other Places.

NEW YORK STATE is nearly twice the size of West Virginia, wanting only 390 square miles.

St. Lawrence County is larger than the State of Delaware and more than twice the size of Rhode Island.

Leaving out Prussia and Bavaria, New York State covers more ground than all the German principalities.

Fifteen counties in this State occupy as much space as Connecticut, Massachusetts and New Jersey.

The population of New York State, according to the official State report, is more than one-fourth of the population of the United States.

It is larger than Scotland and Switzerland together. The total area of Belgium, Denmark, and Serbia is less than that of New York State.

Add together the number of people in Scotland, Wales, the Isle of Man, and the Channel Islands and the total is less than the population of New York State.

In 1690 the population of the State equaled the present population of Amsterdam, N. Y. In 1790 it equaled the present aggregated population of San Francisco and Seattle.

The population of the Empire State is now equal to one-third of the population of England, more than half as large again as Scotland, and nearly half as large again as Ireland.

Comparing the size of New York State with European and other foreign countries, its area is greater than that of Greenland or Cuba, or of Ceylon and Coochin China combined.

There is also room for favorable comparison outside of the United States. The population of New York City is greater than that of Florence, Geneva, Leipzig, Rotterdam, Smyrna, Venice, Antwerp, Dresden and Edinburgh combined.

There are more people in New York than in Ohio and Indiana combined, or in Indiana and Illinois, Illinois and Michigan; Minnesota, Iowa and Missouri; Kentucky, Tennessee, Alabama and Mississippi; Louisiana, Georgia and Texas.

The entire population of Canada is less than that of this State, which has more people in its sixty counties than there are in Australia, including New South Wales, Victoria, South Australia, Western Australia, Tasmania, New Zealand and Queensland.

The population of New York City is equal to the following group: Fall River, Mass.; Cambridge, Mass.; Atlanta, Ga.; Memphis, Tenn.; Wilmington, Del.; Dayton, O.; Troy, N. Y.; Grand Rapids, Mich.; Reading, Penn.; Camden, N. J.; Trenton, N. J.; Athens, Ga.; and Chicago, Ill.

The area of New York State equals that of Connecticut, Delaware, District of Columbia, Maryland, Massachusetts, New Hampshire, Rhode Island and Vermont combined. It is greater in size than Maine and Maryland together. Add the area of Ohio and New Jersey and the total is less than that of New York.

The number of inhabitants of this State is greater than the aggregate population of Connecticut, West Virginia, Nebraska, New Hampshire, Vermont, Rhode Island, Delaware, Florida, Colorado, Oregon, Utah, North Dakota, South Dakota, Montana, Washington, Wyoming, New Mexico, Arizona and Idaho.

Going over to the European continent, it is found that the population of New York State today only lacks 25,000 of being greater than that of Sweden and Norway combined. It is greater than Norway and Denmark; nearly three times as large as Denmark; half as large again as Holland, and 100,000 greater than Belgium.

Taking a glance at some of the more important cities, it is found that New York City has a population exceeding the total of Milwaukee, Wm. Newark, N. J.; Minneapolis, Minn.; Jersey City, N. J.; Louisville, Ky.; Omaha, Neb.; Rochester, N. Y.; St. Paul, Minn.; Kansas City, Mo.; Providence, R. I.; Denver, Col.; Beaver Falls, Pa.; Chattanooga, Tenn.; and Hot Springs, Ark.

New York State has more than twice the population of Switzerland, and comes within 500,000 of being equal to the total of European Turkey and Greece. It has a greater number of inhabitants than had Italy or Spain under the Emperor Augustus. More than one-fourth as many people are now within its boundaries as occupied the whole of Europe at that time, and its present population is more than one-third of the whole number known to be living on the Continent of Asia.

Considering for a moment the question of responsibility in emergency cases, the Governor of New York State has in his hands a responsibility for human welfare equal to that of nineteen State or Territorial Governors. His role, directly or indirectly, affects the welfare of more human beings than that of the Kings of Denmark, Belgium, Greece, or Portugal; the Swiss Presidents, the Governor-General of Canada, the Austrian Governors, and a host of British colonial Governors of lesser degree.—New York Sun.

WILSON'S Ignorance is an incurable ailment.

Electricity is useful to good and bad alike. A large consignment, in gold coins was sent to a New York bank from California, which on examination was found to contain twenty light-weight coins bearing the date of 1891. These were apparently new and bright, but they were rejected on being passed through the electric light coin detector. On being examined with a lens their surfaces were found to be covered with infinitesimal pores. About one dollar's worth of gold had been extracted from each eagle by electrolysis, which is a process now in high favor among coin "sweaters." In the coin detector the coins are passed in succession from the balance pan on to a knife edge, and according as this knife edge is at the right hand limit of its range or the left hand limit the coin when pushed on it, tilts to the "right" channel for the "full weight" channel, as the case may be. The right or left position of this tilting knife edge is determined by an electric contact made by the balance beam, and thus an electric tag of its "bright" or "dull" action. The coin is run through the machine at the rate of sixty per minute by the turning of a handle.

Epitaph on the Infancy of Great Men: Sir Andrew Gars is proved as saying at a meeting recently held in London to promote the founding of a colony for epileptics: "It was a singular fact, an I had been proved by specialists, that a large proportion of our great men, from Newton to Charles Darwin, were sickly in their infancy—in fact, they had been epileptics—and I yet when they had attained to manhood they were capable of doing great things."—Chicago Times.

It seems that for a man to preach a sermon from a church pulpit Sunday morning, and to deliver a paid for lecture from the stage of a theatre the same evening, that Sam Small did it in Washington, last Sunday. Stepping from the pulpit to the stage could not, however, phase the man who has been dividing his time between preaching and editing an Administration Democratic paper; nothing could.

U. S. Senator Brice thinks the farmers may as well adjust themselves to five cent cotton and fifty cent wheat. Democratic stump-speakers in the Cleveland campaign promised just double those prices.

Oh yes, the people of this country are just howling for free trade. If you don't believe it just refer to recent election returns.

Who says Rheumatism cannot be cured? My wife was confined to her bed for over two months with a very severe attack of rheumatism. We could get nothing that would afford her any relief, and as a last resort gave Chamberlain's Pain Balm a trial. To our great surprise she began to improve after the first application, and by using it regularly she was soon able to get up and attend to her household. E. H. Johnson, of C. J.
