## Home of the Hart Schaffner & Marx Clothes

The ready-to-wear Clothes we offer are so far ahead of any others that it is easily understood why men prefer to come to this store for their clothes.

It is a known fact that merchant tailors buy a Hart Schaffner & Marx suit at the beginning of a season, to get some of the new ideas created by their high-priced designers.

Master tailors, each set of men experts at their part of the work, are employed to build these clothes of strictly all wool fabric.

You are offered these fine clothes in this store at a lower price than they are sold elsewhere. The small expense under which we conduct our business enables us to offer you these America's best clothes with a very small margin of profit added to cost of manufacture.

### Hart Schaffner & Marx Suits at \$18 to \$25.

Scores to choose from. The newest tones, grays, blues and mixtures, of imported and American wools.

### Suits for Men and Young Men at \$15 and \$18.

Town Council Meeting

There were two adjourned meet-  
ings this week. Monday evening,  
the new sidewalk ordinance was to  
be considered, but a phone message  
from Solicitor Stockwell advised  
that the matter be postponed until  
the promising a letter in twenty-four  
hours, and after some consideration  
they adjourned until Wednesday  
evening.

On the latter date, the promised  
letter came, and was a surprise.  
We haven't the text, but the sub-  
stance is something like this: the  
proposed ordinance is all right in  
its subject matter, improvement  
of certain streets, but on mature  
reflection the Solicitor deems it  
wiser and safer to make several  
changes, and to proceed in a some-  
what different manner. For in-  
stance—the ordinance contains  
several clauses like this, "Provided  
further, that where Council deems  
it advisable, Council may order"—  
some change, like terrace, nar-  
rowing or widening the walk. The  
Solicitor recommends that the Sur-  
veyor and sidewalk committee go  
over the streets to be paved and  
note each step, then provide in  
the ordinance exactly how each  
foot of the walk shall be con-  
structed, with no room for discre-  
tionary changes. Council studied over  
the matter for some time, then voted  
to withdraw the ordinance under  
consideration.

A committee of three was also  
appointed, to make the suggested  
amendment with the Surveyor, and re-  
commend the form of improvements  
to be ordered, all changes to be  
designated, with measurements.

The State Supreme Court has  
sustained the appointment of El-  
ders to select jurors in certain cases.

The Lecture Course.

After listening to three enthu-  
siastic representatives from Lecture  
Bureaus, the local committee made  
a selection for the coming season  
which, they are sure, will be even  
much more satisfactory than the  
last course, and costing consider-  
ably more. The numbers are as  
follows; their order and dates will  
be given later:

Dr. Ott needs no introduction,  
having lectured here a year ago,  
on "Sour Grapes." Next Satur-  
day evening he will appear again  
in Bellevue Hall, under auspices  
of Lecture Association, subject,  
"The Haunted House, or, Will  
your dreams come true?" Free to  
all season ticket holders.

The Ann Arbor Lighting  
System

FOR  
Lighting Churches, Stores, Homes,  
and Public Buildings.

What is the Best Light?

Any person who has worked by all kinds of light,—gas, electric  
acetylene, kerosene, or gasoline gas,—will tell you that gasoline gas  
lights are the most brilliant and the nearest approach to sunlight. In  
fact, the gasoline light brings out all shades of coloring, the same as  
sunlight.

Construction of System.

The "Ann Arbor System" is not a central generator system, but  
claims many advantages over the "central generators." In the Ann  
Arbor system the gasoline is conveyed to the burner by means of a  
hollow drawn brass wire, and is converted into gas at the burner.

The "Ann Arbor Lighting System" should commend itself to you  
for the following reasons:

1. It has stood the test of time and proved itself to be the most  
durable and most satisfactory system on the market.

2. It is gotten up more neatly than any other lighting system.  
Every system is made to order and is exactly fitted to the place for  
which intended. It's really a lighting system systematically gotten up.

3. The Ann Arbor Systems have been examined and tested by the  
Underwriters Laboratories, and listed by the consulting Engineers of the  
National Board of Fire Underwriters.

4. It is the simplest to operate. It operates under ten pounds of  
pressure, and may be filled while under operation.

5. It is the quickest and easiest to light. We guarantee that one  
man can light and put in operation a five-light system in less than one  
and one-half minutes in the coldest temperature.

6. The working of the system is not affected by the temperature,  
and the tank can be placed outside if desired.

7. It is the most durable. We guarantee every system for two  
years, but they are practically indestructible. The only wearing parts  
are the burners, which we guarantee to replace for a nominal charge,  
after guarantee has expired. Thus the systems are practically sold  
under permanent guarantee.

Economy.

This light is so cheap that it is within the reach of all. A gallon  
of gasoline will maintain one lamp for fifty hours, burning with full one  
hundred and fifty candle power. Figure the cost yourself,—gasoline  
at 15 cents per gallon.

Let us show you the advantages of the Ann Arbor System over  
your present lights.

We can demonstrate to you, in your own home or store, any time.  
A post card will bring our representative, who will gladly give you  
full information as to installation and cost of running.

We have just installed the Ann Arbor System in John Helzer's  
Barber Shop, Hammonton. Ask him what he thinks of it.

APPLE BLOSSOMS

O, the apple blossoms beckon:  
I follow joyously:  
My spirit holds no check on  
Morrow's day:  
I see the flowers springing  
Around my childhood home:  
I hear the blue-birds singing  
Can smelt the fresh turned loam.  
Through mist, I see dear faces,  
And loved voices speak my name:  
And all the well-known places  
The apple blossoms frame.  
The river, flowing winding,  
The pond, where lilies grow,  
The flowers for the fields,  
In all the nooks I roam.  
The woods, and mill, and meadow,  
Where quails cry "No-morrow!"  
Viola in the shadow—  
Their fragrance reaches me not.  
Oh, blossoms, you can smelt  
The many years gone by,  
The years—what do they matter?  
A girl again and I!

prepared a reception on Tuesday  
evening, which Mr. Loomis  
led many friends who would be  
glad to meet him. There were  
many present; several solos and  
other music, recitations, addresses,  
and refreshments constituted the  
program. The company were  
not all Baptists; either, for the  
former pastor was beloved by every  
class in the community, and all  
were worshipped that evening.
