ELVINS & ROBERTS

Being now in the hurry and rush of Spring business, you will pardon us if we do not present much that is new. We merely wish to assure you that we are still doing business at the old stand.

We meet the recent cut in the price of Cottoleene. Having had the honor of introducing this excellent article to the trade in this vicinity, we propose our imitators shall not lead us on this or any other article. Price until further notice, 13 cents per pound.

We reduce the price of Wood Fibre Falls to 35 cents, making them by far the cheapest and best water pail for the money now on the market. No fraud about these goods, a first-class article in every way. No hoops to drop off, does not soak water, therefore always light, and almost no end to the wear.

Have you tried Snider's Catsup? If not, why not? "It leads the procession." Large bottle, 25 cents.

Full weight Milk certainly should be a leader also. 12 cents per can. Try a can, and if it is not what we claim for it, bring it back.

Please remember that we are the sole agents for Mapes' Complete Manures for all crops, and we aim to keep the stock as complete as the rapidly increasing sales of these most popular and reliable fertilizers will permit. Prices on application.

Garden Seeds.

A full line now in stock. Small seeds in large papers, warranted fresh and genuine, 30 cents dozen papers. Also Peas, Beans, Sweet Corn, Clover, Timothy, Red Top, Orchard, and Lawn Grass Seeds. All at bottom figures.

Seed Potatoes are here, in all the leading varieties, viz: Holton County (Maine), Rose, Beauty of Hebron, Early Ohio, Rose Seedling, etc., etc. Prices, \$1.25 up.

You will pardon us for again calling your attention to the very important item of Berry Baskets, when we assure you that, according to the present outlook as to demand, prices will be much higher. We therefore strongly urge placing orders at once. Prices we are quoting new hold good for this month only.

Let us have your order now for Gift Crates. Hardly prepared yet to quote prices, but you can depend upon getting them from us when needed, at prices that will be right.

Agents for Bissell Plows, which we carry in stock, in all sizes.

DID YOU EVER

Stop to think what a fine piece of mechanism your watch is? and that you are injuring it by letting it run too long without having it cleaned and oiled?

A watch is injured more in one month, when running dirty, than in a year's time when properly cleaned and oiled.

Why neglect to have it cleaned, when you can get it done, and guaranteed, for One Dollar?

Washington Letter.

From our regular Correspondent.

Washington, May 1, 1893.

Gen. Harrison must smile when he reads of Democrats claiming credit for the administration [for its financial policy]. The administration has no financial policy, or if it has the public has not been taken into its confidence. In using a part of the gold reserve fund to redeem Treasury notes it has but followed the policy laid down by President Harrison and Sec. Foster, and while it deserves credit for having been sensible enough to have followed the Republican plan, it should not be credited with having originated that policy. In fact it has as yet originated no policy on any subject, unless the sending of Mr. Blount to Hawaii to lower the American flag can be dignified by the name of policy.

The Democratic Commissioner of Pensions goes on duty this week, and much interest is felt in his actions. All sorts of rumors are current about his intentions, but as his acts will soon begin to speak for themselves, I shall wait before criticising. Judge Lochren is highly spoken of by those familiar with him during and since the War.

Only a very few office-seekers remained in Washington after the departure of the President and his cabinet—they probably found it cheaper to put in the time waiting for the return of the administration elsewhere—but there were some very mad men among those who did stay, because of the fact that five of the government departments were left in charge of Republicans, while hungry Democrats howled for the places. However, the Republicans left in charge of those departments did not attempt to revolutionize the government, or to put any of the department buildings on wheels and take them away; but that some of them did enjoy the crazy antics and language of the kicking office-seekers, who made exhibition of themselves and their disappointments in public places, your correspondent happens to know by personal knowledge.

Much has been said by Democrats about the attempts of the Republican assistants of the heads of the departments to retain their offices under a Democratic administration, that has no foundation whatever. As a matter of fact, about the first official documents that were brought to the attention of the members of the cabinet after they assumed office were the resignations of their Republican assistants, many of whom have made business arrangements which make their remaining in office an inconvenience to them. There may be one or two of these men who are trying to keep their offices, but most of them are as anxious to have their resignations accepted as the Democratic office seekers are to get appointments.

Political converts have ever been more zealous than the old party war-horses, and Sec. Gresham has proven that he is no exception to the rule. He has made more changes in important positions in the State Department than have been made in any other department; and what makes this the more striking is, that it has been an unwritten rule there that no changes should take place on account of a change in the head of the department, with the exception of the two or three men whose relations with the Secretary are of a confidential nature, and that unwritten rule has been observed by all of the Secretaries except Gresham. He, although not yet two months in office, has left only one important place unchanged—third assistant secretary—and the reason for that exception probably lies in his inability to find a Democrat possessing the peculiar qualifications needed to perform the duties of Mr. Adee.

Comptroller of Currency Eckels has taken charge of his office. He good naturedly confesses that he knows nothing about banking, which is the principal business with which his office has to deal, but says he intends that all of his subordinates shall be banking experts. He doesn't explain how he will select them without knowing anything about the business himself.

HARRY.

Some one with a genius for arithmetic figures out that the United States will be richer by \$300,000,000, because of money left here by foreigners who come to visit the World's Fair. To this he adds the \$100,000,000 which American visitors are accustomed to leave every summer in Europe, but which this year they will spend at home. A distinguished financier once said that the resumption of specie payments was made possible in 1879 only by reason of the wealth left among us by foreign visitors to the Centennial Exposition of 1876. The estimate, therefore, does not seem absurd.

History is writing itself on the leaves of merchants' ledgers and bankers' journals, and it is writing that in February, 1893, the prosperity of the United States is unprecedented, and it is writing that there are grave fears lest the prosperity be changed to adversity by the action of a Congress and a President that seems bent upon changing the system of tariff under which prosperity has been achieved.—Philadelphia Commercial List.

PAINT! PAINT!

THE
HAMMONTON.

When you buy the Hammonton
Paint, you do not buy seven-
eighths of a gallon for a gallon,
or three pints for a half gallon;
nor do you get one of those
packages that weigh 12 to 14
pounds, and containing so much
alkali that it appears to be so
thick that it is impossible to
use it without thinning; but in
buying the Hammonton you get
a full standard gallon of paint,
weighing 14 to 16 pounds to
the gallon, made from the best
materials known to the trade,
and costs the consumer from \$1
to \$1.50 per gallon for honest
paint.

If the purchaser doesn't want
honest paint, and wants to be
honest to himself, then be sure
to buy the Hammonton Paint,
and the manufacturer will give
a receipt with every gallon sold
telling you how to make two
gallons of paint out of one of
the Hammonton. It will cost
33 cents for the extra gallon.

One Dollar.

And then here comes Commercial
Paint, in 30 shades, the best
paint ever put on the market for so low
a price as \$1 per gallon, and guaranteed
to be a first-class wearing paint. If any
one should not want to pay so high a
price for a good exterior paint, then work
the 33 cent racket, and get two gallons
for \$1.33. Manufactured at
Hammonton Paint Works.

[Entered as second class matter.]
SATURDAY, MAY 6, 1893.

The World's Fair, at Chicago, was
formally opened to the public Monday
with pomp and pageantry appropriate
to so memorable an event. Although
there is a vast amount of work yet to be
done before the "white city" is fully
completed, yet the arrangements were
far enough advanced to make the opening
a gratifying success. There was of
course an enormous crowd in attendance,
only a small portion of which could get
within hearing distance of the exercises.
At the same time there were so many
wonderful things to see that every one
must have felt repaid for his trouble. It
seems that the exhibition buildings and
grounds are even more stupendous in
size and magnificent in decoration than
the strangers to Chicago had anticipated.
Indeed, the greatness of the enterprise,
and the skill with which it has been
carried out, drew from President Cleve-
land and the other distinguished visitors
words of wonder and admiration. There
seems to be no good reason why the
World's Fair should not prove a mag-
nificent success from start to finish.

The New Jersey building at the
World's Fair, which is a reproduction
of Washington's Headquarters at Mor-
ristown, was dedicated with appropriate
ceremonies Tuesday. Governor Werts
and staff, with a party of fifty or more
prominent Jerseymen, took part in the
exercises.

A plan for giving up work or taking
lower wages, and for getting into debt
abroad and at home, instead of more
than paying as we go. That's about
the size and style of the new draft for
tariff bill.

Every laboring man ought to know
that cheaper goods means low wages.
That is the whole matter in a nut-shell.

A philosopher says of marriage: If you think of marrying a woman, remember you marry three creatures, a young one, a middle-aged one, and an old one. Unless one or two die before their time you marry a wife, a mother, and a grandmother. In her you marry a lot of people you do not know. You don't marry for to-day, or for to-morrow, but for life, and for all sorts of situations. If she is gentle, and wise, and true, you have a bride, not only for the wedding day, but for sickness, and poverty, and old age. If she is only handsome she will some day grow ugly, but if she is good and true she will stand wear. Try to know her before you take her.

A naturalist has discovered that crows hold a solemn court at which offenders are tried—a sort of crow-bar. It is said that no bird is tried without caws, and that a true bill is indispensable in every case.

SHERIFF'S SALE.

By virtue of a writ of fieri facias, to me directed, issued out of the New Jersey Court of Chancery, will be sold at public vendue, on

Thursday, June 1st, 1893,

At two o'clock in the afternoon of said day, at the Court House in May's Landing, Atlantic County, New Jersey.

All that tract or parcel of land and premises hereinafter particularly described, situate in the Township of Hamilton, in the County of Atlantic and State of New Jersey.

Beginning at a corner to No. 15 on the westerly side of the road leading from Blue Anchor to May's Landing, and runs (1st) south sixty-five degrees and thirty minutes west twenty-five chains to a corner; thence (2nd) south twenty-four degrees and forty minutes east ten chains to a corner of No. 17; thence (3rd) north thirty-five degrees and thirty minutes east twenty-five chains to a corner in the said road; thence up the said road (4) north twenty-four degrees and forty minutes west ten chains to the place of beginning; being No. 16, and containing twenty-five acres, more or less.

And also, all that certain tract of land and buildings situate in the Township of Hamilton, County of Atlantic, and State of New Jersey.

Beginning at a point in the middle of Twelfth Street and Fourth Road, and runs thence (1) in the middle line of the road south thirty-three degrees and fifteen minutes east nine chains and sixty-two links to a point; thence (2) north forty-six degrees and forty-five minutes east seven chains and forty-four links to a point corner of Helzer's and Sainot's lots; thence (3) by the line of Helzer's lot, north twenty-three degrees and twenty-eight minutes east thirty-three chains and twenty-five links to a point in the middle of the said Twelfth Street; thence (4) in the middle of said street south forty-six degrees and forty-five minutes west eleven chains to the place of beginning, containing eight acres and eighty-seven hundredths of an acre; always reserving fifteen feet in width of the said land along Fourth Road and Twelfth Street for public road use. Being the same Nos. 16 lots of ground, the buildings having since been erected thereon, which Philip Helzer by a certain indenture dated the thirtieth day of April, A. D. 1876, and recorded in the Clerk's Office of Atlantic County, at May's Landing, N. J., in Liber No. 53 of Deeds, folio 85, etc., granted and conveyed unto the said John Helzer, by the name of John Helzer, in fee.

WHAT IS THE DIFFERENCE?

Between the Compound Oxygen Treatment of Diseases and that by the use of Drugs? It is an important one.

Drugs are taken into the stomach. For this reason their action is not direct. Compound Oxygen is taken into the lungs, and, therefore, comes immediately into contact with and is absorbed into the blood.

Drugs, being generally poisons, act by causing a disturbance in the body. Compound Oxygen, being composed of the elements of the air, and acting upon the blood, is not open to this objection.

But, however it may act, it has certainly cured many cases of chronic disease, in which drugs have failed.

This is the point of greatest interest to all chronic sufferers. To all such we say:

Send for our book of 200 pages, — sent free. Read for yourselves what Compound Oxygen is, how it acts, and, above all, what it has accomplished.
