DR. JOHN BULL'S Smith's Tonic Syrup FOR THE CURE OF FEVER and ACUE Or CHILLS and FEVER, AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SICK, CERTAIN, SPEEDY and PAINLESS cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

BULL'S SARSAPARILLA is the old and reliable remedy for impurities of the blood and venereal diseases—the King of Blood Purifiers.

DR. JOHN BULL'S VEGETABLE WORM DESTROYER is prepared in the form of candy drops, attractive to the sight and pleasant to the taste.

Workers versus Work.

The shirker dabbles at his work,
Or leaves it quite undone,
And, in the hive of human bees
Is but a sluggish drone;
And so, however high his rank,
No credit is his due,
Because he is not faithful
In the work he has to do.

The worker, though, sits at his task
With steadfastness and vim;
Doesn't put it down and take it up
With every idle whim;
But sticks to it with all his strength,
Resolved to "pull it through,"
And never rests until his work
Is done, and well done, too.

'Tis not the occupation, boys,
That ever makes the man;
But 'tis the deed gives his work
A low or lofty stand.
However "mean" the task may be,
The man 'twill ne'er degrade;
But if he do it faithfully,
A noble work 'tis made.

So, boys, no matter what your rank,
Its duties never shirk;
But put your energy and will,
Your hands and brain to work,
And by your faithfulness and care
Add honor to your state.
"He who is faithful in the least
Is fit to rule the great!"

From the Capital.

WASHINGTON, D. C., May 3, 1884.

There is, as there was at the date of my last letter, an unexpectedly large government revenue to report outside of duties on imports. To-day may be taken as a sample of the week, and the figures are as follows: Internal revenue, \$633,000; customs, \$709,000. Receipts were not as heavy as this each day, but the proportion between the sources was substantially the same. Treasury officials anticipate larger receipts in May than in April, and a much greater reduction of the debt.

Among politicians during the week interest has been shown almost entirely in the many Republican State Conventions. It was thought by everyone here that the Thursday conventions, being the concluding ones, would furnish reliable data upon which to base calculations of chances at the Chicago Convention. But they do not seem to satisfy anyone entirely. As it always is in such cases or always has been since I first began to watch affairs here, the Congressional friends of all the aspirants are almost but not entirely happy. They are in a condition more desirable than hope, but not so desirable as one of certainty. To give in a few words what seems to be the best opinion here, I may say that Mr. Blaine is thought to have better prospects than he had in 1880; that Mr. Arthur is believed to have more strength than any other candidate besides Blaine had at that time, and the search for the dark horse, if such search should be necessary, will not be made outside of the list of men already prominently mentioned in the press and in State conventions.

Of the possible democratic candidate loss is said, and this for two reasons. First, the National Convention will be held later, and less progress has been made in selecting delegates thereto. Second, it is conceded on all sides that the democratic chance of a candidate depends very largely on what the democratic house may do on the tariff question, and that is yet in the future.

I may say, however, (after apologizing for devoting so much space to politics,) that tariff debate in the House promises to end next week. At this writing it looks as if the democratic majority in the House would modify the Morrison bill somewhat, add to it a clause repealing all laws imposing a tax on tobacco, and pass it. If that is done, next week, or the week after, Congress may adjourn in time to give the members a 4th of July at home. It is true that few of the appropriation bills have been finally acted on, but all of them, except the Naval bill, are in such a shape that they can be speedily disposed of.

Of measures of general interest, outside of appropriations, it is now thought that the Blair Educational bill will have favorable action. It has already passed the Senate. Also the bill pensioning veteran soldiers of the Mexican war, which has already passed the House,

will pass the Senate. That no action will be taken as to laws governing the counting the electoral vote, or as to the presidential succession.

Since my last letter ex-Senator Kellogg, of Louisiana, now a representative from that State, has been tried here upon a charge of corruptly using his influence, while a Senator, in the interest of certain mail contractors. He was acquitted under the statute of limitations.

Civil Service Commissioners Eaton and Thoman have returned to the city, and all of the members of the board were at the civil service rooms to-day. Mr. Eaton has been north, conducting a civil service examination at Burlington, Vt., and attending in New York to business relating to civil service. Judge Thoman has made an extended trip southwest, holding examinations in Texas and other states. Commissioner Gregory will leave in a few days for an official trip in the west, having appointments for examinations that will occupy much of his time during the present and next months. A statement has been published widely to the effect that the House Committee on Appropriations would attempt to kill this civil service commission by refusing to furnish the small amount of money necessary for its operations. There is the best authority for saying that there is no truth whatever in the report. The Commissioners will have all the money they ask for.

HOWARD.

An Elm Surprise.

Perhaps the event which has caused more surprise in Elm than any other for many months past, is the recent marriage of Mrs. Dr. Sidney Moody to Mr. D. G. Henry, of Leicester, Vt. The ceremony was performed on Thursday evening, May 1st, at the latter place, only a few of the bride's most intimate Vermont friends being present, as she preferred; but although the faces of her many Philadelphia and Elm friends were absent, she was reminded of their good will by the receipt of many tokens of their regard. As stated above, the event was a surprise to most of the bride's friends at Elm, and doubtless had it been widely known at the time of her departure for Vermont, the train would have been obstructed by scores of old shoes. Although it may be thought by many that Mrs. Henry is beyond the age of romance, nevertheless this is a striking instance of Cupid's supremacy over Time: for many many years ago the bride, when a young girl in the Green Mountain State, met and was betrothed to the man whose name she now bears with honor. But "the course of true love never runs smooth," and for some reason unknown to the writer their union was not consummated at that time. Let us hope that this May-Day may bring back to them the spring of long ago. Mrs. Henry, after a residence here of a quarter of a century, takes with her to Vermont the best wishes of all this neighborhood, but leaves a sore spot, as well, in the heart of the son whom she left here and of her children in Philadelphia.

The Steamer "State of Florida" left New York for Queenstown, April 12. On the night of the 18th she collided with the bark "Pomona," both vessels sinking immediately. As near as can be ascertained, 135 lives were lost.

The Kentucky Democratic Convention recommended Speaker Carlisle for the presidency of the United States.

General Grant says in an interview that he thinks the presidential term should be seven years, and the incumbent thereafter ineligible for re-election.

In the National Senate a bill was introduced by Mr. Edmunds to place General Grant on the retired list of the army. In the House the Senate amendments to the Fitz-John Porter bill were non-concurred in.

Judah P. Benjamin, the distinguished lawyer and advocate, and ex-member of the Government of the Southern Confederacy, is dead.

Tricks of Memory.—At the recent meeting of the Boston Society, the most popular display of the evening was that by the late John Riddle, Jr., on "Wits and the Popular Mental Faculty." In many people, by which certain constructions assume a definite character, it was noticed particularly in order of figures, and a number of diagrams were shown, exhibiting different idiosyncrasies of intellect on this point. For instance, number 50 called up in the man's certain definite shape of totally different character; 100 would carry further on, while 253 was a mere suggestion of a number. Truly the power of visualization is a wonderful asset. The power of visualization is a wonderful asset for some of the more incomprehensible feats of mathematicians. It extends out the domain of figures, however,

painter achieved a great reputation painting portraits from memory. After looking at a performance for an hour he was able to reproduce before him in all its details at any subsequent time by a mere effort of will. A case was related of a person who learned to sing in opera by mental means. One night he was sitting entirely out by a person near the stage turning the pages of a score. He was obliged to send out and request the continuance of the operation because he could not proceed with his part. It was not that he could only sing by the mental image of the pages of the score from which he had learned

his eyes, and to his surprise and
nature he found that the turning
leaves by the auditor carried
the imaginary leaves from which
reading, and often in the wrong
inasmuch as his score was dif-
printed. Various other curious

SAURDAY, MAY 10, 1884.

LOCAL MISCELLANY.

Dine Soberly to-night.

There is every promise of a bountiful yield of berries and fruit.

Edward V. Hoyt returned from his eastern trip, on Friday last.

The Atlantic County Medical Society met at Atlantic City on Monday.

Dr. Shilde has finally purchased the lot between Hall's and Fairchild's, on Bellevue Avenue.

Mrs. N. Valentine and Mrs. A. J. Smith expect to start for Worcester, Mass., next week.

Mr. Bernhouse has the contract to build a new little church at Malaga, about six miles from Vineland.

Tomlin & Smith, of the "Ladies' Store," have increased their business wonderfully, the past few months.

M. L. Jackson is having a new meat-wagon built, at Alsten's. Ben. Henshaw will bring it out in a week or two.

The schools in charge of Misses Anna Freese and Jessie Z. Conkey are to have a picnic at the Lake, next week Tuesday.

George Bowles is employed in Jackson's meat-market, and will bring his family here as soon as a house can be procured.

The whole lower part of the State was enveloped in smoke, last Friday evening, doubtless caused by the extensive forest fires further up in Jersey.

We regretted our inability to accept the invitation extended to us by Miss E. A. French, to attend the High School's picnic at Hammon Lake, yesterday.

Mrs. Warren Sampson and her daughter, Annie, started for Denver, Col., on Thursday last, where they have legal business demanding immediate personal attention.

Rev. E. E. Rogers will probably preach his last sermon in Hammon, to-morrow evening. We advise those who desire seats to go early, for if the weather is agreeable, the house will be full.

St. Mark's Church, Fourth Sunday after Easter, May 11th, 1884, 10:30 A. M., Morning Prayer, Litany, and Holy Communion. 2:30 P. M., Sunday School. 3:30 P. M., Evening Prayer and Sermon.

This week, the Stockwells have made large additions to their stock, including carpets, prints, shawls, boys' shirt-waists, suits, etc. Look at their show-windows, if you're too busy to step inside.

A barbed wire fence is being placed along the back line of Lakeside Park, extending from the railroad to the lake. It will be five wires high. Wonder if that will shut off the beer supplied by that shanty-man?

Rev. W. F. Smith, formerly of Hammon, was ordained, April 24th, and installed Pastor of the Church at Medford. The Church to which Mr. S. and family belonged, in Philadelphia, made each of them a handsome present.

William Layer, brother of the popular conductor on the C. & A. R. R., was awarded \$10,000 damages in the Philadelphia courts, last Wednesday, for injuries received by his son Clarence, on the P. & W. B. R. R., about three years ago. W. J. Pratt.

Letters remain unclaimed, at the Hammon Post Office, May 1st, 1884, addressed to: Mr. Frank Armstrong, Mrs. Emma Allen, George Crowley, Mr. William Finckelstein, Mr. George Hahn, Miss Lizzie Johnson, Mrs. Austin H. Kelly, Mrs. Clara Pierce, Mrs. A. N. Prentiss, Mrs. Marianne Kelly, Mr. Hans Taylor, Hoffman, Camille Portico, Graydon della France.

ANNIE ELVINS, P. M.

The Grand Army Sociable, this evening, promises to be a brilliant success. The beautiful orchestral organ to be used on this occasion, is one of the "Packer" make, and was kindly loaned by Messrs. Dillius & Son, 1119 Chestnut Street, Philadelphia; for whom Mr. W. F. Relford is agent. Children here this week sold many tickets, but a time will admit you to the hall, even if you have no ticket. A five-cent ticket will admit any child under ten years of age.

By the favor of Wanamaker & Brown, the Oak Hall Clothing, we present you a series of illustrations, to-day. Our readers have been asking what had become of Wanamaker; and many of them have said to us: "I'll want to buy satisfactory clothing. I always go to Oak Hall." One, a gentleman of excellent taste and judgment, added: "I had a notion, a while ago, that perhaps I could buy me a suit just as satisfactorily somewhere else, and did buy one at—, but I'll go to Oak Hall hereafter."

Mr. Oliver has been in ill-health for several years. For the past few months he has shown decided symptoms of insanity, at times being violent in speech and action, even assaulting members of his family. Matters reached their climax on Monday morning last, when he attacked his wife and daughters so severely that neighbors were called in to protect them. The madman turned his word-batteries on the new-comers, threatening them with utter annihilation. For her own safety, Mrs. Oliver was compelled to swear out a warrant for assault, which Constable Scull promptly served. There was a hearing before Justice Hill. Dr. Joseph North gave it as his opinion that Mr. Oliver was mentally irresponsible, but did not feel warranted to certify him sufficiently insane to require confinement in the State Asylum. No course was left for the Justice but to commit the prisoner to jail, where he was taken on Tuesday. He will be examined by Dr. Ingersoll, the County Physician, who will officially decide as to his sanity.

The madman turned his word-batteries on the new-comers, threatening them with utter annihilation. For her own safety, Mrs. Oliver was compelled to swear out a warrant for assault, which Constable Scull promptly served. There was a hearing before Justice Hill. Dr. Joseph North gave it as his opinion that Mr. Oliver was mentally irresponsible, but did not feel warranted to certify him sufficiently insane to require confinement in the State Asylum. No course was left for the Justice but to commit the prisoner to jail, where he was taken on Tuesday. He will be examined by Dr. Ingersoll, the County Physician, who will officially decide as to his sanity.

Mr. Oliver has been in ill-health for several years. For the past few months he has shown decided symptoms of insanity, at times being violent in speech and action, even assaulting members of his family. Matters reached their climax on Monday morning last, when he attacked his wife and daughters so severely that neighbors were called in to protect them. No Smell. No Steam.

The MILLER STEAMLESS Cooking Boiler.

The Steamless Boiler conveys all the steam and smell arising from the cooking of fish, meat, and vegetables, up the chimney, while the old-fashioned one allows it to escape and to steam the windows, mirrors, wall-paper, furniture and in fact everything in the house, at the same time filling the house with the smell of whatever is being cooked.

PEABODY HOTEL,

Philadelphia.
Ninth Street, one and a half squares south of the new Post-Office.
Is now being entirely remodelled, enlarged and refurnished, so as to be one of the most perfect, convenient, and nice hotels in Philadelphia. It has no bar, and is strictly a family house, where ladies and gentlemen can have all the comforts, quietude, and retirement of a private home; and yet in the very heart of the city, convenient to all places of amusement, business and churches. Conducted on both the American and European Plan, so that rooms can be engaged with or without board, ranging from fifty cents to three dollars per day.
Clergymen received at half rates.

The Trenton Times for 1884.

It would take too long to tell what the Times has done for the people and the State in its fourteen months of existence. Suffice it to say that from the start it has attacked abuses of all sorts, political, municipal, national and financial. It has been fearlessly independent and independently fearless. Corruption is its bitterest enemy. Extravagance in State expenditures has been persistently fought. The Times secured, for one thing, the passage of a Printing Contract Bill through the Legislature that will save the taxpayers of the State at least \$35,000 a year. It has kept bad men out of office and put good men in.

The Times for 1884 will continue its independent, consistent course. It will watch every bill introduced into the Legislature. It will vent every piece of jobbery, whether it is jobbery by the work of corporations or individuals. It will fight to the death every attempt to add to the taxation of the people. It will not be suppressed by politicians or corporations. Mono-polies will be viewed with suspicion. The people and the people's interests will be the especial care of the Times.

All the news, all the views and all the truths of the day will be given in the Times. Therefore every citizen of the State of New Jersey will need the paper. Those who have been without it in 1883 cannot afford to be without it in 1884.

The Daily Times is five dollars a year or \$1.50 for the session of the Legislature. Send subscriptions all ways to THE TIMES, Trenton, N. J.

That is what any one will receive who subscribes for The Independent of New York. It occupies two fields:—First, a religious field; and second, a secular field. It is a religious journal, and its aim is to strengthen and extend Evangelicalism, and to defend it against the attacks of Materialism, Atheism and Infidelity. It is a secular journal, and its aim is to advance the progress of the Gospel of Christ.

Among its religious writers are Leonard W. B. Mason, D. D., C. B. Bartlett, D. D., Prof. John Bascom, B. D., Geo. M. Clark, Rev. J. C. Cook, Bishop A. C. C. Crook, Geo. B. Crook, D. D., Howard Crosby, D. D., Theo. L. Gayler, D. D., Rev. Samuel Dike, Geo. P. Fisher, D. D., Prof. Norman Fox, Washington Gladden, D. D., B. L. G. F. D. Huntington, Philip J. F. Hunt, E. D. Morris, D. D., Prof. Noah Porter, Francis I. Patton, D. D., Phil. H. Schaff, D. D., R. S. Storrs, D. D., Wm. Taylor, D. D., Wm. C. Wilkinson, D. D., Prof. T. D. Woolsey, &c.

Second, a secular journal. It stands without peer among the weekly press. During the past year it has published articles and poems by more than three hundred of the most talented writers in this country and Europe.

Among them Amelia A. Barr, Mary Clemmer, Ros. Terry Cooke, Kate Foot, Dorra Read Goodale, Rev. W. E. Griffis, "Grace Greenwood," Thomas Hill, D. W. William D. Howells, "H. H.," Sidney Lanier, Rose Hawthorne Lathrop, Louisa Chandler Moulton, Joseph Miller, E. A. Oakes, Mrs. S. M. B. Platt, Josephine Pollard, Richard Henry Stoddard, Edmund Clarence Stedman, Mrs. Laura Thompson, J. T. Trowbridge, Celia Thaxter, John Greenleaf Whittier, Sarah O. Woolsey, Susan E. Wallace, Wm. G. Ward and Prof. Charles A. Young.

The Independent will, within the next few months, publish stories by Wm. D. Howells, author of "Their Wedding Journey," "A Modern Instance," etc. W. E. Morris, author of "Matrimony," "No New Thing," etc.; J. S. of Dale, author of "Guernsey"; Edward Everett Hale, author of "The Man of the Year," etc.; J. H. Schaff, author of "The Life of John Jay," etc.; Rebecca Harding Davis, Sarah Orne Jewett, Fred D. Story, Kate Upson Clarke, etc., etc. It is also negotiating with other distinguished story-writers of England and America, whose names it does not as yet feel liberty to make public.

In civil and political affairs The Independent contends for sound ideas and principles. It believes in the reform of the civil service and tariff, in the purification of politics, and maintains those principles which the highest ethics and best intelligence require. The Independent has 22 distinct departments, 52 pages in all.

THE REPUBLICAN OFFICE, Hammoncton.

The Schoolboy's Turn.

You've quizzed me often and puzzled me long
You've asked me to elpher and spell;
You've called me a dunce if I answered wrong,
Or a dolt if I failed to tell.
Just when to say *Na* and when to say *Yes*,
Or what nine sevens make,
Or the longitude of Kansasetta Bay,
Or the forget-what's-its-name lake;
So I think it's about my turn, I do,
To ask a question or so of you:

Can you tell what *phen-dub* means? I can.
Can you say all off by heart
The "onery, twosry, lokery anu."
Or tell *allays* and *comons* apart?
Can you fling a top, I would like to know,
Till it hums like a bumble-bee?
Can you make a kite yourself that will go
"most as high as the eye can see,
Till it sails and soars like a hawk on the wing
And little birds come and light on its string?
