Miss Sylvia Cohen, with a pleasing personality, has a rich voice, well cultivated, and delighted those who heard her sing, winning hearty applause.

Saturday, May 25th, 1912, is to be set apart and known as "Town Cleaning-up Day." All citizens are requested to arm themselves with rakes, hoes, etc., and clean up your own lots, and then your neighbor's (if not already cleaned), and all vacant lots and rubbish catch-basins. Let's have a general cleaning-up of our town, making it more attractive and sanitary.

We have many natural advantages, and a little more display of civic pride and energy will add greatly to the appearance of our already beautiful town.

Roosevelt Meeting.

All citizens, of whatever political creed, are invited to attend a
Roosevelt meeting in Firemen's Hall next Wednesday evening, at 8 o'clock. Members of the County Association are expected to speak.
ROOSEVELT'S FIVE MINUTE STOP.
It is expected that Col. Roosevelt's train will lay-over here for five
minutes, to enable him to speak to his many Hammoncton admirers, on
Friday next, about 11:30 a.m., on the Pennsylvania Railroad. Definite
information will be given next week, on printed circulars.

The New Pension Law.

The new pension law went into effect last Saturday, May 11th,
1912, having been signed by President Taft on that date. Under its
provisions, every honorably discharged soldier and sailor of the War of
the Rebellion, who served ninety days or more, is entitled to a pension
as follows:
Length of Serv. 90 d. 6 mos. 1 yr. 1 1/2 yr. 2 yrs. 2 1/2 yrs. 3 yrs.
Age 62 . . . \$13.50 . . . \$14.50 . . . \$15.00 . . . \$15.50 . . . \$16.00

Any section provides that any soldier, irrespective of age or
term of service, who has been rendered incapable of earning a living by
manual labor, by disease or wounds incurred in the line of duty, shall
be entitled to thirty dollars per month.

Do you expect to vote at the Primary Election, May 28th? Are
you registered? To-day is the last day. Call on the Town Clerk for a
blank, and attend to the matter at once.
As this office closes at noon on Saturdays, our friends will please
make their calls in the morning. From 6.00 to 6.30 p.m., the office
may be found open.
Politics is warming up in Hammoncton. Two public meetings are
scheduled for next week.
Wonder how many of our boys know that one of our Town ordin-
ances forbids the playing of ball or "pussy" on the public street or
sidewalks, and places a severe penalty for so doing. Better take to
vacant lots, boys—but not on Sundays, or you'll get into more trouble.
Carry out the "Cleaning-up Day" movement, next Saturday. Read
what the Mayor has to say about it.
Everybody's doing it! What? Endorsing Col. Theodore
Roosevelt for the Presidency?
There's a story told of a business man who once on a time, after
weeks and months of labor, composed a wonderfully brilliant (and
doubtless would have been effective) advertisement, calling attention
to the superiority of his wares over all others; but fearing his competitor
might make use of the same, or improve on it, locked the document in
his safe. There are many advertisements to-day, placed where no one
will ever see them. How about yours?

LARD

Why do you use Lard?
For shortening, and for frying.
Then you want lard with all the Oil in it.
Our Lard has all the Oil in it; consequently, you
do not have to use so much of it!
That would make our Lard the cheapest to use, even
if we charged three or four cents per pound more for it.
But we don't.

Single pound, 15 cents.
Three-pound pail, 42 cents.
Five-pound pail, 70 cents.

Special Attention.

Seventeen head of horses and
mares that have been used in the
trucking business will be sold
cheap, as they are too heavy for
my heavy business. They would
make good horses for butchers,
grocers, bakers, milkmen, ice-men,
trucks, farmers, or any kind of
heavy work. They range in age
from 5 to 9 years old, weigh from
1100 to 1400. Attention is called to
a bay team, Tom and Kate, 6
and 7 years old, and work like one
horse; and a team that weighs
2300, color black and roan, that
would make as good farm horses
as money could buy. These horses
and mares are sold for no fault,
only that I am starting in the
city business, and they are all too
clunky for light driving. I also
have two young mares that are
heavy in foal, and will give written
guarantee with each horse, and
must just what they are, and if
they are not as I represent them,
I will not ask you to keep them.
This is a good chance for any one
who needs a horse to buy one

Winslow, in 1845, but long ago
moved to Hammoncton—endorses
the following statements in regard
to this "the largest fraternal organi-
zation in the world."

Our business is relieving the dis-
tressed. Last year we paid out
1,125,842 weeks' sick benefits,
making 3,377,526 visits to homes
of suffering and sorrow.

Burying the dead. Last year we
buried 16,277 members.
Educating the orphan and caring
for our aged and indigent members
their wives and widows. We have
sixty homes, with 3,490 residents,
representing an investment of
\$4,372,000. It cost \$667,557.79
for maintenance last year.

Last year we paid back to our
members and dependent relatives
\$6,378,557.79. With every dollar
there went kindly thought, personal
interest and sympathy, and warm-
hearted friendship, amounting to—
we don't figure this in our statisti-
cal records.

Returns of last year show that
we have invested funds amounting
to \$62,115,527.60.

Organized 93 years ago, with five
members, we now have 2,095,041
members (1,612,252 men and 482,
789 women) in 30,802 lodges and
camps.

"The World is our Parish."
Every state, territory and province
of the United States and Canada,
Alaska, South America, Cuba,
France, Hawaii, Japan, Mexico,
Panama, Philippine Islands, Porto
Rico, Yukon, Australasia, Den-
mark, Germany, Sweden, Nether-
land, and Switzerland. "The sun
never sets" on our lodges in session.

We now publish fifty fraternal
newspapers.

During the past five years we
have made a net gain in member-
ship of 425,613, or an average in-
crease, each year, of 85,123. In
the same time our assets show a
net increase of \$17,624,624.43, plus
increase in value of our Homes for
Orphans and Aged, \$2,168,739.66,
in all a net increase in assets, in
five years, of \$19,793,364.09.

"Ours is no selfish, chance-grown
fraternity.
It blooms in summer, in winter
to fade."

Are you a member of this, the
greatest secret fraternal organi-
zation in the world?
We lay down this proposition:
"Every man should be identified
with some movement that has for
its object the extending of a help-
ing hand and sympathetic interest
to the man or woman upon whom
the shadow of sickness, distress,
grief, or sad discouragement has
fallen."

FASHION'S FANCIES

9687. A PRACTICAL AND USEFUL GARMENT.

Ladies' "Overall" Apron.—Checked dressmaker, percale, apron, or lawn may be used for this model. The design is easy to develop, and may be adjusted without cutting. It will prove an ideal protection for the dress, or may be worn as a work or house dress. The pattern is cut in 3 sizes: Small, medium and large. It requires 5 1/2 yards of 36 inch material for the medium size. A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

KEEPING THE CHILDREN AMUSED

If you have any old-fashioned story books perhaps you will have read in them about children playing with "grace hoops," and you may have wondered what grace hoops were and whether the boys and girls of long ago had much fun when they played with them.

You may make a set of grace hoops yourself quite easily. Get three straight, flat, or willow branches about two feet long and bind them together with cord and then neatly

with the green raffia tape that gardeners use. You must make several of these hoops, for each player must have two.

Now for the hoops themselves. You will want more willow branches, just a little longer than those you used for the hoops, and these you must curve into hoops, tie with cord firmly, toss the hoop to her partner who must catch it with one of her hands and return it in the same way that it was tossed to her.

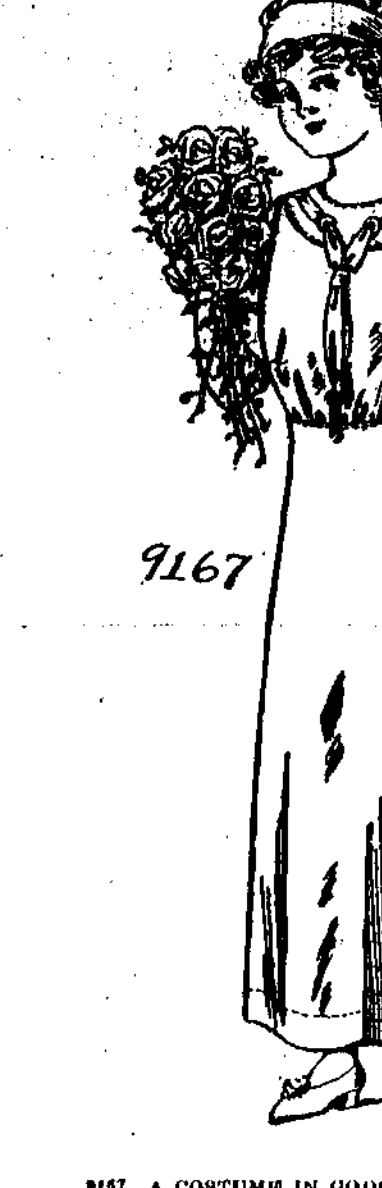

Two hoops are kept going at once, and the game is great fun and very pretty to watch when the players are clever. It got its name from the fact that it made the players agile and graceful.

9684. A MOST CHIC TOP GARMENT.

Ladies' Jacket in 24 and 25 inch length.—For new and attractive style features this design may readily be recommended. It is half fitting, and finished in "one-sided" effect with a deep velvet collar. The sleeve has a trim little cuff, while the back has a short belt at the waistline. The pattern is cut in 4 sizes: 24, 26, 28, 30 and 32 inches, bust measure. It requires 2 1/2 yards of 36 inch material for the 24 size.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

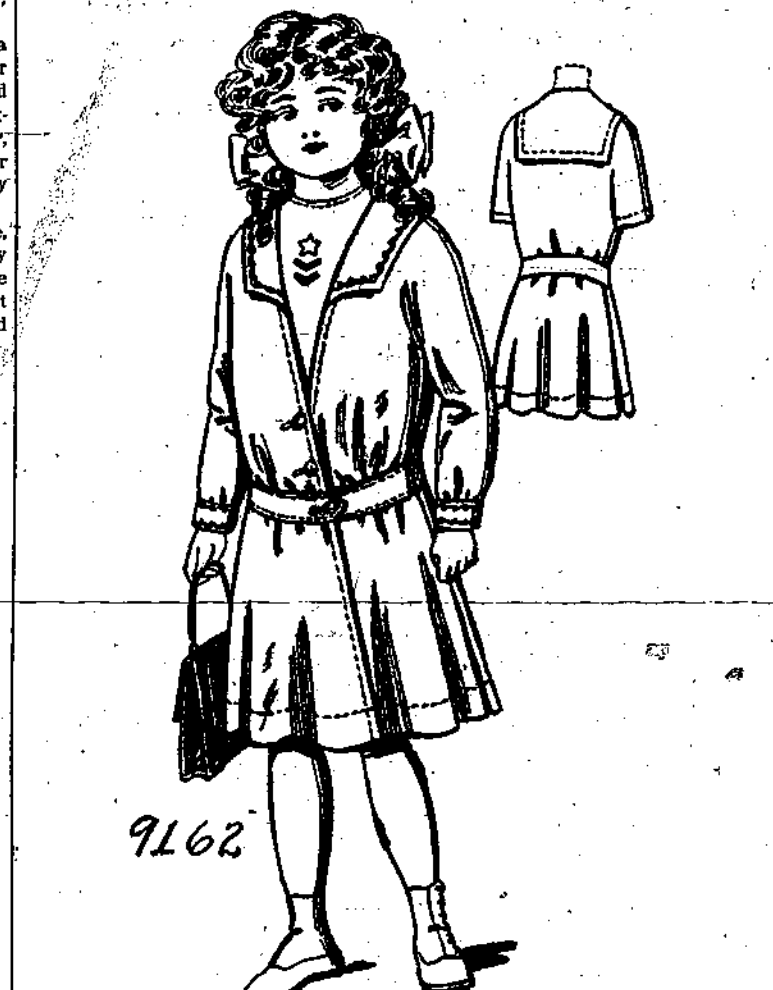

9167. A COSTUME IN GOOD TASTE AND STYLE.

Costume for Misses and Small Women (with or without Tuckers).—Blue silk voile was used for this model, with lace or ribbon for the tuckers. It is equally effective in brown cashmere with plaques of green tulle. The waist shows the new deep armhole, and is finished with a little yoke ruffle trim the neck edge. The three piece skirt has plaques of green tulle. The costume may be finished in high or normal waistline. The pattern is cut in 4 sizes: 14, 16, 18, 20 and 22 inches. It requires 1 1/2 yards of 27 inch material for the tuckers, and 5 yards of 36 inch material for the dress for a 16 year old.

9162. A BECOMING AND PRACTICAL FROCK FOR THE YOUNG MISS.

Girl's Dress with Long or Shorter Sleeve (with Shield).—This pleasing model has many desirable features. It will develop nicely in galathea, chambray, gingham, seersucker, linen, cashmere, flannel, voile or velvet. The sailor collar outlines a shield over the throat, which are dressed to form a side opening. The fullness of the dress may be confined by the belt. The pattern is cut in 4 sizes: 6, 8, 10 and 12 years. It requires 4 3/8 yards of 27 inch material for the 6 year size.

VARYING THE WALKING HAT.
The hat of a tailor-made possession which is so useful an adjunct of the tailor-made suit, may be altered in various ways by being provided with several changes of trimming. A novel notion that has occurred to a girl with good ideas can be turned to account. When a new crown band, ribbon or how is added to the hat, a necktie to match it in color should be chosen. In this way a dark suit may be given a touch of brilliancy which will add greatly to its appearance.

Supposing a band of cord and beads be added to the hat, then the soft sailor collar may be fixed together in front by an ornament made of a safety pin of beads and cord to match the band.

Another day a band of colored velvet ribbon with donkey ears at the sides will diversify the appearance of the hat, and then the collar will be finished with a large bow to match, fastened with a blouse with fancy pins.

One of the prettiest trimmings for the tailor-made hat on a fine day is a closely pleated rill of cream colored lace, with a frill to match worn upon the blouse. Strictly speaking, such a hat is not of course entitled to the name of tailor-made. It is the "twixt and between" hat that is particularly useful at this season of the year. Neither too severe nor too dressy, made of honey colored straw, with posy pins at the sides, from which spring figured tulle "wings," such a hat is extremely becoming.

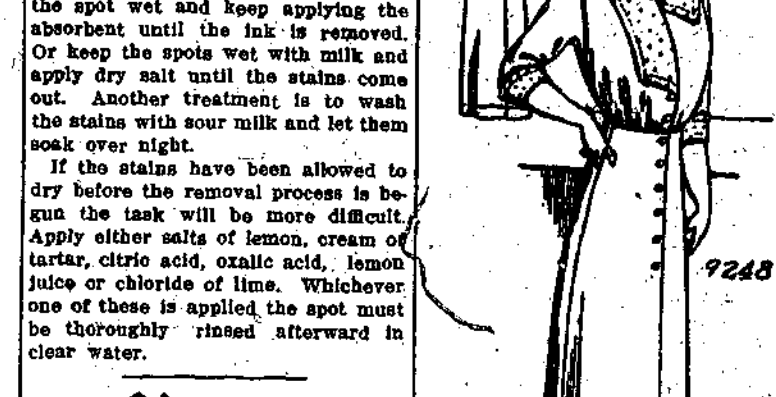

NEWS FOR THE NEEDLEWOMAN.

At sale time lengths of material may be picked up very cheaply, but care should be taken that the piece is sufficiently long to be of use, for when it has to be matched it may be found that nothing quite the same can be procured. Now, however, when spring figured tulle "wings" are really dear, as it cannot be utilized.

Try this plan of making a neat, durable button hole. Take a stitch across one end (removing of the inclusion under), carry the thread along the edge of the inclusion and take a stitch across the other end, then along the side to the starting point, around to work the buttonhole as usual, working very closely at the end where the button passes, and you will have no trouble with the button coming out.

Ladies' Blouse with Long or Shorter Sleeve (with Shield).—This pleasing model has many desirable features. It will develop nicely in galathea, chambray, gingham, seersucker, linen, cashmere, flannel, voile or velvet. The pattern is cut in 4 sizes: 6, 8, 10 and 12 years. It requires 4 3/8 yards of 27 inch material for the 6 year size.

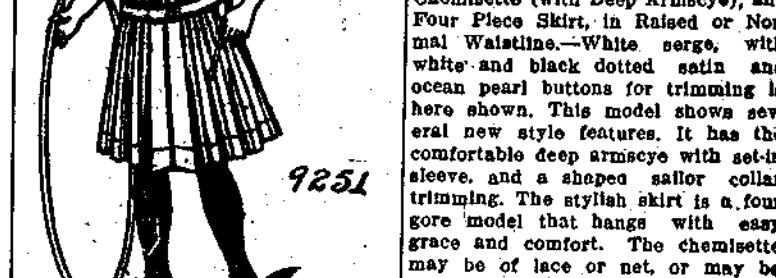

REMOVING INK STAINS.
Ink stains should be treated as quickly as possible before the ink has had time to set. While fresh pour over the stain a quantity of salt, dry starch and other absorbents and brush it away as it absorbs the ink. Keep the spot wet and keep applying the absorbent until the ink is removed. Or keep the spot wet with milk and apply dry salt until the stains come out. Another treatment is to wash the stains with sour milk and let them soak over night.

9248. A SIMPLE BUT ATTRACTIVE MODEL.

Ladies' Dress with or without Chemise (with Deep Armhole), and Four Piece Skirt, in Raised or Normal Waistline.—White serge, with white and black dotted satin and ocean pearl buttons for trimming is here shown. This model shows several new style features. It has the comfortable deep armhole with set-in sleeves, and a shapely sailor collar trimming. The stylish skirt is a four piece model that hangs with easy grace and comfort. The chemise may be of lace or net, or may be omitted. The pattern is cut in 4 sizes: 32, 34, 36, 38, 40 and 42 inches bust measure. It requires 8 yards of 36 inch material for a 36 inch size.

9251. A NEW DRESS FOR MOTHER'S GIRL.

Girl's Dress with Front Closing, and Long or Shorter Sleeve.—Just like a "grown up" frock, with the comfortable closing, good becoming neck opening and tummy collar. A neat little bow is given in the tabs that trim one side of the front. The sleeve may be made in full length or shorter with a cuff. The pattern is cut in 4 sizes: 6, 8, 10, 12 and 14 years. It requires 2 1/4 yards of 36 inch material for the 6 year size.

WHITE FOR CHILDREN.
For children's wear white is taking the place of honor just now; for juvenile models are now being sent over each season from Paris, and these are made of materials that would have amazed and shocked older generations. Thus a whole loose frock, from a little tucked neck, is of exquisite Venetian lace.

Another frock in Modiste has a brilliant orange sash with choux draped beneath the arms, and a turned-over, round Peter Pan collar. It is killed net, and the sash is a lovely shade of white.

White, coral or pinked lace, fastened with large crystal buttons, are charming allied with white silk socks and little white doekies.

A black or gray-colored hat or bonnet is generally more effective for children's wear than white, and since the new fashions are still happily designed with a view to becomingness rather than fashionable novelty, the white toilette is generally balanced by a dainty-hued hat.

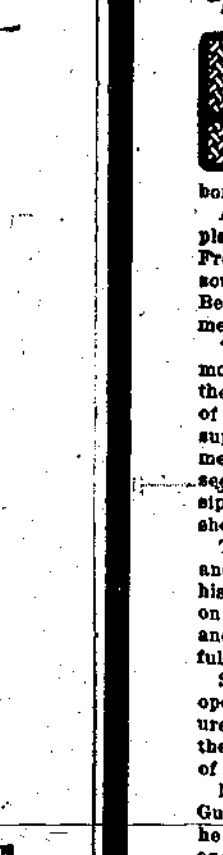

THE VALUE OF FAT.

The popular view of the close connection between fat and good nature and weight and balance is not wholly without rational foundation.

Fat, unpleasant and stodgy as it is, is one of the most valuable tissues in the human body, and any man who reduces his share of it below a certain reasonable level, not only takes the smooth edge off his temper and balance off his powers of judgment, but exposes all of his higher tissues to the muscular, nervous, and digestive, to danger of both starvation and disease.

A modern cushion of fat is one of the best buffers and cushions against the "dings and arrows of outrageous fortune," whether in the form of disease, grief or in strain, upon endurance.

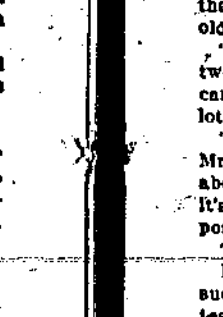

An easy way to cut out fat from the body is to eat less. But it is not so easy as it sounds. For fat is not only a cushion, but a storehouse of energy. It is the only tissue in the body that can be stored up and used when needed. It is the only tissue that can be stored up and used when needed. A modern cushion of fat is one of the best buffers and cushions against the "dings and arrows of outrageous fortune," whether in the form of disease, grief or in strain, upon endurance.

An easy way to cut out fat from the body is to eat less. But it is not so easy as it sounds. For fat is not only a cushion, but a storehouse of energy. It is the only tissue in the body that can be stored up and used when needed. It is the only tissue that can be stored up and used when needed. It is the only tissue that can be stored up and used when needed.

9249. A SIMPLE BUT ATTRACTIVE MODEL.

Ladies' Dress with or without Chemise (with Deep Armhole), and Four Piece Skirt, in Raised or Normal Waistline.—White serge, with white and black dotted satin and ocean pearl buttons for trimming is here shown. This model shows several new style features. It has the comfortable deep armhole with set-in sleeves, and a shapely sailor collar trimming. The stylish skirt is a four piece model that hangs with easy grace and comfort. The chemise may be of lace or net, or may be omitted. The pattern is cut in 4 sizes: 32, 34, 36, 38, 40 and 42 inches bust measure. It requires 8 yards of 36 inch material for a 36 inch size.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

9251. A NEW DRESS FOR MOTHER'S GIRL.

Girl's Dress with Front Closing, and Long or Shorter Sleeve.—Just like a "grown up" frock, with the comfortable closing, good becoming neck opening and tummy collar. A neat little bow is given in the tabs that trim one side of the front. The sleeve may be made in full length or shorter with a cuff. The pattern is cut in 4 sizes: 6, 8, 10, 12 and 14 years. It requires 2 1/4 yards of 36 inch material for the 6 year size.

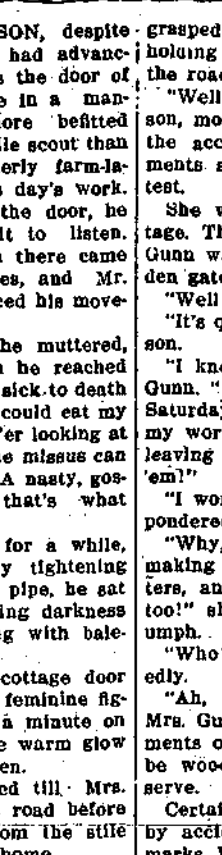

THE VALUE OF FAT.

The popular view of the close connection between fat and good nature and weight and balance is not wholly without rational foundation.

Fat, unpleasant and stodgy as it is, is one of the most valuable tissues in the human body, and any man who reduces his share of it below a certain reasonable level, not only takes the smooth edge off his temper and balance off his powers of judgment, but exposes all of his higher tissues to the muscular, nervous, and digestive, to danger of both starvation and disease.

Your property depreciates in value unless protected by a quality
paint. Such a paint has a hard, smooth surface, keeping out the
moisture and is a perfect armor against Nature's assaults. It is
elastic—expanding and contracting with heat and cold, thus avoiding
cracking, peeling and scaling.
A good paint has beauty of color. It does not fade quickly.
It proves the poet's saying, "A thing of beauty is a joy forever."
