THE MAY-DAY FETE

Though clouds and sunshine
alternated, and cooling breezes
prevailed, last Saturday, they did
not prevent the neighboring towns,
all the way from Atlantic City,
from attending Hammonton's an-
nual May-Day Fete.

The song contest was the great
feature of the morning, and was
of great interest, filling the M. E.
Church to its capacity. Ham-
monton was awarded first honors; Egg
Harbor second; Pleasantville won
third; and May's Landing fourth.
The pupils from the various schools
numbered as follows: Pleasant-
ville, 29; Hammonton, 22; Egg
Harbor, 25; May's Landing, 21.
The Glee Club from Minotola ren-
dered several very excellent selec-
tions.

Field Day exercises were held in
the afternoon, at the Hammonton
Park. Several events were pulled
off at the same time, so great was
the number of entries, and some
remarkable records made. While
the judges gave the final decision
to Pleasantville, final honors are
yet withheld on account of a mis-
understanding, which will doubt-
less reverse the figures of 43 (Plea-
santville) and 39 (Hammonton) to
49 (Hammonton) and 30 (Plea-
santville).

Definite details will probably be
given next week.

The Band rendered excellent
music all day, and the Park proved
an ideal place for such occasions.

PROMISES OF GOD IN CHRIST

The promises of God in Christ Jesus. The text was from II Corinthians 1:20: "For how many promises of God in Him (Christ) is the yea; wherefore also through Him is the Amen; unto the glory of God through us." The basis of this argument is the identity of God, on whose faithfulness we do well to meditate as the greatest of His attributes. Love, were He devoid of it, would be cruel. Power, were He capricious, would be brutal. That He should submit His perfection to mutation in unthinkable to the devout mind, and also to minds far from devoutness. Yet too often we take for granted the certitude of His faithfulness. It is an ordinary affair, dear brethren, that He should not be moved. He is the intervention and the blow; ours is the array and cluster of celestial graces and virtues. The battle is won if you can but have faith in the promises of God. The most solemn obligations which bind individuals and society are the promises of God. The promises of God are the basis of all human obligations. The promises of God are the basis of all human obligations. The promises of God are the basis of all human obligations.

SATURDAY, MAY 19, 1917

Last Saturday evening's session of Town Council proved, by a vote of four to three, that it did not intend to keep its pledge to the people, repeatedly made. They had promised and assured the temperance workers that no saloon license would be granted if there were affidavits or charges of violation of law made against the applicants. There were three or four such affidavits presented last Saturday evening (one of which was unprintable), but with the assistance of Mr. Smith's attorney and the statements of a daughter, a bar-tender, and a patron—none of which was made under oath—the license was granted by a vote of four to three. Mayor Elvins and Messrs. Small and Brownee voted against the granting.

In the future, until the complexion of Council is changed, all such charges will be sent to the County Prosecutor, who will see that justice is done, or know the reason why. This language may seem harsh, in cold type, but we are sincerely disappointed in the four men, who, we hoped, would do the right thing.

Personally, we know nothing against Hotel Columbia, or its proprietor; but those affidavits, and the evil effect that every saloon has on the morals of a community, make us wish, more than ever, that the rum holes were all back where they sprang from—Hell.

The annual dog question has come up again, and Town Council proposes to exterminate as many of them as are found prowling around. Owners of valuable or good-for-something animals do not permit them to roam the streets, forage around at night, nor make themselves a nuisance to people's vegetable gardens. If you wish to keep dogs, keep them; but do not compel others to do so. The wagon and net may soon be seen on the streets again.

Town Clerk Seely has quite a number of copies of the Annual Finance Report of the Town remaining, after mailing to all those on his list; and any one who may have been omitted, or was not on the list, can have a copy by applying to him. There is a lot of good reading in the documents,—fifty-six pages each.

There has hardly been a day for two weeks when we have not had almost every conceivable kind of weather. This is new for Jersey. Some one must have transposed the March and May leaves on the calendar.

If you have any money to invest, you will realize both profit and a feeling of pride if you subscribe to a block of the U. S. Government's "Liberty Loan" bonds.

If you wish to hear something, just ask one of the Firemen or the Band, how he enjoyed the trip to Vineland, on Wednesday.

Why can't those "Hammonton" signs be hung up?

That Vineland Trip

Both Fire Companies had made their plans to participate in the parade at Vineland on Wednesday; they had engaged Hammonton Band to accompany them, paying in advance for the out-of-town players; had secured trucks and cars for fifty passengers; they brought down the "two-in-one" apparatus, and were eating lunch in a restaurant at eleven o'clock, when someone accidentally found out that the parade had been called off. Two or three called up Vineland. One got this reply to the query: "Why didn't you notify us?" "It wasn't my business; I ought to have called you up." The explanation finally arrived that several fire companies could not leave home, as they were needed for home defense guard.

As Vineland knew of this a day or two before, the boys wonder if they don't have postal cards or telephones in that town.

Town Council Meeting.

At an adjourned meeting held on Saturday evening, Council heard several affidavits against Hotel Columbia; also three witnesses for the place, and an imported lawyer, then, after questioning all concerned, decided by four votes to three, to grant a renewal of the hotel license.

The Property Committee's proposition to repair Park Hall was turned down, and decision reached that the entire Council, with a contractor, visit the place and decide what is best to be done. The matter of destroying vagrant dogs was left with Law and Order Committee, with power to act. Left-over highway bills, to the amount of \$14,722, were ordered paid.

A little daughter was born to Mr. and Mrs. Chas. Rohat on Friday, May 18th, 1917.

From a Comfy Bed
to an Icy Room
B-U-R-R

Makes one shiver to think of it.
It's hard enough under ordinary conditions to crawl from under those nice warm covers, but to have to dress in a room when the thermometer is down around zero—shivers and shakes—B-U-R-R.
Don't do it. What's the use when it's so easy to make that room warm and comfortable?

GET A
Vulcan Odorless
Gas Heater

Have it connected to your gas jet. Then 10 minutes before getting-up-time, jump out of bed, light the heater, pull down the window and crawl back in bed. Lay there in comfort for 10 minutes. By that time your room's as warm as toast. Sounds a good don't it? Call at our office and let us show you this wonderful heater.

"The Spirit of Youth"

New Super-Six Speedster Now Here

Latest, fastest Hudson model just arrived. A smart car with new lines. Seats four. \$1750 at Detroit.

The newest Hudson Super-Six model has just arrived.

It is the smartest Speedster you have ever seen. In the grace of its lines, the dashing beauty of its finish and its wonderful performance it expresses the "spirit of youth."

Our allotment of these cars is not large. Even before we were told anything of its details, even without advertising or announcement of any kind either by the factory or ourselves, customers placed orders with us to assure early delivery. Our only word from the factory was that a Speedster model would be ready sometime this spring.

To get an idea of the probable demand for such a car we asked some of our Super-Six owners about it. The result is shown in the orders they gave us. We couldn't give them any description of the Speedster, not even an idea of what it would look like, nor even assure definite delivery dates. Still the orders continued to increase, and seeing a repetition of last year's condition when buyers grew disappointed at not getting delivery of their Super-Six when wanted, we stopped accepting orders.

And why shouldn't there be such a demand for a Hudson Super-Six Speedster? Everyone knows of the official record of a stock Super-Six chassis in traveling a measured mile at the rate of 102½ miles an hour. And all motorists are familiar with other wonderful performances of the Hudson Super-Six. The Super-Six has proved it has just the qualities you would require in a Speedster.

There could be no concern about the beauty or grace or finish of the body. The artists responsible for such lines as are revealed in the Super-Six Phaeton, the grace of the Hudson Super-Six Limousine, and the daintiness of the Town Car, could be relied upon to design the smartest Speedster.

Such a car is here now for you to see. You must acknowledge its low sweeping lines, its rich cobalt blue body with vermillion wheels, the smartest Speedster you have ever seen.

Don't forget that our allotment is small, that the factory is not building many cars of its type, and that only a few cars are available to any one dealer. Some will probably not be able to get any at all.

MOTORISTS!

Read This Over Carefully!

The largest hammer that ever a blacksmith swung does not deliver a blow as heavy as those your tires get hundreds of times in a few hundred miles of travel.

That cotton fabric and rubber can stand up under such punishment is remarkable when you think of it.

A blacksmith will tell you that the temper of steel can be spoiled by too much heat. Little wonder then that even a few degrees too much in the vulcanizing pits will ruin a tire by carbonizing the cotton. This results in a tire that cannot stand the pounding of daily service.

By the exclusive Miller method of vulcanizing, all the essentials are retained in the cotton fabric. The native toughness and resiliency of the rubber are kept intact. Both cotton and rubber are welded into a rugged mileage unit.

Miller geared-to-the-road tread bands are never spoiled in the application. They come to you bristling with mile muscle, and with 100 per cent power to resist and endure. The blows of the road affect them almost as little as the hammer affects the anvil.

Hundreds of motorists found Miller repairs and re-treads to be faithful long-distance performers in 1916.

You, too, can establish mileage records and reduce your tire expense by having your tires repaired and re-tread by the Miller method in 1917.

Write or phone and we will call for, and deliver all work. We guarantee all work.
