BONELESS HAM.

Quite a number of our customers know what this article is; but for those who have not used it, we can safely recommend it as the finest article of its kind to be had.

One solid piece of meat,—no bones nor waste, and you're not obliged to purchase a large quantity at one time, being put up in pieces of about 3 pounds each. The price is also quite an item, being 2 cts. per pound less than other ham. We quote at 12 cents, and guarantee every pound to be all we claim. Suitable for boiling whole, or slice for frying.

BUTTER.

Just want to keep you posted concerning the market. We cut 2 cents more from the price, viz: 23 cents.

Needless to say anything concerning quality,—every one knows it is *always* the finest.

My, how they Go!

We refer to those Peerless Coffee Cakes and Ginger Snaps advertised last week at the snap price of 6 cents per pound. We hold the price the same for the present, and can recommend the goods as being first-class, every way.

Beck's Wheat Flakes still lead as a breakfast dish. We don't wish to appear persistent with these goods, but want you to try them.

Hams.—We still handle the justly popular Quaker-City brand. These hams are *right* in every way, as many of our customers will testify. We sell them to you in any way you wish,—whole, or half, or sliced. Prices are right.

Yielding to numerous demands, we have again put in a stock of Crystal Rice, which for summer use is the very thing. Remember, it requires no cooking,—simply pour milk over it, allow it to stand a few minutes, when it is ready to serve,—5 c. per pound.

Lion Coffee we reduce 1 cent per pound, making it the cheapest coffee, considering the quality, now on the market. It needs no further mention from us, as every user of Lion Coffee knows that the quality is *always* O. K.

How about Clark's O.N.T. Cotton at 4 c.? Unheard of, you say. Nevertheless, 'tis true,—we give you any and all numbers, white, black, or colors, at 4 cents.

Wire netting is now in demand. We have all widths constantly in stock. Prices lower than ever before known, viz: 2½ cents per square foot. Window Screens, complete with wire, at 25 c. Door Screens complete, any width you desire, at 90 c. Spring Hinges, Door Springs, etc.

Don't forget us when you need Berry-Baskets, which we think will be very soon. In sympathy with the times and other goods, we make lower prices this season,—

Quarts, at \$3.40

Oval Pints at \$3.75

Can furnish any quantity at short notice.

Crate Separators,—a large stock. These are better made than last season, and the price remains the same,—2 cents each. Special price for 100 or more.

This warm weather creates an active demand for our Gasoline. Remember, we handle nothing but the very best article in this line, and sell at prices that defy successful competition.

HONOR THEM ALL.

Honor them all, these soldiers here,
Who faced the cannon's deadly ball;
Bring flowers to strew their lowly graves,
And let your tears above them fall.
Think of the fight so nobly won,
Think of the lives that then were given;
Their lives went for their country's cause,
Their souls are now at rest in heaven.

Their country called; and love for her
Called noble, manly hearts away
From cheerful homes and mothers' arms,
To death and anguish in the fray.
But country's love was dearer far,
Within their hearts, than love for life;
And bravely fought our loved ones then
Amid the turmoil and the strife.

'Twas nobly won; and how we love
The spot wherein they calmly rest!
We bring our flowers, we bring our tears,
We bring our love—it is our best.
So honor them, our noble dead;
Let burn your hearts with country's pride,
Till we shall meet them face to face,
Where all is peace, "beyond the tide."

Senator Jones, of Arkansas, says the Wilson tariff bill will be a law on the first of July; but he neglected to specify the year.

Elocutionists can teach a man to talk properly, but he must teach himself to think properly, or he will not do it.

One of the greatest causes of trouble in this country is that so many men whose abilities do not fit them for anything better than sawing wood are engaged in building up financial theories.

India has laborers who only get five cents a day. Congressman Black, of Illinois, said in a speech on the tariff bill that he favored reducing the pay of American laborers to the foreign standard.

SATURDAY, MAY 26, 1894.

Measles are reported so prevalent at Egg Harbor City that the Board of Health has closed the public school for the season, and the annual commencement and picnic have been postponed. The Sunday Schools have also been ordered closed for three weeks.

List of uncollected letters in the Hammonton Post-Office, on Saturday, May 26th, 1894:

Persons calling for any of the above letters will please state that it has been advertised.

GEORGE ELYING, P. M.

A convention of Atlantic County Epworth Leagues is to be held in the M. E. Church, Hammonton, on Friday evening, June 1st. Everybody is cordially invited. Addresses are to be made by Dr. B. C. Lippincott, of New Brunswick; S. H. Thompson, State Supt. of Junior League work; George Baker, the new State President of the Epworth League. Other items of interest are on the programme. A special train is expected to run from Atlantic City.

There was a quiet but interesting little scene, last week Friday, in Greenmount Cemetery. The foundation for the Post's monument was nearing completion. A galvanized iron box was made, in which was placed a Post badge, several documents of interest to the G. A. R., a copy of the last issue of the Republican, a nickel coin of this year, a flag, etc. The box was closed and soldered, and placed in the corner stone by Mr. Gerry Valentine, with a few appropriate remarks and reminiscences of the trial days of thirty years ago. A little company of comrades and others were present, and participated in the impromptu exercises.

STREET LIGHTING. Bids for lighting the street lamps of the Town of Hammonton, from June 15th, 1894, to June 15th, 1895, will be received on or before Saturday, May 26th, 1894, by the undersigned, Committee on Street Lighting, of the Town Council of Hammonton. The Committee reserve the right to reject any or all bids. Address all communications to the "Light Committee," JAMES M. ALSTON, Chairman.

We have had more than a week of stormy weather, with but few hours of sunshine. Commencing on Wednesday last week, there has been rain every day up to and including Thursday of this week—part of the time a roaring down-pour. Everything is saturated, and strawberries are selling too low for profit. The weather reports state that more than nine inches of rain fell in four days. Streams of all sizes overflowed their banks, bridges were destroyed in various parts of the county and state, roads and railroads badly washed. In Philadelphia, and Pennsylvania, great damage was done—estimated away in the millions of dollars. The Schuylkill river covered its wharves, flooded many streets of the city, and damaged much public and private property.

A POINT FOR TRAVELERS.—While Mr. T. J. Reiley, of Allentown, Pa., was ill with cholera-morbus. He called at a drugstore to get some medicine and the druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy so highly he concluded to try it. The result was immediate relief, and few doses cured him completely. It is made for bowel complaint and nothing else. It never fails. For sale by Cochran, druggist.

Liebig, the chemist, says the human body is composed of air condensed and uncondensed.

It is said that men faint less frequently than women because their imagination is slower of action than it is with the fair sex.

The extent of the oscillation of tall chimneys may be exactly taken by a close observation of the shadows they cast on the ground.

The incandescent light is a yellow light just as gas is, and colors cannot be detected by it any better than they can by ordinary gas or lamp light.

A silk in a piece of paper, even though it be not more than one forty-thousandth of an inch in width, is sufficient to transmit light to the human eye.

On many of the railways in Germany the practice of starting locomotive fires with gas instead of wood has been adopted and proved economical.

White or "prize" potatoes are now used extensively in the manufacture of buttons. By means of certain acids potatoes can be water-proofed to almost the resistance of stone.

It is asserted that waterproof sheets of paper, gummed and hydraulically compressed, make a material as durable as leather for the soles of shoes. It also makes serviceable horse-shoes.

A special commission at Toulon, France, has decided against the use of petroleum as fuel in the engines of battleships. It was found that the use of oil of ten cents per barrel, when petroleum cost only eight cents, would result in a loss of one hundred dollars per day.

The lungs will contain about one gallon of air which is used during the day. We breathe on an average 12,000 times per hour, inhale 630 gallons of air, and exhale 630 gallons of air.

The aggregate surface of the lungs exceeds 200,000 square inches, an area nearly equal to the floor of a room twelve feet square.

A law has been enacted in Ontario, Canada, forbidding the spraying or sprinkling of fruit-trees while they are in bloom with any mixture containing Paris green or other substances poisonous or injurious to bees. The object of the legislation is to protect the bees from harm, the honey from possible contamination, and to avoid possible obstructions to complete fertilization of the fruit.

A remarkable discovery in the domain of medical science is reported from Vienna. Doctor K. J. Seidlich claims that the results obtained by the use of chloroform and cocaine may be secured by subcutaneous injections of a solution of sugar and salt.

The use of distilled water, while the ill effects that sometimes follow applications of the former are avoided. This claim, it is asserted, is based upon a series of experiments, and some medical authorities are said to be satisfied of the genuineness of the claim.

The assertion that the temperature of the earth increases about one degree for every sixty feet as we descend into it is not true for all localities. In some shafts sunk in mines, the temperature is found to be lower than at the surface.

The temperature of the earth is not more than one hundred, showing that there is no uniformity in the temperature of the earth's crust.

The Camellia tree.

Why do we continue to depend on certain parts of the world for our supply of what have become necessities? Some of them are vegetable products that grow where they can grow best, and others are minerals that grow where they can grow best.

The Camellia tree is a native of China. It is a tree of considerable size, straight, towering, elegant. The leaves are oval, inclining to the lanceolate shape, they are glossy and leathery, smothered with camphor strongly when rubbed in the hand. The blossoms of the tree are very small; the fruit is a berry about the size of a pea, of a deep purple color when ripe. The camphor does not exude from the tree, even when the bark is cut, but is found in little bunches in the pores of the wood. To obtain it, the trunk, branches, and even the roots are cut into small bits and distilled. The camphor, volatilized by the heat, deposits on the cover of the vessel as it cools, and to remove it easily the inside of the cover is lined with matting of rice straw. The crude camphor is exported, and in Europe and this country prepared for the market in the form under which we know it.

The preparation of camphor originated with the Venetians, and was jealously guarded, but the Dutch in time obtained the secret, and succeeded in making it a complete monopoly of the trade. The wood of the tree is used for trunks and boxes, in which to preserve valuable vestments and garments, as the powerful odor repels insects.

Life is a campaign, not a battle, and its defeat is as well as its victory. No sin is small. No grain of sand is small in the mechanism of a watch.

The man who has no business of his own to attend to generally goes to bed tired.

Where there is no settled determination to do right, an evil course is more than half decided upon.

There is probably in the report that it was Croker, who drove him out of the job of bossing Tammany, the most profitable employment on earth. He got rich too fast even for Tammany.

The sugar trust is certainly playing for big stakes. The amendment it has secured a law, add \$60,000,000 to the profits of the trust within one year.

The difference between the McKinley law and the tariff bill after the proposed amendments are adopted will be that one gives protection to all while the other proposes to give it in spots, the biggest spots being occupied by trusts.

It seems that it was the sugar trust that originated the Hawaiian policy Mr. Cleveland tried so hard to carry out.

If there is any trust that has not been taken care of in the amendments to the tariff bill, it should lose no time in communicating with Senator Brice, who will see that the oversight is corrected.

Some people do not recognize their obligations when they meet them.

"I shall be glad when I get big enough to wash my own face," muttered little Johnny after his mamma had got thro' with him; "then I won't wash it."

A number of Democratic United States Senators are trembling in their boots over the threatened exposure of the Senatorial stock jobbing operations in connection with the Sugar Trust schedule. But no considerations of Senatorial courtesy should be allowed to shield the culprits from exposure. American public life must be purged of such deadly poison as this.

Nobody is saying "I am a Democrat" these days. "What's that?" everybody would ask.

A DAIRYMAN'S OPINION.—There is nothing I have ever used for muscular rheumatism that gives me as much relief as Chamberlain's Pain Balm does. I have been using it for about two years—four bottles in all—as occasion required, and always keep a bottle of it in my home. I believe I know a good thing when I get hold of it, and Pain Balm is the best liniment I have ever met with. W. B.
