## IN MEMORIAM.

Written for Gen. D. A. Russell Post, G. A.  
R., Hammoniton, N. J., by MISS SARAH J.  
WARREN, formerly an Army Nurse from  
New Hampshire, now in Washington.

Come not to-day with sage and classic lore  
Their fame to sing;  
But come as in the simple days of yore—  
Love's tribute bring.

Aloft they bore those folds in manly pride  
And manly grace;  
This day attests the way our heroes died,  
And marks each place.

They were the youth and beauty of our land  
Who freely gave;  
In humble reverence to-day we stand  
Beside his grave.

O, peaceful land! O, silent footsteps free,  
Where is your home?  
The lily blooms where roses used to be,  
You do not come.

From out the heart's most good and garner'd  
store  
Some treasure bring;  
All starred as were the silken folds they bore,  
Thy offering.

Bring laurel-gems of the 't, a wreath entwined,  
A garland rare;  
From men's deep and consecrated shrine  
Bring all things fair.

This hour the majesty of Death doth reign  
O'er all the land;  
From mountain peak to arid hill and plain  
Doth sentry stand.

Again the dial-plate of Time points here  
And marks this day—  
The one memorial of all the year—  
Departing May.

O, lovely May! full-throated song and flow'r,  
Heart of the year!  
Fond Nature, eloquent, fills this sad hour,  
And lingers here.

On her full heart and pulsing breast  
Lo! how these valiant ones laid down to rest.

Foreign manufacturers and importers  
continue to rush their goods into the  
country in the face of the retrospective  
clause of the Dingley bill. The customs  
receipts in April were \$24,454,351, or  
two and a half times as much as those  
in the month in which McKinley and  
the protective Congress were elected.

This gives something of an idea of the  
enormous quantity of foreign goods  
being brought into the country. When  
it is remembered that these figures  
relate only to dutiable goods, and that  
all non-dutiable goods likely to go on  
the dutiable list under the new tariff  
are also being rushed in and in still  
greater numbers, the disadvantages  
under which the manufacturers of the  
country are now attempting to operate,  
and must operate for many months, will  
be realized. How can anybody expect  
an immediate return of prosperity or  
business activity during such conditions.

## The True Remedy.

W. M. Ropine, editor Tiskwa, Ill.,  
Chief, says: "We won't keep house  
without Dr. King's New Discovery for  
Consumption, Coughs and Colds. Ex-  
perimented with many others, but never  
got the true remedy until we used Dr.  
King's New Discovery. No other remedy  
can take its place in our home, as in it we  
have a certain and sure cure for Coughs,  
Colds, Whooping Cough, etc." It is idle  
to experiment with other remedies, even  
if they are urged on you as just as good  
as Dr. King's New Discovery. They are  
not as good, because this remedy has a  
record of cures and besides it is guaran-  
teed. It never fails to satisfy. Trial  
bottles free at Croft's drug store.

COMRADES:

Again the time approaches when all  
Nature takes on its holiday garb, and  
Spring sends its finest blossoms to decor-  
ate the hills and valleys of our beloved  
country. Let us therefore prepare  
once again to assemble around those  
sacred graves, to deck them with choicest  
flowers. Let not a single grave remain  
forgotten, not one hero's name be left  
unsung; and in thus honoring our  
dead, honor our country, and ourselves.

No one questions the wisdom of woman in training herself to enjoy to the fullest the delights of robust health and high animal spirits. It is right that she should do this and this physical culture of woman renders it imperative that man should keep up with the procession by a corresponding improvement in his own physique.

There is gross carelessness in the putting up of prescriptions in some Chicago drug stores. One druggist has been assessed \$1,500 by a jury for destroying the sight of a child's eye by putting carbolic acid in a prescription where something else was ordered. Another chemist will pay \$5,000 because he substituted corrosive sublimate for a harmless drug. Not all to blame should be attached to the drug clerk, however. The handling of physicians is notoriously indelicate. They should be required to put their prescriptions in printed characters, especially where poisons or dangerous drugs are included.

The disappointment which followed the disappearance of the original Koch lymph as a "cure" for consumption may tend, though unjustly, to check interest in the more perfect method of inoculation lately developed by Dr. Koch, who has been working upon it for five years. The bacteriologist never claimed as much for his remedy as his patients hoped from it and was by no means responsible for the disappointment that grew out of that hope. But he did believe in it as a possible remedy in some cases and his devotion to the perfection of it is both interesting and admirable. It is already an apparent improvement in certain cases, which, however, are still too recent to be pronounced cures.

The United States Supreme Court has rendered the Senate's claim to compel the appearance of witnesses before Senatorial committees, and the sugar broker, Chapman, has been sentenced to jail for thirty days and pay a fine. It is intimated that the Senate is inclined to be content with this, and it will not push the case against the other offenders, the members of the sugar trust themselves. The case of Chapman was a test one, and now that it has been decided against the defendant, the Senate should not move on to the more serious cases. Messrs. McCartney and Seymour, both brokers, and Harnsey and Seales of the trust are all equally guilty in refusing to testify before the Senate committee. This is a case where the vicarious punishment of Chapman should atone for the offenses of the others. The cases of the latter should be taken up and carried to the logical conclusion or the whole matter is a farce. It is said that the Senators "are afraid the prosecution will look like persecution." Why not apply this leniency, then, to Chapman and let the Senators content themselves with the mere verdict of the court?

The Rev. Andrew Jones of Kansas City (formerly of Chicago) and his fellow citizens and the people of Chicago and New York that they are all under a common ban and will be destroyed within a few months. Mr. Jones admits that he has predicted all the great disasters of recent years and therefore feels impelled to utter this warning early in order, doubtless, to enable the inhabitants concerned to make or omit service to meet their doom. If Mr. Jones feels strongly on this subject perhaps it is right that he should make known his special and exclusive information, but he should be more explicit as to the way the dissolution is to be accomplished. He says "either by tornado or earthquake." This ambiguity, typical of all oracles, may lead to greater disaster even than the one he predicts. It is plain that a man must know whether he is threatened by a tornado or an earthquake or all his precautions will result in a mere gamble with fate. A cyclone collar, for instance, which would be an excellent safeguard in case of a tornado, might prove thoroughly uncomfortable if it was threatened to turn out to be an earthquake. And again, resort to an alibi, which would successfully ward off seismic assaults, might result in supreme discomfort should a mighty air disturbance ensue. If the Rev. Mr. Jones wishes to be honored as a prophet in his own country he must get down more to details.

The word "berry" had originally no connection with bell, an idea which is now infinitely associated with the term. The first meaning given to "berry" was "a watch tower." The first part of this word is connected with borough, the word with free. As the practice grew of hanging from the towers, people naturally took themselves of the fact by changing the word berry into the modern berry.

Young Brown is asking everybody what he shall call his new baby. "What?" "Why, you ever heard of such a name?" "Well, he's an awful little bore," says the little girl.

#### BISHOP FOWMAN.

The Patriarch of the Methodist Episcopal Church.

Bishop Thomas Bowman, the patriarch of the Methodist Episcopal Church, is spending the evening of his life with his daughter in Evanston, Ill. He will continue to wear the mantle of ecclesiastical authority, to be the senior member of the administrative council, to act as adviser and chancellor. He and the denomination will celebrate his eightieth birthday in July. His place in the episcopacy will be honored rather than active—the activity being advisory and relieved of the trying labor of the direction of the conference. He will remain on the bench of the heads of Methodism—the distinguished reward for as wonderful a half century of religious work as any man ever gave to any church. This work compassed the globe, penetrated China and Japan in advance of civilization, touched Norway and Sweden, left no doubt in Germany, Italy and Mexico, built churches in India and dedicated sanctuaries in every State and Territory in this country. The story of his life embraces more than comes to one average man in ten thousand.

The Bishop preached his first sermon when he was 22 years old. His first charge was a horseback mission seventy miles long and his annual salary was \$100 cash, from which was not deducted the hospitality of the Methodist Episcopal Church. He was forced upon him. The Bishop has dedicated more than 1,200 churches during his work. There is only one other minister in the

REV. THOMAS BOWMAN.

denomination who has come near to this long list, and he is Dr. Ives, and Dr. Ives has made the dedication of churches a specialty.

"Pete," said Meandering Mike, "do be a great thing. I don't see what it's done for us," replied Phloody Pete. "It's annihilated the aristocracy, dat's what it's done. Whenever we get a hand-out of old clothes, they're loaded with a farce. It's said that the Senators 'are afraid the prosecution will look like persecution.' Why not apply this leniency, then, to Chapman and let the Senators content themselves with the mere verdict of the court?"

#### OSMAN PASHA, GENERAL-IN-CHIEF OF THE TURKISH ARMIES.

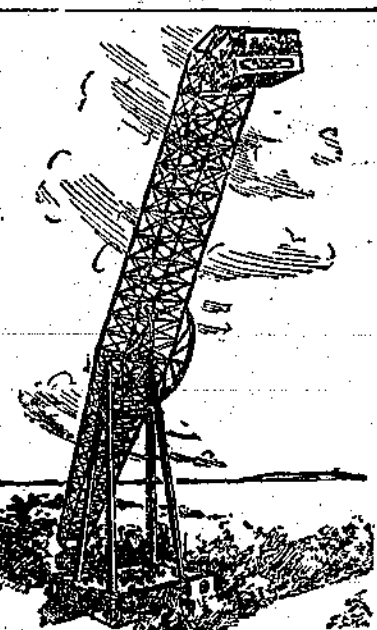

NEXT to the Sultan himself Osman Pasha is the most important personage in the Ottoman Empire. It is upon him that the fate of the present war, for Osman Pasha is the highest military power under Abdul Hamid. Osman is a Moslem soldier of the ancient type, fanatical, loyal, absolutely fearless, an intense believer in Allah and the prophet, and, when intrusted with the command of the Turkish forces on the Balkan front, he is a man who knows whether he is threatened by a tornado or an earthquake or all his precautions will result in a mere gamble with fate. A cyclone collar, for instance, which would be an excellent safeguard in case of a tornado, might prove thoroughly uncomfortable if it was threatened to turn out to be an earthquake. And again, resort to an alibi, which would successfully ward off seismic assaults, might result in supreme discomfort should a mighty air disturbance ensue. If the Rev. Mr. Jones wishes to be honored as a prophet in his own country he must get down more to details.

Young Brown is asking everybody what he shall call his new baby. "What?" "Why, you ever heard of such a name?" "Well, he's an awful little bore," says the little girl.

#### BIGGEST SEE-SAW IN THE WORLD.

Koch Can See More Than You Saw from the Ferris Wheel.

Visitors to the Tennessee centennial exposition at Nashville may be tossed in the air and held for a dizzy height catch a fleeting glimpse of the show around them. In an attempt to get up a feature which would rival the Ferris wheel the management has constructed an immense see-saw on the familiar principle of the board laid across a pile of lumber on which children have played since time immemorial.

much power. The engineers in charge of the affair declare it is perfectly safe and no fears need be entertained of its collapse. At the base of this tower is an inclosure given up to cafes, dancing platforms and refreshment booths.

Millions for Harbors. New South Wales has spent \$12,000,000 for harbors in four years, exclusive of the cost of the port of Sydney, and will spend \$1,500,000 for the same purpose this year.

Another Barrier Broken. Vienna University has accepted the doctorate and granted the degree of Doctor of Medicine for the first time to a woman, the Baroness Possner von Rhenthal, who recently was admitted to practice in Austria after passing the requisite state examination. She has received the degree from Zurich many years before.

The various countries of the world own 12,000 different kinds of pear trees.

#### MAKING A BIG TUNNEL.

The Many Perils and Difficulties Encountered.

Great Eight-Foot Water Carrier Now Being Built Under the City of Chicago—How Life Is Sustained and Rocks Drilled by Compressed Air.

Below a Big City. The construction of one of those great water tunnels under a city, such as Chicago, is a work replete with difficulties and dangers almost beyond comprehension of those who have never inspected one of these immense water carriers. Such a task as delving 100 feet under the streets of the metropolis, cutting an immense eight-foot bore four miles across the lake, blasting away

CUTTING THROUGH THE BLUE CLAY.

tons and tons of rock and sticky clay, is one that calls for the exercise of patience, courage and endurance of no ordinary character. Under the cables, under the big sky-scrapers, half a hundred men are now at work, day and night, dependent on the surface far overhead, and should the engine break or the shaft cave in, the result may be imagined.

Descent is made into the tunnel proper on an elevator at the shafthouse at the land end of the tunnel. A gang of men and a wet, slimy car shoots up from the black depths of the shaft, the bell clings twice and the men at the engine throw a lever. Down, down goes the little car into the tunnel. For twenty feet the light from above shows it to be lined with brick, and then darkness—thick, black, darkness—surrounds it. Little drops of water fall constantly upon the car and its passengers, but before a question can be asked the elevator is at the bottom, and there is the tunnel stretching away in both directions from the shaft.

The big bore is eight feet in diameter, but this size is lessened by a floor which leaves about six feet of head room. On this floor is a narrow gauge track on which run the cars of clay and rock on their way to the shaft. Brick laid in water-proof cement line the shaft and the wall is laid as smooth as a billiard table. The pressure of the air is maintained at a constant level of about twenty feet above the level of the sea. The tunnel is lined with brick, and the walls are laid as smooth as a billiard table. The pressure of the air is maintained at a constant level of about twenty feet above the level of the sea.

At Tattler's Den. Martin Rotherfeld, a fugitive from German justice, has kept tattooed on his body a record of his varied career as soldier, gambler, circus clown and thief. The warrant out for his arrest describes this curious autobiography thus: "On the breast, 'I cannot change my fate, 1882; on the right forearm, woman's head, 1883; on the left forearm, woman's head, 1884; LIZZIE S. BERNHOUSE,  
LIZZIE F. SHERLY, of R. Poc.

Victor Moore's concert, Thurs-  
day evening, was honored with a good  
audience. The entertainment was very  
satisfactory. Victor's recitations and  
impersonations were excellent, receiving  
unflinching applause and numerous en-  
cores, to which he responded.

Oak Grove Cemetery Association  
will have a watchman on the grounds  
during Saturday night, Sunday, and  
Sunday night. Those who wish to  
decorate graves on Saturday may do so  
with safety. No paper or other rubbish  
must be left on the cemetery grounds,  
under penalty of prosecution.

The Philadelphia Record states  
that Mr. Krebs has declined the Prin-  
cipalship of the Woodbury schools "having  
secured a similar position in Somerville."  
We don't know where the information  
in the latter part of the item was ob-  
tained, as Mr. Krebs has not learned of  
any such action, and was not an appli-  
cant for the Somerville position.

The Adjutant General of the  
State of New Jersey, by command of  
the Governor, issued the following order  
under date of May 14:

On Memorial Day, May 30th, at the  
annual and all services and station  
hall-stall from sunrise till midday, and  
immediately before noon (if music be  
performed) a flag will be played. At the  
conclusion of this memorial tribute,  
the flag will be hoisted to the top of the  
staff, where it will remain until sunset.

We publish elsewhere the pro-  
gram of Memorial Day. Col. Dan. A.  
Groves, from Washington, D. C., is  
said to be a forcible and entertaining  
speaker—sure to please. All of the  
other participants are Hammonstonians,  
and worthy a good audience. The trio  
and quartette of ladies will prove a  
novelty.

Council meeting to-night. The  
new ordinances will come up for action.  
Attorney Stephens has materially  
amended the license ordinance. The  
proposed Park Commission he rules  
out,—saying that Council has no legal  
right to delegate its control of the Park  
to any man or men. Those who attend  
the meeting to-night will be interested.

The State Legislature held a  
very short session, Tuesday,—called by  
the Governor to correct an error in the  
engrossed copy of a passed bill. In  
providing for a special election, Sept.  
28, to vote on the adoption of Consti-  
tutional amendments, the type-writer  
wrote it that all forms of gambling now  
provided by law should be forever pro-  
hibited; instead of now prohibited by  
law. That error of one word necessitated  
the expenditure of hundreds of  
dollars. It seems as though some inter-  
ested party ought to have discovered it  
before the bill was finally passed.

Introduced April 24, 1897.  
Section 1. Be it ordained by the Town Council of the Town of Hammonton, State of New Jersey, That licenses to inn keepers and tavern keepers to sell, keep, and expose for sale spirituous, vinous, and malt liquors, may be granted at any regular stated meeting of said Town Council, and that the said Town Council, in granting such licenses, shall proceed in the same manner, and be subject to the same provisions as the same may be lawfully done by the Court of Common Pleas of the State of New Jersey under an act entitled "An Act concerning Inns and Taverns," approved April 17, 1846, and the various supplements thereto or revisions of the same, as well as under such further provisions in this ordinance as may appear in the sections following this: Provided, however, that, only one license for the keeping of an inn or tavern shall be granted for every five thousand persons in the said Town of Hammonton, which population shall be determined by the next census of inhabitants enumerated by the State.  
Sec. 2. And be it ordained, That all applications for license shall be made in the manner and form as prescribed by the Act of assembly mentioned in the first section of this ordinance, and shall be signed by at least two reputable freeholders of the Town of Hammonton, after which shall follow the affidavits of the applicants according to law.  
Sec. 3. And be it ordained, That the Town Clerk of the Town of Hammonton shall, upon any application or application as being granted in accordance with the several provisions of this ordinance, issue to each applicant a license to sell spirituous, vinous, and malt liquors, the said license also specifying that the applicant shall keep an inn or tavern, as provided by law, and subject to the provisions of this ordinance, for which license the said Town Clerk shall demand a fee of Five Hundred Dollars, which sum the said Town Clerk shall pay to the Collector and Treasurer of the Town of Hammonton within three days after receiving the same; and said Town Clerk shall not issue any license granted by said Town Council until the said fee of five hundred dollars shall have been fully paid to said Town Clerk by the applicant to whom the license may have been granted by said Town Council; the said license fee of five hundred dollars to be appropriated by said Town Council to the maintenance, poor, or sinking fund, or in any manner provided by law.  
Sec. 4. And be it ordained, That no license shall be granted for a longer term than one year, and that all licenses, whenever they may have been granted, shall, each and every year, expire on the first Wednesday in June ensuing.  
Sec. 5. And be it ordained, That should any license to keep an inn or tavern be granted by said Town Council after the first Wednesday in June of any year, the applicant receiving the license shall be required to pay only such portion of the fee of five hundred dollars as may be proportionate to the duration of the license granted, and which may expire on the following first Wednesday in June.  
Sec. 6. And be it ordained, That no license issued to any inn keeper or tavern keeper under the provisions of this ordinance shall be transferred by the applicant receiving such license to any other party or parties without first obtaining the consent of the said Town Council, and not then unless application for such transfer be made at least sixty days before such transfer is made.  
Sec. 7. And be it ordained, That no license as provided for in this ordinance shall be issued to any applicant who is not a resident of the Town of Hammonton.
