

MOMMY—I'll feed you two spoon-ops each, one-breasted egg, wheat and corn bread, butter, sugar, milk, coffee. Dinner—food tastes, pained/pierced, potatoes, onions, bread, butter, eggs, sugar, milk.

DAD—The better food he needs to have at home, not as good as our boys get at Nalley's and I haven't seen if they were cut so much entitled to proper food as Jack. There is, we can't see it.

MOMMY—We never liked a supernatural company because the rebels did not trust our boy's belief. It makes all the difference in the world who was or said. When it was the boys like you, now said, "nerved" men? But they're no robot like Jack, from the corps a delicate work.

MR. Stummenger, the other day I thought that the trial of Jefferson Davis Richmond by a jury would be one of the greatest things since the war. It was some genuine thing would have been the decision of the world. Nobody

Oh, Uncle how can you be dead? Why don't you meet down old Africa. There will be something in the pleasure and privilege of the United States to meet at his hands with the help of you? If you would like to try the example of the famous American who supported, actually would not object.

It is in contemplation to build a new and easily accessible mansion in the Grand Avenue for the residence of the White House and good building for the State Department. It is for this purpose here and there yesterday to bring in the new and white House and to make a new building for the State Department.

The Albany Argus says that it is the impression at Albany that the Bureau of Congress Hall the House of Representatives. The new amount is \$200,000.

and were recruited by the State Department. The objects of the new building are Washington and the State Department. The objects of the new building are Washington and the State Department. The objects of the new building are Washington and the State Department.

In digging a trench for the purpose of the new building, the purpose of the new building is to dig a trench for the purpose of the new building. The objects of the new building are Washington and the State Department. The objects of the new building are Washington and the State Department. The objects of the new building are Washington and the State Department.

From statistics received from the State Department, it is apparent that the new building is to be built in the Grand Avenue. The objects of the new building are Washington and the State Department. The objects of the new building are Washington and the State Department. The objects of the new building are Washington and the State Department.

[illegible]

We had the pleasure of the I. B. and J. C. Adams' over built in this county. This is certainly one of the master. Length of four inches 247 feet, depth of 8 beam, 24 feet, depth of 8 Tonnage, vessel to two 431 tons. The vessel was ly built, and is a fast min abled with all the best ments. The steering ap Road's patent as even.

Albany, Jan. 16, 1916. J. H. Hoff

HAMMONTON!

Rare Opportunity to Secure

A HOME

To All Wanting Farms.

In the great Hammonton Fruit Settlement, the best inducements are offered to all wanting farms in the most delightful and healthy climate, with a good productive soil, being among the best in the garden State of New Jersey; only thirty miles from Philadelphia on the Camden and Atlantic Railroad, and but few miles to the New York Railroad, and but few miles to the New York Railroad. These lands are sold to the actual settlers at low prices and easy terms, in five, ten, twenty acres and upwards to suit. The title perfect, warrants clear, of all incumbrance, given when all the purchase money is paid.

The Soil

is a fine sandy and clay loam, suitable for all grains and grasses, and is pronounced the finest quality for gardening and fruit raising. It is a manure deposit, with a very substantial mixed all through it, in a very compact form, and in the exact condition to support plants with proper farming, it is very productive and profitable, worked, and warm and early. The lay of the land is slightly undulating, and it is called level; it is free from stones or rocks. It is the best fruit soil in the Union. Peaches, Apples, Quinces, Cherries, Blackberries, Raspberries, Grapes of all kinds, and all other fruits are raised here in immense quantities, and they are sought after by the dealers, and command the best prices in the markets. Hammonton is already celebrated for its fine fruits and wine. From two hundred to five hundred dollars is cleared, free from expense, per acre in the fine fruit culture. Sweet Potatoes, Melons, and all the finer Vegetables delight in this soil; this branch of farming pays much better than grain raising, and is much easier work.

The Market

is unsurpassed; direct communication twice a day to Philadelphia, New York, and Atlantic City. The Railroad Company leaves cars here to be filled with fruit every day in the season; they are filled in the afternoon, and the same night or next morning by daylight are in the market, where the highest cash prices are obtained, without any other trouble to the producer than delivering the produce to the car. None of the land now offered is over one and a half miles from the Railroad.

The Climate

is mild and delightful the winters being short and open, out-door work can be carried on nearly all winter, whilst the summer is no warmer than in the north. Persons wanting a change for health will be satisfied here—the mildness of the climate is soon beneficially felt by delicate persons and those suffering from Dyspepsia, Pulmonary affections, or General Debility, as hundreds here will testify. This section has long been known for its health, and during the summer months tens of thousands look for health. No Malaria, Chills and Fevers in this section.

The Water

is pure and soft, of the best quality. It abounds in strontium and is found by digging from ten to thirty feet. Wells are cheaply made here, as there is no rock to go through. We have the best stores in the county, where goods are sold as cheap as they are in Philadelphia or New York. Good schools with competent teachers. Clergymen of all denominations reside here, some of them in charge of congregations, others cultivating the fruits; also a number of retired physicians. The Methodist, Presbyterian, Baptist, Universalist, Spiritualists have their services regularly. Mills convenient.

Reliable practical nurserymen who furnish all kinds of trees, plants, and vines at the lowest prices. The population of the settlement is large and rapidly increasing; it is composed of the best classes from New England, the Middle, and Western States, intelligent, industrious and moral. The buildings are neat and handsome, and some of them fine. All materials for building, improving, &c., at hand; also reliable mechanics who will give satisfaction. Every convenience to be had can be found at any other place. Persons owning property here obtain tickets of the Railroad Company to and from the city at a discount of twenty-five percent on the regular fare. The lands here have been examined by some of the best agriculturists and fruit growers in the country, who pronounce them the best in the U. S. for fruit growing. Mr. Solomon Robinson, the acknowledged fruit expert, New York Tribune, Dr. J. P. Green, the State Entomologist, Mr. John G. Bergen, member of the American Institute of New York, and others, reported that they never saw a finer growth of fruit, grain, and grass, than they saw here, and recommend this settlement to persons desiring to till the soil, for pleasure or profit. These lands are being rapidly sold, and from the rapid and extensive improvements property will certainly increase in value. Inquire for J. J. BYRNES, the founder of the settlement, who will show the lands free of expense. For further information inquire or address,
