## ELVINS & ROBERTS

HAMMONTON, N. J.

### BONELESS HAM.

Quite a number of our customers know what this article is; but for those who have not used it, we can safely recommend it as the finest article of its kind to be had.

One solid piece of meat,—no bones nor waste, and you're not obliged to purchase a large quantity at one time, being put up in pieces of about 3 pounds each. The price is also quite an item, being 2 cts. per pound less than other ham. We quote at 12 cents, and guarantee every pound to be all we claim. Suitable for boiling whole, or slice for frying.

### BUTTER.

Just want to keep you posted concerning the market. We cut 2 cents more from the price, viz: 23 cents.

Needless to say anything concerning quality,—every one knows it is *always* the finest.

### My, how they Go!

We refer to those Peerless Coffee Cakes and Ginger Snaps advertised last week at the snap price of 6 cents per pound. We hold the price the same for the present, and can recommend the goods as being first-class, every way.

Beck's Wheat Flakes still lead as a breakfast dish. We don't wish to appear persistent with these goods, but want you to try them.

**Hams.**—We still handle the justly popular Quaker City brand. These hams are *right* in every way, as many of our customers will testify. We sell them to you in any way you wish,—whole, or half, or sliced. Prices are right.

Yielding to numerous demands, we have again put in a stock of Crystal Rice, which for summer use is the very thing. Remember, it requires no cooking,—simply pour milk over it, allow it to stand a few minutes, when it is ready to serve,—5 c. per pound.

Lion Coffee we reduce 1 cent per pound, making it the cheapest coffee, considering the quality, now on the market. It needs no further mention from us, as every user of Lion Coffee knows that the quality is *always* O. K.

How about Clark's O.N.T. Cotton at 4 c.? Unheard of, you say. Nevertheless, 'tis true,—we give you any and all numbers, white, black, or colors, at 4 cents.

Wire netting is now in demand. We have all widths constantly in stock. Prices lower than ever before known, viz: 2½ cents per square foot. Window Screens, complete with wire, at 25 c. Door Screens complete, any width you desire, at 90 c. Spring Hinges, Door Springs, etc.

Don't forget us when you need Berry Baskets, which we think will be very soon. In sympathy with the times and other goods, we make lower prices this season.

Quarts, at \$3.40

Oval Pints at \$3.75

Can furnish any quantity at short notice.

Crate Separators,—a large stock. These are better made than last season, and the price remains the same,—2 cents each. Special price for 100 or more.

This warm weather creates an active demand for our Gasoline. Remember, we handle nothing but the very best article in this line, and sell at prices that defy successful competition.

## ELVINS & ROBERTS

Bellevue Ave. & Main Road, and S. 2nd St.

(Telephone connection.)

W. H. Fenton, of Port Republic, on the editorial staff of the *Daily Union*, of Atlantic City, was presented with triplets—three boys—on Monday, all fine fellows, weighing just seven pounds each. It was a genuine surprise party for Mr. Fenton, yet we doubt whether he calls for an *encore*.

Decoration Day is past, but it is not too late to plant flowers. Mr. C. E. Fowler has some nice roses, from ten to thirty cents; hydrangeas from ten to twenty cents; also, several varieties of begonias, chrysanthemums, abutilons, marigolds, verbenas, phlox, coleus, geraniums, fuschias, petunias, etc., besides peppers, tomatoes, and sweet potato plants.

Last Sunday was one of the finest days of the season. Monday began well, but clouded up, and towards night we had a terrific storm, with flashes of lightning and peals of thunder that were grand in the extreme. Tuesday bright, but cool,—mercury at 47 about six o'clock A.M. Wednesday, cool, cloudy, rain at night. Thursday, wet and cool. Friday, variable, cool.

We know of no town in the U.S. superior to Hammonton for everything that goes to make life agreeable. To any family who wants a pleasant, roomy home, in fine location, plenty of ground for exercise and gardening, barns and sheds, etc., we recommend the Wm. Bernshouse property, on Central Ave. Call at the REPUBLICAN office for information.

The universal verdict is that the "Patriotic Entertainment" given on Wednesday evening was one of the most enjoyable ever given in Hammonton. The programme published last week will give you a good idea of the treat afforded except the frequent encores, which, as usual, were the best of all. The hall was filled—crowded—and the management and participants appreciated the generous patronage.

Council meeting last Saturday evening. All members present.

Bills ordered paid—  
Orville E. Hoyt, printing and adv. \$9 50  
Mrs. Smythe, care of poor. 8 00  
Jos. Esposito, goods to poor. 14 00  
Elvins & Roberts, goods to poor. 29 00  
Dr. North, attending poor. 12 75  
Highway bills—  
W. H. Burgess. \$290 25  
A. Naylor. 8 00  
J. S. Thayer. 8 00  
John Stokes. 5 25  
E. Johnson. 24 00  
L. Bowers. 27 75  
H. Bobst. 29 75  
W. H. Burgess, lumber. 5 52—315 52

Several pieces of road reported in bad order, needing attention,—on Fifteenth Street, near May's Landing Road; Pleasant Street, Third to Tilton; also Horton Street, Bellevue to Orchard.

Committee reported lines of Walnut Street marked by stakes, as ordered.

Water Committee reported Railroad tank ready for use at fires. Mr. Cottrell tenders use of his large tank to the fire department.

Light Committee reported two bids for care of street lamps. On motion, contract for ensuing year awarded to A. H. Miller, at \$300.

D. F. Lawson resigned the office of Assessor, and Charles F. Crowell was elected to fill vacancy.

Overseer of Highways reported sale of old road scraper for \$50.

On motion, Ordinance Committee instructed to introduce at next meeting an ordinance requiring bicycle riders to carry alarm bells and lamps when riding in the evening.

Water Committee authorized to proceed with the building of two cisterns, provided for by town meeting. Adjourned.

The Governor vetoed scores of bills during the legislative session, but with no great effect upon popular opinion, for the simple reason that when a partisan rebukes partisanship, the arguments, however excellent in themselves, lose all weight. The people look beneath the surface in these matters, and are able to see as far as the politicians, and sometimes farther.

A POPULAR REMEDY.—The promptness and certainty of its cure have made the Chamberlain Cough Remedy famous. It is intended especially for coughs, colds, croup and whooping cough, and is the most effectual remedy known for these diseases. Mr. C. B. Main, of Union City, Pa., says: "I have a great sale on Chamberlain's Cough Remedy. I warrant every bottle and have never heard of one failing to give entire satisfaction." 50c. bottles for sale by Cochran, druggist.

## THE BROOKLYN DIVINE'S SUNDAY SERMON.

The Subject: "Recovered Families" (Preached at Little Rock, Ark.)

TEXT: "Then David and the people that were with him lifted up their voices and wept until they had no more power to weep."—David's recital, 1 Samuel xxxv, 4, 13.

There is intense excitement in the village of Ziklag. David and his men are bidding good-bye to their families and are off for the wars. In that little village of Ziklag the desperadoes will be made and the warriors flushed with victory, come home. But with the desperadoes come also the soft arms of the heroes. The soft arms of the heroes are around the necks of the women. The soft arms of the heroes are around the necks of the women. The soft arms of the heroes are around the necks of the women.

Oh, what long stories they will have to tell their families of how they fought the battle, and they will tell of their adventures and show the half-healed wounds. With glad quick step, they march on, David and his men, for they are marching home. Now they come to the last hill which overlooks Ziklag. And they expect in a moment to see the smiling faces of their loved ones. They look, and as they look their cheeks turn pale, and their lips quiver, and their hands involuntarily clutch their swords. "Where is Ziklag? Where are our homes? Where are the women and children whom we left behind us?"

The Amalekites have come down and occupied the village of Ziklag. The Amalekites have come down and occupied the village of Ziklag. The Amalekites have come down and occupied the village of Ziklag. The Amalekites have come down and occupied the village of Ziklag. The Amalekites have come down and occupied the village of Ziklag.

Very soon David and his engaged company come upon the Amalekites' host. Younger brothers and children and Amalekites, here are the Amalekites' wives and children. Here are the Amalekites' wives and children.

Very soon David and his engaged company come upon the Amalekites' host. Younger brothers and children and Amalekites, here are the Amalekites' wives and children. Here are the Amalekites' wives and children.

Very soon David and his engaged company come upon the Amalekites' host. Younger brothers and children and Amalekites, here are the Amalekites' wives and children. Here are the Amalekites' wives and children.

Very soon David and his engaged company come upon the Amalekites' host. Younger brothers and children and Amalekites, here are the Amalekites' wives and children. Here are the Amalekites' wives and children.

Very soon David and his engaged company come upon the Amalekites' host. Younger brothers and children and Amalekites, here are the Amalekites' wives and children. Here are the Amalekites' wives and children.

the foundation of your once happy home, thinking of the bright eyes closed and the noble hearts stopped, and the gentle hands folded, and you weep until you have no more power to weep. Ziklag is ashes!

A gentleman went to a friend of mine in the city of Washington and asked that through him he might get a convalescent to some foreign port. My friend said to him: "What do you want to do away from your country home for a foreign port?"

Why these long absences of bereavement across the oceans? Why is it that in almost every association which is the product of the world of the present, there is a lament of the departed? Is it because you do not like sorrow or because you do not like to say "No" to the world? "The world is not so bright as you suppose it is," and there is a story of about a man and of his wife, and of their ones gone, and when you look over the hills the soft arms of the heroes are around the necks of the women.

David's day in Elder County, N. Y., the village church was decorated until the fragrance of the flowers was almost unbearable. The maidens of the village had emptied the place of flowers upon one marriage altar. One of their number was affianced to a minister of Christ, who had come to take her to his own home. With hands joined, and a congregation of angels, the vows were taken. At noon came from that time one of those who stood at the altar ceased to be. The minister of Christ, who had come to take her to his own home, with hands joined, and a congregation of angels, the vows were taken.

I preached this sermon to-day because I want to rally you, as David rallied his men, for the recovery of the loved ones who were not only to win heaven, but I want all this congregation to go along with me. I feel that somehow I have a responsibility in your striving at that great city. Do you really want to join the companionship of your loved ones? Do you really want to go? Are you as anxious to join them as David and his men were in the same way? Then I am here, in the name of God, to say that you may and to tell you how.

I want to rally you, as David rallied his men, for the recovery of the loved ones who were not only to win heaven, but I want all this congregation to go along with me. I feel that somehow I have a responsibility in your striving at that great city. Do you really want to join the companionship of your loved ones? Do you really want to go? Are you as anxious to join them as David and his men were in the same way? Then I am here, in the name of God, to say that you may and to tell you how.

I want to rally you, as David rallied his men, for the recovery of the loved ones who were not only to win heaven, but I want all this congregation to go along with me. I feel that somehow I have a responsibility in your striving at that great city. Do you really want to join the companionship of your loved ones? Do you really want to go? Are you as anxious to join them as David and his men were in the same way? Then I am here, in the name of God, to say that you may and to tell you how.

I want to rally you, as David rallied his men, for the recovery of the loved ones who were not only to win heaven, but I want all this congregation to go along with me. I feel that somehow I have a responsibility in your striving at that great city. Do you really want to join the companionship of your loved ones? Do you really want to go? Are you as anxious to join them as David and his men were in the same way? Then I am here, in the name of God, to say that you may and to tell you how.

I want to rally you, as David rallied his men, for the recovery of the loved ones who were not only to win heaven, but I want all this congregation to go along with me. Are you as anxious to join them as David and his men were in the same way? Then I am here, in the name of God, to say that you may and to tell you how.

I want to rally you, as David rallied his men, for the recovery of the loved ones who were not only to win heaven, but I want all this congregation to go along with me. I feel that somehow I have a responsibility in your striving at that great city. Do you really want to join the companionship of your loved ones? Do you really want to go? Are you as anxious to join them as David and his men were in the same way? Then I am here, in the name of God, to say that you may and to tell you how.

I want to rally you, as David rallied his men, for the recovery of the loved ones who were not only to win heaven, but I want all this congregation to go along with me. I feel that somehow I have a responsibility in your striving at that great city. Do you really want to join the companionship of your loved ones? Do you really want to go? Are you as anxious to join them as David and his men were in the same way? Then I am here, in the name of God, to say that you may and to tell you how.

I want to rally you, as David rallied his men, for the recovery of the loved ones who were not only to win heaven, but I want all this congregation to go along with me. I feel that somehow I have a responsibility in your striving at that great city. Do you really want to join the companionship of your loved ones? Do you really want to go? Are you as anxious to join them as David and his men were in the same way? Then I am here, in the name of God, to say that you may and to tell you how.

And yet it is not the fort to be taken worth all the pain, all the grief, all the bereavement? Look! Who are they on the bright hills of heaven? There they are, those who are not in the chair now vacant. There they are, those whom you looked in vain in the earth or hidden to whom you have said "I will be with you in whose life your life was bound up. There they are, their low more radiant than ever before you saw it, their lips smiling for the kiss of heavenly grace, their eyes looking into the length of eternal summer, their hands looking up to the Father, the Father of the first of heaven. The Father of the first of heaven. The Father of the first of heaven.

Why these long absences of bereavement across the oceans? Why is it that in almost every association which is the product of the world of the present, there is a lament of the departed? Is it because you do not like sorrow or because you do not like to say "No" to the world? "The world is not so bright as you suppose it is," and there is a story of about a man and of his wife, and of their ones gone, and when you look over the hills the soft arms of the heroes are around the necks of the women.

### CURIOSITIES.

A regiment of Russian soldiers numbered 3293 men. A "camel" and "beauty" are synonymous in Arabic. The dragon fly can repair its own body and still fly alive. The Romans began every banquet with apples and ended it with apples. A resident of Leominster, England, has won renown as a collector of human skulls.

Hahnemann's great book of medicine, the foundation of homoeopathy, was published in 1810. Annie Ronney has been appointed to a clerkship in the office of the secretary of State in Michigan. A sawmill was stolen bodily in Hancock County, a few days ago. Not a trace of the machinery could be found. Serpents have their hearts situated close to their heads, hence they are always very careful in protruding their tongue.

The scilicet Duke d'Esperay became sick for hours if he saw a hare, and once kept his bed for a week because one leaped on him. The decays of ten goats and the work of several men for half a year are required to make a genuine casuarius snow a yard and a half wide. "Lustina," the ancient name of Paris means in other languages—the city. The Romans found it being chiefly composed of mud-built houses. Leaves attract dew; boards, sticks and stones do not, because leaves have chemical use for dew and detain it while boards, sticks and stones have none and do not.

The walls of the old Chateau d'If in the harbor of Marseilles, France, made famous by Alexander Dumas in his "Monte Cristo," are covered with autographs of visitors. The slowest railroad in the world is the Arizona and New Mexico. Floyd Benson to Nogales is eighty-eight miles and the schedule time is eight hours. The fare is \$8.50 or ten cents a mile. A squirrel comes down a tree head first, a cat always tail first, because the hind feet of a squirrel are an inch longer than those of a cat on its forepaws, hence the difference in suspension. Two thousand chamoes have been killed by Prince Augustus, of Coburg, and he ranks as the champion champion killer of the world. Next to him comes the Emperor of Austria, who has killed 1859.

Upon analysis Professor Verchow finds that the Russian "hungerbrod," the bread eaten by the peasantry in the famine-stricken districts of Russia, is much more nutritious than the rye bread made in Germany. St. Chad's Church, clock, at Shrewsbury, which was made last century, has a longer pendulum than any other clock in Great Britain. Its pendulum is twenty-two feet long and the ball four feet three inches in circumference and 200 pounds in weight. A prominent Germantown (Penn.) manufacturer owns a setter dog which has a singular penchant for hunting snakes. After killing one he places one paw on the reptile's head and seizes the neck with his teeth, proceeds to skin it, much after the manner of skinning an eel.

Chicago is to have the largest hotel in the world. It is to be located on six blocks, and will consist of a series of buildings each 620 feet long by thirty feet wide, separated by wide courts and connected by skybridges and covered passageways. It will be lighted by electricity and heated by steam. The name will be the "Andrews" and it will have 6124 rooms for guests. A remarkable curiosity is a nut which grows at Hermosillo, Sonora, Old Mexico. It is called the nut of the diablo. Major Davis, who is just now holding Colonel Barber's chair as Adjutant General in the Department of the Dakota, was sitting in his easy chair contemplating a half dozen of the nuts of these nuts, which had just been sent north by an officer of the regular army who is now in Mexico. The nuts were dancing about in a very mysterious way, and a Pioneer Press man and several others who were watching the strange performance were completely mystified.

"I'll not tell you what is the matter with these nuts," said the major, "I'm not going to give away my trick. When a man learns a good right-of-hand performance he is going to give it away for nothing? I guess not." The nuts continued to dance, and Lieutenant Sturgis, who was as much in the dark as the spectators, began a critical examination of the crazy objects supposed to be inanimate. "Oh, yes, I think I have the trick," said the lieutenant. "There is something alive in these nuts. There is a strange throbbing in them." The reporter picked up one of the nuts, and surely enough there was a very peculiar throbbing sensation in it. The major was so thoroughly amused by this that he had a longer withhold the secret. It seems that a worm is born on the inside of the nut of this nut and that it lives there for some weeks and dies without seeing the light of day. The worm eats its way out of the nut, then becomes restive and moves about a great deal. It is in this period that the nuts become apparently animate. The moving of the worm causes the nut to throb about.—St. Paul (Minn.) Pioneer Press.

The Making of Toys. Great efforts are making in Vienna to build up there a toy-making industry to compete with the famous factories of Germany and France. An exhibition of toys is now being held in the Austrian capital at which all the best models of German and French toys have been for the Viennese artisans to copy.—Detroit Free Press.

### POPULAR SCIENCE.

Greenbacks are full of bacteria. Cable roads are gaining in popularity in the city of New York. Corn (maize) never rots unevenly; supposed to be because of its having opposite radicals of growth from the cob-rotator. A German savant proposes to disinfect the Elbe and other rivers by means of electricity. He says that sewers can be disinfected in a similar way. Women require one hour of sleep more a day than men. Fewer of the latter reach the age of fifty than the former; but afterward the sterner sex has the best of it.

The comet medal of the Astronomical Society of the Pacific Coast has been awarded to Edwin Holmes, of London, England, for his discovery of the unexpected comet on November 6. Lutz had been discovered by the milk condensing factory at Newport, Me., that the long-keeping varieties of Maine milk are due to the presence of a silicic acid lime incrustation, which, while milk from other factories contains iron and alkali, showing that the soil. A number of authorities believe that the galls on an oak by attracting ants lead to the standard of quantities of caterpillars and other insects which are its natural enemies. It illustrates the value of this protection by the statement that the inhabitants of a single ant's nest may destroy in a single day upwards of 100,000 insects.

By the recent discovery of a fossil hemipterous insect in the upper beds of the Lower Silurian formation of Scandinavia, the horizon of insect life is lowered very considerably. Heretofore the horizon of being the most ancient of insects has been ascribed to the cockroach, one having occurred in the Upper Silurian of France. Dr. Sheldon Jackson Jackson tells us that it is impossible that the salmon berry of Alaska should get its name from its being put up in salmon oil. There is, he says, no such thing as salmon oil in use there. The only oil used is made from the dogfish, the herring and the Elean fish. It gets its name, says Dr. Jackson, from the color of the berry. There are two varieties of berries, one which is reddish and the other a pure salmon color.

Celebrated Christmas 180 Times. Colours McCrear, who died on the ice of the Arctic, was the hero of the reign of Charles I., is said to have celebrated 167 Christmases during his life. The were recorded in the McCrear family which proved that the old man was past 180 years of age on the day of his death, which would make his lease of life at least thirteen years greater than any other man who has lived during the last 3000 years.—St. Louis Republic.

Nuts That Can Dance. A remarkable curiosity is a nut which grows at Hermosillo, Sonora, Old Mexico. It is called the nut of the diablo. Major Davis, who is just now holding Colonel Barber's chair as Adjutant General in the Department of the Dakota, was sitting in his easy chair contemplating a half dozen of the nuts of these nuts, which had just been sent north by an officer of the regular army who is now in Mexico. The nuts were dancing about in a very mysterious way, and a Pioneer Press man and several others who were watching the strange performance were completely mystified.

"I'll not tell you what is the matter with these nuts," said the major, "I'm not going to give away my trick. When a man learns a good right-of-hand performance he is going to give it away for nothing? I guess not." The nuts continued to dance, and Lieutenant Sturgis, who was as much in the dark as the spectators, began a critical examination of the crazy objects supposed to be inanimate. "Oh, yes, I think I have the trick," said the lieutenant. "There is something alive in these nuts. There is a strange throbbing in them." The reporter picked up one of the nuts, and surely enough there was a very peculiar throbbing sensation in it. The major was so thoroughly amused by this that he had a longer withhold the secret. It seems that a worm is born on the inside of the nut of this nut and that it lives there for some weeks and dies without seeing the light of day. The worm eats its way out of the nut, then becomes restive and moves about a great deal. It is in this period that the nuts become apparently animate. The moving of the worm causes the nut to throb about.—St. Paul (Minn.) Pioneer Press.

The Making of Toys. Great efforts are making in Vienna to build up there a toy-making industry to compete with the famous factories of Germany and France. An exhibition of toys is now being held in the Austrian capital at which all the best models of German and French toys have been for the Viennese artisans to copy.—Detroit Free Press.

### POPULAR SCIENCE.

Greenbacks are full of bacteria. Cable roads are gaining in popularity in the city of New York. Corn (maize) never rots unevenly; supposed to be because of its having opposite radicals of growth from the cob-rotator. A German savant proposes to disinfect the Elbe and other rivers by means of electricity. He says that sewers can be disinfected in a similar way. Women require one hour of sleep more a day than men. Fewer of the latter reach the age of fifty than the former; but afterward the sterner sex has the best of it.

The comet medal of the Astronomical Society of the Pacific Coast has been awarded to Edwin Holmes, of London, England, for his discovery of the unexpected comet on November 6. Lutz had been discovered by the milk condensing factory at Newport, Me., that the long-keeping varieties of Maine milk are due to the presence of a silicic acid lime incrustation, which, while milk from other factories contains iron and alkali, showing that the soil. A number of authorities believe that the galls on an oak by attracting ants lead to the standard of quantities of caterpillars and other insects which are its natural enemies. It illustrates the value of this protection by the statement that the inhabitants of a single ant's nest may destroy in a single day upwards of 100,000 insects.

By the recent discovery of a fossil hemipterous insect in the upper beds of the Lower Silurian formation of Scandinavia, the horizon of insect life is lowered very considerably. Heretofore the horizon of being the most ancient of insects has been ascribed to the cockroach, one having occurred in the Upper Silurian of France. Dr. Sheldon Jackson Jackson tells us that it is impossible that the salmon berry of Alaska should get its name from its being put up in salmon oil. There is, he says, no such thing as salmon oil in use there. The only oil used is made from the dogfish, the herring and the Elean fish. SUNDAY SCHOOL LESSON

THE PASSOVER INSTITUTED. LESSON TEXT.

Exod. 12:1-11. Memory verses: 13, 14.

LESSON PLAN. TOPIC OF THE QUARTER: The Very Atonement.

GOLDEN TEXT: Christ our Passover is sacrificed for us.—1 Cor. 5:7.

LESSON TOPIC: Help to Those who will be Helped.

LESSON OUTLINE: 1. Help Provided, vs. 13, 14. 2. Acceptance Required, vs. 15-17.

DAILY HOME READINGS: M.—Exod. 12:1-14. The Passover instituted.

T.—Exod. 12:21-28. A memorial service.

W.—Exod. 12:29-36. Redemption by power.

T.—Exod. 13:3-10. For a sign.

F.—Exod. 13:16-28. The plagues of Egypt.

S.—Luke 22:7-16. Christ keeping the Passover.

S.—1 Pet. 1:17-25. Redemption by Christ.

(These Home Readings are the selections of the International Bible Reading Association.)

LESSON ANALYSIS. I. HELP NEEDED.

Sovereignty Asserted: I am the Lord (12).

God said, I am that I am (Exod. 3:14).

God said unto him, I am Jehovah (Exod. 6:2).

I am great king, saith the Lord of hosts (Mal. 1:14).

II. Condemnation Announced: I will go through, and will smite (12).

All the firstborn in Egypt shall die (Exod. 11:5).

The soul that sinneth, it shall die (Ezek. 18:20).

Except ye repent, ye shall all in like manner perish (Luke 13:3).

III. Judgment at Hand: In that night, I will execute judgment (12).

About midnight I will go out into Egypt (Exod. 11:4).

The Lord will pass through to smite the Egyptians (Exod. 12:23).

The Lord is at hand (Phil. 4:5).

IV. HELP PROVIDED: The Blood Shed: The blood shall be to you for a token (13).

They shall take of the blood (Exod. 12:7).

The life of the flesh is the blood (Lev. 17:11).

Apart from shedding of blood, there is no remission (Heb. 9:22).

II. The Blood Honored: When I see the blood, I will pass over (Exod. 12:23).

That the destroyer should not touch them (Heb. 11:28).

Ye were redeemed, with precious blood (1 Pet. 1:18, 19).

III. The Deliverance Commemorated: This day shall be unto you for a memorial (14).

Ye shall observe this thing, for ever (Exod. 12:24).

This do in remembrance of me (Luke 22:19).

HOUSEHOLD AFFAIRS.

IV. The Lamb's Blood Applied: They shall take of the blood, and put it on the posts (7).

The blood shall be to you for a token upon the houses (Exod. 12:13).

Strike the lintel and the two side posts with the blood (Exod. 12:22).

By faith he kept, the sprinkling of the blood (Heb. 11:28).

V. The Lamb's Flesh Eaten: They shall eat of the flesh in that night (13).

Eat not of it raw, nor sodden, but roast (Exod. 12:9).

Take, eat; this is my body (Matt. 26:26).

Except ye eat the flesh of the Son of man, ye have not life (John 6:53).

VI. The Pilgrim's Equipment Ready: Loins girded, shoes on, staff in your hand, haste (11).

He girded up his loins, and ran (1 Kings 18:46).

Let your loins be girded about (Luke 12:35).

Stand therefore, having girded your loins with truth (Eph. 6:14).

VII. The Month Shall be Unto the Beginning of Months: (1) The dawn of a new era; (2) The date of a new year.

Verse 3.—"They shall take to them very man a lamb." (1) Universal need; (2) Comprehensive grace; (3) Universal provision.

Verse 4.—"Your lamb shall be without blemish." (1) A choice offering from man; (2) An acceptable gift to God; (3) A fit symbol of Jesus.

Verse 7.—"They shall take of the blood." (1) Blood shed; (2) Blood applied; (3) Blood efficacious.

Verse 11.—"Ye shall eat it haste." (1) What they ate; (2) How they ate; (3) Why they ate.

Verse 12.—"I am the Lord." (1) Jehovah's self-assertions; (2) Jehovah's self-manifestation.

Verse 13.—"When I see the blood, I will pass over you." (1) The blood heeded; (2) The penalty withheld; (3) The avenging angel; (4) The protecting blood; (5) The forgiving Lord.

LESSON BIBLE READING: Typical of Christ (Exod. 12:3; 1 Cor. 5:7).

Without blemish (Exod. 12:5; 1 Pet. 1:19).

Chosen beforehand (Exod. 12:3; 1 Pet. 2:4).

Killed by the people (Exod. 12:6; Acts 2:23).

Its blood shed (Exod. 12:7; Luke 22:20).

Its blood applied (Exod. 12:22; Heb. 9:13, 14).

Not a bone broken (Exod. 12:46; John 19:36).

Commemorated (Exod. 12:24, 27; Luke 22:19, 20).

Honored in Many Lands: Upon one of the sofas of the senate chamber the other day sat an interesting figure.

The slender form was bent with the weight of years and the old face was lined with the cares of a long life.

But the brow was as one that looks as though it ought to be good, I try it, and I am not always disappointed.

Joseph Francis, born in 1801, the savior of more lives, according to the Washington Post, than any one man since the invention of gunpowder.

Not excepting Jenner. It was not until March, 1887, that congress, in tardy recognition, passed a resolution thanking him for his "life-long services to humanity and to his country."

For the life boat grew from his brain, as did the life car and other devices for rescuing those who go down to the sea in ships.

By the first use of the life car alone 200 passengers out of 301 were saved from the emigrant ship *Ayrshire*, wrecked off the Jersey coast in a winter storm of 1850.

The old man lost his life through persisting in hanging to the car while his family were inside.

For these and other benefits Mr. Francis received the recognition of nearly every crowned head of Europe, and his inventions have been utilized by every civilized country.

He was made a knight of the order of St. Stanislaus, with diploma and gold medal, in 1861.

HOUSEHOLD AFFAIRS.

THE HOUSEKEEPER, IN SEARCH OF "SOME-thing new" for dinner, may try calling for a change.

They resemble fish potato, but must first be boiled to destroy certain acid properties.

This new vegetable is very easily raised in swampy localities, and in Florida is already being cultivated for the market.

We must not imagine, however, that what is new to us is to every one else, for the Egyptians and Japanese could furnish us many points on this vegetable.—New York World.

HAVE FLEXIBLE CUSHIONS. It is impossible for the housekeeper to have too many cushions around at the present day.

Quality seems to be no object. In fact while the main consideration is what they are made of, and pretty, the central idea of service is never lost.

Denim embroidered in white and blue, or white, according to the color of the denim, makes a pretty serviceable covering.

Silk, linen, cashmere, satin and even velvet are all used as coverings of these useful articles.

There is such an element of luxury about a profusion of cushions. What more delightful than to recline on a sofa or chair of cushions, when twilight reigns, and the glow of the open fire is the only light in the room.—Detroit Free Press.

BOLOGNA SAUSAGE MADE AT HOME. Select the tender parts of a corned porker, not leaving an undue proportion of fat.

Let this be chopped up very fine and afterwards put into a mortar and beaten up, or even well pounded with an ax if you are not provided with a regular sausage grinder.

Season with black pepper, salt and cloves in rather greater proportion than for ordinary sausage, together with sage, as usual.

After mixing these together pour boiling water, stirring until it forms the consistency of common sausage.

From a butcher get some nicely prepared maws, then stuff and tie them up very tightly.

As your pork is salted, let the sausages between some of the pieces, and when the pork is ready, let the sausage be smoked with it.

The skin of the leaf fat answers the same purpose as the maw for incasing sausages, and is not so difficult to get cleaned.

When you are ready for its use, this kind of sausage is boiled as bacon, or may be cut into slices and tried for a breakfast relish.

In these days, when it is not so common for private families to have smokehouses, the sausage may be covered with coarse salt, or may be put into slices and tried for a breakfast relish.

In these days, when it is not so common for private families to have smokehouses, the sausage may be covered with coarse salt, or may be put into slices and tried for a breakfast relish.

Some Economical Recipes: There are recipes and recipes, writes Laura E. Hutchinson in the New York Observer, and sometimes I think I will never try a new one again, but just stick to those that I know are reliable.

But I do like a change, and when I see one that looks as though it ought to be good, I try it, and I am not always disappointed.

But I am very often, and I make up my mind that the reader of said recipe did not even try it before sending it to others.

The ones I give below have been used in my household many years, and always prove satisfactory, if they fail, the fault will be in the making, or the quality of some of the ingredients used.

Pump Fudding.—One heaping cupful of bread crumbs, two cupfuls flour, one cupful molasses, one cupful stoned raisins, one cupful suet chopped fine, one cupful sweet milk, one tablespoonful soda, one teaspoonful salt, cloves and cinnamon. Steam two and one-half hours.

Sauce for Same.—One cupful of brown sugar, one tablespoonful each of butter, vinegar and flour; flav with nutmeg. Beat all together and add one cupful boiling water and let come to a boil.

Cream Pie.—Put one half-pint milk and one-half cupful sugar in frying pan, and one-half cupful corn starch, one one-half cupful cold water, one one-half cupful cold milk, one one-half cupful cold cream, one one-half cupful cold sugar, one one-half cupful cold milk, one one-half cupful cold cream, one one-half cupful cold sugar.

What do you think of Dauber's picture?—Pretty bad, aren't they? "Yes; and yet I know one man who thinks them very fair and who owns a lot of them." "Who, for mercy sake?" "Dauber."—Truth.

More Nearly Correct: Larkin.—Did you accept that situation Barlow offered you, Spigot? "No; I thought better of it." Larkin.—"If you refused it you must have thought worse of it."—Judge.

FATE OF A BLIND RAT.

How His Companions Cared for Him Till Caught and Killed.

The manner in which rats steal eggs has always been regarded as a wonderful example of animal intelligence.

It is well known how one rat will hold the egg firmly between its four legs, then turn over upon its back and, remaining in this position, allow itself to be pulled along by other rats until the nest is reached.

Remarkable as this may seem, I heard the other day of a still more astonishing example of the intelligence of a rat.

Patrik Hurley lives in a rural portion of the Twentieth Ward. Some distance from his home is a large barn, where besides horses and cows, he keeps a number of chickens.

About 100 yards from the barn a brook winds its way through a ravine. Naturally the presence of corn and grain about the barn has drawn many rats.

They frequently come out in the barnyard for food or to play. Among the rats the Hurleys had observed one that was a rare specimen of his tribe.

The rat was of a pure white color, and was not at all fat. When it appeared, it was always in a companion that was apparently leading it. This peculiarity caused the people to watch the rodents.

They discovered that the white rat always held a straw in its mouth by which the other rat led and dressed parade, on this side the water "cast."—New York Post.

Early good lot of corn was found, the white rat would drop the straw and proceed to satisfy his hunger. But by an impatient movement he was always able to bring to him one of his kind friends, who would pick up the straw, give it to him, and lead the white rat back to the nest under the barn.

One of the most remarkable things noted was the fact that every day the blind rat was led out by another down to the brook to get a drink. This was not an occasional, but a regular performance.

After the blind rat had satisfied its thirst the straw would be put into its mouth by its companion or attendant and led carefully back. But one day some boys who were not acquainted with the story of the blind rat, saw the two animals coming from the creek and at once made a charge upon them.

The leader of the blind rat endeavored to hurry up its charge, but was finally forced to let go of the straw and scamper off to save its own life.

The white rat, left thus helpless, was caught and killed. The family who had long watched the daily exhibition of the other rats' tenderness and devotion for their sightless companion, learned its sad fate with regret.—Washington Post.

A Fable of Two Brothers: A certain man was legged, that he died.—And he left two sons, honest men.

Now one of the sons was a blacksmith. But the other became a physician.

And after that their father had been taken from them, these two brothers made their homes in other lands.

And the blacksmith would have prospered. But it fell that one day he was made sick.

And the blacksmith, looking angrily upon him, answered: "He was hung." "For the blacksmith was an honest man."

Howbeit, presently, when a horse was missing, men gathered and sought the blacksmith, saying: "This man must take after his father." So the blacksmith did take after his father: but whether he caught up with him the tale telleth not.

And at the same time, in his own way, one, inquired of the physician what means his father died. And the physician covered his face and wept.

But while he wept he considered, saying within himself: "If I say, he was hanged, then shall I shock this man and give him pain, and it is my office to relieve pain. Nevertheless, I must tell the truth."

He said, therefore: "My father died of heart failure." And again he wept, the questioner weeping with him.

"Thus, this being told, men said: 'Doubtless, since his father died of heart failure, this good physician and loving son hath made study of kindred diseases.' So they resorted unto him."

And the physician became an specialist. And he looked at them who came and sought cures, and sneezed and coughed and groaned, and they gave gladly. For the physician was an honest man.—Kate Field's Washington.

It is a mistake to think that horses at light work can be kept entirely on hay and corn. They need a little of both.

If sheep raisers have followed the advice given in these columns, the odds are all fat now and can be sold for a few prices.

Study and plan for the coming season's work so that when it is here you will be ready to be up and at it, and know what you want to do.

Sheep are used in Northwestern India as a beast of burden. They are sure-footed, and carry a burden of 50 to 60 pounds each.

FATE OF A BLIND RAT.

How His Companions Cared for Him Till Caught and Killed.

The manner in which rats steal eggs has always been regarded as a wonderful example of animal intelligence.

It is well known how one rat will hold the egg firmly between its four legs, then turn over upon its back and, remaining in this position, allow itself to be pulled along by other rats until the nest is reached.

Remarkable as this may seem, I heard the other day of a still more astonishing example of the intelligence of a rat.

Patrik Hurley lives in a rural portion of the Twentieth Ward. Some distance from his home is a large barn, where besides horses and cows, he keeps a number of chickens.

About 100 yards from the barn a brook winds its way through a ravine. Naturally the presence of corn and grain about the barn has drawn many rats.

They frequently come out in the barnyard for food or to play. Among the rats the Hurleys had observed one that was a rare specimen of his tribe.

The rat was of a pure white color, and was not at all fat. When it appeared, it was always in a companion that was apparently leading it. This peculiarity caused the people to watch the rodents.

They discovered that the white rat always held a straw in its mouth by which the other rat led and dressed parade, on this side the water "cast."—New York Post.

Early good lot of corn was found, the white rat would drop the straw and proceed to satisfy his hunger. But by an impatient movement he was always able to bring to him one of his kind friends, who would pick up the straw, give it to him, and lead the white rat back to the nest under the barn.

One of the most remarkable things noted was the fact that every day the blind rat was led out by another down to the brook to get a drink. This was not an occasional, but a regular performance.

He said, therefore: "My father died of heart failure." And again he wept, the questioner weeping with him.

"Thus, this being told, men said: 'Doubtless, since his father died of heart failure, this good physician and loving son hath made study of kindred diseases.' So they resorted unto him."

And the physician became an specialist. And he looked at them who came and sought cures, and sneezed and coughed and groaned, and they gave gladly. For the physician was an honest man.—Kate Field's Washington.

It is a mistake to think that horses at light work can be kept entirely on hay and corn. They need a little of both.

If sheep raisers have followed the advice given in these columns, the odds are all fat now and can be sold for a few prices.

Study and plan for the coming season's work so that when it is here you will be ready to be up and at it, and know what you want to do.

Sheep are used in Northwestern India as a beast of burden. They are sure-footed, and carry a burden of 50 to 60 pounds each.

LATEST HAT FASHIONS.

ROUND HAT FOR OLDER GIRLS.—Back view of Capote hat of berries and leaves.

Capote hat of berries and leaves. Round spring hat with tulip trim.

Capote hat with lace loop for elderly women.—Fichu cap of cream lace.

Large round hat with rich feather ornament.

ROUND HAT FOR OLDER GIRLS.—This small juvenile hat of dark brown straw texture comes in the shape of a plain sailor's hat.

Crown 1 1/2 inch high, brim 2 inches broad. Mode-colored rop ribbon, 4 inches wide and folded up, goes around the crown and is formed into rosettes at either side and at the centre back.

To the left rosette violet bunches of light and darker blossoms are combined.

It is a mistake to think that horses at light work can be kept entirely on hay and corn. They need a little of both.

If sheep raisers have followed the advice given in these columns, the odds are all fat now and can be sold for a few prices.

Study and plan for the coming season's work so that when it is here you will be ready to be up and at it, and know what you want to do.

Sheep are used in Northwestern India as a beast of burden. They are sure-footed, and carry a burden of 50 to 60 pounds each.

Large round hat with rich feather ornament. Large neck-tie.—Frame of black hat has an oblong crown, which in front is 3, at the back 2 inches high, and a straight brim, the latter one being in the front 5, at the back 2 inches broad, and on the outside covered by a black-velvet straw lace trim is bent a little in the front and turned up at the left side.

Two large black ostrich feathers run around the crown toward the front. A third feather shows up at the side behind the brim, accompanied by two feather tips.

A long bunch of violets covers the places where the ostrich feathers are attached, and arching loosely over the back brim.

Very dressy is a new style of the latest neck-tie. Made of light rose colored pleated silk gauze and yellow laces, with 1 inch broad tulle ground. Closed in the back centre by—two loops, 3 inches broad, and 19 inches wide are fastened to the tulle ground and held together through a full gauge knot. Long ends of embroidered tulle lace.

CAPE HAT WITH LACE LOOPS FOR ELDERLY WOMEN.—Wire frame without brim, 6 inches long, 8 inches broad, covered by double black silk tulle, that is folded a little. 2 1/2 inch black velvet ribbon, trimmed with head lace, surrounds the edge of the frame. In the centre front is a large loop of black chantilly lace, and being 5 inches broad, with jet rosettes in the knot. Jet rosette also decorates the place, where the 1 inch broad black velvet strings are sewed on. All around the hat, beginning from the loop knot, goes a full violet wreath.

CAPE HAT OF BERRIES AND LEAVES.—FICHU CAP OF CREAM LACE.—Can be made home at a trifling cost. Wire frame, covered by small rubber tubes. As the back view shows, the frame is interwoven cobweb-like with small green cloth tubes, such as being used in making flowers for covering hats, etc. On the top, tendrils of brownish leaves with blue berries. Six to eight berries make one bunch. Pale blue ribbon, 2 inches broad, is used for the upright loop in the centre front.

From there a ribbon runs over the tendrils toward the back centre, where under a loop of 1 inch broad ribbon the strings of the same ribbon are fastened. The broad capes of white or cream embroidery laces are always dressy and serviceable, to give quickly a festive character to a plain dress. This fichu cape is made of cream embroidery lace and has a standing collar of lace, 1 1/2 inch broad.

Veils are highly colored. Tight shoes have had their day. Satin is coming again in great favor. Novelty banglows show electric effects.

Big hands looks monstrous in white gloves. Hats and bonnets for spring are things of beauty. Patent-leather tips are not the—stylish more.

All kinds of buds and berries are more used than flowers. High heels are not worn on the street by sensible women.

Strings are the color of the trimming, and full two inches wide. There is a prevalence of smooth, finely woven surfaces in the spring woolsens.

Fans most seen are of feathers with shell sticks or of antique painted parchment.

TULLE COSTUME WITH DRAPED SKIRT.—These black tulle and lace dresses, which are very serviceable and can be used for many purposes.

I. DRESS WITH YOKE FOR GIRLS OF 5 TO 7 YEARS.—Bright red wool crepe with white fine red and blue striped lawn makes this dress a handsome Sunday dress for little girls.

II. DRESS WITH TUCKED WAIST FOR GIRLS OF 6 TO 8 YEARS.—Made of light-weight material with beige, light blue and red plaids upon white ground.

**5 DOLLARS TO 20 PER DAY Easily Made.**

We want many men, women, boys, and girls to work for us a few hours daily, right in and around their own homes. The business is easy, pleasant, strictly honorable, and pays better than any other offered agents. You have a clear field and no competition. Experience and special ability unnecessary. No capital required. We equip you with everything that you need, treat you well, and help you to earn two to three ordinary wages. Women do as well as men, and boys and girls make good pay. Any one, anywhere, can do the work. All succeed who follow our plain and simple directions. Earnest work will surely bring you a great deal of money. Everything is new and in great demand. Write for our pamphlet circular, and receive full information. No harm done if you conclude not to go on with the business.

**GEORGE STINSON & Co.,**  
Box 488,  
**PORTLAND, MAINE.**

**Your BOY or GIRL should Learn Short-hand and Type-writing.**

Charles Reade on "The Coming Man," says: "The boy or girl who can write short-hand and operate the type-writer is safer from poverty than a Greek Scholar."

Where to go—  
**PALMER'S Short-hand College,**  
PHILADELPHIA.

Is the place, if you want a thorough course in a short time. The instructors are specialists. Individual attention is given.

Stenographers furnished to Business Men. Catalogue with list of Graduates sent free.

**CAUTION—If a dealer offers W. L. Douglas Shoes at a reduced price, or says he has them without name stamped on bottom, put him down as a fraud.**

**W. L. DOUGLAS \$3 SHOE BEST IN THE WORLD.**

W. L. DOUGLAS Shoes are stylish, easy fitting, and give better satisfaction at the price advertised than any other make. Try one pair and be convinced. The stamping of W. L. Douglas name and price on the bottom, which guarantees their value, saves thousands of dollars annually to those who wear them. Dealers who push the sale of W. L. Douglas Shoes gain customers, which helps to increase the sales on their full line of goods. They can afford to sell at a less profit, and we believe you can save money by buying all your footwear of the dealer advertised below.

Catalogue free upon application. Address, **W. L. DOUGLAS, Brockton, Mass., Sold by**

**SHERIFF'S SALE.**

By virtue of a writ of fieri facias, to me directed, issued out of the New Jersey Court of Chancery, will be sold at public vendue, on **Monday, June 11th, 1894,** at two o'clock in the afternoon of said day, at the hotel of William Somers, at Buena, Atlantic County, New Jersey.

All that certain tract or parcel of land situate in the Township of Buena Vista (formerly Hamilton), County of Atlantic and State of New Jersey, bounded and described as follows to-wit:

Beginning at a corner in the Dutch Mill line corner to fifty acres sold by Joseph L. Hollingshead to Doctor John Watson, now or formerly belonging to Charles Downs, and running (1) by the same south fourteen degrees and thirty minutes west twenty nine chains and fifty links to a corner to said fifty acres; thence (2) south twenty six degrees and fifteen minutes east eight chains to a corner; thence (3) north sixty three degrees east thirty two chains and fifty links to a corner; thence (4) north twenty seven degrees west thirty four chains and fifty five links to the Dutch Mill line; thence (5) south seventy one degrees west twenty six chains to the place of beginning (excepting therefrom, however, less, about forty seven acres of land conveyed by David G. Fanceon to William Collins), containing sixty three acres of land, more or less.

Seized as the property of Samuel J. Lubarsky, and taken in execution at the suit of Frederick Thayer, and to be sold by  
**SMITH E. JOHNSON, Sheriff.**  
Dated May 12th, 1894.  
L. NEWCOMB, collector. pr. fee, \$9.85

**HAMMONTON Real Estate For Sale**

1. A large and handsome house on Pleasant Street, only a few rods from the railroad, very convenient, with heater, conservatory, good barn, two lots.

2. A neat 7-room house on Second St., very convenient, beautifully finished, heated; one lot.

3. Good house and lot on Second St., very desirable.

4. Small farm on Chew Road, near Twelfth Street; 3 1/2 acres, mostly set to fruit; 5-room house, nearly new.—Easy terms.

5. Fine prominent corner on Bellevue Avenue; good house, three large lots. Will divide. A first-class business site. Cheap.

6. Farm on Pleasant Mills Road, five miles from Hammonton post-office. 20 acres, partly in fruit; good house. A bargain.

Send a postal card order for a true sketch of Hammonton.

No man has so little leisure or so little enjoyment as those who have nothing to do but to enjoy themselves. Persons of this description have been known to kill themselves in order to kill time.

To preserve the love of a man or woman it is necessary, after having won it, to win it again every day.

Jealousy is the most bestial, the most foolish, the most ridiculous, the most cruel, the most imbecile of human passions.

How many of the men who make the most bitter attacks upon capitalists at every opportunity would decline becoming capitalists themselves, if they could do so without hard work, self denial and frugality?

Senator Cullom says there are three generals involved in the Democratic tariff programme—"Gen. Incapacity in the saddle, Gen. Prosperity to be ridden down, and Gen. Ruin to take the succession."

The great American people are not fooling away their time and energy on Coxe's movements—they are waiting for the polls to open.

Rev. Natari Kitashima, a Japanese minister, was installed as pastor of Vineland's First Unitarian Church.

The wool-growers seem to have been left out of the Democratic concessions at Washington; but the wool growers are farmers, and farmers never did receive anything but kicks and cuffs from the Democratic party.

Camden is to have a mammoth match factory. The Camden ministers, who have heretofore enjoyed a monopoly in that line, are wondering how it will affect trade.

It isn't absolutely necessary to wait until New Year's Day before making good resolutions.

Salt as an occasional tooth powder is better than any other dentifrice. It keeps the teeth white, the gums hard and rosy, and the breath fresh.

Salt water, quite strong, used persistently for a time, will prevent the hair from falling out.

A DAIRYMAN'S OPINION.—There is nothing I have ever used for muscular rheumatism that gives me as much relief as Chamberlain's Pain Balm does. I have been using it for about two years—four bottles in all—as occasion required, and always keep a bottle of it in my home. I believe I know a good thing when I get hold of it, and Pain Balm is the best liniment I have ever met with. W. B. Denno, dairyman, New Lexington, Ohio. 50 cent bottles for sale by Cochran, druggist.

We will still furnish the **REPUBLICAN** and the **Weekly Press** one year for One Dollar and Twenty-five cents. Such of our readers as desire to take advantage of this offer must pay up all arrearages to date, plus the \$1.25.

A liberal offer,—\$2.60 for **The South Jersey Republican** and **Demorest's Magazine.**
