BANK BROTHERS STORE

We Claim for this Store

Merchandise manufactured by the best Experts in the business. Second, Real service; in other words, ability to put the right thing on you, the suit that has your fit, your style, the one - that dresses you in taste.

In buying clothes, there are some things you can see for yourself, such as color, pattern, weave, style, fit and price, your judgment for which is your guide; but there are some things you can't see, and those are quality of fabric, inside trimmings, and tailoring.

You buy mostly from what you see, and for the rest of it you take somebody else's word.

The part you can't see is the most important. The service you will get of the clothes depends upon the quality, not upon the pattern or color. The fit depends upon the tailoring, not upon the style or weave.

The price depends upon what the clothes are, not upon how they look.
