### Short Tariff Sermons.

NO. XXII.

Free-Trade and poverty are Siamese twins.

In Free-Trade England there were 1,317,104 paupers exclusive of lunatics and vagrants, in the year 1890-91. They included persons of all ages. There were 315,457 under 16 years of age, or about three in every hundred of the total population of similar age.

Between 16 and 60 years, there were 591,796, or about four to every hundred of same age. Eight in each hundred of those between 60 and 65 years, or 65,889 in all, are paupers. Over 65 years, twenty-six out of every hundred or more than one in four, depend on public charity, of whom the total amounts to 343,982.

These are the estimates made by General Booth of the Salvation Army in his recently issued book, "Pauperism, A Picture."

While strength and health lasts, the sturdy Briton, as a rule, bears up somehow, no matter how low his wages, against the burdens of his miserable Free-Trade existence. But when old age draws near he is forced to the poor-house to end his days.

Here is General Booth's own pathetic comments on the sad facts he sets forth:

"Old age fares hardly in our times. Life runs more intensely than it did, and the old tend to be thrown out."

"The community gains by this, but the old suffer."  
"They suffer beyond any measure of actual incapacity, for the fact that a man is old is enough in itself to debar him from obtaining work, and it is in vain he makes pretense by dyeing his hair or wearing false teeth."

It will be a sad day for America when we experience such conditions here, as we surely would under Free-Trade.—*American Economist.*

### A Word to Republicans.

The hope of the party lies in the expansion of a stalwart Republican press. The Republican who helps to support a Democratic journal, to the exclusion of one of his own party newspapers, is untrue to the Republican cause.

Unanimously subscribed to by the National Republican League.

J. S. CLARKSON, President.  
A. B. HUMPHREY, Sec'y.

When the bill providing for the transfer of two Inman steamers to the American flag first became a law, the cable told us that a "storm of rage" was aroused in London. Now it is announced from the same source that the British Admiralty will take active measures to prevent the transfer on the ground that Great Britain has an option of purchase or charter on the vessels in virtue of certain subventions paid by the Government to the Inman Company. It is gratifying to note that the Inman people continue to push their preparations for the transfer of the two steamers to American registry just the same as though the British lion were not growling at all. Which attitude on the part of the company must exert a peculiarly mollifying influence on said British perturbed spirits.

Again this billion-dollar country with a billion dollar Tariff goes on record for a billion dollars' worth of American products exported in 12 months ending April 30.

The River and Harbor bill of the present Democratic House appropriates \$50,000,000, or twice as much as the alleged "billion-dollar Congress." Striving to secure a record as a "five cent" Congress the Democratic statesmen at Washington take the cake for spending the most money for the least results.

Tammany will be accusing the Rev. Dr. Parkhurst of being in the employ of the Republicans pretty soon.

A terrible epidemic of small-pox is raging at Pomeroy, O., and Marion City, W. Va., which towns have been quarantined. River men report the disease to be spreading and to have reached Letart; thirty miles below.

### Specimen Cases.

Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. These hats can be made of any kind of crepe paper, which can either serve as the trimming of an ordinary hat, or made up over an ordinary foundation of wire.

These hats are especially desired when worn in delicate occasions, and are light and cool, but of course fair weather friends, as a few drops of rain will ruin them.

**The Republican.**  
[Entered as second class matter.]

SATURDAY, JUNE 4, 1892.

Our Terms.—Our subscription price  
to all within the county is One Dollar  
per year if paid in advance. If not paid  
within the first six months, \$1.25 per  
year, invariably. To subscribers outside  
of this county always \$1.25 in advance—  
as we are compelled to wrap papers and  
prepay postage.

We supposed that it was understood  
by all Republicans that Hon. John J.  
Gardner was the favorite candidate for  
nomination to succeed Hon. James Bu-  
chanan, our eminent Representative in  
Congress. It has been a long time since  
Atlantic County has been allowed to  
name the candidate, and the time seems  
to have arrived when the voters of this  
County should claim the right to pro-  
mote a worthy citizen to the honorable  
place mentioned. No secret has been  
made of this desire and intention; and  
it was with no little surprise that we  
received the announcement that Mr.  
Joseph H. Gaskill, President of the  
State Republican League, was a candi-  
date for the same honors.

Of course, we have caught but good  
to say of Mr. Gaskill, he is in every  
way worthy and fully competent; but  
all of this, and more, can be truthfully  
spoken of Mr. Gardner; and his long  
and eminent service in our State Senate  
have given him pre-eminent qualifica-  
tions for a member of the National  
House of Representatives, and deserve  
recognition on the part of the Second  
District.

We hope that every delegate from  
Atlantic County to the District Con-  
vention will go prepared to overcome  
any opposition that may there appear,  
and secure the nomination of Hon. John  
J. Gardner.

Commercial disaster has followed the  
repeal of tariff laws or the radical reduc-  
tion of duties in every instance in the  
history of this country except in 1846,  
at which time we were engaged in war  
with Mexico, which was followed im-  
mediately by the Crimean war, when  
England had most of her pauper labor  
enlisted as soldiers. Even then distress  
was only delayed. When the effects of  
war abroad and of the discovery of gold  
in California, wore off, the free trade  
tariff of 1846 gave us its work and brought  
on the delayed but inevitable panic. In  
1857 the country learned that while the  
evil might be retarded and delayed,  
ultimate escape from the panic that  
always follows Democratic "tariff re-  
form" was impossible.

Our people have more to eat, wear  
and spend, and will pay off more debts  
this year than ever before in one year.  
No such prosperity as we now have has  
ever been experienced here, and our  
people in good life and high hopes.

Hammononton, May 20th, 1892.

It is necessary that the colossal com-  
petition of Great Britain should be  
checked, that her monopolists in iron  
and cloth should not be able to break  
down our manufactures, leaving us in  
a state of colonial vassalage and subject  
to political excess which makes society to  
its center and degrades the industries of  
the country into a whining or delin-  
quent of charity. The trades have  
variously dismissed one third or one-  
half or two thirds of their workmen.  
What a condition for a country great,  
prosperous and free.—*Horace Greeley,*  
January 18, 1855.

Democratic party, whoever he may be.

go to Chicago and claim the seats be-  
longing to New York.

appears affirmatively on the first tariff  
bill ever passed by an American Con-  
gress, and the generally accepted opinion  
in this country is that George was no

**HAMMONTON.**

When you buy the Hammononton  
Paint, you do not buy seven-  
eighths of a gallon for a gallon,  
or three pints for a half-gallon;  
nor do you get one of those  
packages that weigh 12 to 14  
pounds, and containing so much  
alkali that it appears to be so  
thick that it is impossible to  
use it without thinning; but in  
buying the Hammononton you get  
a full standard gallon of paint,  
weighing 14 to 16 pounds to  
the gallon, made from the best  
materials known to the trade,  
and costs the consumer from \$1  
to \$1.50 per gallon for honest  
paint.

If the purchaser doesn't want  
honest paint, and wants to be  
honest to himself, then be sure  
to buy the Hammononton Paint,  
and the manufacturer will give  
a receipt with every gallon sold  
telling you how to make two  
gallons of paint out of one of  
the Hammononton. It will cost  
33 cents for the extra gallon.

Paint, in 35 shades,—the best wearing
