Mail Delivery in Hammonton.

Unofficial information has been received by Postmaster Langham, that Hammonton is to have local free delivery in the near future.

Those who wish this service will be required to number their properties. It is probable that three or four carriers will be employed.

This is brought about entirely by the large amount of business done at this office, and not by any agitation of the subject by local residents, nor by any petitions that may have been sent in.

A clogged chimney in the house of one Silipigne, on Broadway, caused a fire alarm about 8.15 on Monday night. The two companies turned out, and though there was lots of smoke, it took some time to locate the fire. The house would doubtless have burned down had not the obstructing soot been removed.

Rev. Dr. Gardner and wife and daughter attended commencement at Peddie Institute, Hightstown, this week.—Dr. G. being an alumnus of that institution. They had the pleasure of hearing addresses by ex-President Taft and Governor Fielder.

Miss Claire Croasdale fractured her left arm, near the elbow, on Sunday, May 27th. An x-ray of the arm was taken, and conditions are favorable for entire recovery. The injury did not prevent her carrying out to perfection her part as "Evangeline," Thursday eve.

Services are being held alternate Sundays at Elm, conducted by the son of Sheridan Pressey, a former Hammonitonian. Though but a student, the young man is making friends throughout his circuit. Elm's next service is Sunday, the 18th, at three o'clock.

Posters are out, and hung up for miles around, advertising a Moose Fourth of July celebration in Hammoniton. They desire co-operation of all societies, business houses and individuals, and invite participation in the parade, which occurs at 10.45. At the Park there will be athletic events, for which an entrance fee of twenty-five cents will be charged to participants, trap-shooting, and fireworks in the evening.

Palace Theater was not nearly large enough to accommodate the friends and relatives of the Eighth Graders, Thursday night; but all who did crowd in (about three hundred of them) were very much pleased with the exercises,—the few individual declamations, and "Evangeline." The entire play, in which all the class took part, was very nicely carried out, and won repeated applause. Mr. W. R. Tilton presented the diplomas, with a few words of commendation and excellent advice. The High School Orchestra rendered good selections at frequent intervals. The closing song, "America," was entered heartily into by pupils and audience.

Who will it be—

Or—?

Natural Inference.
A school teacher was reading a story to a class of very small folks, and paused at the word "lay brother," to explain their meaning. "Does any one know what 'lay brother' means?" she asked. For a moment a row of perplexed little faces looked up at her. Then one face brightened suddenly, and a small voice piped, "Yes, ma'am—it's a rooster!"—Youth's Companion.

Too Much Sulphur in Gas.
It is not the soot from gas flame that blackens ceilings and corrodes metal, but the sulphur dioxide or trioxide that is a product of the combustion. If the gas contained little or no sulphur, as it might if the companies would spend a little more money in purifying it, our ceilings would remain white and the silver on our sideboard would not tarnish in a few days.
