ELVINS & ROBERTS

SOLE AGENTS FOR

The Styron Fence Co.

This style of fencing is becoming very popular, being made from sharpened cedar pickets and heavy wire cables; and when properly put up makes one of the neatest and most durable fences in use, either for poultry yards or other enclosures. When in want, we will be pleased to quote prices.

DID YOU EVER

Step to think what a fine piece of mechanism your watch is? and that you are injuring it by letting it run too long without having it cleaned and oiled?

A watch is injured more in one month, when running dirty, than in a year's time when properly cleaned and oiled.

Why neglect to have it cleaned, when you can get it done, and guaranteed, for One Dollar?

Our World's Fair Letter.

CHICAGO, JUNE 10, 1893.

The basis of our national industries is agriculture. It will surprise no one, therefore, to note the magnificence of Agricultural Hall. Reclining in an electric launch, under the shadow of the statue of the Republic, one commands a view of the three foremost structures of the exposition: Manufactures building, impressive for its magnitude; Administration building, noteworthy for its large and lofty gilded dome; and Agricultural Hall, conspicuous for its grace and beauty and the wealth and appropriateness of its adornments. Groups of statuary occur at frequent intervals, horses, oxen, farm implements and men, thrice life size; while the golden statue of Diana stands uptoe on the dome, with drawn bow always aiming at the wind. At the corners, under the arches, mural paintings portray the poetic of farm life, and inscriptions extol its advantages and delights. The displays inside are in keeping with the magnificence outside. Ingenuity in art is the rule. We will notice a few representative exhibits;

As we go east along the centre aisle, the first object of special attraction is a chocolate pavilion thirty-eight feet high. It is a temple of Renaissance style; its six sides all open, the roof supported by six columns of the Ionic order. This temple is made entirely of chocolate and cocoa butter—thirty thousand pounds—supported by and covering a wooden frame. Its appearance is that of rich brown marble. Within is a statue of Germania, sculptured out of a solid block of chocolate weighing two thousand pounds. The pedestal is decorated with reliefs of the Emperors William I, Frederick III, and William II, and of the Paladins, Bismark and Moltke.

Across the aisle is Michigan's exhibit. Over its entrance stands a farmer's family dressed in corn husks and grasses. Their rosy cheeks remind us of Michigan peaches. Next is Nebraska; its framework is covered with corn and its columns are of beet sugar. Inside is a model of the celebrated corn palace at Sioux City. Adjoining it is Iowa, richly ornamented with corn, and the State Capitol dome in grains and grasses.

A little farther on, Pennsylvania's pavilion has a striking ornament in the way of a mosaic made of beans. It represents two ponies rearing up at each side of a shield, on top of which stands an eagle with a scroll in its mouth. Ohio's exhibits are contained in a building of Grecian architecture, after the type of the old temples, with porticos running all around. Seventy-six columns of glass, filled with beans, peas, seeds and grains, support and give a pleasing appearance and faithful idea of Ohio's resources. Kentucky's pavilion is unique. It consists of an open framework hung with cords, tassels, curtains and fringes of tobacco. It is novel and charming, and the best use to which I ever saw tobacco put. Canada, across the way, gives her fauna as well as flora; as, for instance, more than two hundred varieties of butterflies are shown. Ontario has a mammoth cheese, eight feet in diameter, six feet high, and weighs two thousand two hundred pounds. It took two hundred and seven thousand pounds of milk to make it. It was brought in a car made especially for it. Denmark's exhibit is good but not particularly interesting, save in one corner, where stands a gentle cow with a peculiar looking apparatus strapped around her back and under her udder. It is a milking machine, and the inventor has it in operation every afternoon. I will not try to describe how it operates. It is not likely to revolutionize milking methods. A young lady who had carefully watched the proceedings finally remarked: "If I were in that cow's place I would kick," and I think most cows will agree with her.

ADAM ANTINE.

Exports of gold last week reached \$8,000,000, perhaps more. Free-Trade misrule and Democratic incompetence. "Coming events cast their shadows before."

THE LADIES ARE INTERESTED

In our display of Spring Millinery. Its equal has never been known here before.

The Prices are considerably below city competitors, because expenses are trifling, in comparison.

The stock is larger and more varied now than ever, and includes everything that adds to the happiness and attractiveness of woman-kind. Kid Gloves and Fine Laces are two new departures.

PAINT! PAINT!
—THE—
HAMMONTON.

When you buy the Hammonton
Paint, you do not buy seven-
eighths of a gallon for a gallon,
or three pints for a half gallon;
nor do you get one of those
packages that weigh 12 to 14
pounds, and containing so much
alkali that it appears to be so
thick that it is impossible to
use it without thinning; but in
buying the Hammonton you get
a full standard gallon of paint,
weighing 14 to 16 pounds to
the gallon, made from the best
materials known to the trade,
and costs the consumer from \$1
to \$1.50 per gallon for honest
paint.

If the purchaser doesn't want
honest paint, and wants to be
honest to himself, then be sure
to buy the Hammonton Paint,
and the manufacturer will give
a receipt with every gallon sold
telling you how to make two
gallons of paint out of one of
the Hammonton. It will cost
33 cents for the extra gallon.

One Dollar.

And then here comes Commercial
Paint, in 30 shades,—the best wearing
paint ever put on the market for so low a
price as \$1 per gallon, and guaranteed
to be a first-class wearing paint. If any
one should not want to pay so high a
price for a good exterior paint, then work
the 33 cent racket, and get two gallons
for \$1.33. Manufactured at
Hammonton Paint Works.

President Cleveland took control of
the Government last March with three
great issues open—the currency, Hawaii
and the tariff.

On the currency, the duty of preserv-
ing the gold balance was clear, and ev-
ery one expected this to be done. On
Hawaii, annexation or a protectorate
was the natural solution, and if not this
then unmistakable action with draw-
ing. On the tariff, every one had a right
to expect that the Democratic platform
would be honored and executed, a reve-
nue tariff proposed and in time enacted,
and the duties of revenue met by tax-
ing sugar, coffee and tea consumed by
the many, or the incomes of the few.
These issues were clear. Their solution
was unmistakable. Action by the Presi-
dent was sorely needed.

Three months have passed. The Presi-
dent has let the currency go, permitted
the reserve to be broken, relegated its
protection to Congress three months
hence, and every week has seen the
country drifting on the breakers of finan-
cial distress. (On Hawaii, no one, not
even President Cleveland, seems to know
what the policy of the administration is.
A protectorate is disavowed, yet the
American representative at Honolulu ex-
erts all the powers involved in one. The
flag is hoisted down, but the Islands are
not left free. Delay, rumors to trade,
and security and to the prosperity of the
Islands, is protracted from day to day
and week to week carelessly. Lastly,
on the tariff, the Democratic party is di-
vided and waits for some word of direc-
tion. The income tax has its advocates.
So has the sugar tax. The policy of
letting the tariff alone is strongly urged.
Meanwhile the party drifts. The re-
sult is disastrous. Failures multiply.
Depression increases. Factories close.
Companies assign. All because the cur-
rency is not settled and Democratic vic-
tory last fall unsettled the tariff. —Press.

The latest test for alleged insobriety is
said to be that of the doctor, who, the
other day, made two doubtful sailors
stand with closed eyes and arms extend-
ed. A test of a more intellectual kind
was in use in London a few years ago.
The subject was made to stand up and
repeat the following extremely simple
sentence quickly and distinctly: "She
stood in the doorway of Burgess's fab-
ric shop welcoming him in." If you can
say this off readily you may safely
submit yourself as a candidate for any
Prohibitionist leasureship.

The Republican party is "the same old
party," the party whose patriotism and
statesmanship restored the Republic
shattered by Democratic traitors and
placed the United States in the van of
human progress. The Republican party
arty of principle and not of expedi-
ency. It has beliefs and it fights for
them. It did not accept Bill Run as
prophet, and it did not accept the result of
last November as proof that free trade
and a degraded currency are what the
Nation needs. —N. Y. Press.

nothing could have been done.

Gen. D. A. Russell Post, G. A. R.,
desires to give public expression of their
gratitude to all who assisted in making
Memorial Day so great a success in

They say that ex-Sheriff Smith
Johnson is canvassing for nomination for
sheriff next fall; also, that Charles A.
Baake is already working for a re-nomi-
nation for Assembly, and that each is
working for the other. We have talked
with many Republicans on the subject,
and the unanimous verdict is DON'T.
We have no further use for a man who
will for the race-track hills, or those
who endorse their action in that respect.

All who are interested in the sub-
ject the new Opera House are invited
to a meeting at the office of Dr.
Walton Bellevue Ave., on Monday
next, to examine the plans
which have been prepared, and to dis-
cuss and means of getting the
financing of the project into definite
shape. Building operations can
be started as soon as possible. Several
methods of raising funds have been sug-
gested. It is believed that a full dis-
cussion will result in the adoption of
some plan which will lead
to a successful subscription, and will put
the matter on a solid basis at once.
This is an opportunity to give the town
an Opera House of which all will be
proud, and hoped that there will
be a large attendance at the meeting.

THE WOMAN'S FAIR,
CHURCH ST., JUNE 22d, 1893.
DEAR REPUBLICAN:—As I passed
through the fruit exhibit to-day, my
attention was called to what was said
to be the largest strawberry. On ex-
amination, I found they were from the
good old County of Atlantic and Town
of Hammonton, and from my friend
William A. Elvins. Like the school
exhibit, they are the best. Good for
Jersey.
S. E. MORSE.

The "Little Vernon Brothers,"
phenomenal child musicians, will give
an entertainment in the Baptist Church
next Saturday evening, 24th. Sidney,
twelve years old, is a violinist, and has
a wonderfully sweet soprano voice.
Howard, aged nine years, plays the
pizzico. Percy, though but six years
old, plays the violin-cello like a veteran.
The boys assisted in the Children's Day
exercises, last Sunday, in Hon. John
Wanamaker's Sunday School at Bryn
Mawr, Penna. Their concerts always
please.

Constable Bernhouse escorted
Andrew Roller and John Holsen to the
county jail, Wednesday, where they
will await trial at the September term
of Court. They were arrested on Tues-
day, charged with setting fire to the
woods on the property of Jacob Blazer,
at Folsom. At the hearing before Jus-
tice Atkinson, witnesses swore that they
saw these two men start the fire in the
woods, which spread and did consider-
able damage. In default of \$500 bail
each, they were committed. The maxi-
mum penalty for their offence is \$100
fine or one year imprisonment, or both.

Last week Friday, some one
placed a great roll of telegraph wire on
the track of the C. & A. railroad, at a
curve near Waterford. About noon,
the Hammonton accommodation came
around the curve at high speed, and
ran onto the wire before it was seen.
Mr. Wood, the engineer, reversed his
locomotive and applied the brakes, but
before the train could be stopped the wire
had been tangled up among wheels, rods,
and axles in bewildering shape. Had
the train not been promptly stopped, a
bad wreck would probably have been
the result. Footsteps were seen lead-
ing up the bank from where the wire
laid, but no one was in sight.

Arrangements have all been
perfected for the "Fifth Annual Lawn
Party and Columbian Fete," given by
the ladies of St. Mark's Church, on the
grounds of St. Mark's Church, next
Thursday, June 22nd, is the day de-
clared upon, and the hours are from 4 to
11 P. M. An entertainment has been
provided by twenty young ladies, and
we are authorized to state that it will
be well worthy of the occasion. Refresh-
ments will be provided, at the usual
prices, and admission has been fixed at
10 cents; children under twelve years,
half price. If rainy on that evening,
the party will be held on the first
pleasant evening thereafter.

MR. EDITOR:—There appeared in
your estimable paper of May 27th a
notice that Mr. E. B. Russell, a former
lector of St. Mark's Church, in this
town, had become a Roman Catholic;
and owing to severe trials he would join
some monastic order of that communion
and retire from the world. I wish to
state that the trial he refers to was a
deposition from the sacred ministry of
the Anglo-Catholic Church, by the Rt.
Rev. John Scarborough, D. D., Bishop
of New Jersey, in Grace Church, Mar-
chanville, April 11th, in the presence
of three witnesses. The charges against
him were of a very serious nature. It
is hoped that in the solitude of the
cloister he will have time to repent of
the harm he has done to the cause of
Christianity and to the Church of his
birth.

Ford's Theatre, in Washington, where
President Lincoln was shot, was bought
by the government, altered internally,
and used for various purposes. Lately
it has been occupied by the Pension and
Record Division of War Department.
Last week Friday, about ten o'clock,
while four hundred clerks were busy at
their desks, a large portion of the third
floor gave way, carrying the lower floors
with it, with the employees who occupied
them. Twenty-one were killed, and a
large number wounded. The Coroner
is endeavoring to fix the responsibility
for the disaster.

Commissioner of Deeds, Notary
Public, Real Estate and Insurance,
Hammonton, N. J.

Atlantic City papers are consid-
erably roused because a special meeting
of the Board of Chosen Freeholders was
held on June 1st, and some additions
and improvements to the county build-
ings ordered, without their knowledge.
They insist that the people of Atlantic
City should have due notice of county
matters, in order that their interests
may be carefully guarded.

It is well known that the State
Board of Health and the Grand Jury
have called attention to the crowded
condition and the defective sanitary
arrangement of the jail, and the Com-
mittee on Public Buildings (composed
of two members from Atlantic City and
one from May's Landing) was instruct-
ed, at the annual meeting, to procure
plans and specifications, and report at a
special meeting of the Board to be
called for that purpose. While the
reporters of the papers in question were
striving to brush off the flies that dis-
turbed their slumbers, Mr. William G.
Hooper was at his office, in the Real
Estate and Law Building, hurrying
forward the plans in order that the
work might be done to time to accom-
modate the tongs from Atlantic City
who crowd the county jail during July
and August.

We, of Hammonton, who cannot
reach the county seat without a drive
of eighteen miles, or seventy-five miles
by rail, are in favor of putting an entire
set of new buildings in some location
accessible to all parts of the county;
and when the Atlantic City people are
ready to declare themselves in favor of
doing so, the much desired change will
be made.

A Chinese baby is really the fun-
niest looking little tot that can be
imagined, and we have never seen such
a life-like portrait of one as that pub-
lished in the July number of *Demorest's
Family Magazine*, which contains "The
Oriental Legations at Washington." Besides
pictures of his wife and suite, and
views of the different rooms in the
Chinese Legation; and this highly in-
teresting article is further embellished
with curious and beautiful portraits and
views from the several Oriental Lega-
tions. The July number would not be
complete without something about fire-
works, and the bill is filled by telling
with pen and brush just how they are
made. To enumerate all that appears
in this grand "number" would take too
much space; but the Columbian Ex-
position, of course, comes in for its share,
and a water color, representing an in-
verted old straw hat in which three
cute little puppies have taken refuge,
makes the name "Full to the Brim" as
appropriate as the picture is desirable
and worthy of framing. All these at-
tractions under one cover sell for 20
cents. Published by W. Jennings Dem-

On Saturday last, Chalkley Sooy
was shot in the arm by an unknown
Italian. Just how it happened, we cannot
say. Rumor states that J. C.
Browning and Sooy were intoxicated,
went down to New Columbia, and while
there got into difficulty with one or more
Italian berry pickers, with the shot as a
duel. Sooy says he and Browning
were driving on Main Road; that as
they passed the end of Broadway, two
Italians came out of the house just op-
posite and made some offensive remark;
that Browning replied in kind; that one
of the men then fired at them with a
revolver, the first ball striking the buggy;
the second wounding him; that eight
shots were fired at them in all. No
arrests have been made, and so far as
we can learn, no effort made to find out
who the murderous villain is. Isn't it
somebody's business? At last report,
every effort to locate the ball had failed.

The 1893 edition of the Pennsylvania Railroad Company's annual book of Summer Excursion Routes has just been issued. It is tastefully gotten up, and presents in a most practical and comprehensive manner about four hundred popular summer resorts, from which excellent selections may be made for either limited trips or extended sojourns during the summer and early fall months. The great variety of routes suggested, the complete schedules of rates, the graphic and exhaustive descriptions of the different places, the explanatory maps and the illustrations, make this volume a most invaluable guide. Copies of the book may be obtained at any ticket office of the Pennsylvania Railroad on payment of ten cents, or upon application to the General Passenger Agent, Pennsylvania Railroad, Philadelphia, it will be forwarded upon receipt of twenty cents.

Steel barrels are a new wrinkle in England. These barrels are made in Barrow and Wakefield, and they are used for carrying petroleum. They are a success. The barrels, which are of light steel, are made in halves by means of compression in a mold when hot. Afterward they are used by companies which carry petroleum where the intense heat causes wooden casks to leak. Secretary J. Sterling Morton will have hard work persuading Western farmers that the cheapest wheat in thirty years is any blessing to them. Yet it has come after the victory of free trade, just as the last cheapest wheat came after fourteen years of the Walker tariff and its successor.

The attendance at the World's Fair has improved during June and the management are much encouraged over the improved outlook. Expenses will be reduced by the discharge of nearly 3000 men employed in the construction department.

Between the Compound Oxygen Treatment of Diseases and that by the use of Drugs? It is an important one.

Drugs are taken into the stomach. For this reason their action is not direct. Compound Oxygen is taken into the lungs, and, therefore, comes immediately into contact with and is absorbed into the blood.

Drugs, being generally poisons, act by causing a disturbance in the body. Compound Oxygen, being composed of the elements of the air, and acting upon the blood, is not open to this objection.

But, however it may act, it has certainly cured many cases of chronic disease, in which drugs have failed.

This is the point of greatest interest to all chronic sufferers. To all such we say: Send for our book of 200 pages, sent free. Read for yourselves what Compound Oxygen is, how it acts, and, above all, what it has accomplished.
