HAMMONTON, N. J., JUNE 30, 1894.

NO. 26

ELVINS & ROBERTS HAMMONTON, N. J.

Both of our stores will be closed ALL DAY on the 4th. The regular Wednesday morning delivery will be made on Tuesday afternoon.

We shall be fully supplied with goods suitable for the coming holiday, such as Bananas, Lemons, Canned Meats, etc., and hope to have your orders for anything you may used to make the day enjoyable.

NOW is the time and HERE is the place to purchase your fruit jars. Having secured a large lot at an extremely low price we wish to give our customers the advantage of it. We can furnish all sizes, viz., wide mouth pints, quarts, and half gallon, all A 1 Mason improved and the lowest price we venture to say even quoted to the people of the vicinity. Read carefully and compare with others. We think our figures will be interesting.

Pints at 48c. per dozen.

Quarts at 55c. per dozen.

Half galls. at 80c. per dozen.

Extra rubbers, extra tops, constantly in stock. Jelly glasses with and without covers, tin cans, sealing wax, wax strings, in fact, every thing needed in the line.

GERMEA" the latest production for a breakfast food. You have very likely heard something concerning it before this meets your eye, but want to say, this is the place to find it. Try a package,—15c. each.

Salt Water Taffy is the latest addition to the Candy stock. It is needless for us to enter into a minute description of the goods, as any one who has ever visited Atlantic City should be well acquainted with it. Put up in attractive packages, and at the popular price of 5 cents per box we think it should meet with a ready sale. Give it a trial.

We are constantly adding to our stock of Summer Dry Goods, such as Challies, White Goods, Dress Ginghams, Light Calicoes, &c., &c. Prices were never lower, and the goods never better nor in neater patterns. Call on us when you need anything in this line.

We have another new cracker we would like to say a word about not that they need pushing as once tried they will sell for themselves, but just to give you the name so you will know what to enquire for, viz., Cream Lunch Biscuit, and they are certainly the cream of the cracker family. Put up in very attractive packages, I pound each, and sell at Sc. Remember the price. Others are asking 9, 10 and 12 cents for goods we think are no better.

Graham Flakes are delicious for a light lunch, also simple and easily digested for invalids. We offer a splendid article at 15c., regularly 16c.

Soda Crackers at 7c. we know is a ridiculous price for A 1 goods. First-class stock in every way. Equal to any thing we have sold at Sc. or even more. Try them, we warrant them to please.

Another lot of Beck's Breakfast Flakes just arrived, making the third lot of three cases each since their introduction by us a short time since. For a healthful and economical breakfast dish are unexcelled, 10c. per package.

Spring Cloths Pins are quite an improvement over the old fashioned kind. These fit any size line, do not split and hold the clothes firmly. Try a dozen when you need. We venture to say you'll use no other. 10c. per doz.

ELVINS & ROBERTS

Bellevue Ave. & Main Road, and S. 2nd St.

(Telephone connection.)

The strike of the so-called American Railroad Union is sympathy run mad. The Pullman employees, at Pullman, Ill., have struck on the question of wages. The employees on more than a score of big railways using Pullman cars have stopped work in the expectation that somehow this will make the Pullman Company concede the demand of their employees. They have no grievance. It is the interference of many to secure the demands of a few, and by far the greatest sufferers are innocent third parties. Railways which have nothing to do with the difficulty between the Pullman Company and employees, and the public which is wholly disconnected with the cause of the trouble, are subject to inconvenience, annoyance, delay and loss because of a disagreement between the Pullman Company and its shop employees. The strike cannot succeed and ought not to succeed. This organized labor trick of bitting C in order to make A concede something to B is so grossly unjust, so indefensible and foolish that it has always failed and always must fail.

William Singerly, proprietor of the Philadelphia Record, is the victim chosen by the Pennsylvania Democracy to head their forlorn hope in the coming campaign. It is a fitting and appropriate selection. Mr. Singerly is the leading exponent of free trade in the Commonwealth of Pennsylvania, and it is meet and proper that he should be the one to do vicarious penance for the sins of his party. Inasmuch as he has been an active agent in leading the Democracy into the slough of free trade, there will be poetic justice in setting him us as a target for the suffering people to shoot their ballots at. Singerly's minority will probably reach 200,000.

Last Sunday, President Carnot, of the French Republic, was assassinated at Lyons by an Italian Anarchist, who climbed into the carriage and plunged a knife into the President's breast. The police had great difficulty in rescuing the assassin from the populace who were determined to tear him to pieces. On Wednesday the National Congress elected the Premier, M. Casimere-Perier, to succeed the deceased.

How it must warm the cockles of the old soldiers' heart to know that \$25,000-000 of the money Congress appropriated to pay pensions for the year ending June 30, 1894, remains unexpended, notwithstanding that thousands of applications for pensions from suffering veterans remain unacted upon, owing to the policy of delay which governs the Pension Bureau.

ROPOSALS will be received by the ROPOSALS will be received by the Atlantic County Almshouse Committee, until Friday, June 29th, 1894, at 10 o'clock A. Mr. for the erection of an eight or ten foot wind-mill over the rear entrance to the Almshouse. Tower to be 50 feet high, and contain a 1000 gallon cedar tank. The mill to connect with one of the wells already on the premises. Piping to be 14 inch galvanized. Committee will meet at Almshouse on the above date to examine plans and speciabove date, to examine plans and specifleations. The right is reserved to reject any or all bids. Address proposals care Almshouse Steward, Smith's Landing, N. J., and endorse on same 'Bids for Windmil.' JAMES B. TOWNSEND,

by General Greely.- A Similar Plan Used at Tel-el-Keber.

ENERAL GREELY, Chief Signal Officer of the Army, has again demonstrated the truth of the old saying that "necessity is the mother of invention." Battles of the future, while terrible in effect, will be brief in duration, and the necessity of knowing at any time what is required at the front will be even HAT popular Western maxim, about one only remain to tell the tale of the tribe and the Pottawatomic will a dead one, "will hardly apply to known in Michigan no more.

Charles E. Kilbourne, of the Signal Corps. The cart consists of a frame of bioycle-steel tubing, one inch in diameter, mounted upon thirty-two inch bicylo wheels, with heavy cushion tires. The cart is arranged to carry five reels of cable, and one knapsack containing an additional reel, for use in places where the court cannot be taken. The extreme width of the cart is only twenty-six inches, and it can follow any ordinary path. Its weight, some follow any ordinary path. Its weight, complete with spoiling device, but without the reels, is only fifty-five without the reels, is only fifty-five few years will witness their entire expounds; when loaded with the reels tinction.

Chief Pokagon is the last of the fishermen and farmers rowed out to the fishermen and farme wound with wire, the cart weighs 159 pounds. The cart is well balanced, and is attached to the axle by a device which permits the point of support to be changed as the distribution of the weight is modified as the cart weighs 159 pounds. When he goes to the happy hunting grounds, whither have countless numbers of his ancestage as the distribution of the weight is modified as the cart weighs 159 potatowatomic chiefs. When he goes to the mine and larmers rowed out to the mine and helped themselves. The find being located beyond the low water mark, the mine is public proposately was telling his wife about it.

Weight is modified as the cart weighs 159 potatowatomic chiefs. When he goes to the happy hunting grounds, whither have countless numbers of his ancestage. The man had been to see a prestidigular water mark, the mine is public proposately was telling his wife about it.

"One of his acts," he said, "was to the mine and helped themselves. The man had been to see a prestidigular water mark, the mine is public proposately and is being worked for all it will tribal enstage. weight is modified as the cable runs out. Each reel carries about one-third of a mile of double-conductor cable.

The ends of this cable have double connectors, by means of which they can be joined, so as to extend the line.

In each reel the double connector near est the axle is connected by means of which they was not connected by means of which they the first decade of the Eighteenth Center of the connector near watomies were found to have discovered by means of which is connected by means of watomies were found to have discovered by means of watomies were found to have discovered by means of watomies were found to have discovered by means of watomies were found to have discovered by means of watomies were found to have discovered by means of watomies were found to have discovered by means of watomies were found to have discovered by means of watomies were found to have discovered by making in front of a made was on Wednesday, when over made was on Wednesday, when over the made was on Wednesday

conductor cable, is placed in brackets on the left of the cart. The socket of this bracket is insulated from the rest of the bracket, and therefore from the frame of the cart. On this bracket is found a double connector, the insulated screw of which is connected by an insulated wire to the insulated socket and therefore with the inner conductor cable. Last February, Messrs. C. 1

Osgood & Co., shoe manufacturers of

Hammonton, represented to their em-

ployees that owing to the general busi-

ness depression, they could not promise

them steady work at the wages then

paid; but if the employees would accept a ten per cent. reduction, the shoes

could be sold at lower prices, and they

would endeavor to keep all hands at

work. The proposition was accepted,

the factory opened at once, the shoes

were sold quite readily, and there have

been no involuntary holidays until last

week-the usual time of closing for mid

summer. Inst Saturday was payday,

their money, Mr. Osgood reminded them

of the agreement of four months ago,

and added, in substance: "At our re

duced prices, our finished work has sold

well; we found some stock could be

bought cheaper; we have done better

than we expected; here is a check for

each of you, equal to seven per cent of

what each has earned under our agree-

ment," leaving the reduction but three

per cent. instead of ten. It was unex-

pected, and we do not wonder that the

hands are loud in praise of so honorable

In "Winter's Handy Book of Reference" occurs the

"Just at this point I think a few words regarding the use and manipulation of smothered hogs, or hogs that have died of disease, may be in order. * * Great caution must be exercised in handling such animals. They should always be handled with hooks, or with gloves. If handled with naked hands, on which is the slightest scratch or sore, blood-poisoning is almost sure to follow." And after giving the Recipe for handling it, says it can be "used in any mixture, or for any purpose."

All recipes for Lard Compound call for a certain per cent of the above pure Lard.

How much of such trash the people of Hammonton have eaten, is impossible to tell, - unless they have always used Jackson's Lard, in which case they can be sure that they have eaten none.

Moral,-Always use Jackson's Lard

WHERE THE WORLD BEGINS.

- Qb, fair is the land where the world begins So near to the other shore it Hee. (Only a span as the white dove files) So far away from earth's cares and sins, Around it sheltering walls arise, builded by love that never dies.
- This land is but one of the many inns Along life's pathway back to the skies There the dweller tolleth not: nor sning. But only watches with mute surprise The wonders passing before his eyes, A smile in his scepter, his mandate sighs, And weakness is ever the power that wine chandelier. In that beautiful land where the world be

CAN I OBTAIN A PATENT. For a prompt, answer and an honest opinion, write to MUNN & CO., who have had nearly fifty years' experience in the patent business. Communications strictly confidential. A Handbook of information concerning Patents and how to obtain them sent free. Also a catalogue of mechanical and actential books sent free.

Patents taken through Munn & Co. receive special notice in the Scientific American, and thus are brought widely before the public without cost to the inventor. This soledid paper, issued weekly, sisgantly linearisted, has by far the largest circulation of any scientific work as the WBM 2 deem Cample college sentials beautiful pates, in colors, and photographs of new houses, with plans, emabling builders to show the latest designs and secure contracts. Address MUNIS & CO., NEW YORK, 361 BROADWAY.

The diminishing remnant of the vast and gallant host that went forth. from the mountains, valleys and cities of Pennsylvania to the defense of the Union during the dark days of the Rebellion will reassemble on the historic battlefield of Gettysburg to-day, and for a week the veterans will live over again their wartime experience in true army style. The green heights of Cemetery Hill, thickly dotted with the white tents of the old soldiers, is an imposing spectacle in itself, while a continuous round of drills, parades, ceremonies and camplife frolics render Gettysburg a most attractive place to visit during the enencampment. From June 27th to July 6th, inclusive, the Reading Railroad sells special round trip tickets from all points in its territory at a very material reduction from the regular rates. These tickets will be good to return any day until and including July 9th. Sunday, July 1st, there will be special excursion trains over the Reading road from Philadelphia and also from Reading. The low fares afford a rare opportunity to visit the greatest battlefield of the rebellion, and those desiring information regarding tickets and trains can obtain the same from the nearest Reading

Professor Smith, State Entomologist, says the seventeen-year locust or cicada is about done-for, and a great many of them are dying fast. 'It is more than probable, he says, that wasps have been attacking some of the decrepid individuals who established their limit of lifeby laying eggs, but that every dying or dead locust was not the victim of a

Railroad ticket agent.

It should be remembered by all those desiring to take out final naturalization papers that, according to an enactment of the Legislature, they must do so thirty days prior to election or they will not be qualified to vote. This was one of the reform laws for which the people of New Jersey are indebted to this year's legislature.

The sugar trust is trying to "work' the Democrats of the House through impecunious Democratic editors in their districts. If you hear of a Democratic editor having changed his mind about the necessity for free sugar, just put him down as having been sugar-cured by the

Apparently the Republicans will have a worse deficit to tackle in 1807, after Cleveland retires, than they did in '61, when Buchanan stepped-down.

A man who is coerced into working or into quitting work, is a slave, The business of the government is to guard free labor in its rights.

Why is a proud girl like a music box? She is full of airs.

MEN WANTED To take Orders, No

A SMALL DOCTOR BILL-Fifty cents is a small doctor bill, but that is all it will cost you to cure any ordinary case of numatism if you nse Chamberlain's Pain Balm. Try it, and you will be surprised at the prompt relief it affords.
The first application will quiet the pain. 50 cent bottles for sale by A. W. Cochran

HE KNEW ITS WORTH: Dr. J. M. Davis is a prominent physician of Lewis, Cass County. Iowa, and has been actively engaged in the practice of medicine for the past thirty five years. On the 26th of May, while in Desmoines, en route to Chicago, he was suddenly taken with an attack of diarrhoea. Having sold Chamberlain's Colic, Cholera, and Diarrhoea. Remedy for the past seventeen years, and knowing its reliability, he bought a 25 cent bettle, two doses from which completely cured him. The excitement and change of water and diet incident to traveling often produce diarrhees. Every one should procure a bottle of this Remedy before leaving home. For sale by Cochran, druggist.
