1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That all the official acts of such commissioners prior to the date of this act, are and are hereby declared to be good and effectual in the law to all intents and purposes as if the official oath and impression of seal had been duly filed in the office of the secretary of state as required by law.
2. And be it enacted, That from and after the passage of this act it shall be the duty of the secretary of state to furnish to each of the several commissioners residing in other states a copy of the law of commissioners such as is now required by law to be furnished to the clerks of the several counties within this state.

That being necessary by the constitution, that every amendment to the constitution should be proposed by two-thirds of both houses of congress, the authors of said proposition, for the purpose of securing the assent of the requisite majority, determined to, and did, explode from the said two houses eight representatives from eleven states in the Union, upon the presence that there were no such states in our Union, but finding that two-thirds of the remainder of said houses could not be brought to assent to the said proposition, they deliberately formed and carried out the design of mutilating the integrity of the United States senate, and without any pretext of justice, and without the possession of the power, to do so, they, in fact, paid the price of the president, to countenance a member of their own body, representing this state, its equal practically denied to New Jersey, its equal practically denied to the United States senate, and the laws of this state shall be in force at the time the said taxes shall be assessed, regulating the assessment and collection of taxes, except as in and by this act is otherwise ordered and directed.

HAMMONTON!

Rare Opportunity to Secure

A HOME

To All Wanting Farms.

In the great Hammonton Fruit Settlement, the best inducements are offered to all wanting farms in the most delightful and healthy climate, with a good productive soil, being among the best in the garden State of New Jersey; only thirty miles from Philadelphia on the Camden and Atlantic Railroad, and but few miles to the New York Railroad. These lands are sold to the actual settlers at low prices and easy terms, in five, ten, twenty acres and upwards to suit. The title perfect, warranty deed, clear of all incumbrances, notwithstanding all the purchase money is paid, not when all the purchase money is paid.

The Soil

Is a fine sandy and clay loam, suitable for all grains and grasses, and is pronounced the best quality for gardening and fruit raising. It is a marvellous deposit, with a marvellous mixture of all through it in a very commuted form, and in the exact condition to support plants with proper farming it is very productive and profitable, easily worked, and warm and early. The lay of the land is slightly undulating, and is called level; it is free from stones or rocks. It is the best fruit soil in the Union. Peaches, Apples, Quinces, Cherries, Blackberries, Raspberries, Grapes of all kinds, and all other fruits are raised here in immense quantities, and they are sought after by the dealers and command the best prices in the market.

Hammonton is already celebrated for its fine fruits and wine. From two hundred to five hundred dollars is cleared, free from expense, per acre in the fine fruit culture. Sweet Potatoes, Melons, and all the finer Vegetables flourish in this soil; this branch of farming pays much better than grain raising, and is much easier work.

The Market

is unsurpassed; direct communication twice a day to Philadelphia, New York, and Atlantic City. The Railroad Company leaves Camden here at 10 o'clock in the morning, and here in the afternoon, and the same night or next morning by daylight are in the market, where the highest cash prices are obtained, without any other trouble to the producer than delivering the produce to the car. None of the land now offered is over one and a half miles from the Railroad.

The Climate

is mild and delightful the winters being short and open, out-door work can be carried on nearly all winter, whilst the summer is no warmer than in the north. Persons wanting a change for health will be satisfied here—the mildness of the climate is soon beneficially felt by delicate persons and those suffering from Dyspepsia, Pulmonary affections, or General Debility, as hundreds here will testify. This section has long been known for its health, and during the summer months tens of thousands flock here for health. No Malaria, Chills and Fevers in this section.

The Water

is pure and soft, of the best quality. It abounds in streams and is found by digging from ten to thirty feet. Wells are cheaply made here, as there is no rock to be run through. We have the best stores in the country, where goods are sold as cheap as they are in Philadelphia or New York. Good schools with competent teachers. Clergymen of all denominations reside here, some of them in charge of congregations, others cultivating the fruits; also a number of retired physicians. The Methodists, Presbyterians, Baptists, Unitarians, have their services regularly. Mills convenient.

Reliable practical surveyors who furnish all kinds of trees, plants, and vines at the lowest prices.

The population of the settlement is large and rapidly increasing. It comprises all the best classes from New England, the Middle and Western States, intelligent, industrious and moral. The buildings are neat and handsome, and some of them fine. All materials for building, improving, &c., at hand; also reliable mechanics who will give satisfaction. Every convenience to be had that can be found at any other place. Persons owning property here obtain tickets of the Railroad company to and from the city at a discount of twenty-five percent on the regular fare.

The lands have been examined by some of the best agricultural writers and fruit growers in the U. S. for fruit growing. Mr. John Robinson, the agricultural editor of the New York Tribune; Dr. J. P. Trimble, the State Entomologist; Mr. John G. Herpin, member of the American Institute of New York; and others, reported that they never saw finer growth of fruit, grain, and grass, than they saw here, and recommended this settlement to persons desiring to all the soil, for pleasure or profit. These lands are being rapidly sold, and from the rapid and extensive improvements property will certainly increase in value. Agents for J. J. Byrnes, the founder of the settlement, who has been in the land for several years. For further information inquire or address.
