I enclose you an account, of some mat ters which are being done by the agricul-tural department, which I think will have ome interest for the readers of the Ga deners Monthly. As an additional item I may remark that the Smithsonian Institution has turned over to the department a great number of specimens of plants and all purposes of arts and manufactures will be that Mr. Capron has employed Dr. Parry to arrange and lay the foundation of this national herbarium. Dr. P. has already spent two months on his task, which will give you some idea of the size of this little nucleus." From all I can learn, Mr Capron is endeavoring to make the depart ment a credit to the agriculture of the country, and although many things perhaps have not been done that many think ought or could have been done, most of these who know his difficulties think he has done all he or any body else could. If you thick any of these facts worth publishing, von are welcome to use them. I think it would be worth your while to pay us a visit; I never heard of your being here:

who have had occasion to visit thi beautiful area, south of the canal and between Tweltth and Fourteenth streets, can not but have noticed the activity displayed in the work of planting trees, transplanting and the work done within them-no leav of rare flowers, and various other opera tions tending to beautify and adorn the reestimating the cost. The result is that an vation allotted to the Department. Commissioner Capron is a close student, a pro gressive man, and thorough botanist : and will, if supported by the co-operation of Congress in meeting his estimates and appropriating therefor, make these grounds equal, if not superior, to similar gardens acres. This is considered sufficient to al now receiving so much attention in other

THE FLOWER GARDEN. Immediately in front of the building a flower garden of architectural beauty in formed. This is in perfect keeping with

the surroundings, and, when a stone wall is substituted for the present sodded terrace, with balustrades and vases and other decorative accompainiments on the pediiments, will present a fine appearance, and afford an example of harmonious arrange ment such as is only met with in the higher branches of design.

THE ARBROSTUM.

One of the greatest features; however, will be the arboretum or collection of trees. This will embrace a single specimen of every tree and shrub that will exist in this climate, and in their disposal a twofold arrangement has been kept in view, that of a strictly botanical classification of families. species, and varieties, and the production a high degree of landscape gardening. This has necessarily involved a vast all nations had to be ransacked in order to quirements of a first-class garden and the call out every suitable plant and tree. The fasciculi for this arrangement covers over 200 pages of closely written foolscap. As a collection of hardy plants it will be unequaled by anything in existence at the present time. To combine a strictly scientific arrangement with artistic effect required no ordinary amount and skill and foresight; years, however, will be required before the ultimate effects will be fully pro duced so far as the development of, individual forms and combinations of growth are concerned.

THE PROGRESS OF PLANTING.

Much has already been accomplished in the planting of trees and shrubbery. With the completion of the planting of the present season about three fourths of the entire collection will be set out. Many of the plants, especially those of our Western States and Territories, will be difficult to procure, not being in cultivation as you; thay are not to be found in ordinary nor series. Some of the family groups are already completed-the elms, for instance, number over fifty specimens, all distinct. Of ashes there are forty, of willows over one hundred, cake seventy, maple about fitty, and others are equally well represented. The pines and other evergroon species are now being planted.

ADVANTAGES OF THE COLLECTION. The possession of this collection will enable the department to answer many important questions with reference to the valus of trees for wood, rapidity of growth, &c., (a point of great importance in the trocless tracts in the West,) and the most auitable plants for live fences and other

aubjects of equal prominence. To the artist it will be of great attraction The various forms of growth, the individnal peculiarities of foliage and combinations of forms will afford a delightful study, and the mere visitor will be arrested by forms and beauties of foliage such as can rarely be found available; and the atudent in botany cannot possibly find a source of clementary knowledge at all comparable with did ?" that of being brought directly face to face

with the living plant. OTHER PROJECTS CONTEMPLATED.

Valuable and complete as this collection of plants will be, it is only a link in the chain of improvements contemplated by Commissioner Capron. Convinced that this country possesses localities and oilmates fitted for the growth of plants from other quarters of the globe, he is now having prepared a list of all plants whose produsts are used in medicine. When these are procured and their habits and requirements studied, they will be propagated and sent to such points as may be considered more suitable for their growth. The same

EXTENT OF GROUNDS.

The extent of grounds occupied by the

Arboretum proper embraces about twenty

low of tree development for the trees and

plants for thirty or forty years growth

It is hoped, however, that an additional

space will be secured within the next ten

years to allow of the removal of certain en

tire orders of families of the trees, which

can be done without injury to the plants or

to the system adopted, and at trifling cost.

This addition, it is to be hoped, will be

granted, as there is abundance of unim-

proved Government property contiguous

awaiting this combination of landscape

These are but a small enumeration of the

many projects entertained by the Commis-

loner for the improvement of the grounds

of his department. For the system and

radical changes already introduced the

Commissioner deserves the thanks of the

vergrowing her life What shall I do?" thought the little timid, shrinking wife. "O what shall]

do ?' But child as she was. Daisy had a strong esolute, woman's heart within her, nor as she long in coming to a decision.

"Daisy," said her husband to her the next day, "you haven't any objections to my attending the Orion Bal Masque?" Are Masked Balls nice places, Her bert?''

O, yes, everybody goes; only I thought 'd pay you the compliment of asking whether you disapproved of it or not?" 'Can I go with you?".

"Well-ahem-not very well, this time; Daisy. You see, Mrs. Fenchurch really hinted so strongly for me to take her that I couldn't help it."

Very well," assented Daisy, meekly, and Herbert-repeated within himself the prean of praises he had chanted in Mr. Porteross' cars: "The best little wife in he world!"

But notwithstanding all this, Mr. Ainscourt was not exactly pleased when at the self-same Bal Masque, during the gay period of uamasking, he saw his wife's inuocent face crowning the picturesque costunie of a Bavarian peasant girl.

'Hallo!" he ejaculated, rather ungraously, " you here!"

"Yes," lisped Dalsy, wan a halle. "You said every body went! And smile. "You said everybooh, Herbert, isn't it nice?"

Mr. Ainscourt said nothing more; but Mrs. Fenchurch found him a very stupid companion for the remainder of the eve-

He was late at dinner the next day, but, ate as he was, he found himself more punctual than his wife, and the solitary meal was half over before Mrs. Daisy tripped in; her cashmere shawl trailing over Mr. Porteross. "But what's your exact pink with the fresh wind. her shoulders, and her dimpled cheeks all

"We! Who are we?"

"Why, Col. Adair and I-the Color Adair that you go out with so much." "Now look here, Daisy!" ajaculated Mr.

Ainscourt, rising from the table and pushng back his chair. Adair isn't exactly the man I want you to drive with." "But you go everywhere with him."

"I dare say -but you and I are two difcrent persons,"

"Now, dear Horbert," interposed Daisy, wilfully misunderstanding him, "you know I never was a bit proud, and the associates that are good enough, for you are good enough for me. Let me give you a fuw more cysters."

"Ainscourt looked sharply at his wife. Was she really in carment, or was there a mocking auderourrent of satire in her tone? But he could not decide, so articss was her countenance, "I'll talk to her about it sometime,"

war his internal decision."

"Daisy," he said carelessly, when din nor was over, "I've asked old Miss Barberry to come and spend the day with you to-morrow!"

"Oh, have you? I'm sorry, for I am on gaged out to morrow. "You! Where!" "Oh, at Delmonico's, I've joined a

Woman's Rights Club, and we meet there to organize.''

"The duos take woman's rights," clac ulated the irate husband. "Of course I don't believe in 'em, but it's the fashion to belong to a club, and

such a nice place to go to of evenings. 1 am dull here of evenings, Herbert! Herbert's heart smote him, but he an wered resolutely: "I beg you will give up this ridiculou

dos. What do women want with clubs?' "What men to, I suppose," "But I don't approve of it at all."

"You belong to three clubs, Herbert, That's altogether a different histor. "But why is it different, Herbert?"
"Hom -why? because of course as

body can see why -it's self evident,"

I must be very blind," said Mrs. Ains lasto. A Street Arab.

W. G. SHEPPARD.

Ragged the lacket and trowsers he wears,
Rugged the sluces on his feet;
For shoe or jacket little he eares,
This Arab of the street,
'Pitching pennies' here in the Park
Along with a noisy crowd.
All of them ragged and dirty like him,
Wranding and shouting along She did change, somehow. She went

your wife, pined at home alone. "But why didn't you tell me you were

"Because you would have laughed at he idea and called it a woman's whim, resolved, when we were first married, to fritter away neither time nor breath in idle complaints. I have not complained. I have simply followed your example. If it was not a good one, whose fault was that? Not mine, surely."

"No, Daisy, not yours," he assented. "I don't like this kind of life," went on Daisy. "It is a false excitement-a hollow diversion; but I persisted in it for the same reason, I suppose, that you did-be-cause it was the fashion. Now tell me Herbert whether you prefer a fashionable wife, or Daisy."

'Daisy-a thousand times Daisy!" "But Daisy can't get along with a theatre-going, club-living husband,

"Then she shall have a husband who finds his greatest happiness at his own hearthstons-whose wife is his dearest treasure-who has tried the experience of surface variety, and finds it unsatisfactory sorry! But we have been driving in the career anew?"

Yos." "But what must you have thought of me all this time?" she asked him, after a

"I know what I think now."

"And what is that?" "I think," said Mr. Ainscourt, with emphasis, " that you are the best wife in the

world." "I HAVE STOPPED YOUR PAPER."

The following ancedote, told by a Philadclphia paper, is decidedly suggestive :

"Many years ago, Mr. Swain, then edite of the Public Ledger, was hailed at the corner of Eighteenth and Chestnut streets by very excited individual, who informed him in the most emphatic terms, "I have stopped your paper sir," and proceeded to explain the why and wherefore, all the time gestioniating wildly." " My gracious; sir, you don't say so. Come with me to th office, and let us see if we cannot remedy the matter. It grieves me that any one should stop my paper."

Arriving at the office Mr. Swain said, "Why, my dear sir, everything seems to be going on here as usual; I thought you had stopped my paper." Then and there the excited gentleman whom the long walk had by that time partly cooled, said that he had stopped taking, his one copy of the Lodger. Mr. Swain was profuse in his apologies for having misunderstood the thouning of his late subscriber's word, and regretted that he had given him the tramp from Eighteenth street to Third. The gentleman went on his way home, a wiser if not a better man. Hefore he left, however, he ordered that the Ledger be still sent to his address.

≱ar "How well he plays for one young," said Mrs. Partington, as the organboy performed with a monkey near her door, and how much his little brother looks :ko him, to bo # ure !''

Bugar plums, rich food, wine and beer, are among the things which the roy. al children in Prussia are never allowed to

Wrangling and shouting aloud,

Twixt the row of buildings on either side
With their windows staring down

For to me to day as I stand in the Park,

- Harper's Magazine.

The Workshop, the Kitch in, and the Parlor. There was recently in Boston a meeting rified at its source or not at all .- Harper's of working-women to consult upon their condition. The persons who spoke told a a very simple tale of labor and suffering from their own experience, and a very pit I will point you a sign, rum-seller,
And hang it above your door,
A truer and better sign-board
Than ever you had before.
I will paint with the skill of a master
And many shall pause to see
This wonderful piece of painting,
So like the reality. iful tale it was to read. It reminded you of that picture in which John Leech repre sents a figure of death sewing shirts, in illustration of the slop-shops of London. Perhaps, however, the sequel of the rev elation made at the meeting is still more painful. One of the newspapers, which was unwilling to believe the stories as they were told, added the remarkable statement

that, if there were so many women so solely pressod to live by the needle, therepleuty of places where they would be thank fully employed as domestice servants at good wages. This is probably true, and yet they will not go. The one thing which they cannot bear is what is technically called service. What a change from the time when country girls came to town and withrespect, did all the "I hope I can do hold work of families! better than slave in a kitchin," is the in. stinctive reply to a remote suggestion of this kind.

But can a thing that ought to be done be more than well done, and it well done ought not the respect for it to be as pure in kind as for the doing of any other acces sary thing, although it may be less in degree? Lois is quick, handy, full of tact and taste, and she is presently a milliner n high repute. It was her neat equipage you passed in the Central Park yesterday ifternoon. Jerusha is slow and heavy, and she is after a dozen years the same honest chamber-maid she was at first. We all acknowledge the superior gifts of Lois. But unless labor be in itself divgraceful we ought not to feel that Jerusha is stigmatized by the kind of labor to which she is devoted. The labor being necessary is honorable, is it not, oh, good American? Then there an be no dishonor in engaging in necessary labor, can there?

Look at the case of the Boston workwomen. An employer says to them, let na aupposo, " Lloro are a dollar a work, a garrot, cold, and starvation for sowing shirts. Another employer says, "Here are a home, plenty of food and fire, and eight dollars a month for chamber-work." Brains, il you please, do not much, onter into the calculation. Yet there is a recoil as of insult and injury from the last, and a bitter acceptance of the first. If the reason of this recoil be what is called pride, is it an course, lead. In the majority of cases, honorable pride ? Jane goes into a cotton | will, Jemima into a kitchin. Blay Jane, for that reason, take airs and fool that she is worth remembering that palay has been is the lady, while poor Jemima is a menial? And mental is not originally a word of discredit or humiliation. It mean merely family or household; and servile is only the quality of serving ; and we Christians, you doubtless be some with an extr. me suscepremember, do not speak ill or think ill of nervius others. 'Ah, indeed, Mr. Easy Chair!" ex. risk of finding the "restoration" of their

er Republic, Atlantis Co. M. J.

In the great Hammonton Fruit Settlement, the best inducements are offered to all, wanting farms in the most delightful and healthy climate, with a good productive soil, being smoog the best in the graden estate of New Jersey; only thirty miles from Philadelphia on the Canden edid Atlantic Hairoad, and but few miles the New York Railroad. These lands are sold to the actual settlers at low prices and easy terms. In five, ten, twenty acres and upwards to suit.

The Title Perfect.

Warrantes deeds, clear of all incumbrance, given when all the parchase money is paid.

The Soil

is a fire sandy and clay loam, suitable for all grains and grasses, and is pronounced the finest quality for gardening and fruit raking. It is a manne deposit, with a marly substance mixed all through it in a very comminuted form and in the exact condition to support plants. With proper farming it is very productive and profitable, easily worked, warm and early. The lay of the land is slightly undulating, and is called level; it is free from stones or rocks.

The Best Fruit Soil in the Union.

Pears. Passhes, Apples, Quinces, Cherries, Blickberries, Raspberries, Grapes, of all kinds, and all other fruits are raised here in immense quantities, and they are accept after by the dealers and command the best prices in the markets.

Hammonton is 'gready celebrated for its

the best prices in the markets.

Hammonton is already celebrated for its fine fruits and wine.

From two hundred to five hundred dollars is cleared, free from expense, per acre in the fine fruit culture. Sweet Potatoes, Malona, and all the finer Vegetables delight in this soil; this branch of farming pays much better than grain raising, and is much easier work.

The Market

is unsurpassed; direct communication twice a day to Philadolphia, New York, and Atlantic City. The Railroad Company leaves cars here to be filled with fruit every day in the season; they are filled in the afternoon, and the same night or next morning by daylight are in—the market, where the highest cash prices are obtained, withoutany other trouble to the producer than defivering the produce to the ear. None of the land now offered is over one and a half miles from the Railroad.

The-Climate

is mild and delightful the winters being Is mild and delightful the winters being abort and open, out-door work can be carried on mearly all winter, whilst the summer is no warmer than in the north. Persons wanting a change for health will be satisfied here—the mildness of the climate is soon beneficially felt by delicate jointonis and those suffering from Dyspensia, Pulmosary affections, or General Debility, as hundreds here will testify. This section has long been known for its health, and during the summer months tens of housands flock for health, No Minsma, Chills and Fevers in this section.

The Water

abounds in streams and in ound by digging with every conve ionce for businers, and a reform ton to thirty feet. Wells are very cheaply made, as there is no rock to go through. We have the best stores in the feetings, where goods are sold as cheap as they are in Philadelphia or New York.—

Good schools with competent teachers.—
Glesgween of all denominations reside-here against them in charge of congregations, others cultivating the fruits; also a number of restricted physicians. The Methodists Presbyterians, Raptists, and Universalists

Presbyterians, Raptists, and Universalists come of them in charge of congregations, others cultivating the fruits; slot a number of retired physicians. The Methodists, Presbyterians, Reptists, and Universalisis have their services regularly. Mills convenient.

Reliable practical nurserpmen who furn-th all binds of trees, plants and vines at the lowest prices.

The population of the actilement is large and rapidly increasing; it is composed of the best classes from New England, the Middle, and Western States,—intelligent, industrious and motal. The buildings are neat and handsome, and some of them fine. All materials for building, improving, &c., at hand; also reliable mechanics who will give satisfaction. Every convenience to be had that can be found at any other place.

The lands have been examined by some of the best agriculturists and fruit growers as the country, who pronounces them the best in the U.S. for fruit growing. Mr. Solon Robinson, the agricultural editor of the Mew York Themus; Dr. I. P. Trimble, the State Entomologist; Mr. John C. Bergen, member of the American Institute of New York; and others, reported that they never saw a finer growth of fruit, gradi, and grass; then they saw here, and recommend this settlement to persons electrical to till the soil, for pleasure or profit.

These lands are being rapidly sold, and from the rapid and extensive in reluctions to R. J. BYANES, the founder of the settlement, who will show the lands The lands have been examined by some

the settlement, who will show the lands tree of expense. For further information gains or address.

The Best and Cheapest Family Sewing Machine

IN THE WORLD, The \$25.
NOVELTY SEWING MACHINE.

It makes the famous elastic lock stitch that will not rip nor ravel and will not break in washing, ironing, or wearing. The adapted to all kinds of family sewing, and to the use of remistresses, eleasinakers, and sudered to all purposes where sewing is required. It uses the straight needle, which jainet so liabte to break as the curved. It does not sollished to break as the curved. It does not sollished to break as the curved. It does not sollished the purposes of the operator, and does not require to be taken apart to be taken. does not soil the dress of the operator, and does not require to be taken apart to be 6 ided. It is not injured by being turned loneward, and is, therefore, not liable to be put out of order by children or inexperienced persons. It is made in the most thorough manner, of the best material. For beauty and oxeellence of stitch, for strength frumers, and durability of seam, for economy of thread, for simplicity and throughness, and for cheapness this machine is

- WITHOUT A RIVAL. At the Massachusetts State Pair of 1867, the juralty Sensing Machine Touts the Premium over Wiley & Libbs and sone warded to bronze med

mak as ware constantly receiving from all parts of the country;
From the Christian Intelligencer, New York, Ing. 16, 1868. "In point of price-this-machine is less than half that of any other reliable and surranted machine. Of its merits as its simplicity, reliability and dorability, abandant testimony can be furnished."
Erom the Liberat. Christian, New Yorky-July 18, 1808. "Every family and every scannareas should have one of three admirable machines."
From Harper's Weekly. "Every so unstress, every family sould in awounc."
From the Julg's Report, Massachusetts State Fair, 1867, who wendy the Novelty Sening Machine a metal, in the face of opposition from the

kine a medal, in the face of opposition from the stabilished high priced machines;

"This machine is the very embediment of simplicity. Ladies will find them useful and convenient" Reliable Agents wanted everywhere. To such

the bustness thoroughly, valuable territory will bo awarded.
