HAMMONTON, N. J.

We reduce the price of those "Peerless" Coffee Cakes to 5 cents per pound,—quality as usual, A 1. No broken stale stuff,—all fresh baked stuff.

New Canned Lobster is now in, and for fine quality and care in packing cannot be excelled. Only choicest of the fish are packed. Put up in paper-lined one-pound tins, either tall or flat, very desirable for salads or to serve plain. We warrant every can.

Tall Cans, . . . 22 cents.
Flat Cans, . . . 25 cents.

Dunham's Shred Coconut is, without exception, the finest article of its kind now on this market. Always sweet, fresh, and ready for immediate use. Elegant for cake or pie. Quarter pound packages, 8 cents.

Oh, the Flies! how they do bother us! Sure relief is secured by using "Tanglefoot" Sticky Fly Paper,—two sheets for 5 cents. 25 double sheets, with Holder, for 50 cents. If you object to the sticky paper, we have "Dutcher's Lightning Fly Killer." Simply fold a piece of the prepared paper, place in a saucer, and cover with water; set the dish where flies are most troublesome, and you will be surprised how soon you will be rid of the pests.

Fly Fiend—for horses—is certainly the greatest discovery of the age. Simply brush your horse or other animal lightly with the preparation, and the flies will not trouble them in the least for several hours. Two applications a day sufficient.

Fly Traps—for those who have a prejudice against fly paper of any kind. We think we have the best, and at an extremely low price,—16 cents each.

Have you tried "Germea" yet? No! Well, you are missing a good thing. This hot weather it is delicious for breakfast, and very quickly and easily prepared. A two-pound package for 15 cents.

Another summer article of diet which has become very popular is CRYSTAL RICE. These days you don't care for much fire about the house. The great advantage of using this Crystal Rice is that it requires no cooking. Serve it as you buy it, with milk and sugar. 5 cents per pound.

"Columbia" assortment of Mixed Mustard. The advantage of it is, you have almost any kind of a package desired, there being twelve different styles of packages in the assortment. Ready mixed for the table. 10 c. each, your choice of style.

New Cheese now in, but quality never finer. We reduce the price to 12 cents.

Sardines are seasonable goods. Very nice for picnic parties. We quote domestic, in oil, quarter-pound tins, at 5 cents; in mustard, 6 cents; imported, in oil, 15 cents.

Egg Macaroni, served with tomatoes, makes an elegant dish. One pound packages at 14 cents.

"Belle" Condensed Milk is rapidly taking the place of all other brands of like goods. The finest article for the price we ever offered for sale. Full weight cans at 10 cents, and every can warranted.

We still handle those justly popular "Quaker City" Hams. The present railroad conditions have forced the price up a little, but you can depend on the quality being the same. Either whole half or sliced. We make no quotations. Cause why? We think it best not to.

We still have plenty of Quart Berry Baskets, which we still hold at old figures,—\$3.40. Crate Separators, \$1.75 per 100. Grape Baskets, \$3.50 per 100. Carriers, 15 cents each.

Let us have your order for any or all of the above.

New Black Grass is now in. Also, a car of choice Mixed Fresh Hay, which we quote at 85 cents per 100 pounds, small bales. Special price on half-ton or ton lots.

A change of time-table on the Atlantic City R.R. took effect June 29. Trains now leave Hammonton as follows: For Philadelphia, accommodations at 5:10, 7:01, and 8:54 a. m., and 5:20 p. m.; express at 7:32 and 9:38 a. m., and 6:07 and 10:07 p. m. Down trains: accommodations at 9:19 a. m., 5:51 and 7:52 p. m.; express 11:34 a. m., 3:49 and 5:47 p. m. Sundays: up at 8:04 a. m., 5:37, 5:55, and 10:09 p. m. Down, 9:38 a. m., 6:02 p. m.

We have heard much talk of "speak easies" in Hammonton, and at least one of them has been pointed out to us, and the statement made that it has become a public nuisance. Now, if the town authorities wish to do their duty in the matter, we will take pleasure in putting them on the track of this. It ought to be suppressed.

A lawn party, under the auspices of the Epworth League, will be held on the grounds of P. H. Jacobs on Friday eve, July 20th. A good entertainment consisting of violin and piano solos, reading, singing, and tableaux will be given. Admission, 5 cents. Refreshments for sale. If stormy, the next evening.

E. S. Courtright has performed a wonderful feat in photography. He photographed a dead young lady, with her eyes closed, her body in a reclining position; then painted out the eyes in the print, copied it, and, in the enlargement crayoned in natural eyes. The family ordered three large crayons.

There are now in the circulating library at Crowell's Pharmacy, about 1400 books—the choicest in all lines of literature—the latest worthy publications as they appear. Terms, \$3 per year; \$1 for three months; 10c. per week. Call and see what are now on the shelves.

I have an A1 store for sale, with a driveway in rear, on the popular side of the avenue. A snap bargain. WM. RUTHERFORD.

The tariff bill has gone to a conference committee. Nobody knows what the new revisers will do, but not much can be expected in the way of protection from a committee that is made up wholly from the South, with one exception and he an avowed free trader. The spectacle of the South legislating for and dictating the business policy of the North is not an encouraging one. It was the South that made the Chicago free trade platform, and it is the South that can dictate to the Democratic party what its industrial legislation shall be.

Organized labor has no more right to stop a train than an individual; the one has no more right to clog the wheels of commerce than the other. Organized labor has no more justification in the violation of law and the creation of disorder than the separate individual; organized labor has no more right to take other men's property or hinder them in the free use of it than the single man. And who will contend that the individual has a right to do any of these?

There are more names on the roll now drawing Mexican pensions than there were soldiers in Mexico during the war. But no complaint is found from Democrats about the Mexican pensions. There is a bill favorably reported to the House now to increase the pensions of all the remainder \$4 a month. This is the difference between treatment of union veterans and the ex-confederates who served in the Mexican war.

A number of prominent Americans have formally invited Mr. Gladstone to make a visit to America. If the Grand Old Man should come the larger half of England would be on this side of the water. What a royal welcome the American people would give the great Premier.

Two newspaper reporters are indicted for refusing to betray confidence, but two augur trust men who also refused to tell what they knew go scot free. This is the sweetness of refinement.

The law needs to take Debbs by the back of the neck and set him down with an energized force.

The income tax which Senator Smith twice denounced as a separate provision was good enough for him to vote for when it was mixed with the sugar tariff bill.

The U. S. Treasury deficiency is the biggest in twenty-nine years. And so is the deficiency in the pockets of the people. When Democracy gets at it, it can smash things.

Of the annual appropriation of the general government to provide arms and equipments for the militia, this State will receive \$8,625.

Labor leader Debs' idea of personal rights is that the rights of others shall be what he lays down.

SE YE ONE

Sweetheart, 'twas a happy day
When we heard the preacher say,
In his solemn mood, he said,
"Man and woman, be ye one."
I can see his dear old face
In my heart's dear old place;
I can feel his pulses thro',
I can hear your mother's voice,
"Man and woman, be ye one."
Wasn't there a spice of fun
In this naming of us two?
I was scarce a man, and you—
You were just a slender slip;
When we took our bridal trip;
But we felt no lack of fun,
As we mingled happy tears,
"Man and woman, be ye one."
One who was while moments run
Onward toward that open sea
Where new argosies may be—
One in heart and life and all—
Each a miser, each a thrall,
As we were our happy day
When I bore my bride away.

STRANGERS, AND TAKEN IN

HE Open Air Hotel
is a fine old building,
We liked the name, so Bopper
and I, lounged
in the dilapidated
entrance.
"Do the gentlemen wish to
sleep here?" asked a female
antique, who evidently
didn't want to be
bothered.
"Yes, the gentlemen have thought
of such a thing."
She regretted that the hotel no
longer put up travelers. One could
drink there, but not sleep. "Doubt-
less the gentlemen can read?"
Her tone was not so hopeful as her
words, so Bopper hastened to assure
her that we were not so bad as all that.
He was a little touchy on the point.
He knew that our appearance did not
improve as we went on. But this was
only our fifth night on the tramp, and
it was really too soon to begin remarks
of this kind.
"Then, if the gentlemen will have
the goodness to leave by this door, and
take the first turning to the left, they
will see before them a very suitable
hotel, and not too dear."

"The Open Air Hotel was evidently
one of those delightful, confusing
places that you enter by one street and
leave by another—doubtless a most
convenient arrangement in the good
old days—when the hotel was in its
prime."
The first turning to the left brought
us to the Three Travelers, a good third-
rate hotel. We knew from the size of
Gien that there was bound to be a hotel
de France somewhere, but too tired
to move a step farther, we dropped our
knapsack—it was Bopper's turn to
carry it that day—and clamored for
food.

Dinner—our tramp supplied the
saucy—put near his nose as we
stroled out to see the town.
Sure enough, there was the usual
comfortable Hotel de France. Passing
by it without comment—our hearts
too full for words—we came to the
Mairie, in front of which was a warlike
statue.
Being near to that part of the coun-
try, we had actually to ask the name of
the figure. We were just on the border
of the Vergingetorix country. For
weeks after we never had to ask the
name of a statue. Whenever we saw
a figure with a weapon in its hand
of any kind from a horseman to a pat-
ern combination of men and battle-axe
we knew it was Vergingetorix. In that
district they parso Vergingetorix as a
common name.

At any rate, Bopper told a school
master so with a point of interrogation,
and the schoolmaster did not deny it.
After admiring our first Vergingetorix
we wandered on to the bridge.
The setting sun was turning the Loire
into blood. Even Bopper, the Thins-
tine, said it was fine.
We sat down in one of the embra-
sures of the bridge to admire the town.
Up on the hill behind the houses was
a very fine old chateau—a sort of com-
pound of the Norman castle and the old
Scottish baronial.
Stopping a passer-by I asked whose
the castle was. The man seemed as-
tonished at our ignorance.
"But, to Mr. the Commandant,"
was the reply.
Bopper never liked to be outdone in
hunting for information. He stopped a
gendarme, and asked if we could get
in to see the chateau.

"But yes, perfectly, if the Com-
mandant orders." From his grim
smile we inferred that the order was
not likely to be given. But gendarmes'
jokes are not to be taken too seriously.
When we got to our hotel we tried
to find out more about the chateau,
only to be met by gruff and evasive
answers.
The crowning insult came. Never
before in France, and never since,
have we been asked to pay our bill in
advance. Bopper stormed; my miller
cousins provided. We paid. Then
we sat on our bed-room. It contained
fifty square feet and two beds. There
was a fourteen-inch lane between the
two beds. I thought of the last scene

in the "Sentimental Journey." Bopper
thought of going to the Hotel de
France. Bopper was right.
Once we passed a worse night. But
our night with the Three Travelers was
had enough to encourage early rising.
We shook the dust of Gien from our
feet at 3:50 a. m. Oh, the delight of
that fresh morning walk along the Loire
to Briare! The ten kilometers soon
passed without our noticing them. Our
morning coffee! But I have promised
Bopper to use no exclamation points in
anything that is not a concern in this
world.

After a delightful morning's walk of
nearly fourteen miles, we came to the
city of Briare, a town of about
10,000. You happen to be passing
that way, don't forget to have
breakfast at the Green Oak. If you
hurry, you may even have the good
fortune to be served by the same dainty
waitress that Bopper himself had
praised. He exercises very freely his
married man's right to run down all
womankind but his own. This morning
he was graciously pleased to ap-
prove.

"Well, Kuppard, we've had a glorious
tuck-in," said Bopper, as filled his
pipe, while passing out of the main
street of Briare. "I thought we should
never get another."
The last house in the village toward
the south is a long, one-story build-
ing, with a little double-storied por-
ch at the end nearest the village. It is
particularly clean. At the time we
saw it the whitewash was quite fresh.
A trier, which was warranted always
to wave in the breeze by the simple ex-
istence of being made of iron, gave us
a hint, which a long signboard made ex-
plicit with the word "Gendarmerie."
As we approached, the postern of the
courtyard gate was thrown open and a
little man sprang out. He had a pair
of dark blue trousers, with a darker
stripe of blue down the side, a pair of
spurs, a huge white apron, and his shirt
sleeves and a bald head.

We halted there. For though the lit-
tle man looked insignificant enough, he
spoke authoritatively, and we noticed
at the same time that two burly gen-
darmes in full uniform (except that they
had the peaked cap instead of the gen-
darme's full dress cocked hat) stepped out
of the postern after him.
"You are English, aren't you?"
"Yes, sir," said Bopper.
"You come from Gien?"
"Perfectly."
"Will you have the goodness to enter?"
We had the goodness to enter.

We passed through the court to a
stone-floored court of office. As we en-
tered, the door was shut behind us, and
the third of a minute but hinted that
the two outside had been told
off to mount guard.
"Your papers," the little man held
out his hand.
Up till now Bopper had been de-
lighted. It was his first arrest. I had
gone through it twice before, and I dare
say I had crowded him more than he
thought to over his experience. He
thought we were getting calmer at last,
but he did not like to be bullied by a
man in an apron. Besides, the gen-
darmes were outside now.

"Permit me to ask you what right you
stop travelers on the highway?" Thus
Bopper, with much dignity.
"Your papers," repeated the little
man sternly.
"May I ask whom I have the honor
of addressing?" Bopper was severely
stung.
"But, the Brigadier Dupont, sir."
The genuine astonishment of the good
brigadier was enough to make us laugh.
Bopper only added sarcastically:
"You haven't much the air of an offi-
cer."
Stung by the sneer, the officer van-
ished through an inner door, to re-
appear a moment after in full uniform.
Taking his seat at the desk, he began:
"Without papers, I presume?"
Bopper was busy looking for a seat.
He did not relish standing while the
gendarme sat. We had to pocket the
affront, however, through lack of even
a form. Bopper angrily retorted that
"papers" were no longer required, that
we hadn't papers, and that he would
like to know what this detention
meant. Dupont merely took up a
huge yellow paper form and solemnly
asked:

"Your surnames and Christian
names."
We gave them, and a great many
more items as he asked them, and
gravelly wrote them down. Suddenly
he turned upon us with a "Now I've
got you" air and asked:
"Your resources, if you please?"
At this veritable "stand and de-
liver," Bopper, with some pride, pro-
duced his purse, containing some 700
francs.
"You didn't look like it, you know,"
murmured the thunderstruck brigadier.
When I flourished over 1000 francs
before him, he could only add:
"Not you, either."
Pleased at the favorable impression
our resources had made upon the poor
brigadier, who had probably never
seen so much money at one time in his
life before, Bopper admitted to produce
our railway return tickets from Paris
to London. Dupont dignified this as
evidence. But his next question
stalled us.

"Can you speak English?"
This finished our examination. He
would give no explanation. On the
sounding of a little bell a gendarme
entered and saluted. He was not our

keeper, whom we saw smilingly keep-
ing guard at the door. The brigadier
handed his big report to the man, who
wrote to the Commandant's beat.

Bopper returned to the charge that
the police had no right to stop us on
the highway. The brigadier admitted
that papers were no longer necessary,
but:

"I am instructed to arrest you on a
specific charge."
"What charge?" we demanded to-
gether.
"He only smiled slyly, and told us
that an old hand like him was not so
easily caught as all that. The only hint
he would give us was that it would be
twenty years at the guillotine if proved
against us. We felt secretly pleased
at the obvious enormity of our offense.
"English spies, of course," sneered
Bopper.

"English pickpockets more proba-
bly," retorted the brigadier, who cer-
tainly scored there; "but no, gentle-
men, it is neither. I may be able to
tell you when I get a reply to my tele-
gram."
"Do you mean to say you tele-
graphed all that sheet about us?"
asked Bopper, with a pride he could
hardly conceal.

"I telegraphed freely; it's the rule."
"Where did you telegraph to?"
"Ah! gentlemen make questions.
Pardon me."
Our conceit in our own importance
was seriously damaged by the interim
reply:
"Commandant at breakfast. Keep
prisoners till further notice."
Dupont was annoyed. Bopper was
amused. He vented his spleen on the
bell rang again. We were conducted
to a sort of a cell, where we had a form
to sit on. We were locked in. We both
felt secretly aggrieved. Even the cell
was not as comfortable as it seemed.
The door was a heavy iron door, and
the lock was a complicated affair. The
cell was a small room, with a single
bed, a table, and a chair. The floor
was of stone, and the walls were of
brick. The door was a heavy iron door,
and the lock was a complicated affair.

We waited there for some time.
The door was opened, and a man in
a uniform entered. He was a French
journalist, said that Inaudi,
the celebrated lightning calculator, has
invented a mechanical calculator by
means of which one can tell instantane-
ously any sum of the work of any gen-
tleman will be up to the year 1905.

being a bright morning, they did not
have the fire lighted at all. They were
both extremely surprised when they
were attacked by rheumatism in the
middle of the night, and blamed the
neighborhood—London Hospital.

Lake Dwellers in America.
This country has had its lake dwell-
ers as well as the old world. In many
of the lakes of Minnesota there are evi-
dences that dwellings were formerly
erected over the lakes, and on the shores
near by are piles of refuse such as would
have come from settlements of some
size. Several of the California lakes
show the same peculiarity, and in view
of these facts there is no reason to
doubt that ages ago there were tribes
of American Indians who from choice
or necessity made their homes over the
waters of our lakes.—St. Louis GLOBE-
Democrat.

Selling a Menagerie.
The great Wombwell's Royal Wind-
sor Menagerie was recently sold by
auction in London, the animals bring-
ing but indifferent prices.
The cockatoos went off at 25 apiece.
Some of the parrots brought higher
prices, one going at \$15, this bird be-
ing able to speak in two languages
with equal fluency. One parrot care-
fully described, in four languages, each
signifying a different emotion, and was
knocked down at \$17. Two vultures
were found to be worth only \$20.
The pelicans took no interest in the
sale, although many complimentary
things were said of him, and was sold
for \$20.
When the cassowary was reached
birds had gone up, and he went for
\$20. The cassowary was reached, and
these little fellows were bought for \$2 each.
The porcupines brought \$15, the
civet cat \$18, the Malayan bear \$23,
civet \$17, while the jackals went for
\$3 each.

The kargaroo was considered valua-
ble and brought \$75, but the sacred
Indian zebu and for \$11 only.
One of the "chickens" was hatched
around and around and around and
around. A five-months' pair of these
sold for \$240, a four-months' pair for
\$200.
The great lion, the piece de resis-
tance of the menagerie, was magnificent
and brought \$875, and a hand-
some jaguar, which the auctioneer
called a jaguar, was knocked down for
\$140.—New York Journal.

How to Catch Rheumatism.
The plan is simple, and is invariably
successful when diligently pursued.
Clothe as warmly as possible with flannel
next the skin, and wear a rubber coat-
ing from November to the beginning
of March. Then on the first clear
sunny day in March, when the wind is
in the north or northeast, take off all
outer wraps, rub the joints with oil, and
the joints will wear down, and the
inflammation will be gone, and the
joints will be as good as new, and the
rheumatism will be cured.

Flies, white in all respects excepting
their eyes, which were red, were found
in an old mine recently opened in Ban-
gor, Cal. The insects, upon being ex-
posed to light, under glass, re-
gained their lost color.

A HAPPY PHILOSOPHER
Some folks, they're complainin'
Because it ain't rainin',
An' some 'cause the weather is dry;
But I kinder reckon me
With all that is said no,
An' don't go to askin' 'em "why."
There's lots of good fun in
The world the Lord's runnin',
Though it's sometimes a song an' a
But when troubles are fillin'
I feel 'keep a smilin'!
An' don't go to askin' 'em "why."
An' hear the birds singin'
When death-bells are ringin'
An' thrillin' the world an' the sky
They'll sing as a while hence
When I'm in the silence—
But don't go to askin' 'em "why."

It'll be a fine flower—
One beautiful flower,
One some that comes after a sigh,
For me there'll be fun in
The world the Lord's runnin',
An' I won't go to askin' 'em "why."

How much shoe leather is daily
worn from the soles of foot-passioners
in London? Analysts tell us that
among the many ingredients which
go to make up London mud shoe
leather occupies a prominent place.
It may be assumed that 3,000,000
people daily do more or less walking
in London with boots and shoes on
their feet, and that on an average
six grains of leather is worn from the
sole of each shoe. On this assumption,
it follows that every day 2,344 pounds
of abraded shoe leather becomes in-
corporated with the mud and dust of
the streets of the metropolis. Tak-
ing into consideration the fact that
less walking about is done in London
on Sunday than on week-days, we
may conclude that a ton of shoe
leather is worn away daily. If the
abraded particles which go to make
up this amount could be restored to
their original condition, they would
form a leather strap an inch wide
and ten miles long. In the course of
a year the material would suffice for
an inch-wide strap long enough to
reach from London to New York.
For leather in the form of boot soles
the public pays half a crown a pound,
so the amount daily lost in London
is worth £280, or more than £100,000
a year.

Lake Dwellers in America.
This country has had its lake dwell-

of these facts there is no reason to

The Marked Coin Returns.
"I have a old eighty-four, again," said
a clerk in a Ninth Street grocery store
as a Washington News man, as he
twirled a silver quarter down the
counter toward the proprietor.
The latter picked up the piece and
examined it with a smile of interest.
"Been away a long time, this load
of poles, hasn't it?" he inquired, as he
tossed it into the drawer.
I asked an explanation of the
peculiar colloquy.
"You know that fractional cur-
rency is local in its circulation?" said
the merchant. "I mean that small
coins do not get outside of a certain
neighborhood."
"I explain what you mean," I sug-
gested.
"Why, can't you understand? This
quarter, for instance, has been in
my hands for some time, and I have
ventured to say, 600 times. I marked
it five years ago, and no matter how
many times I gave it to customers in
change, it invariably returns. Now
you know what I mean. I have tested it
prescribed limits, I believe. It seldom
gets entirely away from the immediate
neighborhood in which it first becom-
es a medium of exchange."
The clerk, but I'm sure, I have tested it
and proved it, time and again. The
quarter we just took in is only one of
the very regular coins that come and
go all the time."

True Generosity.
England's present interest in pro-
serving the "outcast" Nelson's old
flagship, brings to mind a story of
true magnanimity which belongs to
the annals of the sea. It is the story
of a command of her that Earl-
St. Vincent, then Captain Jervis, in 1782
fought in the dark his duel of three-
quarters of an hour with the Pease
of Brest. The Frenchman carried a
crew of 200 men, and the two ships
were very well matched.
As they were about to exchange
fire, some one called out that the
enemy was putting up her helm to
retire.
Captain Jervis immediately directed
that his helm should be put to star-
board, but a young officer was
quick enough to see the opposite
maneuver would give the first fire
and make it possible for her to rake,
instead of being herself raked. Im-
pulsively he called out:
"Fore, port! If our helm goes to
port, we shall rake her!"
Even in the excitement of going
into action the gallant captain was
not above giving his own helm the
same advice. He put to port, the
Pease received the Foudroyant's
broadside, and as the smoke floated
away, Captain Jervis raised his hat
and exclaimed:
"Thanks, Heaven! You were right!"

Her Young were Nave.
A herd of 5000 heaves were toiling
over the lonely trail from New
Mexico to Kansas leaving behind
them a swath as bare as if it had
been swept by the fiery breath of a
simoom.
Suddenly the leader of the herd, a
huge steer, started back in terror,
gave vent to a sort of warning, and
maying to the right passed on. Those
immediately in his rear turned to
right or left, and their example was
followed by each herdman, passing
the word of the dreaded spot.
When the entire herd had passed,
a wide, trampled track lay behind,
but near the middle of this dusty
space stood a luxuriant island of grass
three feet in diameter.
A herdman rode up to the spot
and dismounted, expecting to find a
rattlesnake, a creature of which
cattle as well as horses have an in-
stinctive fear, and well founded dread.
Instead of a serpent, however, the
grass tract contained only a harmless
killed plover, covering her nest,
while her wings were kept in a
constant and violent motion. Seen in-
stantly through the grass, she had
evidently been mistaken for the steer
for a rattlesnake.
She did not take flight, even at the
sight of the forger, and they have
been so gently pushed her to one
side to find that the nest contained
four unfledged kiddies.

In Trades.
A most amusing list could be
formed of the odd names given to
some articles in various trades. Ap-
parently a few in use by hardware
men. A "curator" is a small auxil-
iary poker with a steel point, intended
for use, in contradistinction to the
elaborate brasses, which are only
kept for show. It is a standing joke
that this article takes its name from
the fact that it does the principal
part of the work. A "footman" is an
ornamental weight used for the
purpose of keeping a door open,
while a "porter

Every tax-payer should realize the importance of the School meeting this afternoon, and be present promptly at three o'clock. Nine trustees are to be elected, who will cast lots to decide which three shall serve one, two, and three years. This "Board of Education" will have the disposition of a larger amount of money than our Town Council has, and at least equal care should be exercised in their selection. It is rumored that the names of three ladies will be presented to the voters present. Why not? They are certainly as deeply interested in education as any, and probably have greater experience in the management of children. We hope to see a very large attendance this afternoon. We have no "stunt," and know of none. Let nine worthy citizens be elected, and we are satisfied; but we suggest that one be chosen from each of the outlying districts where schools are located.

FOR RENT. Grocery store with complete set of fixtures, situated on Bellevue Avenue, above Second Street. Apply to or address J. D. FAIRCHILD, Hammononton, N. J.

The County Board of Freeholders met on Wednesday. Dr. Wales, of May's Landing, was awarded the contract to attend prisoners in the jail. Committee reported that S. R. Brown & Co. had nearly completed the windmill, tank, and derrick for water supply, at a cost of \$325. Albert Leach was given a contract for an addition to Sheriff's residence, for \$185. L. E. Freeman will do the jail plumbing for \$125. The Water Power Company will supply coal for public buildings. A new bridge over Deep Run is needed; Committee given power to act. Solicitor decided that the Pleasant Mills Company must keep their bridge in repair. Almshouse Committee voted \$800 for needed improvements. Bills ordered paid to the amount of \$3000.

On the Fourth, at the Park, Mr. W. B. Post lost his pocket-book, with a number of dollars. A small boy found the book, and an Italian who saw him pick it up claimed it as his property, and threatened the boy when he hesitated about giving it up, but gave the boy a dollar of the contents. The story became known, and Mr. Post, accompanied by the boy and Constable Bernhouse, visited the Italian and demanded a return of the money. He denied the whole story, but a little sharp cross-questioning brought out a virtual confession and a return of the money, which was all that Mr. Post asked.

At least we have repeatedly asked him to notify us of such changes, as the Reading agent always does, and yet we incidentally discovered that a change took effect Friday, June 29th. Not much change, but quite enough to make trouble.

The twenty-fourth annual convention of the Catholic Total Abstinence Union of America will open at St. Paul, Minn., Aug. 1st. It is intended to make this the largest gathering of the kind ever held in America. The merry-go-round and tally-ho coach with five horses kept our juvenile population in an ecstasy of delight, Thursday evening. The coach is from Washington—the owner and family stopped here on the way to Atlantic—and is a great lumbering curiosity, weighing 6500 pounds; but the young folks gladly paid a nickel for a mile or two ride on it.

Wm. Rutherford, Commissioner of Deeds, Notary Public, Real Estate and Insurance, Hammononton, N. J.

Justice Atkinson opened Court in the Council Room, last Saturday, to hear the case of the Town of Hammononton, vs. Samuel B. Brown, charged with violation of a town ordinance, in riding his bicycle on the sidewalk. Marshal Bernhouse testified that on June 21st he saw defendant riding on the sidewalk, on Bellevue Avenue; that he notified him to call on the Town Justice and pay such fine as the law provides; that the defendant refused to do so; that on Monday last he made complaint to a Justice, procured a warrant, and arrested the accused. Mr. Brown, for the defense, admitted the offence charged, but claimed that the ordinance was passed years ago, when bicycles were of a dangerous pattern; that now such prohibition was not necessary; that the law was a "dead letter," but three or four arrests having been made under it; that Town Council had admitted its faulty character by ordering its enforcement only within a half mile of the post-office; that of the hundred and more bicyclists in town, scarcely one had obeyed the law, etc., etc. Mr. Pettit for the Town asked for conviction because of the unquestioned fact that the defendant had committed the offence; that the plea entered had nothing to do with the case. Mr. King, for the defendant then called Court's attention to the Town Charter, which provides that prosecutions for violations of ordinances must be brought under "an action of debt" by summons; that this arrest was made under the criminal code—by warrant, and asked that the defendant be discharged because of unlawful arrest. The Justice decided Mr. King's point adversely, and imposed a fine of five dollars and costs. Mr. Brown at once gave notice of appeal to Circuit Court—having ten days to present his papers.

Reference to the charter will convince our readers that Mr. King was right in his claim. Council passed an ordinance several years ago setting forth the manner in which all violations of town ordinances shall be conducted; but this ordinance is clearly in conflict with the charter and cannot stand unless some subsequent act of the State Legislature has amended the charter, and we fail to find any such amendment. We hope the Justice will reverse his decision, or the Town withdraw before making additional costs.

We do not mean to favor an abandonment of the case; the action should be recommenced in the proper manner, and a fair trial of the case on its merits be held. We object to the "dead letter" claim. If the law is not just, repeal it; but so long as it exists, don't show favoritism to any person.

Just before going to press we hear a rumor that the late Legislature passed a law which will legalize the ordinances in question—perhaps.

D. B. BERRY, for the past two years with the exception of the best service of Boston, will be in Hammononton and vicinity for a short time. People needing glasses, or wishing to have their eyes scientifically examined, should call on him at the office of Mr. E. J. Woolley, on Saturday of each week, or send him a postal card, and he will call at your house.

In "Winter's Handy Book of Reference" occurs the following:

"Just at this point I think a few words regarding the use and manipulation of 'smothered hogs, or hogs that have died of disease, may be in order. * * * Great caution must be exercised in handling such animals. They should always be handled with hooks, or with gloves. If handled with naked hands, on which is the slightest scratch or sore, blood-poisoning is almost sure to follow." And after giving the Recipe for handling it, says it can be "used in any mixture, or for any purpose."

All recipes for Lard Compound call for a certain per cent of the above pure Lard.

How much of such trash the people of Hammononton have eaten, is impossible to tell, unless they have always used Jackson's Lard, in which case they can be sure that they have eaten none.

Moral.—Always use Jackson's Lard.

In 1893 the people of this country sowed the wind by electing a President and Congress hostile to the policy of protection, and they are now reaping the whirlwind in the alarming labor disturbances which are the result of depressed business conditions. It was the hard times which made it necessary to reduce wages, and it was the cutting down of wages that produced the labor troubles. Thus it comes back on the heads of the people themselves, for primarily they are responsible. Unfortunately, however, the innocent have to suffer with the guilty.

The extent of Democratic solicitude in behalf of the suffering people is shown by the "free list," as revised by the Senate. Bituminous coal, which represents great moneyed interests and is an article of Southern production as well as consumption, is made dutiable; while wool, which is an important product of thousands of small farmers, is placed on the free list. The majority in the Senate seems to be on the side of the heaviest bank account.
