The Old Continentals.

When the grensdiers were lunging And like hall fell the plunging

Cannon shot.
When the files
Of the isles,
From the smoky night-encampment,

bore the banner of the rampant

Unicorn,
And grummer, grummer, grummer rolled
the roll of the drummer
Through the morn!

Then with eyes to the front all, Aud with guns horizontal,

Stood our sires: And the bails whistled deadly.

And in streams flashing redly
Bizzed the fires,
As the roar
On the shore

black gunpowder-

Cracking numin!

Worked the rep St. George'

Now like amiths at their forges

With hot, sweeping unger, came the horse-

Then the old-fashioned colonel

Trumpet loud. Then the blue

Gulloped through the white infernal Powder-cloud!

And his broad sword was swinging, And his brazen throat was ringing

THE VOLCANO, FISH. - A paper basing appeared some time since in a correspondry, from the pen f the Rev. W. W. Spicer. in which the phenomenon of the expulsion of fish from volcannes was spoken of as strange and astounding, and the idea being conveyed that the fish must have lived "in the line of fire" before Being expelled "Very likely he did. We must bid you Mr Serope, F. R. S., writes to Scientific Opinion, February 23, as follows: This remarional version of a very simple fact is one only of several which, on the authority him, but unhappily having an impediment of "the great Prussian traveler" had been in his speech he had to give it up and his eated by compilers of treaties on volcani Sievenson had taken private apartments phenomena. The simple fact, I conceive for himself and servant -an unadulterated s that the fish in question lived in the open native of the verdant i-le. Being much sir in crater-lakes, such as are frequently engaged on some musical compositions pre- found at the summit of trachytic volcanoes paring for the press, and floding his time -for the reason that the fine ash, which is much token up by morn ng visitors, he took | usually the last product of their emptions the precaution one day of denying louself. and therefore forms the lining of their cra and thus delivered orders to that effect, - ters, is very retentive of moisture, and con "Now, Patrick, remember, I in to be sequently a custom the production of lakes particularly occupied for the next two tat the botton's of these ho lows. O course hours, and I won't be at home, mind, i justheso takes the same kind of fish will probably be found as, by Mr. Spicer's own statement, are met with in other lakes at eplied the obedient attendant, us he closed an almost equal elevation on the outer side of these very volcanoes."

VULGAR LANGUAGE. -- There is as much connection between the words and the choughts as there is between the thoughts and actions. The latter are not only the expression of the former, but they have a nower to react upon the soul. A young man, who atlows himself to use one vulgar ir profune word has not only shown that here is a foul spot upon his mind, but by he utterance of that word extends that spot and inflames it, till, by indo gence, in will pollute and rain the soul. Be carefuof your words and of your thoughts. It you control the tongue that no improper and one pronounced by it, you will soon be able to contro! the mind and save it from corruption, You extinguish the fire oy smothering it, or by preventing badhoughts from bursting into language. Never utter a word anywhere which you would be ashamed to speak in the presence of the most refined lemale or the most religious man. Try this practice a little while, and you will so in have command of course If.

An Irish girl at Erio, a day or ewo since caught another gr on the sidewalk who und un'a hoop- hirt and a white skirs, atalou from the party of the first part, and compolled her to take them off and surrender hem then and there. The affair created a genuine sensation.

The Best Fruit Soil in the Union:

Pears, Peaches, Apples, Quinces, Cher-rles, Bh-ckberries, Raspberries, Grapes, of all kinds, and all other fruits are raised here in immones quantities, and they are ought after by the dealers and command he best prices in the markets.

The Market ts unsurpassed; direct communication twice a day to Philadelphia, New York, and At-lantic City. The Railroad Company leaves cars here to be filled with fruit every day in the season; they are filled in the afternoon; and the same night or next morning by daylight are in the market, where the

much easier work.

highest each prices are obtained, without-any other trouble to the producer than de-livering the produce to the ear. None of the land now offered is over one and-a-half uiles from the Railroad.

The Climate is mild and delightful the winters being short and open, out-door work can be car-ried on nearly all winter, whilst the summer is no warmer than in the north. Persons wanting a change for health will Persons wanting a change for health wing to antisfied shore—the mildness of the climate is soon beneficially felt by delicate persons and those suffering from Dysepsia, Pulmounry affections, or General Detaility, as hundreds here will testify. This bility, as hundreds here will testify. This section has long been known for its health, and, during the summer months tens of housands flock for tealth. No Miasms, Chills and Fevers in this section.

The Water Is pure and soft, of the best quality. It abounds in streams and is found by digging from ten to thirty feet. Wells are very cheaply made, as there is no rock to go through. We have the best starts in the through. We have the last stores in the courty, where goods are sold as cheap as they are in Philadelphia or New York. They are in Philadelphia or New York. Clergymen of all denominations reside here some of them in charge of congregations, where cultivating the finits; also a number of retired physicians. The Methodists, Presbyterians, Baptists, and Universalisticate their services regularly. Mills convenient.

Reliable practical nurserpmen who furn-shallkinds of leves, plants and vines at the turest prices. The population of the settlement Islands and rapidly increasing; it is composed on he last classes from New Enclard, the

Tablic, and Western Scates, and ligent adustrious and moral. The buildings are cart and hand-ome, and some of their fine All materials for huilding, improving, &c., hand: also reliable mechanics who wil we satisfaction. Every convenience to be not that can be found at any other place. The lands have been examined by some of the lost agriculture be and tout growers in the country, who pronounce them the lost in the country, who pronounce them the lost in the U.S. for funtyrowing. Mr. Solor Robinson, the agriculturest editor of the Stay Yong Tunuxu, Dr. I. P. Trimble, the State Entomologist; Mr. John G. Hergar, member of the American Institute. i) New York; and others, reported that they were rote a finer growth of finit poin, and grows, then they saw here, and commend this with most to persons desirfact to full the soil, for pleasons or profit.

These lands are storic supply sold, are trouble rapid and extensive improvement aroperty will certainly increase in value. Inquire for R. J. Byasts, the founder of he settlement, who will show the land recoil expense. For further information optio or address,

Hammonton, April 20, 1870. Hair Vigor, For restoring Gray Hair to

its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effecting the healthy and employed of the effective the effective the effective the effective the effective that the effective that the effective the effective that the effective the effective that the effective that the effective that the effective that the effective the effective that the effective that the effective that the effective the effective that the eff

ened, falling hair checked, and balldness often, though not always, cured by its use. Nothing can restore the hair where the follieles are destroyed, for the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can injurious to the hair, the Vigor can industrial substances which make some preparations dangerous and injurious to the hair, the Vigor can

Bething may be practised for pleasure, for cleanines, and for health. There is no more pleasurable excitement than the the properly prepared and arranged. -In our climate, it is only in the summthat the layary of he blug in the sea, lake or river can be indulged in, and then only for a limited period. It is a heathful sport to all classes, but especially to the young, when judiciously managed, combining a it does, virgorous exercise of all the mus cles of the limbs in a gently resisting me dium which surrounds and envelops the body. Bathing for pleasure requires tha the water should be of an agreeable teniperature; it must neither be too hot nor too cold, and this will be determined very much by the health of the individual. - To a robust person in a nude state, the colwater of the lake and sea during the muni mer heats is most exhilirating. while t the feeble it is chilling and depressing The degree of temperature must be regu lated by the sensations, and especially the reaction of the system after the first plunge. If the bidy so reacts that the water feels comfortable and agreeable, the bath wil be pleasurable and healthful; but if reaction i- techle and the water scems to te come colder, the bath will be injurious. To enjoy a bath fully, the bather must be The condition of the body at the time of

the bath now spoken of is also important it should not be overheated and in a stat of perspiration, for this would lead to as immediate congestion of the internal or game, that might result in grave disea co. the interior organs. Nor should the persobe greatly latigued, as this condition would tend to prevent prompt and healthful reaction. Finally, the bather should exer cise visorously during the bath, and no remain in the water until it begins to grow cold and uncomfortable. On leaving the bath' the skin should always be dried thor oughly, and then rulbed by the person himself, until it is all aglow.

Bathing for clealiness should be regular ed as follows: 1. Those parts of the body liable to become daily unclean or offensive should be daily bathed in warn souped water: 2. The whole body at ould be bather in similarly prepared water every tourd day. The object of such bathing is to cleanse the body from all kinds of filth. This filth may be sequired from the external world, or it may be inherent; the former consits of lint from the clothes, dust from the air. etc., and the latter the ever-sepsrating epithelium, or scarf-skin, the of from the glands, etc. Worm water and suap are the best solvents of the substances Such a bath may be safely taken just as the person is retiring for the night, and is: great luxury, often securing a most refresh ing ni hi's ricep, and not liable even i winter to render the bather susceptible to cold afterward. It is well to tie down firin the water for a few minutes and gently rab the skin with the hand; this relaxes sted conservatives, and it is feared they will still travel by the old methods. the skin and softens the layer of epithelium then stepping out, the body should be rub bed with the soap until a lather is formed LIBE NOBLESANTICAL LOKES ON AN ENG the proper term) separates and leaves the that no clue has yet been obtained of the skin soft and perfectly clean. - A dash t

Bathing for health offers a wide field for discussion. The bath, in its various forms medicated and unmedicated, is a most important remedial measure; unfortunately, it is too much in the hands of uneducised p-actioners, who, by their malpractice, tent tobeling it into discredit No general rule an the laid down which it is safe for the invaid to follow but this-namely, consult. e imperent physician.

gentle friction of a soft towel is the las

A HARD BAHOAIN -A pretty your women had long been annoyed by an ad mirer, who did not believe in letting 'cor e alment, like a worm in the bud, prey o his more or less danuack cheek,' and who at last implored her to give him a kiss.

I have not the least objection to give you a kies," replied t e lady. "I'll oven promise to do so, with one condition only. What, what is it, adorable angel! exclaimed the delighted smitten; "speak I implore you."

"It's only that you'll ask me for it be-fore my husb ud," replied the adorabl

Her admirer auddenly remembered that Le had a pressing engagement.

About a month ago, a Morris county farmer, an old gentleman of seventy yearof are, emptied a straw bad into his hogpen, forgetting that it contained his account book in which were placed seven thousand dollars in five-twenty boads. Not until to rec weeks after did his thoughtless set occur to him, when he at once made a rush for the pen to see if the hogs had left him anything. On moving the straw and rubbish about, he found his book and bonds un'to jured and entire, the bogs not having diposed of a ringle coupon.

"St. Aldegonde was opposed to all rivilege, and indeed, to all orders of men reept dukes, who are a necessity, and watrongly in favor of the equal division of a.l property, except land." 11

It is perfectly scandalous the manner is shich civilization interleres with the ione cent sport of the red man. Out on the Pacific Railroad, the other day, a Kickapoo Indian saw a recometive coming down the track toward him at the rate of forth niles an hour. He thought it was an inforted breed of Buffalo, and he was anxious to secure it so as to take the prize at ricultural Society. So he lassened one end d his lauce to his waist belt, and when the engine got near enough he threw the noose olcely over the smoke-stack. Perhaps it is ot necessary, but we may as well relate that the locomotive did n t stop. The evgineer and fireman witnessed the mossuccessful attempt to the flying trapez made by any Kickapoo Indian upon the tams since the ist of Junuary. Ther was an aportginal runeral at the next stu ion when the engine arrived. The gravcas not large, for they only buried a small pie e of copper colored meat tied to tring and inclosed in a sardi e box. The Kickapoo tribe are satisfied that a shot oute to the felicitous hunting grounds bea last been discovered. But they are big

perpetrators of the series of disastardly a d couel tricks which have for some time beer played on Lord St. Leonards. It was sugested that some of his servants were inplicated in the affair, but their muster, a least, had faith in their innocence. The transition of forged orders to tradesmen in his lordship's name-which, after the publication of his former letter, ceased for a ime-is now renewed. Only yesterday he received a telegram from "Fowler, o Bushen, Glasgow, to Sugden," announcing hat a heiter and bull would be sent on Frilay. The malignant spirit of the houxes is shown not only to the per-istence with which they are kept up, but the form they assume One of Lard S. Leonard's daughters was in a visit at Torquey, and just as he was preparing for dinner she received a telegran in the name of his lordship's butler, statlar how seriously ill he was, and that he wished her to come home immediately. This she did, traveling all night and reaching her father's bedroom at 7 1-2 in the morning with the expectation of finding him dying. The other forcery was an immediate order for fine marbles-describing the quality and the length and breadth of the proposed wlabs and the inscription, copied from the present tombetone, which were to replace the present erection over his wife's tomb It is an abuse of language to call such alsominable outrages 'practical jokes," and the solice ought certainly to exert themselves

MEDICAL MADNESS-

Let us hope that the insure practice of admin-istering poisonous exacuteds in cases of indices-tion, biliousness, constipation and female debility, is almost out of date. When the Tonic, Cathertic produced by Nature herself in the most valuable Sanitary Spring in the world is reproduced by release in the fear. Sanitary Spring in the world is reproduced by schence, in the front of Tarrant's Schizer Apericut, it is indeed indounced madness to tack, relax and initate the diseased or enfecthed system with drawin purgardies. This represhing and delicious counterpart of a nearly prepared by the greative hand of the Omnipoidin Physician Himself, is everywhere superceding the nauceous and delegating compounds be tendered as laxative.
