The ladies have taken this space by the year, and are responsible for all that it may contain.

A well known liquor house, in a neighboring city, did a business of \$300,000 last year, and there were only five employes in the place! Labor did not get a very big slice out of the business of that particular house. There is no legitimate business on the face of the earth that returns less to labor, and takes more from it. The liquor business hurts labor in its production and its consumption. Every intelligent laboring man who has given the matter careful thought knows liquor is the enemy of labor.

If an average of "seventeen gallons per capita" does not make this nation to appear as a "nation of drinkers," we do not know what would make it so appear.

There is a large proportion of the population that does not use liquor in any form, and if the average be really as high as stated, those who do drink must be excessive users. If the moral and religious phases could be dismissed as unworthy of consideration, the financial view is too pressing to be set aside as trivial and immaterial. These are prosperous times, and the nation can carry a heavy financial burden without disaster; but if the times were to change for the worse, it would be a different matter entirely.

ELWOOD NOTES.

Miss Jennie McDermott is spending a few days at Cross Keys.

Miss Eva Vanderlip has returned from her visit at Horffville.

Thomas W. Robinson visited Elwood last Thursday, after an absence of about three years.

John Rossell has lost another child. The twin to the one that died about two weeks ago was buried on Thursday morning.

L. L. Holden has been very sick since Friday week.

While Chas. Albor was harnessing Mr. Bozarth's horse, Sunday morning, the animal turned suddenly and bit his forefinger in three places, injuring it so badly that he will probably be unable to use it. Being compelled to let go, the horse caught Albor by the shoulder and made an ugly wound. Dr. Bitler dressed his injuries, and the patient is doing as well as can be expected.

Monday night, as Mrs. David Mcasey and Mrs. P. H. Shrader were about to retire, some one stepped up to the window and looked in, then disappeared.

One of the ladies asked who was there, but received no reply. One took the gun, the other a revolver, and one of the young ladies carrying a lamp, they all went out to search for the intruder. They didn't find him, but heard a noise down cellar, so, reinforced by an elderly gentleman who is staying there, they searched the cellar, but found nothing except prints of pointed-toed shoes. The mystery is still unsolved.

A two year old daughter of Salvatore Capucio, an Italian farmer living on Fourteenth Street, Pocomo, was burned to death on Monday last. The parents were out picking berries, leaving the little folks at the house. As near as can be ascertained, the child, with a brother two or three years older, were playing near a fire which had been built outside, her clothing caught fire, and she was so badly burned that death ensued in a short time. A report was that the boy threw oil over his sister's clothing, and started the fire with a match; but this is denied by those who ought to know the truth.

(Entered as second class matter.)

SATURDAY, JULY 19, 1902.

Hon. John J. Gardner
Renominated.

The Second Congressional District Republican Convention met at Cape May on Thursday, 17th inst.

Resolutions were adopted, endorsing the administration of President Roosevelt and the work of Congressman Gardner.

County Clerk Lewis P. Scott nominated Mr. Gardner in a neat speech. Burlington, Cape May and Cumberland Counties each seconded the nomination, ex-Senator E. C. Stokes making a ringing address.

The nomination was then formally made, no other candidate being mentioned.

Mr. Gardner was introduced, and spoke for thirty minutes, winning hearty applause.

We endorse the nomination, and will do our little part towards his re-election. We have known Mr. Gardner for many years, and feel well satisfied with his course as State Senator and Representative in Congress.

Town Council Meeting.

A special meeting was held Tuesday evening, 15th. All members present except Mr. Harkey.

Chairman Boyer stated that he had received twenty replies to his advertisement offering for sale \$30,000 water bonds of the town, at four per cent. interest.

Clerk O'Donnell then read the three bids received for said bonds, as follows: From W. J. Haines & Son, Cleveland, Ohio, offering to take the whole issue "at par, with a premium of \$7 and accrued interest." No one present was able to explain this bid.

C. H. Williams, of Philadelphia, offered to take the whole at .0227 premium, which would give the town \$30,081.

Dick Brothers, New York, bid .0308 premium, netting us \$31,104.

On motion of Mr. Batchelor, the bonds were awarded to the Messrs. Dick.

Solicitor Chandler reported that the Penna. R. R. Co. will probably put safety gates at Orchard and Fairview Streets, provided the Town will close the Vine Street crossing. After discussion, it was voted that Council could not close Vine Street, as that would naturally cause people to cross at Beach Street, which is, possibly, more dangerous.

Mr. Ballard called attention to the destruction of the pump by the fire at Johnson's store. Highway Committee instructed to restore said well and pump.

Voted, approving the purchase by Water Commissioners of a lot, 22 x 100, of Wm. Hershman, on the highest point on Twelfth Street, west side, for \$150, for the stand-pipe. Adjourned.

The Same Old Story.

J. A. Kelley relates an experience similar to that which has happened in almost every neighborhood in the United States, and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelley is a well known citizen of Haverhill, N. H. For sale by Rogers, druggist.

Our soda fountains and ice cream parlors were well patronized on Wednesday eve. At one place we noticed a long line of thirty customers, awaiting their turns.

Mr. Wm. B. Post and family, from Yonkers, N. Y., are spending two weeks in Hammonton. They certainly enjoy a vacation in this former home, and many friends bid them welcome.

Note, that our \$30,000 water bonds, at four per cent, will cost \$1200 per year in interest; but the \$1104 received in premium will act as a reduction, making the percentage .0396. This is said to be the best sale of municipal bonds made in New Jersey for many years.

Ignore with the A. H. Phillips Co., 415 Atlantic Ave., Atlantic City.

Another Thursday Fire!

It was after six o'clock, on Thursday evening, when the fire-bell rang. The firemen responded promptly, but happily their services were little needed.

Sparks from a locomotive on the Reading set fire to the roof of R. J. Bryner barn, close to the railroad, and an increasing flame was quickly burning its way through the shingles. When three of our young men rushed inside with pails of water, the sparks were ready to drop onto the straw stored in the loft. A few dashes of the fluid prevented what would probably have been a serious fire a few minutes later. Men on the roof extinguished the fire outside. The loss was nothing but a few shingles.

Better cover that roof with tin.
