Last week's crowd demonstrated the fact more forcibly than ever. that Hammonton should have public toilets. Especially necessary are they in the business section, where people congregate, or at the railroad. stations. Not only do suburban shoppers have to hunt for accommodations, but tourists in automobiles as well. It is not pleasant for those who reside down town to admit strangers to their toilet rooms; but of course they cannot refuse. By rights, the railroad companies should provide for their own patrons, at least. The Reading has already done o. But the Town could make such provision at no great expense.

As usual, pickpockets, gamblers, sneak-thieves, and burglars took advantage of the crowds, last week, and are reported to have done a rushing business. We have memoranda of quite a number of losses, little and big.

CLEAN MOTOR FUEL

CLEAN Motor Fuel means more miles per gallon, freedom from frequent carburetor adjustments and greater motoring pleasure. You cannot be too careful about what goes into your tank. Carbon in cylinders is often due to the use of inferior gasoline-"blends" and "mixtures."

Standard Motor Gasoline is a clean, straightdistilled product, not a mixture. It is absolutely homogeneous—every drop like every other drop. You get the same steady power-impulses whether you are running on the top or on the bottom of your tank.

Saving "Standard Motor Gasoline" to the garage man is like asking to see the pure food label on the provisions you buy for yourself. It is an easy way to make sure of getting the best motor fuel, wherever you fill your tank.

To end your friction troubles and all ex--cessive-wear,-use Polarine Oil-and-Greases, obtainable wherever you see the "Standard Motor Gasoline Service-Station' sign.
