To Emma.

BY JAMES NORTH.

No master's work, where colors blend

As in music, old and grand;

But one frail flower, from the land

Of poets dreams, I bring thee, friend.

Accept it. In thy kindly heart

Imagine all I wish it were—

A mirror that the glad tears blur—

The shadow of a colder art.

Oh friend, and dearest friend, because the ties

Of youthful friendship bind us close and fast.

The golden memories of summers past,

O'er flood our hearts, like moon-lit mist that lies

O'er purple woodlands, sloping toward the sea.

What if our hopes were like the rustling leaves

That sang among the branches, glad and free,

Falling with Autumn 'mong the golden sheaves?

And yet if some like crimson banners burned,

For one short season, then to rustle turned—

Why, friend, regret? 'Tis as a song that's sung.

Oblivion like a white-robed angel kneels,

And from the curt eye conceals

The Past. I would not lift the veil that's flung

By pitying Time, between us and the dead.

I see thee, proudly as a knight of old,

Go forth to mingle in the worldly strife.

May all thy actions prove as words of gold,

Set to the music of a noble life—

God's choicest blessings, fall upon thy head.

"Morley's" Letter From New York.

[FROM OUR OWN REGULAR CORRESPONDENT.]

NEW YORK, July 23, 1879.

RAILROAD FINES.

The rapidity with which many railroad men

have amassed colossal fortunes in the manage-

ment of roads that paid but slender dividends

to ordinary stockholders has long excited at-

tention. Petty shareholders were plumpily told

whenever they suggested an inquiry into this

phenomenon that it would be suicidal; it would

ding open the doors to communistic assaults

upon this particular species of property, and

if they knew when they were well off they

would regret for their meagre dividends and

say nothing. This they did year after year

with a docility worthy of a slighter grievance.

But it is a long time which has no turn, and

now the long-suffering stockholder, in common

with the general public, is learning some things

of exceeding rare interest about the way rail-

roads are run. Montgomery Blair is reputed

to have once sharply reminded Jessie Fremont

that the President's Cabinet was the power

which made men and unmade them; and the

Legislative Committee, now in session in this

city, is showing that there is a power by which

merchants, traders and shippers are made or

unmade in business or fortune, and that power

is the will of the railroad magnate. It is shown

that in certain trades where prominent houses

have opposed the peculiar methods of the rail-

road manipulator, he has given the principal

competitors of the offending merchants a dis-

count of sixty-six per cent. on every pound of

freight; that on one road over six thousand

special rates have been granted from sheer

favoritism; that men under the manager's

smile have with unassured fortunes and destroyed

competitors of worth having equal rights upon

a public highway—that, in a word, the office of

Mr. Vanderbilt was where they made men and

unmade them, along the whole line of his roads.

Of these methods more anon.

THE HOT SEASON.

New York is probably the coolest large city

in the world. London, Paris, Vienna and Berlin

know nothing of the cool refreshing salt air

which surrounds us, and an ocean breeze would

whisper to them in an unknown tongue. Sev-

enteen miles long is Manhattan Island, and

only from a mile and a-half to two and a-half

miles wide; both sides are washed by the waves

of broad, swift rivers, through whose channels

the strong tides drive the salt water both ways

twice every day. At its foot lies that magnifi-

cent Circular Bay, over six miles in diameter,

on whose bosom all the navies of the world

safely ride at anchor, and just through the

Far be it from me to disparage the custom of

changing one's air and surrounding at stated

intervals. It is vastly beneficial to do this;

a dweller in the city does well to get a week's

draught of country air, and roam through

woods and meadows; it is well for his country

douan to frequently change his surroundings for

the brisk and driving life of the great city;

the lowlander should make personal acquaint-

ance with the rugged mountain side; and he

whose home is far inland should come and see

the indescribable grandeur of old ocean. The

latest and best theory of rest for the weary is

not idleness, but change of occupations and

surroundings. It may indeed be well for the

pampered children of fashion to give up their

elegant city homes and squeeze into a single

little room smaller than their waiting maid

occupies at home. The change may be good;

the lesson that happiness may exist in a home

of one or two rooms is not altogether bad

lesson to learn; but the idea of leaving New

York to "go cool" under such circumstances is

supremely ridiculous.

MENTER.

Our Washington Letter.

WASHINGTON, D. C., July 21, 1879.

Very naturally and not unexpectedly the

forlorn Democrats complain that Secretary

Sherman and his subordinates are making cam-

paign ammunition in their effort to enlighten

the public as to the condition of the national

finances, and that the Republican party is

profiting thereby. Very naturally, I say, be-

cause it is the Democratic nature to complain

at the inevitable and providential events of

history. In old times they denounced orators

who quoted the Declaration of Independence

without naming that instrument as abolitionists

and agitators working up sectional issues. The

self-evident truths of Republican Government

are against them, and they have cause to com-

plain. Resumption and the refunding policy

have succeeded so grandly in knocking the

Greenback-Democratic dogmas in the head that

the party of repudiation and dishonesty is

naturally enraged about it, and go about gnash-

ing their teeth because these facts are having

an influence on the public and leading it to a

series of sweeping Republican victories this

Fall.

But I started out to say that the success of

the Republican financial policy will probably

receive a marked degree of commendation from

a notable gathering in Saratoga on August 6th.

The American Bankers' Association have called

their annual convention at that place and time

and most of the Savings and Trust institutions

and many other interests will be attracted there.

Eminent financiers from Europe are expected

to attend and lend the aid of their counsel, and

many subjects of a business nature besides

banking will be treated in addresses and essays.

While the gathering will not be a partisan one,

I expect it will result in the advantage of the

a month in the New England States. P. M.

General Key is still North with his family.

Secretary Sherman will remain away several

weeks, and Asst. Secretary French will go to

Massachusetts this week for a three week's ab-

sence. Asst. Secretary Hawley returned to day,

and will be Acting Secretary. The President

will not take his vacation until September.

MAXWELL.

NEWS ITEMS.

President Hayes will spend his summer vaca-

tion at Fremont, Ohio.

A colony of Jews have made arrangements

to purchase 52,000 acres of land in Iowa.

Schuyler Colfax is expected at Asbury Park

this month, to take part in the reunion of Old

Fellows.

It is understood that Zach. Chandler can de-

The Republican.

H. E. BOWEN, M. D., Editor & Prop.
H. C. DOL, Associate Editor.

HAMMONTON, ATLANTIC CO. N. J.
SATURDAY, JULY 26, 1879.

The May Landing Record, with characteristic modesty, states that it (the Record) has the largest bona fide circulation of any paper in Atlantic County, and it has also stated with great assurance that it is "the only live local paper in the county." It is very evident that the Record gives the other county papers credit for only a very limited circulation according to the above statement, and in stating it to be the only live local paper in the county, the Record man allows his judgment to become so distorted as to shut out from his visual organs the true state of the case. Perhaps it would be well for the above mentioned gentleman to suppress such statements, for they read with anything but credit to himself.

Midsummer has come, but still the great heat of July has not permanently interrupted business affairs over the country. On the contrary, agricultural affairs are looking up everywhere, and particularly in the West, where the grain crop, it is estimated, will be unusually large. This presents a good showing for the future, and with the general improvement in all kinds of business everywhere, a bright outlook is presented.

The Governor of Kansas writes that it is a mistake to suppose that the influx of negro refugees into that state is over for this season. On the contrary, he says: "The tide still continues to flow Northward, the greater portion towards Kansas, and at least 75 per cent. of the arrivals are in a destitute condition." Kansas is poor, young, overcrowded with labor, and this sudden addition to her non-producing population is rather alarming. It is a great pity the Confederate Brigadiers don't know enough to keep their working clothes at home and treat them like human beings.—*Comm. Advertiser.*

It is becoming self-evident to all such as are studying the well being of our country, that one part of the Democratic policy will be, as it has of late been, active opposition to our national protective tariff—that tariff which has been established by the present firm footing of our great industries, particularly those of the manufacturers. They have already succeeded in obtaining the passage of a bill abolishing all protection on one great article of Philadelphia manufacture, and the prospects go to show that the future will develop new attacks on this great protective policy that has proved its incalculable benefits in fostering our home industries. When first our system of protection was established, we were in no condition to successfully compete with those foreign nations whose manufacturing interests were so thoroughly settled and far advanced; but by inaugurating the protective tariff and closely adhering to it, we have progressed to the front rank with our industries and are still constantly advancing. Yet the Democratic wise-ones now cry—let us abolish this protective tariff, this means by which we have survived at our present position. We trust the good sense of the people will assert itself against any such ruinous policy, and that they will rise in strong majority to defeat any such ends against our national prosperity. The Republican party has always stood firm in defense of this great principle and it will continue to do so as long as is necessary to promote the country's welfare. While the last two Democratic Congresses have labored strenuously to abolish the protective tariff, and established in its place a new one that would seem expressly intended for the protection of European industries, the Republicans have labored strenuously to uphold our national tariff-guard, and it is in a great measure owing to their efforts that the country is as prosperous as it now is.

Editorial Letter.

Showing last letter I have seen much that I would like to chronicle, much that would be of interest, but it would occupy too much space. Not there are a few things of which I cannot forbear speaking.

On Wednesday, the 10th inst., we had one of the most terrific storms that ever visited this section. It was a perfect cyclone. The demon of destruction did his evil work so thoroughly that he left sadness and mourning in his track. We happened to be only on the outer edge of the storm, and therefore only saw little of the terrible disasters. On Thursday morning I came down and strolled about this old town, to witness the work of destruction accomplished in a few minutes of time. In these few minutes this, one of the most beautiful of New England towns, was shorn of much of its

glory and beauty. Many of the grand old homes that have withstood the storms of a century and a half, and more, were planted by the old puritan founders of the town, were blown down, broken, or limbs roughly amputated, and their beautiful proportions and symmetry destroyed. It was a sad sight to look upon. I saw one Elm, which had stood in the yard of the "Old Church parsonage" for nearly two hundred years, lying on the ground, which apparently did not yield to the power of the storm without some resistance. It measured near the ground over six feet in diameter, and the huge long roots had done their utmost to hold it, but they were drawn from their tenacious grasp on mother earth, and broken like reeds, and there lay the monster tree, shorn of its glory, an object of wonder to numerous visitors who gazed sadly upon what was once the pride and admiration of all loyal people of the town. It had known it was a historical tree, and sadness was depicted upon many of the faces as the eye beheld its prostrate form, and the mind ran back to the long ago, when the Rev. Williams, and the long line of successors sought its grateful shade, and under its wide spreading branches dispensed blessings and hospitalities of "ye olden time." Could its branches speak, what sermons it could preach, and no doubt it could give many lessons of wisdom. It is dead, and will go to mingle its atoms with the dust of those who long ago returned to the ashes, and whose spirits must return to God who gave them.

The town appeared as though a great battle had been fought, though little damage was done except to trees—shade and ornamental—and many garden and flower yards. In the meadows barns were prostrated, and no doubt but for the huge trees of the town the damage to houses would have been great. No lives were lost here, but in other places, lives were destroyed. The storm was extensive, and damage very great.

On Friday, we ascended Mt. Holyoke, which in our boyhood we had often climbed; but never did we enjoy a view there more than now. The day was fine, and the view in no direction obstructed. Imagine an amphitheatre, one hundred and fifty miles one way, and one hundred miles the other, with a lofty tower in the center, from which this vast area can be viewed, and you have just what can be seen from the Prospect House, on Mt. Holyoke. From New Haven on the South to the Green Mountains on the North, you have an unobstructed view. In this amphitheatre you could forty-two towns and cities, besides numerous villages and hamlets, all of which are brought into close proximity by the large telescope. The grand and beautiful Connecticut river, that winds so gracefully among the hills, in and out, forms one of the most lovely scenes of this universe. Forty miles away, towards the South, its silver surface can be seen like a jewel set in emerald and the surrounding foresting a finishing of gems that dazzle in the sunlight like royal diamonds. Immediately below you are the towns, Northampton, Hadley, South Hadley, Holyoke, Amherst, all historic places, and at the very foot of the mountain, are thousands of acres of meadows, the valley of beauty, and nowhere, on all the surface of our earth is it surpassed, and when gazed upon through glasses of amber, led an emerald leaving the reader to imagine the grand sublimity of the scene. The Jews were said to have gazed in holy rapture upon the promised land from the heights of distant mountains, and they gazed on a wild, rugged scene of nature; but from Mt. Holyoke nature and art mingle and combine, forming a picture, a panorama view that artists would give a lifetime to produce on canvas. But the effort would be vain. We can only add, reader, it will pay you a thousand fold to visit this summit. The proprietor and keeper of the Prospect House, J. W. French, was an old schoolfellow, a gentleman, courteous, affable, pleasant, and who seems to live for his patrons, that is to make them happy, and at home. He is a true specimen of the man and host. His good wife as hostess is not inferior to the host. No better table is spread at any hotel.

A boat runs from Mr. Tom Station, connecting with trains from Springfield and Northampton, with a "gallant commander" landing you at the foot of the mountain, whence a carriage takes you to the foot of the steep ascent from which you can go up in a steam car, or walk up six hundred feet of stairs. A trail here, just once, is enough for a life time of memory and gratitude for a mild to thrive and feed up.

I bid farewell to Northampton to-morrow, and to friends who have made my short stay so pleasant that I can but regret to leave them. I have not half time enough to attend to invitations received from friends, friends and schoolfellows of forty years ago. But the best of friends must part, so to-morrow, God willing, I will tread the sacred soil of Green Mountain State and revel in her grandeur and sublimity.

Yours, H. E. B.
Northampton, Mass., July 21, '79.

General Walker estimates that the coming census will add ten millions to the official figures of the population of the country, making it 60,000,000. It is quite probable that this estimate is small enough, and it is also quite certain that during the stamping period for the presidential canvass, the population of the United States will be spoken of as a round 60,000,000.

The yellow fever in Memphis has become epidemic and many cases of sickness and death are reported daily from that city. All who are leaving the city for the north, and business is almost entirely suspended. Individual cases of this terrible scourge are reported from several cities further north.

Auditor's Sale.

By virtue of an order of the Circuit Court of Atlantic county will be sold at public vendue on
Saturday, August 23, 1879,
at the hour of TWO O'CLOCK in the afternoon of said day, the land of Mr. N. J. Garret, Ganley, Zuckhaus, in said county, all E. following tract or parcels of land situated near Glasgow Creek, in the township of Westville, county of Atlantic and State of New Jersey: The first tract beginning in the S. W. corner of the lot between Sully E. Steuben and Charles Campbell's lot, crosses the lane or road and extends up said road nearly a north-west corner of said lot, and thence to a corner in said road; thence (2) south fifty-three degrees west seventeen chains to the said Sully's lot, and thence (3) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (4) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (5) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (6) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (7) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (8) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (9) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (10) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (11) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (12) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (13) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (14) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (15) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (16) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (17) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (18) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (19) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (20) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (21) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (22) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (23) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (24) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (25) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (26) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (27) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (28) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (29) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (30) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (31) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (32) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (33) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (34) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (35) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (36) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (37) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (38) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (39) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (40) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (41) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (42) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (43) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (44) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (45) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (46) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (47) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (48) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (49) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (50) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (51) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (52) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (53) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (54) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (55) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (56) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (57) in its line south two degrees and three minutes, west seven chains to the line between Sully E. Steuben and Charles Campbell's lot, thence (58) in said line north fifty-three degrees, east twenty-two degrees and thirty minutes, to a corner in said road, and thence (59) in its line south two degrees and three minutes, west seven chains to the line between Sully E.  HAMMONTON, N. J.

NO PATENT NO PAY.

PATENTS

Obtained for mechanical devices, medical or other com-
 plete, ornamental designs, trademarks and labels,
 and all matters relating to patents, promptly attended
 to. We make preliminary examinations and furnish
 estimates as to patentability. Free of charge, and all who
 are interested in new inventions and patents are in-
 vited to send for a copy of our "Guide for obtaining Pat-
 ents," which is sent free to any address, and contains
 complete instructions how to obtain patents and other
 valuable matter. During the past five years we have
 obtained nearly three thousand patents for American
 and Foreign inventors, and can give satisfactory refer-
 ences in almost every county in the Union.

 Manufacturer of EUREKA RED OIL.

REAL FIRST-CLASS CLOTHING

WANAMAKER & BROWN.

READY-MADE CLOTHING

Will see with even but little consideration that the old house of Wanamaker &
 Brown is in a position to give superior advantages to its patrons. These advan-
 tages consist in supplying goods that are

FIRST—PROPERLY MADE UP. SECOND—MATERIALS SHRUNKEN. THIRD—EXCELLENT IN FIT.

ORDINARY CUSTOM WORK.

We found out long ago by actual experience that garments bought up from
 the Wholesale Stocks are by no means so reliable as those made up under our
 own personal supervision. Neither will the cut and general style (after wear-
 ing) bear a comparison to our own careful make. By making our own goods the

PRODUCER AND CONSUMER

BOYS' AND YOUTHS' CLOTHING.

This form a very considerable proportion of our business, and we are sa-
 tisfied that we can convince any one that we always offer the Handsomest and
 Best-Finished Goods known to the trade.

LOW PRICES

Do not always mean good value. On this head we shall only say that when
 Style and Quality are taken into account we are not, under any circumstances,
 over undersold, and seldom are the prices to which dealers fall as low as our first
 and only one fixed price to everybody.

OUR STOCK IS ENORMOUS.

Especially in thin goods, suited to the present weather. Inviting a visit and
 recommendations from our friends.
 We Remain, Very Respectfully,

Wanamaker & Brown,
 The Largest Clothing House in America,
OAK HALL, Sixth and Market,
PHILADELPHIA.

GROCERIES!!

H. M. Trowbridge
 will hereafter keep a well assorted stock of Grocer-
 ies—Sugars, Tea and Coffee, Spices, Dried Fruits
 and Canned Goods, Flour, Soap, Molasses and
 Syrup, Butter, Lard, Pork, Salt Fish, Brooms &c.

DRY GOODS!

I shall continue my usual full assortment of
 Dress Goods, Cassimeres, Plaids, Alpacaes, Prints,
 Muslins, Jeans, Sheetings and Shirtings, Flannels,
 Tickings, Hosiery, Gloves, Edgings, Threads of all
 kinds, Buttons, Zephyrs, Pocket Books, Station-
 ery &c.

CLOTHING!

Also a good stock of Ready Made Clothing,
 Coats, Pants and Vests.

All which will be sold for Cash, and at the low-
 est Market Prices.

HAMMONTON, N. J.
April 21st, 1870.

\$77 a Month and expenses guaranteed to Agents
 \$77 outfit free. **SHAW & CO., AUGUSTA, MAINE**

**Manhood! How Lost, How
 Restored!**

Just published, a new edition of **DR.
 CULVERWELL'S CELEBRATED ES-
 SAY ON THE RADICAL CURE (without
 medicine) of Spinal Curves or Seminal
 Weakness, Involuntary Seminal Losses, Impotency,
 Mental and Physical Incapacity, Impediments to Mar-
 riage, etc.; also, Consumption, Epilepsy and Fits in-
 duced by self-indulgence or sexual extravagance, etc.**

The celebrated author in this admirable Essay, clearly
 demonstrates from a thirty years' successful practice,
 that the alarming consequences of self-abuse may be
 radically cured without the dangerous use of internal
 medicine or the application of the knife; pointing out
 a mode of cure at once simple, certain and effectual,
 by means of which every sufferer, no matter what his con-
 dition may be, may cure himself cheaply, privately and
 radically.

This Lecture should be in the hands of every
 youth and every man in the land.

Sent under seal, in a plain envelope, to any address,
 free.

CUMBERLAND MUTUAL Fire Insurance Comp ny.

BRIDGETON, N. J.
 Conducted on strictly mutual principles, of-
 fering a perfectly safe insurance for just what
 it may cost to pay losses and expenses. The
 proportion of loss to the amount insured being
 very small, and expenses much less than usual
 ally had, nothing can be offered more favorably
 to the insured. The cost being about 10 cts
 on the hundred dollars per year to the insurers
 on ordinary risks, and from fifteen to twenty per
 cent per year on hazardous properties, which is
 less than one third of the lowest rates charged by
 stock companies, on such risks—the other two-
 thirds taken by stock companies being a profit
 accruing to stockholders, or consumed in ex-
 penses of the companies.

The guarantee fund of premium notes being
 now Three Millions of Dollars.

If an assessment had to be made of five per
 cent, only twice within the ten years for which
 the policy is issued, it would yet be cheaper to
 the members than any other insurance offered.
 And that large amount of money is saved to
 the members and kept at home. No assess-
 ment having ever been made, being now more
 than thirty years, that saving would amount to
 more than

One Million Five Hundred Thousand Dollars

The Losses by Lightning.
 Where the property is not set on fire, being
 less than one cent per year to each member,
 are paid without extra charge, and extended so
 as to cover all policies that are issued and out-
 standing.

BENJAMIN SHEPPARD, President.
