Hammonton was shocked, last Sunday afternoon, on hearing of the sad drowning of Victor Stovel, of Philadelphia, at the Dam. He had come down from the city with his family, on a visit with friends, and being an exceedingly warm city, decided to take a dip in the pretty lake. Evidently a weak heart was responsible for his death, as he failed to respond to prompt treatment by Dr. Chas. Cunningham and the municipal pulmonologist.

## Town Council Meeting.

Mayor Boyer could not have secured better attendance at Wednesday evening's meeting of Town Council had he offered to treat the crowd with Charlie Chaplin sundries. All seats were filled.

Bills ordered paid included many for special officers, and conveying disorderly drunks to Mayor's Landrig. The totals were \$25.00.

Town Purposes: \$25.00  
Highways: \$25.00  
Fire: \$25.00  
Int. on Floating Debt: \$4.07

Janitor Samuel Heppard presented his resignation, which was accepted. He explained that he had accepted a position at the leading plant.

The Scout Troupe, at Ato, asked permission to camp at or on the Lake, from July 27th to 30th. Clerk was instructed to notify Asst. Scout Master Chas. C. Holton that the permission was granted.

A letter from Chief Adams was read, explaining that he desired an increase in pay, equal to that of special officers. Mr. White's motion was to the effect that Council could not make the increase during the present year of office.

Notice was received from Solicitor Stockwell that the Gas Company had been granted the permission to increase rate to \$1.90, by the courts. A discount is to be allowed on prompt payment, as usual.

A letter from the Atlantic City Railroad Company stated that the matter of watchman at the Fifteenth Street crossing would receive their prompt attention.

From the Attorney General, Fred K. Gilkinson, came the information that the local State Militia Reserve could not secure State guns yet, until the new rifles were received.

Water Department reported a deficit for the six months of about \$1200, and stated that it would be doubled at the expiration of the year. Finance Committee moved that Commission submit more definite report.

Mayor reported that President Rider of the Telephone Company stated that firemen should report when alarms did not sound.

The traffic ordinance, introduced a month ago, was ordered published, that all may know of its provisions. It will come up for final disposal on August 14th.

The Red Cross ladies asked, thru the Mayor, that the streets be washed at Second and Bellevue, to protect their work from dust germs.

A vote of thanks was suggested by Mayor Boyer, and carried heartily, to the Militia Reserve for their services on July 16th.

Mr. White called attention to the dangerous condition of walk at the Park. Property Committee was empowered to have same repaired.

All the extra traffic silent policemen had been mortally wounded by autos and trucks, the Overseer of Highways was instructed to employ surgeons and have them repaired.

The meeting adjourned, to meet on July 31st, to take up appropriation ordinance, etc.

SATURDAY, JULY 27, 1918

Cannot something be done by the Penna. Railroad Company to prevent that mud puddle across the walk near the hydrant? It is a very unpleasant mess to walk through.

Did you ever see such potatoes as those raised by J. C. Rizzotte & Brother, on display in Black's and at Applegate's? They give credit to three sources—the variety, the soil, and West Jersey Marl and Transportation Company's fertilizer, but without their practical know-how, the results would have doubtless been smaller and fewer potatoes.

No, the real estate business is not dead in Hammonton by any means. Hardly a house can be secured to rent, and but a few are for sale, and building lots are also scarce. H. M. Carrell has recently sold all his lots on Valley Avenue, and has but a few remaining on Bellevue Avenue.

One of our patriotic merchants has offered a gallon of paint with which to improve the down-town fire house. It will take more of the stuff, and some expense in putting it on, and we do not doubt but there are several others who would like a hand in the gift.

A good idea that, of sprinkling the street at Second and Bellevue, so that the dust could not rise up, and cover the bandages in the Red Cross workrooms.

To many people, a dog is a dog, no matter what its pedigree is. But to others—ourselves included—most of the canines we see along the road are a menace. They are not cared for, they live on other people's land and garbage heap, they are susceptible to disease and hydrophobia, and, last but not least, they consume as much as a human being. In these days of food shortage and high prices, why in the name of common sense don't people adopt or board a homeless waif from the cities? If you have anything to spare, for your country's sake help humanity.

What became of that proposition to erect public bath houses at the Dam? They are certainly needed.

Don't waste water! On account of the shortage of coal, the Commissioners are passing along this warning. We hear of some people who leave the lawn sprinkler on all night, and such should be deprived of water privileges.

By far the most important act of the present Council should be the safe-guarding of the waters at the Dam. The drowning last Sunday was entirely unnecessary, the result of neglect on the part of the Town authorities. Several have drowned in that "hole," and many narrow escapes have resulted. It would take but a few loads of cinders, old cement, etc., and covered over with sand. The sinking of iron pipes at that spot was tried, but the workmen found no bottom—the pipes continuing to sink in the soft sand. There is no finer swimming pool within thirty miles; and we believe it should, and could, be made safe for men, women, and children.

Sweet the Hun! Sweet his ally, John Barleycorn!

Up to going to press, it has been dreadfully dry. Vegetation is burning up, streets are ground to dust, and everything along the highway is coated with a sticky yellow. Oh for a good soaking rain!

Every citizen, every one who voted at the last election, owes it to himself, his family, and his town, to sign the petition at the newspaper office or in the hands of committee, to place the subject of license or no license on the ticket at the fall election. With the largest ammunition factory in the world at our very doors, safety demands that the saloons go.

When your liver quenches its thirst, drive it on for a rod, and allow a four-footed beast to get at the fountain. We have observed machines in front of this hot weather necessity many times, and wondered if the owners remembered that horses often need a cooling drink.

Do you believe in fair play? Then sign the petition going about town, asking that the license question be placed on the ticket at the general election.

## The License Question.

Hammonton, like all other towns near ammunition plants, is fast seeing the danger from saloons; and, if we can judge by what we hear, she will not wait for the Government to close all those places for the period of the war.

There is at present an executive committee, securing signatures to a petition for the question to be placed on the ticket at the general election. All who voted at the last election can sign the petition—not on Sunday however.

In the interest of fair play, and in view of the danger of drunks at the munition plant, you are asked to allow this matter to become an issue; and when it comes to vote, vote dry. If you own property here, and have observed the quality of jags on our streets, you will help wipe out the menace. And, furthermore, let clean up the town for our boys who will soon be sent home from the front, when the Kaiser gets what he deserves.
