

The Republican.

Hammonton, Atlantic Co., N.J.

SATURDAY, AUGUST 4, 1866.

The Next New Jersey Election.

The next election in this State promises to be even more exciting than was that of last fall. The Stockton trouble has intensified the anger of the copperhead party, and the monopoly in elasticity that heretofore, while securing two Senators in support, was not venturing Farms.

In the great Hammonton Fruit Settlement, the best inducements are offered to all wanting farms in the most delightful and healthy climate, with a good productive soil, being among the best in the garden State of New Jersey; only thirty miles from Philadelphia on the Camden and Atlantic Railroad, and but few miles to the New York Railroad, and but few miles to the New York Railroad. These lands are sold to the actual settlers at low prices and easy terms, in five, ten, twenty acres and upwards to suit. The title perfect; warranty deeds, clear of all incumbrances, given when all the purchase money is paid.

The Soil

is a fine sandy and clay loam, suitable for all grains and grasses, and is pronounced the finest quality for gardening and fruit raising. It is a marine deposit, with a very subsoil mixed all through it, in a very commuted form, and in the exact condition to support plants with proper fertilizing, it is very productive and profitable, worked, and warm and early. The bay of the land is slightly undulating, and is called level; it is free from stones or rocks. It is the best fruit soil in the Union.

Pears, Peaches, Apples, Quinces, Cherries, Blackberries, Raspberries, Grapes of all kinds, and all other fruits are raised here in immense quantities, and they are sought after by the dealers, and command the best prices in the markets.

Hammonton is already celebrated for its fine fruits and wine.

From two hundred to five hundred bushels is cleared, free from expense, per acre in the fine fruit culture. Sweet Potatoes, Melons, and all the finer vegetables delight in this soil; this branch of farming pays much better than grain raising, and is much easier work.

The Market

is unsurpassed, direct communication twice a day to Philadelphia, New York, and Atlantic City. The Railroad Company leaves cars here to be filled with fruit every day in the season; they are filled in the afternoon, and the same night or next morning by daylight are in the market, where the highest cash prices are obtained, without any other trouble to the producer than delivering the produce to the car. None of the land now offered is over one and a half miles from the Railroad.

The Climate

is mild and delightful the winters being short and open, out-door work can be carried on nearly all winter, whilst the summer is no warmer than in the north. Persons wanting a change for health will be satisfied here—the mildness of the climate is soon beneficially felt by delicate persons and those suffering from Dyspepsia, Pulmonary affections, or General Disease, as hundreds will testify. This section has long been known for its health and during the summer months tens of thousands flock for health. No Miasma Chills and Fevers in this section.

The Water

is pure and soft, of the best quality. It abounds in streams and is found by digging from ten to thirty feet. Wells are cheaply made here, as there is no rock to go through. We have the best stores in the country, where goods are sold as cheap as they are in Philadelphia or New York.—Good schools with competent teachers.—Clergymen of all denominations reside here, some of them in charge of congregations, others cultivating the fruits, also a number of retired physicians. The Methodists, Presbyterians, Baptists, Universalists, &c., have their services regularly.—Mills convenient.

Reliable practical mercantile who furnish

all kinds of trees, plants, and vines at the lowest prices.

The population of the settlement is large and rapidly increasing; it is composed of the best classes from New England, the Middle, and Western States—intelligent, industrious and moral. The buildings are neat and handsome, and some of them fine. All materials for building, improving, etc., at hand; also reliable mechanics who will give satisfaction. Every convenience to be had that can be found at any other place. Persons owning property here obtain tickets of the Railroad company to and from the city at a discount of twenty-five percent on the regular fare.

The lands have been examined by some of the best agriculturists and realty dealers in the country, who pronounce them the best in the U. S. for fruit growing. Mr. Nelson Robinson, the agricultural editor of the New York Tribune; Dr. L. P. Trumbull, the State Entomologist; Mr. John G. Bergen, member of the American Institute of New York, and others, reported that they were sure to find great fruit, grain, and grass, there being here, and recommended this settlement as a safe investment.

These lands are being rapidly sold, and from the rapid and extensive improvement property will certainly increase in value.

Inquire for R. J. BYRNE, the founder of the settlement, who will show the land free of expense. For further information inquire or address,

R. J. BYRNES,
Hammonton, N.J.

For All the latest news and information
about the new settlement, inquire at the office of the New Jersey Republican.

Suffrage.
Mr. Editor.—I should like to have you give a plain answer to the question "Is not universal suffrage a necessity in all true republics?" HONEST.

No. Republican governments require two things with respect to suffrage. First, that it be impartial, that is, that the regulating law apply alike to all classes, high and low, rich and poor, black and white.

for Altarney thousand acres of Cranberry lands. Circulars or other information cheerfully forwarded.

CONSUMMATES.

READ WHAT DR. SCHENCK IS DOING.

DR. J. H. SCHENCK.
Dear Sir.—I feel a duty I owe to you, and to all my readers, gathered under the above name, to communicate to you what great benefits I have received from your Palomino Syrup and Seaweed Tonic in so short time. By the blessing of God I have cured myself thus far:

Dr. Schenck, I will now make my statement to you as follows: About eight days ago I began to feel a slight pain in my right side, and suffered with evening fevers and night sweats. I was very much reduced. The whites of my eyes were very yellow; likewise my skin; my appetite all gone, and unable to digest what I did eat; bowels swollen, irregular and constipated. I was very low spirited, and had such violent spells of coughing that I laid down at night, and when I arose in the morning that they would last one or two hours.

It is the best fruit soil in the Union. Pears, Peaches, Apples, Quinces, Cherries, Blackberries, Raspberries, Grapes of all kinds, and all other fruits are raised here in immense quantities, and they are sought after by the dealers, and command the best prices in the markets.
