Report from Mr Batchelor in regard
to purchase of engine, etc., for use of
glass factory,—said machinery to be in
the custody of the town three years,
then to belong to Messrs. Skinner &
Son, provided they continue the busi-
ness in Hammonton during that period.

Mr. Boyer introduced an ordinance
defining tramps and providing for their
punishment by working on the roads.
Passed first reading.

An ordinance was introduced to
amend one section of the water ordi-
nance. As we understand, the water
company would not accept the require-
ment for a pressure of forty pounds to
the inch—claiming that it was im-
possible to maintain it at all times.
The amendment omits statement of
pressure. Passed first reading.

Mr. Boyer introduced the following
resolution, which was adopted and
ordered printed:

Resolved, that this Council extend a
vote of thanks to the Hammonton Loan
& Building Association, to Hon. R. J.
Byrnes, to Mr. Cyrus F. Osgood, and
to Messrs. H. McD. Little, S. B. Brown
& Co., W. L. Black, E. Stockwell, Col.
B. W. Richards, J. O. Johnson, J. T.
Fronch, Nat. Black, J. B. Small, John
Murdoch, M. L. Jackson, Capt. Love-
land, H. L. McIntyre, Harry Trow-
bridge, Robt. Steel, N. F. Bowker, and
Harry Baker, and Mrs. Crowell and
Cochran, for the liberal contributions
and aid given Council in its effort to
secure the location of the Skinner Glass
Works in Hammonton.

Highway Committee instructed to
have road leading to Rockwood mon-
dows repaired,—cost not to exceed ten
dollars.

Wash-out reported on road to Folsom.
Residents offer to furnish gravel for re-
pairs, if town will haul same and pay
half cost of labor. Referred to commit-
tee with power to act.

Adjourned, after agreeing to hold
another meeting on Aug. 5th, to act
upon ordinances and other business.

To leave others to do your work, is to
leave your purse-strings open.

Story of a Slave.

To be bound hand and foot for years
by chains of disease is the worst form of
slavery. George D. Williams, of Man-
chester, Mich., tells how such a slave
was made free. He says: "My wife has
been so helpless for five years that she
could not turn over in bed alone. After
using two bottles of Electric Bitters, she
is wonderfully improved and able to do
her own work." This supreme remedy
for female diseases quickly cures nervous-
ness, sleeplessness, melancholy, headache,
backache, fainting and dizzy spells.
This miracle working medicine is a god-
send to weak, sickly, and run down
people. Every bottle guaranteed. Only
50 cents. Sold by Dr. G. Crowell,
Druggist.

If the Cobans appreciated municipal
cleanliness and healthfulness, they
would want Uncle Sam to hold fast on
them forever.

L. A. W. Meet, Boston.

For the annual meet of the League of
American Wheelmen at Boston, August
14 to 19, the Penna. R. R. Co. will sell
excursion tickets from all points on its
line to Boston at rate of single fare for
round trip. Tickets will be sold on Aug.
12 to 14, good to return Aug. 14 to 20
when properly executed before agent of
initial line from Boston. Upon deposit-
ing ticket with city ticket agent of the
initial line from Boston, not later than
Aug. 19, and the payment of 50 cents,
tickets may be extended to leave Boston
not later than Aug. 31. Bicycles carried
free when not accompanied by any other
baggage. Special arrangements for clubs
traveling as a body.

SHERIFF'S SALE.

By virtue of a writ of fieri facias to me di-
rected, issued out of the Circuit Court of
Atlantic County, in a cause wherein The
Peoples Bank of Hammonton is complainant
and B. Crescenzo is defendant, I will expose
to sale at public vendue, on

Road at the distance of three hundred and
twenty rods Northeast of Main Road; thence
extending (1) North forty-five degrees and
thirty minutes West eighty rods to a point;
thence (2) North forty-four degrees and thirty
minutes east twenty-one rods to a point;
thence (3) South forty-five degrees thirty
minutes East eighty rods to the centre of
Pine Road; thence (4) along the same South
forty-four degrees and thirty minutes West
twenty-one rods to the place of beginning,
containing ten and one half acres of land,
strict measure, being the same premises that
Anna Clark conveyed to Blajo Crescenzo, by
deed dated March 20, 1898, and of record in the
Clerk's Office of Atlantic County, in Book of
Deeds 123, folio 578, &c.

Tract No. 2—Beginning in the centre of Pine
Road one hundred and eighty rods from the
centre of Main Road and corner to one Cam-
panella's line; thence extending (1) along said
Campanella's line Northwesterly and at right
angles with said Pine Road eighty rods;
thence (2) Northeasterly and parallel with
Pine Road twenty rods; thence (3) Southeast-
erly and parallel with first line eighty rods to
the centre of Pine Road aforesaid; thence (4)
along the same Southwesterly twenty rods to
place of beginning, containing ten acres,
being the same property that John A. Robin-
son conveyed to Blajo Crescenzo by deed
dated October 2, 1885, and of record in the
Clerk's Office of Atlantic County in Book of
Deeds 100, folio 262, &c.

OUR TOWN CHARTER.

The Committee appointed by last Town Meeting, to examine the various State laws concerning Townships, Boroughs, Towns and Cities, and to report at a special town meeting to be called at their request, were authorized to expend not to exceed fifty dollars for legal advice. To ascertain something of the present legal status of Hammoncton's ancient charter, they sent a copy of same to a competent attorney, with a request that he give a written opinion of it. We publish a synopsis of the reply:

The acts under which you are governed (the charter) were passed in 1866 and 1867. All acts of a general application which apply to municipalities in the state, so far as they relate to Towns, if inconsistent with said charter, as also acts passed since 1874 relating to Towns, if inconsistent with said charter. For example,—about one third of your charter is in relation to sale of land for taxes; but your tax sales must be conducted under law of 1879. Your charter provides for a Supt. of Schools; but your schools must be operated under general state laws. By your charter, the chairman of your board of Assessors is Judge of Elections; yet your elections are conducted under the general election laws, and by officers appointed under these laws.

Your charter gives Councilmen the right to enter private property to remove obstructions, which is clearly unconstitutional. Your charter grants no authority to transfer money from one appropriation to another. The terms of several of your officers have been changed by general legislation.

It would require a vast amount of labor to ascertain how many and which of the provisions of your charter remain unreppeled. For instance, in 1898 Legislature passed twenty-two different acts; in 1897, nineteen; in 1896, thirteen; in 1895, sixteen—all relating to Towns. All these modifications render your official acts uncertain, for fear some general act applying to Hammoncton may have been overlooked. Much litigation may result from such uncertainty, and your charter will for these reasons always prove unsatisfactory.

It would be hard to have to go to Heaven and find it a foreign country and a land of strangers.

The rudest man is the Christian who invites his Lord to tarry with him, and then leaves him to entertain himself.

The Lord looks not so much at what we have given, as to what we have got left. This ought to be borne in mind in our estimate of our own gifts, and of the gifts of our fellow-men.

In order to do right, it is necessary to be right.

The M. E. S. S. Picnic.

Under the spreading branches of the giant oaks at Inskip, on Friday of last week a merry party of young and old people enjoyed a day's outing.—twas the M. E. Sunday-school annual picnic. It was to have been on Thursday, but on account of the severe storm on Wednesday was wisely postponed, to allow the ground to dry. The sand at Inskip is not intended to hold moisture very long, so, although we had another heavy shower Thursday night, the sand was in nice condition to walk on. About 125 participated, and, to all appearances, thoroughly enjoyed the day.

Hammoncton were awning in shady places, and swings put up. Some of the "boys" played ball a while, but the sun was so intensely hot they soon sought the shelter of the friendly trees. The stream was swollen very high by recent rains; so much so that the spring alongside of it could not be reached, and we had to drink the water from the stream itself. The blue hole, of which so much has been heard, usually so very clear, was so muddy that the bottom could not be seen.

A party of men from Williamstown came over the same day, and held a clam bake. An agreement was reached that they should stay on one side of the road passing through the grounds, and that we should keep the other. As both parties kept their agreement, no unpleasantness arose between us to mar the pleasure of the day.

When the lunches were spread out it was plain to see that almost all the delicacies woman's ingenuity could compound or contrive was set before us, and they soon began to disappear in a way that would have made an epicure shudder. After lunch the can of ice cream was opened, and this shared the same fate as the lunch. After this interesting part of the program, the people set about to enjoy themselves in the way they thought best.

No accident occurred to spoil the pleasure of any-one, and as the shadows began to lengthen and grow deeper, the wagons were put in readiness and received their load of living freight. The ride home in the cool evening air was very enjoyable. Although it was a day pleasantly spent, and will doubtless live long in the memories of many present.

A. L. TRAFORD.

In an outburst of enthusiasm a negro divinity student uttered this earnest prayer: "Give us all pure hearts; give us all clean hearts; give us all sweet hearts!" To which the congregation responded "Amen!"

Remarkable Reason.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was. Free trial bottles of this Great Discovery at Crowell's Drug Store. Only 50 cents and \$1.00. Every bottle guaranteed.

Diemark's Iron Nerve

Was the result of his splendid health. Indolence will and tremendous energy are not found where Stomach, Liver, Kidney and Bowels are out of order. If you want those qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25 cents, at Crowell's drug store.

Very naturally some people don't like to have it said that labor strikes only take place during prosperous times, because it carries the natural conclusion that strikes don't occur when free trade or tariff reform has a chance at public affairs. The shoe pinches just here, because prosperous times aren't enjoyed when a Protective tariff has been supplanted by free trade of any variety. Congressman Gardner, who is chairman of the Labor Committee of the last Congress and a leading member of the Industrial Commission, would naturally be regarded as an authority on all the matters pertaining to the welfare of the wage earners, said to a reporter of the Washington Post the other day that "strikes become frequent at a time of great National prosperity. That there is a connection between strikes and good times is irrefutable." It may be that at times of great prosperity the employees feel that their employers are making a great deal of money and are giving to them too small a share of the profits of business, but this fact would not disprove the other fact that there is force in the historical statement that strikes occur most frequently when good times prevail—let the further conclusions be what they may as affecting parties.

Just listen to this, you free trade and anti-trust partisans: Mr. John R. Bartlett, an American, has succeeded in organizing an oil trust in England with a capital of a million and half dollars! and yet it was a poor millionaire who declared that Protection was the mother of trusts.

It would seem like a travesty on common sense to admit Mr. Roberts to a seat in Congress, thereby approving polygamy and then insist upon punishing a man for violating the law because he has plural wives.

Volcanic Eruptions

Are grand, but skin eruptions rob life of joy. Buckle's Arnica Salve, cures them, also Old, Running, and Fever Sores, Ulcers, Bolls, Felsons, Corns, Warts, Chaps, Itch, Burns, Scalds, Chapped Hands, Chapped Faces. Best Pile cure on earth. Drives out pain and sores. Only 25 cents. A box. Cures guaranteed. Sold by Dr. G. M. Crowell, Druggist.

The Board of Health met on Thursday evening and adopted a sanitary code, which will be published next week. They also investigated a rumor that the Pressy family had been exposed to the yellow fever, and found that they did not come from the infected district.

Theodore Cauffman, second son of Mr. and Mrs. E. L. Cauffman, died early on Wednesday morning, at the family home, on Fairview Avenue, Hammoncton, aged 29 years. "Thorpe" was a young gentleman of culture, and highly esteemed. He had suffered a long time with consumption of the bowels, but passed away as peacefully as if in beautiful sleep.

Misses Anne and Emma Pressy, also Dr. and Mrs. Jean Pressy and infant child, and Mrs. East Pressy and child have reached home from Virginia. That their welcome was unusually warm is due to the fact that the party were boarding at one of the great beach hotels beyond Newport News, and within the territory quarantined on account of the yellow fever, which broke out at the National Soldiers Home at Hampton. How did they get away? Well, it's quite a story, and sometime in the future it might do to print it.

Andrew K. Bornhouse has passed the required examination, and holds a teacher's diploma from the "Phonographic Institute" (Cincinnati), the highest authority and headquarters of the Ben Pitman system of phonography in the United States. The diploma was earned by hard and systematic work—much of it done at night, after working hours, and reflects the more credit upon Andrew. It is considered an honor among professionals to obtain this certificate of proficiency, which will enable the holder to secure a position, if he desires, in any of the business colleges.

Mrs. J. S. Thayer is entertaining her brother, Geo. Taylor, and family, from Newport News, Va., and her mother, Mrs. Taylor, of Camden.

On Tuesday, Mrs. Milstead entertained a company of little folks at her hospitable home, in honor of Miss Anna Milstead, her grand-daughter.

Some of the young people are taking up a boat carnival, to take place some time this month, at the Lake. The boat decorated best, in point of beauty or uniqueness, to have a prize. A good idea.

Little Hazel, daughter of E. A. Cordery, died on Tuesday morning, of spinal meningitis, after but two days illness, aged eight months. Funeral on Thursday, service conducted by Rev. H. R. Rondall.

A large party of Hammonctonians drove to Winslow on Wednesday evening, to visit the brick works. The storm kept them there rather later than they had planned; but they all reached home in good spirits.

The Methodist and Presbyterian congregations will unite to-morrow, Rev. G. B. Vandyke will preach, in the morning in the Presbyterian Church, evening in the Methodist Episcopal Church. The same order will be observed the following Sabbath.

Mr. Harry E. Newell and Miss Laura G. Baker, both of Atlantic City, were married on Thursday, 3rd inst., by Rev. Thos. C. Cross. Both are well known here, and we unite in extending best wishes to the happy couple. They are away on an extended tour.

Some men say they will oppose taking a "backward step" into a township government. That is but sentiment,—the proposition is business. Wait, and hear what the Committee propose, and the arguments on both sides. We must have a change.

The Board of Health met on Thursday evening and adopted a sanitary code, which will be published next week. They also investigated a rumor that the Pressy family had been exposed to the yellow fever, and found that they did not come from the infected district.

Diemark's Iron Nerve

Was the result of his splendid health. Indolence will and tremendous energy are not found where Stomach, Liver, Kidney and Bowels are out of order. If you want those qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25 cents, at Crowell's drug store.

Very naturally some people don't like to have it said that labor strikes only take place during prosperous times, because it carries the natural conclusion that strikes don't occur when free trade or tariff reform has a chance at public affairs. The shoe pinches just here, because prosperous times aren't enjoyed when a Protective tariff has been supplanted by free trade of any variety. Congressman Gardner, who is chairman of the Labor Committee of the last Congress

the affair of the fiery furnace, and
early fifty years before the affairs of

both Jews and Gentiles. The descendants of both Jews and Gentiles are mentioned. It had been reported by Tighath-plese, Sargon, Sennacherib, and other Assyrian kings that the Jews had been taken into exile had been reinforced by several tens of thousands, including women and children, the best citizens of Judah (2 Kings 24:14-16; Ezek. 1) For several years Ezekiel had been preaching and urging them to return to their good citizenship. They had been refractory, thinking that the Lord would not return to them. But now the prophet had become dumb (Ezek. 2:1; 3:23). But now has come that time when the Lord will speak and resume his activity as a preacher. The lesson is an extract from one of his sermons.

Place.—By the river Chebar (Ezek. 1:1). A large navigable canal near the city of Nineveh, east of the region the exiles were numerous.

Parallel Passages.—All Ezekiel; Jeremiah 34:44.

BOY WITH X RAY EYES.

Strange Faculty Possessed by Alfred Brett Fozzette, the "Telegraphist."

Scientists are puzzled to account for the strange faculty possessed by Alfred Lionel Brett, the 11-year-old son of Dr. Frank Brett of South Norwell, near Boston, Mass. What is a "hypnotic condition," induced by his father, the boy is able to see through solids. He can see the bones of a living man, and his power has often been used by his father to

cases of "fracture" which he had been called upon to treat. Concluding proof that there was no sham about the boy's wonderful faculty has been furnished by Prof. Leslie J. Meacham, m. who is connected with the Medical College of Cornell University. One of Prof. Meacham's arms was broken some time ago, and in healing the bones did not knit perfectly. Last December an X ray photograph was taken of the arm showing the imperfect joint at the elbow. Recently Prof. Meacham was to the boy's home at South Brimfield, and introduced himself to the family. At his request young Alfred was thrown into the hypnotic condition by his father, and asked to describe Prof. Meacham's elbow. He did so, and his description is fully substantiated. It is shown by the X ray photograph. Neither the boy nor his father attempt any explanation of the boy's strange faculty.

UTAH'S SALT PALACE.

It is to be the main building in a permanent international exposition. In Salt Lake City, seventeen miles from Great Salt Lake, and on the edge of the alkaline plains, the State of Utah has decided to erect a palace of salt. It is to be modeled after the design of the World's Fair buildings in Chicago, which were of wooden frame

work covered with "salt," or stucco. The salt palace is to be the main building of a permanent international exposition to be held in Salt Lake City, Utah, Nevada, Arizona, and

Moab.

The salt pan will be covered three-fourths of the ten acres allotted for the exposition. The salt will be applied to the wooden structure by a spray. The water of Great Salt Lake, which is 20 per cent. salt will be used, with the addition of a secret chemical that will render the quickly solidifying salt non-poisonous to water. Experiments have been secretly made by Utah chemists and have demonstrated beyond a doubt the practicability of the plan.

AUGUST FLOWER.

"It is a surprising fact," says Prof. Honten, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion. Sample bottles free at Crowell's Pharmacy. Sold by dealers in all civilized countries."

Base-Ball.

Hammonton had an off day last Saturday, and a glance at the error column will explain the cause of the defeat. Then, the visitors were quite good hitters, and kept our fielders awake. Cordery was responsible for several bases for the visitors, letting the ball slip by several times, while Setley could not collect himself in time to avoid making several bad throws. Even Wolsseifer had to miff a throw to second. These were a few of the errors. On the other hand, special mention should be made of Naylor's and Thomas' running catches of Beecher's and W. Herold's sky rockets in the fourth.

The fun commenced in the second inning. Kane sent one to right, Valentine pushed to Neveling and got his first. After miff at second, Schuck brought in Kane by a fine drive to right. W. Herold found the same place, and Valentine tallied. A bad throw from the home plate brought in Schuck. Beecher drove home a clincher to center, and Conley clinched it. But W. Herold made it four.

In our half, Conley flew to right. McLaughlin balked, and Thomas trotted to 1st but was caught at 2nd by Naylor's push to Kane. Conley slid in on a passed ball. Cordery sizzled to left, Gifford to centre, and Naylor popped in, and Cordery made it three for us, on a passed ball. In the fourth, McLaughlin drew a base on balls, and sauntered in on a bad return to first of C. Herold's drive to right. Henry rushed in the latter, and came in himself, with the help of Kane. This was an end of the running.
