Union Excursion.

Next Tuesday, Aug. 13th, five Hammonton Sunday Schools,—Baptist, Methodist, Presbyterian, St. Mark's and Universalist, will unite in a union picnic-excursion to Clementon. Train leaves, on the Reading Railroad, at 9.00 a.m. It is advisable to be on hand at least fifteen minutes earlier, to be sure of getting a seat. The train will be here a few minutes before starting time.
Tickets, 50 cents for adults, and 25 cents for children from five to twelve years old, will be on sale at the platform by members of the committees. Sunday School children receiving free tickets will exchange them in the same way for railroad tickets.
Those not wishing to take their dinners with them can secure lunch or full meals near the picnic grounds.
In case of hard rain, arrangements have been made to go the next day.
It is expected that there will be not less than eight cars.
Provide the little folks with spending money. Schools will treat their members to merry-ground tickets and swings.
Returning, the train will leave Clementon at 7.30 p.m.
Give the youngsters a day off, and go yourself, too.

It is considered a wise policy to buy reliable merchandise that is being offered at almost half their actual value, although you do not have immediate use for it.

Goods on which we cut prices so amazingly low are not the kind that you would have to put away,— they can be worn immediately, and then kept for next Summer; and most of it can be worn all the year round.

So you see it is economy to buy now.

New shipments came in from a few manufacturers, and we put on low enough prices to make sure of their quick disposal.

A New Home Talent Show

On Friday and Saturday nights, Aug. 23rd and 24th, there is to be a brand-new home talent production in Hammonton, that promises to outclass anything of the sort that this town has seen.
It is called "Gems," and is a musical show containing fifteen numbers, divided into three acts of five specialties each. There are some for tiny tots, some for boys and girls, and choruses and songs for grown-up folks.
A home-talent show, comprising new music and original features, is such an innovation that the result is anxiously awaited.
"Gems" is under the personal direction of Edna R. Colladay, of the American Entertainment Bureau of New York City, who has recently produced it in Vineland and Pleasantville with such success that it had to be repeated in the latter town.
The show is for the benefit of the Hammonton Fire Company, to get busy and help all you can; and meantime watch these columns for further news concerning the progress made. We'll tell you all about it.

FASHION'S FANCIES

9233

trouble is taken to show her to advantage. A plain linen blouse, a sailor suit, the simplest of hats with a wing or a bow of ribbon are almost the uniform of the young French girl. Paris mothers will dress their little children from the age of two to ten in the most luxurious of clothes, and take pride in being seen with the little fairies. But once the child goes to school who has ceased to be a toy, and her clothes do not become interesting until she is on the point of making her debut in society.

TO SAVE SCRUB BRUSHES.

The economy of brushes is quite worth studying, as they amount up to a heavy item in the year's expenditures. A scrubbing brush that is left to soak in a bucket quickly rots. Sweeping brooms should never be hung up, except when in actual use; they should at once be stood on the point of the handle, hand upward, against the wall, if there is not a broom rack. Dusting brushes should have a string or cord tied around the handle, from time to time, as they get dirty, just as dusters do.

Do not leave your pets at home unprovided for when you go on vacation. These are the refugees to which they can be sent.

9232-233. A POPULAR SUMMER GOWN.

Blue chambray, embroidered in self color, and finished with bands of white embroidered in blue is here shown. The design is cool and summery, and will develop attractively in dimity, lawn,ingham, silk, cotton voile and other wash materials. The waist pattern is cut in five sizes: 34, 36, 38, 40 and 42 inches bust measure. The skirt 52 1/2 in five sizes: 22, 24, 26, 28 and 30 inches waist measure. It requires 6 1/4 yards of 35-inch material for the entire dress for a 36-inch size.

GIRLS' COIFFURE

How Smart Young Parisians Are Wearing Their Hair.

French girls of good family are all dressing their hair in exactly the same style, written out Paris correspondents. One copies the other and the girl who would appear among her friends without a parting down the middle and kind of bun rolled low on the back of the head would be considered old-fashioned.

Every girl at a fashionable lecture had her hair done in this manner. It cannot be said that it is attractive, but possibly in a few short months, or years, they will abandon the bun for the "chignon," and coils of married life.

There is a big difference in the hair-dressing of a young mother and her young daughter. Until the daughter "goes into the world" very little

WORTH KNOWING.

To fill floor cracks get a pound of glue, let it stand overnight covered with water. Then pour of the water and stir it into a pound of cornstarch. Fill the cracks with this and smooth off with a knife.

After frying doughnuts, place the kettle of hot grease out of doors and pour in a little cold water, enough to make the grease bubble. This will take out the burnt taste, and the grease may be used again.

To clean light-colored velvet, corduroy or felt, rub the soiled portion lightly with the cut surface of a day-old loaf of white bread, cutting the surface as fast as it becomes discolored. Bacon, if possible, should be purchased by the side and sliced in the house, having several cans on each pound. The fat, when frying, should be kept covered with a lid, and heating and cooling, so that the odor may not be so great.

It's no play when one haunts and the other weeps.

HELPFUL HINTS FOR HOMES.

To take away the oily taste when butter is used, melt the oil very hot and then fry a piece of onion in it, and when done take it out.

One of the most useful herbs in cooking is thyme, which is invaluable for soups, stews, and gravies, etc. Both fresh and common thyme should be stored.

When dressing stockings run a thread round each hole before beginning and draw out the edge as you go. This makes the hole appear smaller, and it will be much easier to mend.

Holes in linen can be cured by applying a solution of alum. Alum is a common article of the household and is sold in the form of a powder in the drug store. THE NURSERY.

One of the most noticeable conditions in the American home where there is a child, or children, is that caused by over-buying in the line of toys for the purpose of amusement.

Not only is this so in the home of the wealthy, but also those of less means. Indeed, one might think that the most noticeable condition in the nursery is that of over-buying in the line of toys for the purpose of amusement.

Town Council Proceedings.
At the adjourned meeting last
Monday evening, Messrs. Baker,
Piez and Turner were present. No
quorum. Adjourned at 8.30, to
meet on Thursday evening.

Thursday evening,—all present
except Messrs. Godfrey and Turner.
Several items of business were
disposed of,—not of interest to the
general public.
Map of H. W. Miller's new plot
looked over. As it contains streets
not on the town map, it was asked
whether Council's approval would
not constitute acceptance of these
streets and obligate the Town to
care for them. Referred to the
Solicitor.

In reference to Seventh Street,
the boundary line of the Town,
which Mullica Township desires
to have definitely located, Council
voted to have the same surveyed
by our Town Engineer, and stone
monuments set,—Township and
Town to share the expense.

Asked for improvement of Jacobs
Street referred.
Voted, to put Second Road, be-
tween Ninth and Tenth, in usable
condition.

Antonio Pinto asked that his
pool-room license be renewed. Re-
ferred.

Renewal of Street Light contract
was then considered. Committee
instructed to arrange for one year
extension of present contract.
Specifications for new curbs and
walks taken up, as prepared by
the Engineer with assistance of
the Solicitor. Read by the Clerk,
debated at length, and referred to
Sidewalk Committee for certain
investigation, to report at the next
meeting.

Voted, to ask bids for seventy-
five copies of above specifications,
in booklet form.

A petition with seventy-odd sig-
natures was read, asking Council
to assume the expense of sprink-
ling streets next year, adding the
cost to appropriations asked for.
There being doubt as to legality of
such action, it was referred to the
Solicitor.

Adjourned at 10.49.

Base Ball Games.
One of the best games of the
season was played last Saturday,
when the Hammonton team de-
feated Egg Harbor by 1 to 0. Tell
pitched a good game, and backed
by fine fielding, allowed but two
hits. In the ninth he made a
timely hit, with two on bases and
two out, scoring the run. Birdsall
made a hard one-handed catch,
and Slack won applause by a neat
catch of a foul, beyond first.

The Travellers played a return
game with Norma, and were de-
feated, 4 to 3, in an eleven inning
game. Travellers had it almost
won in the ninth, 3 to 1, but the
Normas rallied in their half. The
game was marred by a biased or
incompetent umpire, causing much
argument and, as our boys claim,
their defeat.

To-day we play the second game
of the series with May's Landing.
Next week we play off the tie
with Brandywine.

A Dastardly Outrage.
Some one defaced and injured
the sidewalk on Third Street—
Union Hall lot—while the concrete
was imperfectly dried, by kicking
it with the heel of his shoe and
by using some sharp instrument—
possibly a pick or crowbar, or a
chisel,—making holes in it, and
breaking off the edges of both walk
and curbing. The miscreant no
doubt desired to show animosity
toward Mr. Jannatt for securing
the job. The same thing occurred
on his work at Vine Cottage lot.
Mr. Jannatt watched, the night
after, and saw a man approaching
the place, but turned away, prob-
ably having seen the watcher. The
man is known.

Such a miscreant is worse than
a wild beast, and not fit to be at
large in a civilized community.
Every good man should consti-
tute himself a detective, to bring
to justice the party who is guilty
of such outrageous conduct. The
Town has now a standing offer of
\$20 reward to any person who will
furnish evidence to convict one
who does malicious injury to any
property in town. It is hoped that
some one, for the public good, will
obtain this reward. CITIZEN.

Your property depreciates in value unless protected by a quality
paint. Such a paint has a hard, smooth surface, keeping out the
moisture and is a perfect armor against Nature's assaults. It is
elastic—expanding and contracting with heat and cold, thus avoiding
cracking, peeling and scaling.
A good paint has beauty-of-color. It does not fade quickly.
It proves the poet's saying, "A thing of beauty is a joy forever."
