

The Murderous Carnival at Memphis.

After the lapse of nearly two months, the true statement of the atrocious and sanguinary riot at Tennessee, is published by Colonel Charles F. Johnson, Inspector General of Kentucky, who has caused the fair to be impartially investigated. The Tribune makes the following summary of its report:

Col. Johnson traces the remote cause to standing ill feeling between the low whites and blacks who are about equal in intelligence, who have found an occasion for strife in the forcing of a large number of negroes off the sidewalk, one of whom

a fact that large bodies of timber are

On the following day, about the time a crowd of discharged colored soldiers had assembled, the police "fired upon a group of negroes remote from the riotous quarter," and though the colored victims of the original quarrel had returned to Fort Jackson, reinforced themselves for indiscriminate slaughter and fired on men, women and children, killing and wounding several. Just at this time an official statement is said to have addressed the crowd of murderers: "Boys, I want you to go ahead and kill every one of the niggers of this race and burn up the cradle." Under the leadership of the negroes were hunted down by day and night by the police, firemen and others; shot, assaulted and robbed, their houses searched, plundered and burned. Meanwhile no resistance was offered by the negroes. "who were shot down without

Women suffered alike with the men, and in several instances little children were killed.

All crimes imaginable were committed, many largely to murder. Several women and children were shot in bed. One woman (Rachel Johnson) was shot and then thrown into the flames of a burning house and burned. Another was forced through the flames and finally escaped. In some instances houses were entered and armed men guarded them to prevent the police from finding things inside.

Loyalists, long residents of the city, who "deprecated the riot," were called "snakes," and cautioned to leave the town. Generals of the Ku Klux Klan's Bureau and the army found themselves powerless for interference. All that can be said for the riot was that he was hopelessly drunk. The firing, which took in figures as well as persons, was so accurate that negroes, as far as can be ascertained, three negroes killed and sixty wounded, three churches, eight school houses, and about fifty private dwellings were burned; and without counting the large sum of money stolen by the policemen from disarming the rioters.

1000 World of Various property, valued at \$125,000. The United States Government and the surgeons in all this atrocious and cowardly business were and robbery only two white men were killed. One of whom was killed by a white man through mistake, and the other, according to the surgeon who attended him, a shot him in the back of the head, where there was a hole which, in small space, had a hole of three inches. Bartholomew's day, and we leave it without comment.

A THIRTY YEARS' MYSTERY UNRAVELED
Over thirty years ago there was considerable excitement in Cecil county, Maryland, and on account of the sudden disappearance of a widow lady, named Patty Polk. She resided about five miles from Elkton. She was first seen going into a jacket near the house, where two men had just passed. All search for her was fruitless. After a reasonable time had elapsed letters of administration on her effects were issued, and a settling up the estate the administrator

was unable to find a note drawn by one of the men who had been seen to go into the chicken. The note was known to have been in her possession a short time before her disappearance. This aroused the suspicions of some of the people, and the two men were arrested; but nothing could be proved against them and they were discharged.

A number of years ago one of the suspected parties died, and last week it is reported that the other, being very ill, sent for a minister to read the Bible and make a full confession. According to popular rumor, the confessor wanted to say:

with the other party, sent to Mr. Folk to call them in a certain place, where they would pay the money on the notes, and they then failed to meet her; that they saw her on her way home; and knowing that she would pass through the thicket, they went into it and laid in ambush, and as soon as she appeared, one knelt; her hand was laid on the side of wood, killing her, that they both then hurriedly ran to the midst of a wood pile, where they endeavored to let it remain, but it beginning to exude, they went to the pile with a box to remove the body and found that the blood of the deceased had taken its place to congeal over the corpse, and they were compelled to kill him before they could get the

The *Nashville Press and Times* tells a pointed story to the effect, that a well-known Circuit Judge of Tennessee, who was supposed to be in favor of "My Pol-

...while in conversation in Washington, the other day, was thus addressed by one of President Johnson's Private Secretaries: "Well Judge, I mean you have gone over to the rebels," "No," replied the Judge, "You are mistaken; I am not in favor of the President's policy." —

Boistell, the Republican apostate, enlivened the last hours of the Senate, by a speech against negro suffrage, and took his position low down among the slavemongers of the South, against granting any rights to negroes except the right to be slaves forever. He has gone to his own place.

Wm. Clay Barker, when denouncing a

Under a recent joint resolution, General Grant, of the House, and Senator Creighton, of the Senate, have been appointed by their respective bodies to the committee on the customs law. A third person is to be appointed by the Secretary of the Treasury.

A resident of New York has received a letter from an Italian, proposing to form a company with American capital to develop the oil territory of Parma, Reggio and Modena in Italy.

HAMMONTON!

Rare Opportunity to Secure

A HOME To All Wanting Farms.

In the great Hammonton Fruit Settlement, the best inducements are offered to all wanting farms in the most delightful and healthy climate, with a good productive soil, being among the best in the garden State of New Jersey; only thirty miles from Philadelphia on the Camden and Atlantic Railroad, and but few miles to the New York Railroad. These lands are sold to the actual settlers at low prices and easy terms, in five, ten, twenty acres and upwards to suit. The title perfect, warrentee deeds, clear of all incumbrance, given when all the purchase money is paid.

The Soil

is a fine sandy and clay loam, suitable for all grains and grasses, and is pronounced the finest quality for gardening and fruit raising. It is a marine deposit, with a marly substance mixed all through it in a very commuted form, and in the exact condition to support plants with proper farming it is very productive and profitable, worked, and warm and early. The lay of the land is slightly undulating, and is called level; it is free from stones or rocks. It is the best fruit soil in the Union.

Pears, Apples, Quinces, Grapes, Cherries, Blackberries, Raspberries, Quinces of all kinds, and all other fruits are raised here in immense quantities, and they are sought after by the dealers and command the best prices in the markets.

Hammonton is already celebrated for its fine fruits and wine.

From two hundred to five hundred dollars is cleared, free from expense, not acre in the fine fruit culture. Sweet Potatoes, Melons, and all the finer Vegetables delight in this soil; this branch of farming pays much better than grain raising, and is much easier work.

The Market

is unsurpassed; direct communication twice a day to Philadelphia, New York, and Atlantic City. The Railroad Company leaves cars here to be filled with fruit every day in the season; they are filled in the afternoon, and the same night or next morning by daylight are in the market, where the highest cash prices are obtained, without any other trouble to the producer than delivering the produce to the car. None of the land now offered is over one and a half miles from the Railroad.

The Climate

is mild and delightful—the winters being short and open, out-door work can be carried on nearly all winter, whilst the summer is go warmer than in the north. Persons wanting a change for health will be satisfied here—the mildness of the climate is soon beneficially felt by delicate persons and those suffering from Dyspepsia, Pulmonary affections, or General Debility, as hundreds here will testify. This section has long been known for its health, and during the summer months tens of thousands flock for health. No Malaria, Chills and Fevers in this section.

The Water

is pure and soft, of the best quality. It abounds in streams and is found by digging from ten to thirty feet. Wells are cheaply made here, as there is no rock to go through. We have the best stores in the county, where goods are sold as cheap as they are in Philadelphia or New York.

Good schools with competent teachers. Clergymen of all denominations reside here, some of them in charge of congregations, others cultivating the fruits; also a number of retired physicians. The Methodist, Presbyterian, Baptist, Universalist, Spiritualist, and other churches are regular.

Reliable practical nurserymen who furnish all kinds of trees, plants, and vines at the lowest prices.

The population of the settlement is large and rapidly increasing; it is composed of the best classes from New England, the Middle and Western States, intelligent, industrious and moral. The buildings are neat and handsome, and some of them fine. All materials for building, improving, &c., at hand; also reliable mechanics who will give satisfaction. Every convenience to be had that can be found at any other place. Persons owning property here obtain tickets of the Railroad Company, to and from the city at a discount of twenty-five percent on the regular fare.

The lands have been examined by some of the best agriculturalists and fruit growers in the country, who pronounce them the best in the U. S. for fruit growing. Mr. John Robinson, the agricultural editor of the New York Tribune; Dr. L. P. Trueblood, the State Entomologist; Mr. John G. Bergen, member of the American Institute of New York; and others, reported that they never saw a finer growth of fruit, grain, and vines, than they saw here, and recommended this settlement to persons desiring to till the soil, for pleasure or profit.

These lands are being rapidly sold, and from the rapid and extensive improvements property will certainly increase in value. Inquire for R. J. BYRNES, the founder of the settlement, who will show the lands free of expense. For further information inquire or address.

Also many thousand acres of Cranberry lands. Circulars or other information cheerfully furnished.

CONSUMPTIVES.

READ WHAT DR. SCHEUCK IS DOING.

DR. J. H. SCHEUCK.
Dear Sir:—I feel it a duty to you, and to all who are suffering under the disease known as Consumption and Liver Complaint, to tell them what great benefits I have received from your Pulmonic Syrup and Sarsaparilla. In so short a time, by the blessing of God, it has cured me of this.

Dr. Scheuck, I will now make my statement to you as follows:—About eighteen months ago I was attacked with a severe cough, and it settled on my lungs; I could not retain anything I ate, and suffered with evening fevers and night sweats. I was very much reduced. The whites of my eyes were very yellow; likewise my skin; my appetite all gone, and unable to digest what I did eat; bowels swollen, irregular and constive. I was very low spirited, and had such violent spells of coughing when I laid down at night, and when I arose in the morning that they would last one or two hours.

I then would be nearly exhausted, and was entirely unable to lie on my left side. I cannot describe my wretched suffering as I would wish to do. Every organ in my body was diseased or deranged. Such was my situation at this time, and I was confined to my bed from the last of February, 1882, to June 1882; not able to sit up. I had the best medical attendance the whole of the time. I was treated with every kind of medicine, but to no purpose. At this time I received your medicine, and it cured me of this.

In January, 1883, I was brought down again on my bed, and was not expected to live the next day. My husband stayed at my side, and all my friends, and they all gave me up to die. At this time every one who saw me did not think I would ever leave my bed a living woman. The first day I was attacked with this, and I was so weak that I could not get out of bed. A friend, Mrs. Harris, came to see me the last of the week, and brought the Sunday Mercury. In it was an account of a cure performed by Dr. Scheuck. She read it to me, and it was so much like my disease that I asked my husband to go and see him for me. At this time I had given up all hopes of ever getting well again, and made my peace with God, to be ready whenever he called for me.

On the 27th of January, 1883, my husband called on Dr. Scheuck, 32 Bond Street, New York, and stated to him my case, with a request for him to call and see me, which he did, and examined me with the sphygmograph. When he was about to go I asked him if he could cure me? His reply was: "I cannot tell, but lungs are diseased, and the bronchial tubes are affected on both sides." And yet he seemed to think there were lungs enough left to effect a cure if the disease could be stopped. He said in order to do this, he would have to give me Mandrake Pills in small doses at first, to carry off the mucus, and then to give me Sarsaparilla. He gave me the pills, and I took them as directed, and in a few days I felt much better. He then gave me the Sarsaparilla, and I took that also as directed. In a few days I felt much better. He then gave me the Sarsaparilla, and I took that also as directed. In a few days I felt much better.

He gave me the pills, and I took them as directed, and in a few days I felt much better. He then gave me the Sarsaparilla, and I took that also as directed. In a few days I felt much better.

On the 27th of January, 1883, my husband called on Dr. Scheuck, 32 Bond Street, New York, and stated to him my case, with a request for him to call and see me, which he did, and examined me with the sphygmograph. When he was about to go I asked him if he could cure me? His reply was: "I cannot tell, but lungs are diseased, and the bronchial tubes are affected on both sides." And yet he seemed to think there were lungs enough left to effect a cure if the disease could be stopped. He said in order to do this, he would have to give me Mandrake Pills in small doses at first, to carry off the mucus, and then to give me Sarsaparilla. He gave me the pills, and I took them as directed, and in a few days I felt much better. He then gave me the Sarsaparilla, and I took that also as directed. In a few days I felt much better.

Awarded a Gold Medal

AT THE

American Institute Fair,

OCTOBER 19, 1885.

"PELOUBET"

In direct competition with all the leading makers in the country.

ORGANS AND

MELODEONS!

Respectfully invite the attention of purchasers, the trade and profession, to the

FOLLOWING INSTRUMENTS

Of their manufacture:

PEDAL-BASE ORGANS,

Five sizes, Five Octaves, one to Three Banks of Keys, Three to Eight sets of Reeds.

Prices, - - \$135 to \$600.

SCHOOL ORGANS,

Nine styles, Single and double Reed, Rosewood and Black Walnut cases.

Prices, - - \$130 to \$240.

MELODEONS,

Piano style and Portable, Twelve Varieties from four to six Octaves, Single and Double Reed, Rosewood and Black Walnut Cases.

Prices, - - \$65 to \$250.

Every Instrument is made by competent workmen, from the best material under our personal supervision, and every modern improvement worthy of the name, is introduced in them. Among these we would call attention to the TREMOLO, which has been so much admired, and can be found only in instruments of our own manufacture.

From among the numerous testimonials of eminent Professors and Organists, we give the following extracts:

"The pedals I conceive to be unsurpassed,"—Wm. A. Ku.

"It is a grand, good instrument and does credit to the builder,"—H. C. Fulger, Troy, N. Y.

"They are among the finest instruments manufactured either in this country or abroad,"—Wm. Herg, J. Menthal, Aptomas.

"They have given universal satisfaction,"—W. R. Hawley, Fug-da-lay, Wis.

"There is a peculiar sweet and sympathetic tone which harmonizes charmingly with the voice,"—W. H. Cooke.

"I am particularly pleased with the arrangement of the different registers,"—Wm. H. Bradley.

"No other instrument so nearly approaches the organ,"—The Chorister, N. Y.

"This instrument has a clear superiority over anything yet introduced among us,"—Independent, N. Y.

"The tones and the action are excellent,"—Rev. W. B. Leavitt, Hudson, New York.

"The more we use it the better we like it,"—J. B. Hagen, Hudson, N. Y.

"The Two Bank Organ, Hammonton is really a gem,"—J. W. Klinefelter, Hudson, Mass.

"We have found them excellent in all points constituting a good instrument,"—J. C. Cook, T. J. Cook.

"It looks and sounds splendidly,"—S. H. Saxton, Troy, N. Y.

"The most perfect toned Melodeon I ever saw,"—Guy E. North.

"They fall back on such substantial merits as superiority of workmanship, beauty of tone and reasonableness of price. And we must say that in all their respects they are well worth the price,"—Musical Pioneer, Aug., '85.

Every Instrument is fully warranted, and placed and shipped to New York city without charge.
