Terms--\$1.25 Per Year.

VOL. 31.

HAMMONTON, N. J., AUGUST 19, 1893.

NO. 33

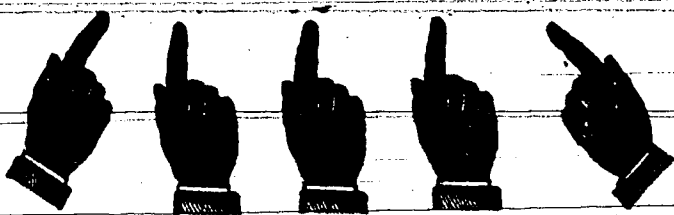

We wish to call your attention to the fact that we meet all cuts in prices, whether big or little, in the Grocery line, or in any other line.

Don't fail to call and see us before buying elsewhere.

**Elvins & Roberts,**

Cor. Bellevue Ave. and Main Road,

Hammonton, N. J.

## DID YOU EVER

Stop to think what a fine piece of mechanism your watch is? and that you are injuring it by letting it run too long without having it cleaned and oiled?

A watch is injured more in one month, when running dirty, than in a year's time when properly cleaned and oiled.

Why neglect to have it cleaned, when you can get it done, and guaranteed, for One Dollar?

**AT DUDLEY'S,**

HAMMONTON, N. J.

### Our World's Fair Letter.

CHICAGO, AUG. 12, 1893.

That the great human workshop, the brain, is never closed for repairs, and that the human mind is ever on the alert to invent some new machine that will economize time or annihilate space, is evidenced by the simple and sometimes necessarily complex contrivances, the labor saving machinery to be found in the Palace of Mechanic Arts.

In the power house forty steam engines produce the mighty mechanical energy of 18,000 to 20,000 horse power. In the annex, the "whizzity-click, whizzity-click" makes such a clatter that conversation is stopped and each one crowds into the best position possible to see how fabrics are made. The general shape and principle of a loom is the same as that of our grandmother's hand loom; but there are ten parts to this where there was one in hers, and they work ten times as fast. The looms always attract large crowds. They are so busy and bustling. They are intelligent, too. Even that plain gingham loom knows when it has enough of this color and what to put in next. But for thorough ingenuity, when we see the large looms that weave flowers and figures into table cloths we feel like taking a back seat. To lift just those threads of the warp and put in just the color of the wool needed at that time would certainly puzzle any but an old and experienced loom. In one booth there is a large loom making turkish toweling, and at the side a rough old hand loom, where a genuine Turk with his red fez on sits and weaves as a curiosity. It is an impressive contrast. Some of the looms weave ribbons and others badges, and weave into them pictures of President or Mrs. Cleveland, or the words and music of "Home, sweet home," or some other familiar air. These looms have a peculiar interest of their own. They are generally composed of a dozen little looms all in the same frame and worked in harmony at the same time, each weaving its own ribbon. The shuttles are about three inches long and move up and down in a semicircle, slowly and in unison. They remind one of "Rocking on the billows," or the stroke of a well trained crew.

Perhaps it will be interesting to those not acquainted with looms to know that that which determines what threads of the warp shall be raised and what shuttle of the wool shall be used at any particular time, is a pattern quite similar to that used in music boxes.

Another interesting device is an electrical carpet-sewing machine. The sewing machine is built into a large arm chair on wheels, that has a battery underneath it. The chair is made to run along the side of a long table on which the widths of carpet to be sewed are laid. The electricity runs the machine and chair at the same time, which makes carpet sewing about the easiest and pleasantest work one can do.

Perhaps as surprising an invention as any is that which makes hard wood furniture out of soft wood. This is the machine that does it. A cylinder about two feet in diameter and two feet long is made of cement, and has knife blades set in it as thick as possible. The board to be treated is run over this cylinder, and the cuts thus made are filled with a black substance to represent the grain of a hard wood. When varnished the difference between this and natural hard wood cannot be recognized by the eye.

Further on there is what might be called a swindle, if that were not so harsh a term, because they ask about five times too much for it. The idea is the best thing about it and I will give you that for nothing. It is called the Belgian Refrigerator, and acts without ice. It consists of a tray with a tin cover large enough to contain whatever is to be cooled. This cover is covered with a linen cloth and has a small hole in the centre of the top covered with a wire netting. Water is poured into the tray and the cloth soaks it up quickly. This presents a large amount of surface to the air and the water of course evaporates very fast, and the warmer the

day the faster it evaporates. Well, every one knows evaporation is a cooling process, and the tin being a good conductor the air inside is quickly cooled and the warm air rises and passes off thro' the hole in the top. Try the principle some time with whatever means you have at hand.

ADAM ANTINE.

Whitehall, N. Y., Sept. 20, 1892.

A commercial traveler came into my store recently and said: "I am looking for something that saved my life. I was taken with terrible symptoms of cholera morbus about a year ago, and stopped into some store along this street and got a cure for it." I showed him Chamberlain's Colic, Cholera and Diarrhoea Remedy. He did not recognize it at first, but on tearing off the wrapper said: "Yes, this is it. It saved my life. I don't need it now, but I am going to buy this so as not to be without it." This remedy meets the wants of the people and sells well here. C. H. Breckenridge, druggist. For sale by A. W. Cochran, druggist.

It's Hoke Smith of the South who is at the head of the pension department. Judge Lochren does duty for him, and the old soldiers know it.

## Seasonable Millinery

### In the New Store.

The Prices are considerably below city competitors, because expenses are trifling, in comparison.

The stock is larger and more varied now than ever, and includes everything that adds to the happiness and attractiveness of woman-kind. Kid Gloves and Fine Laces are two new departures.

## Testifying to Munyon

Mr. John McNamara offers a Strong Endorsement. He was Unable to Walk.

Munyon's Rheumatism Cure Gave Immediate Relief.

John McNamara, grocer at 189 North Juniper Street, Philadelphia, says: "I had rheumatism so bad that I was unable to walk, and gave up my business entirely. My ankle joints and my feet were so stiff and swollen that I could not move without producing agonizing pain. I began taking Munyon's Rheumatism Cure, and must say that my relief was immediate. The swelling and stiffness rapidly disappeared, and in a short time I could walk as well as ever. I feel very grateful for my recovery."

Munyon's Rheumatism Cure never fails to relieve in three hours, and to cure in a few days.

Munyon's Homeopathic Home Remedy Company put up specifics for nearly every disease, which are sold by all druggists, mostly for 25 cents a bottle.

PAINT! PAINT!

—THE—

HAMMONTON.

When you buy the Hammonton

Paint, you do not buy seven-

eighths of a gallon for a gallon,

or three pints for a half gallon;

nor do you get one of those

packages that weigh 12 to 14

pounds, and containing so much

alkali that it appears to be so

thick that it is impossible to

use it without thinning; but in

buying the Hammonton you get

a full standard gallon of paint,

weighing 14 to 16 pounds to

the gallon, made from the best

materials known to the trade,

and costs the consumer from \$1

to \$1.50 per gallon for honest

paint.

If the purchaser doesn't want

honest paint, and wants to be

cheapest to himself, then be sure

to buy the Hammonton Paint,

and the manufacturer will give

a receipt with every gallon sold

telling you how to make two

gallons of paint out of one of

the Hammonton. It will cost

33 cents for the extra gallon.

One Dollar.

And then here comes Commercial

Paint, in 30 shades,—the best

paint ever put on the market for so low

a price as \$1 per gallon, and guaranteed

to be a first-class wearing paint. If any

one should not want to pay so high a

price for a good exterior paint, then work

the 33 cent racket, and get two gallons

for \$1.33. Manufactured at

Hammonton Paint Works.

## The Republican.

[Entered as second class matter.]

SATURDAY, AUG. 10, 1893.

Mr. Editor:—Henry E. Andrews

offers his check for two hundred dollars

towards putting Bellevue Avenue in

first-class condition, from Egg Harbor

Road to Second Street, with three feet

wide crossings. This, Mr. Editor, re-

flects great credit upon Mr. Andrews,

who has resided in town but a few

years, and owns no property in the

square mentioned. He knows, how-

ever, that what benefits one benefits

all, and that our main business street

should take the lead in improvements.

This square, unfortunately, is not as

wide as it should be, owing to Mr.

Landis' oversight when he laid out the

town, in 1887. It would not entail

much extra expense upon tax-payers to

make an asphaltum pavement upon it,

equal to that on Broad Street, Phila-

delphia; and how our lady shoppers

and others would appreciate it.

Wm. Bernhouse, Esq.,

of T. L. McCann's Buena Vista,

whom many of us would like to vote for

for Sheriff next Fall, has resided in this

county since 1880, and comes from good

old "blue stocking" ancestry. He is

not doing anything to secure the nomi-

nation, but would fill the position with

credit. We have had enough of the

personal canvas solicitations.

In September, 1892, dysentery in a very

acute form prevailed at Jamesburg, N.

J. Walker Willard, a well-known mem-

ber of the place, procured a supply of

Chamberlain's Colic, Cholera, and Diar-

rhoea Remedy. He says: "It is certainly

one of the best things ever made, and

has given me the most satisfaction in the

most severe cases of dysentery." For

sale by A. W. Cochran, druggist.

The decision of the arbitrator in the

Behring Sea controversy was rendered

Tuesday, and while it technically seems

to be most favorable to Great Britain,

yet practically it is in favor of the

United States. The claim of a property

right in those seas which make the

Pribiloff Islands their breeding ground,

is denied to this country, as is also the

jurisdiction of the Behring Sea waters;

but the necessity for the protection of

the seals is admitted, and a close season

is established from May 1st to Aug. 1st;

during which no pelagic sealing will be

permitted. Moreover, a zone of sixty

miles about the Pribiloff Islands is fixed,

within which no sealing is to be carried

out, and the use of firearms and other

explosives is prohibited in seal hunting,

and only sailing vessels may be used in

that pursuit. As will be seen, the de-

cision is in the nature of a compromise,

but inasmuch as it will result in preserv-

ing the seals from extinction, and

establishes definite lines for the future

conduct of all parties, it will be received

with general satisfaction.

Pointville, Burlington Co., N. J.,

July 17, 1893.

Our baby, now fourteen months old,

was taken with every symptom of cholera

infantum. I commenced using Cham-

berlain's Colic, Cholera and Diarrhoea

Remedy, and after the first few doses he

was relieved, and at this writing is as well

as ever. I feel that I cannot speak too

highly in praise of Mrs. Wm. E. Reed.

For sale by A. W. Cochran, druggist.

Between the Compound  
 Oxygen Treatment of Dis-  
 eases and that by the use  
 of Drugs? It is an impor-  
 tant one.

Drugs are taken into the  
 stomach. For this reason  
 their action is not direct.  
 Compound Oxygen is taken  
 into the lungs, and, there-  
 fore, comes immediately into  
 contact with and is absorbed  
 into the blood.

Drugs, being generally  
 poisons, act by causing a  
 disturbance in the body.  
 Compound Oxygen, being  
 composed of the elements  
 of the air, and acting upon  
 the blood, is not open to this  
 objection.

But, however it may act,  
 it has certainly cured many  
 cases of chronic disease,  
 in which drugs have failed.  
 This is the point  
 of greatest interest to all  
 chronic sufferers. To all  
 such we say:

Send for our book of 200  
 pages, — sent free. Read  
 for yourselves what Com-  
 pound Oxygen is, how it  
 acts, and, above all, what it  
 has accomplished.

## Washington Letter.

From our regular Correspondent.  
 Washington, Aug. 14, 1893.

Democrats in Congress do not take  
 kindly to Mr. Cleveland's departure.  
 They say that it was as much his duty  
 to stay and help his party reach a de-  
 cision on the silver question as it is the  
 duty of members of Congress to stay.  
 Before leaving Mr. Cleveland told several  
 prominent members of his party among  
 other things that unless something un-  
 expected occurred to make him change  
 his mind he did not intend making any  
 more appointments until Congress had  
 acted upon the silver question, and that  
 he did not intend to stay in Washington  
 to listen to the men who are more  
 anxious to get appointments for their  
 friends than to relieve the financial dis-  
 tress of the country.

Aside from Mr. Cleveland's disgust at  
 the reception given his message by his  
 party in Congress, his bad health, and  
 his natural desire to be near his wife just  
 now, there was another weighty reason  
 for his departure, which can be fully  
 appreciated by every proud man. From  
 the time he arrived until his departure  
 he was almost completely ignored by the  
 Senators of his party, less than half a  
 dozen of them having paid him the  
 courtesy of even a formal call. This  
 was so different from what he had been  
 led to expect by those who have been  
 purposely misrepresenting things to him,  
 that he was at first furious, and later  
 humiliated. Those Senators whom he  
 saw carried him no balm for his wounded  
 pride, as they were practically unani-  
 mous in the belief that it will be impos-  
 sible to get a bill for the repeal of the  
 silver law through the Senate, unless it  
 embodies a substitute that meets the  
 approval of the conservative silver men  
 in that body.

So far, the silver fight in the house  
 has been mostly between Democrats,  
 although several Republicans, among  
 them Grosvenor, of Ohio, and Hender-  
 son, of Iowa, gave Representative  
 Harter, of Ohio, a few disagreeable  
 minutes when he asserted that the con-  
 dition of the working man in England  
 was as much superior to the condition  
 of the working man in Ohio as a berth  
 in Heaven is to a cot in Purgatory. The  
 free silver Democrats also prodded Har-  
 ter at several points of his speech. Mr.  
 Harter said that Senator Sherman,  
 instead of being abused for the Sherman  
 law, ought to have the grateful thanks  
 of the whole people, because he got the  
 best there was to be obtained for the  
 country out of a bad situation. But the  
 portion of his speech that was the most  
 irritating to the silver men was where  
 he said: "the working men are appeal-  
 ing to Congress for bread, and the silver  
 men are offering them not a stone but  
 dynamite, and instead of a serpent a  
 whole bundle of them—a boa constrictor,  
 a rattle snake, and a copperhead, all  
 rolled up into one in the shape of a  
 financial system."

It is plain to be seen that the speeches  
 in the House are for home consumption.  
 Since the first day there has not been a  
 quorum present, and the same condition  
 is expected to continue during the four-  
 teen days the debate is to last. No  
 votes will be changed.

The Senate has done nothing, and it  
 is understood that at the last meeting of  
 Finance committee, the silver men who  
 control that committee made it plain  
 that no bill would be reported from the  
 committee for the repeal of the Sherman  
 law, without a substitute that would be  
 satisfactory to the silver men. Repub-  
 lican Senators are waiting to see what  
 the Democrats propose doing.

**The People's Bank**  
 Of Hammonton, N. J.  
 Authorized Capital, \$50,000  
 Paid in, \$30,000.  
 Surplus, \$11,000.

 BOWEN & CO'S  
 Newspaper Advertising Bureau (10 Spruce  
 Street), where adver-  
 tising contracts may  
 be made for it in **NEW YORK.**

## YOUR FAVORITE HOME PAPER

AND

The Leading Republican Family Paper of the United States

**ONE YEAR FOR ONLY \$1.25.**

## South Jersey Republican

Gives all the Town news. Your home would be incomplete without it.

## The New York Weekly Tribune,

is a National Family Paper, and gives all the general news of the United  
 States and the world. It gives the events of foreign lands in a nutshell. It  
 has separate departments for "The Family Circle," and "Our Young Folks."  
 Its "Home and Society" columns command the admiration of wives and  
 daughters. Its general political news, editorials and discussions are compre-  
 hensive, brilliant and exhaustive. Its "Agricultural" department has no  
 superior in the country. Its "Market Reports" are recognized authority in  
 all parts of the land.

A special contract enables us to offer this splendid journal  
 and the Republican for one year

**For only \$1.25, Cash in Advance.**

New York Weekly Tribune, regular price, \$1.00

South Jersey Republican, 1.25

Total \$2.25

We furnish both papers one year for \$1.25

Subscriptions may begin at any time.  
 Address all orders to the  
 South Jersey Republican.
