NO. 33

## Children are Important Customers

In our estimation. When they are sent to us on a trading errand we always remember that they are not discriminating buyers, and take special pains to see that they get what both you and they want. Then we always try to be prompt in waiting on them—there is always a little worry at home when they are sent on an errand and stay too long, often through no fault of their own.

W. J. LEIB, Druggist,  
Hammonton.

## St. Mark's Parish Picnic.

The Episcopal Sunday School finally escaped the rain, and had a delightful time at their picnic, Wednesday, in spite of dire predictions of storm.

About one hundred and fifty people arrived at Greenbank, in the various conveyances, about eleven o'clock, and immediately began to set up tables, swing hammocks, and hang swings. A very exciting game of "Every Man" was indulged in, in which Rector Hoffman especially distinguished himself. Of course, the ladies could not engage in the game, but several took a strenuous part in the game of cricket which followed.

Phil. Wescoat's launch, several row boats, and the delights of swimming were duly enjoyed.

After the demands of the inner man had been attended to, several exciting races came off. The 50 and 100 yard dashes were so closely contested that the judges were unable to decide on the winners. The three-legged race was won by James Craig and Milton Waas. The broad jump was a tie between Wescoat, Craig, and Waas. In the tub race, only one survived to cross the goal-line—Wallace Harley. The girl's hundred-yard dash was hotly contested, the winners being Miss Mary Cottrell (handicap), and Misses Grant and Nelson.

But the most exciting event of the day was the "old maid's candle race," for which there were so many entries that the race had to be run off in ten heats, and it took so long that the candles were needed to see the finish. We had no idea there were so many "young" ladies eligible for such a race; and out of consideration for their feelings we forbore to mention the names of the winners.

The prizes consisted of generous dishes of ice cream. We don't know how they adjusted the undecided prizes, but they might have put the required number of spoons in the dish. By the way, what became of the cream that was put in the boys wagon? Mr. Hoffman easily won the prize for "chinning."

Several of the boys got lost, and found themselves in the midst of a melon patch. Too bad!

Some of the fellows said they'd be willing to be very bad if they could always live on such "devil cake." T.

## Young People's Societies.

Y. P. S. O. E.—Presbyterian Church: Meets Sunday evening, at 8:30.

Topic, "The duty of winsomeness." Prov. 15: 1-15; 17: 22; 1 Cor. 9: 10-22. Leader, Mrs. W. J. Leib.

Y. P. S. C. E.—Baptist Church: Meets Sunday evening, at 8:45.

Topic, "The duty of winsomeness." Prov. 15: 1-15; 17: 22; 1 Cor. 9: 10-22. (Bring Living Hymns.) Leader, Miss Nellie Loyer.

Jr. O. E., Sunday afternoon at 3:00. Epworth League.—M. E. Church: Meets Sunday evening, at 7:00, combining with Church service.

Junior League, on Friday afternoon, at 3:00 o'clock.

## Church Announcements.

Baptist Church.—Rev. William W. Williams, Pastor, is on his vacation, 10:30 a.m., service in Presbyterian Ch.; 7:45 p.m., at home, sermon by Rev. H.M. Thurlow. Other services as usual.

M. E. Church.—Rev. G. R. Middleton, Pastor. 10:30 a.m., preaching. 7 to 8 p.m., on the lawn unless stormy, general subject, "Love in action"; topic, "Love's success."

Presbyterian Church.—Rev. H. Marshall Thurlow, Pastor. 10:30 a.m., Preaching by Pastor to two congregations. 7:45 p.m., in the Baptist Church.

Italian Evangelical.—Rev. Arnaldo Stasio, Pastor. Sunday services: Sabbath School, 10:30 a.m.; preaching, 11:30; prayer meeting, 7:30 p.m.

St. Mark's Church.—Rev. Paul F. Hoffman, Rector. Feast of the Transfiguration. 7:30 a.m., Holy Communion. 10:30, Holy Communion. 7:30 p.m., Evensong.

James S. Barron, President Manchester

Cotton Mills, Rock Hill, S.C., writes:

"In 1880 I painted my residence with

L. & M. It looks better than a great

many houses painted three years ago.

Don't pay \$1.50 a gallon for linseed

oil, which you do in ready-for-use paint.

Buy oil fresh from the barrel at 60 cts.

per gallon, and mix it with Longman &

Martinez L. & M. Paint.

It makes paint cost about \$1.20 per

gallon. Wears and covers like gold.

Every Church given a liberal quantity

when bought from H. McD. Little.

## THE CANYON OF THE COLORADO.

Behold the realm where Colorado flows—  
Here countless centuries have wrought their will  
In forms majestic with impetuous skill.  
Cathedrals carved their way from this repose,  
With pomp of giant boulders where they glow.  
The sunset, and a stream, that scarce might fill  
An emperor's chalice, carved its way to fill  
The sculptures of a million years ago.  
And from the immediate silence of this place—  
Strange biographic fount of time's decay—  
The desert's silence, forever, strong and grim,  
A sunlit spirit in its shadowing hymn  
Sings to the soul, that makes impetuous dream,  
And speeds it lightly on unto the open day.  
—Harper's Weekly.

## HER HOME-COMING.

SHE sat with lowering eyes in the  
train, which rushed along through  
town and village, past farm and  
hedge-row, and wondered what had in-  
duced her to choose this odious ex-  
press, when a slow train would have  
done just as well.  
Her head ached, and she looked for-  
ward with a feeling of intense dislike  
to her homecoming.

Behind her lay all the things that  
made life worth living; before her  
were only stagnation and dullness un-  
questionable. Of course, there was John.  
Here she sighed. But then John was  
dull, too; all her life at home  
might be classed under that heading.  
The knew exactly what it would be like.  
There would be the cart to meet her,  
instead of a luxurious brougham such  
as she had revelled in at Revelote.  
There would be the loutish groom to  
drive her, and the keen-eyed driver  
bag from over the moors, carrying  
through soil and wrap—and bringing  
tears to her eyes.  
She shut her eyes and cast herself  
back into the past four years, living  
over again every delightful moment,  
with excitement and disas-

ter. "No! I heard nothing till five min-  
utes ago."  
"Poor soul!" muttered the doctor,  
and then stood aside for her to go  
into the room where John lay in the  
dim light. "Nice turned to the wind,  
down his eyes wide open, his lips  
trembling, as if he were long and  
fearless, blind and deaf to all that  
stood on the other side of the  
curtain and watched."  
"Quick eye caught the flick-  
ing of the wide-open eyes. He  
stood round and whispered  
softly and said:  
"Some people never thank you, no  
matter what you do for them," said a  
small boy. "A father put a bonnet on  
the teacher's chair after the day, and  
when the teacher was about to sit  
down he pushed the chair out from  
under him, and he didn't thank me for  
it, and he didn't like me for it!"

"The teacher," said the boy, "is  
lovely that you can make all of your  
own clothes."  
His sister—I should think she  
would, she wears most of them—  
Detroit Free Press.

"Might Miss Something."  
Doctor—You are completely worn  
out, madam. You must get more  
sleep.  
Mrs. Rubber—But how can I sleep,  
doctor, when my husband talks in  
his sleep?  
Doctor—You must get more  
sleep.

"Dear Draws \$42,500,000."  
According to a French International  
Agency which has just been suppress-  
ed, it appears that as long as he re-  
lates in Russia the czar draws annu-  
ally from the Russian exchequer no  
less than \$42,500,000.

"No to Women."  
"Your son's future, madam," said  
the astrologer, "seems to be closely  
allied with the stars."  
"Well, that's no bad," rejoined  
the anxious mother. "I'd rather it  
would be stars than chorus girls."

"Discotheque."  
Little Clarence Mrs. Tattler told  
me today that I was the very image  
of her mother. Is that picture of him?  
Grandma Yes, dear.  
Little Clarence Oh, judge! Where's  
the chocolate butter?

## SUCH CEMENT IS NOW USED.

Large Increase from 900,000 to 22,000,000 Barrels.  
Development and expansion in the  
cement industry during the last de-  
cade have been phenomenal. In 1910  
the production in this country amount-  
ed to 900,000 barrels, says the Ball-  
more Herald. In 1920 more than 22,  
000,000 barrels were produced, with an  
additional 3,000,000 imported. The re-  
ason for this development is that the  
product is measurably cheaper than  
stone, brick, wood, etc., their equal for  
most purposes and superior for many.  
The uses to which it can be ad-  
vantageously applied are almost bound-  
less, so that its growth during the  
next decade will undoubtedly be  
more wonderful than that of the last.  
Portland cement is made from nat-  
ural rock known technically as Tron-  
stone limestone, and when produced in  
commercial form is a fine powder, pos-  
sessing the quality, when moistened  
with water, of binding sand and other  
materials with which it may be mixed  
into a homogeneous mass, setting with  
remarkable quickness and drawing to  
a hardness greater than that of gra-  
nite.

Trenton limestone is found in small  
deposits in many parts of the United  
States, but the only great deposits are  
those in the counties of Lehigh and  
Northampton, in Pennsylvania, and  
in the adjoining counties of Warren and  
Franklin in New Jersey.

These counties supply 70 per cent of  
the Portland cement manufactured in  
this country, and these two counties pro-  
duce 70 per cent of the cement used  
in the United States. The average price  
for cement during the last ten years  
has been about \$1.00 a barrel. Within the last eighteen  
months it has sold as high as \$2 a  
barrel and as low as \$1.

Portland cement, with iron or steel  
used with great economy in the con-  
struction of skyscraper buildings and  
will doubtless be used almost to the  
exclusion of stone and brick in the  
near future. Scarcely a modern build-  
ing is now constructed or can be con-  
structed without the use of cement.

His head ached, and she looked for-  
ward with a feeling of intense dislike  
to her homecoming.

Behind her lay all the things that  
made life worth living; before her  
were only stagnation and dullness un-  
questionable. Of course, there was John.  
Here she sighed. But then John was  
dull, too; all her life at home  
might be classed under that heading.  
The knew exactly what it would be like.  
There would be the cart to meet her,

## SIBERIA'S MUSEUMS.

Collected Which Scholars from All  
Over the World Examine.  
That Siberia should be one of the  
richest countries in the world in  
anthropological investigation and mu-  
seums of anthropology may seem sur-  
prising. Leon Sternberg, who arrived  
from the Academy of Sciences at St.  
Petersburg a few weeks ago to take  
up employment in the department of  
anthropology in the American Museum  
of Natural History, spent a term of  
political exile in Siberia and tells about  
this phase of Siberia.  
"There is scarcely a town of 10,000  
inhabitants," said he, "which has not  
a well-equipped museum of anthropology  
under the care of a learned and com-  
petent curator, and some of these have  
small towns have museums whose col-  
lections attract scholars from all over  
the world.  
"In the museum of Tashkent there  
is a valuable material showing the  
evolution of the Indo-European king-  
dom, which followed the conquest of  
Alexander. The museum at Irkutsk  
some years ago sent out a great ex-  
pedition in which a score of political  
exiles spent three years in north-east-  
ern Siberia, and for the first time  
brought in an adequate account of the  
languages, culture, religion and folk-  
lore of the tribes of that region.  
Messrs. Borzov and Jochelson, after-  
ward placed in charge of the Jussup  
expedition from the American Mu-  
seum expedition.  
"In the little town of Nerchinsk  
and Chertov there are excellent mu-  
seums, both founded by a political exile.  
He was sentenced to hard labor.  
"At the expiration of his term he  
settled in Nerchinsk and took up the  
trade of photography. Although bur-  
dened with the support of a great  
family, he managed to collect very val-  
uable material of the Stone Age and  
ethnological collections from the sur-  
rounding Tunga and Mongolian tribes.  
"But the richest museum in Siberia  
from a scientific point of view is that  
of Minusinsk. Minusinsk is a small  
town, but the museum is housed in a  
fine brick building and scientists from  
the whole world go there to see the  
collections illustrating the Bronze Age  
and Mongolian and old Turkish dia-  
lects.  
"The founder was Martynov, a  
druggist of Minusinsk. He was edu-  
cated in a university in Russia, where  
he came under the influence of a dis-  
tinguished anthropologist, Prof. Tret-  
lov. The latter inspired him to return  
to his native town and make anthro-  
pological collections of that region, and  
Martynov founded the museum now  
known throughout the scientific world  
out of his own means and made its  
chief collections himself."

That Siberia should be one of the  
richest countries in the world in  
anthropological investigation and mu-  
seums of anthropology may seem sur-  
prising. Leon Sternberg, who arrived  
from the Academy of Sciences at St.  
Petersburg a few weeks ago to take

Messrs. Borzov and Jochelson, after-  
ward placed in charge of the Jussup  
expedition from the American Mu-  
seum expedition.  
"In the little town of Nerchinsk  
and Chertov there are excellent mu-  
seums, both founded by a political exile.  
He was sentenced to hard labor.  
"At the expiration of his term he  
settled in Nerchinsk and took up the  
trade of photography. Although bur-  
dened with the support of a great  
family, he managed to collect very val-  
uable material of the Stone Age and  
ethnological collections from the sur-  
rounding Tunga and Mongolian tribes.  
"But the richest museum in Siberia  
from a scientific point of view is that  
of Minusinsk. Minusinsk is a small  
town, but the museum is housed in a  
fine brick building and scientists from  
the whole world go there to see the  
collections illustrating the Bronze Age  
and Mongolian and old Turkish dia-  
lects.  
"The founder was Martynov, a  
druggist of Minusinsk. He was edu-  
cated in a university in Russia, where  
he came under the influence of a dis-  
tinguished anthropologist, Prof. Tret-  
lov. The latter inspired him to return  
to his native town and make anthro-  
pological collections of that region, and  
Martynov founded the museum now  
known throughout the scientific world  
out of his own means and made its  
chief collections himself."

That Siberia should be one of the  
richest countries in the world in  
anthropological investigation and mu-  
seums of anthropology may seem sur-  
prising. Leon Sternberg, who arrived  
from the Academy of Sciences at St.  
Petersburg a few weeks ago to take  
up employment in the department of  
anthropology in the American Museum  
of Natural History, spent a term of  
political exile in Siberia and tells about  
this phase of Siberia.  
"There is scarcely a town of 10,000  
inhabitants," said he, "which has not  
a well-equipped museum of anthropology  
under the care of a learned and com-  
petent curator, and some of these have  
small towns have museums whose col-  
lections attract scholars from all over  
the world.  
"In the museum of Tashkent there  
is a valuable material showing the  
evolution of the Indo-European king-  
dom, which followed the conquest of  
Alexander. The museum at Irkutsk  
some years ago sent out a great ex-  
pedition in which a score of political  
exiles spent three years in north-east-  
ern Siberia, and for the first time  
brought in an adequate account of the  
languages, culture, religion and folk-  
lore of the tribes of that region.  
Messrs. Borzov and Jochelson, after-  
ward placed in charge of the Jussup  
expedition from the American Mu-  
seum expedition.

# OLD Favorites

I stood on the bridge at midnight,  
As the clocks were striking the hour,  
And the moon rose o'er the city  
Behind the dark church tower.

I saw her bright reflection  
In the waters under me,  
Like a golden globe falling  
And sinking into the sea.

And far in the hazy distance  
Of that lovely night in June  
The blaze of the flaming furnace  
Gleamed redder than the moon.

Among the long, black rafters  
The warring shadows lay,  
And the current that came from the  
Seemed to lift and bear them away.

As, sweeping and eddying through them,  
Rose the heated tide,  
And, streaming into the moonlight,  
The seaweed bobbed wide.

And like those waters rushing  
Among the wooden piers,  
A flood of thoughts came o'er me,  
That filled my eyes with tears.

How often, Oh, how often,  
In the days that had gone by,  
I had stood on that bridge at midnight  
And gazed on that wave and sky.

How often, Oh, how often,  
I had wished that the ebbing tide  
Would bear me away on its bosom  
O'er the ocean wide and free.

For my heart was hot and restless,  
And my life was full of care,  
And the burden that lay on me  
Seemed greater than I could bear.

But now it has fallen from me—  
It is buried in the sea,  
And only the sorrow of others  
Throws its shadow o'er me.

Yet whenever I cross the river  
On its bridge with wooden piers,  
Like the oar of a boat on the ocean  
Comes the thought of other years.

And I think how many thousands  
Of care-cumbered men,  
Each bearing his burden of sorrow,  
Have crossed the bridge since then.

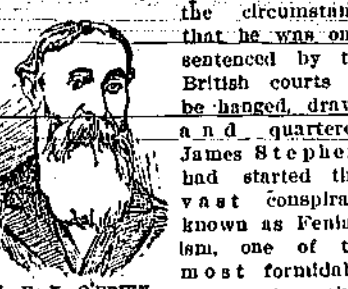

I see the long procession  
Still passing to and fro,  
The young heart hot and restless,  
And the old subdued and slow.

And forever and forever,  
As long as the river flows,  
As long as the heart beats,  
As long as life is known.

The moon and its  
And to the  
And to the  
And to the

## THE LATE J. F. X. O'BRIEN.

An Irish M. P., who was once Secretary of the House of Commons, died at his residence in London, England, on the 10th inst.

J. F. X. O'Brien

The death of Mr. J. F. X. O'Brien, member of the British House of Commons for County Cork, Ireland, recalls the circumstances that led to his death. He was a man of great energy and ability, and his death was a great loss to the country. He was a member of the House of Commons for many years, and his death was a great loss to the country. He was a man of great energy and ability, and his death was a great loss to the country.

## LITERARY LITTLE BITS

Dr. S. Wells Mitchell denies the authorship of "The House of Cards," a recent story of Philadelphia life, which had been attributed to him by several of the leading papers. The book has also been attributed to another distinguished Philadelphian, Mr. Owen Wister.

An Author's Diary: April 1, wrote book. April 2, book left still-born in the press. April 3, had picture taken in cowboy hat. April 4, picture printed in all the literary journals. April 5, received a dozen ill-spelled letters from love-sick women. April 6, letters published. April 7, book among the six best sellers. Bookman.

## TRACING MISSENT LETTERS.

System Adopted by the Postoffice Department.

An interesting example of the methods of the Post Office Department in the case of a new letter mailed at Cumberland, Md., and addressed to Washington, says the Washington Star. This letter was sent to Frederick, Md., and arrived at Washington a day later than expected. Complaint was made to the postal authorities, with the result that it was traced from the time of its deposit in the mail car to that of its arrival in Washington, and the clerk responsible for the error was located.

## OOO-FACTS ABOUT BARRELS.

Over 300,000,000 of These Manufactured and Used Annually.

The introduction of improved machinery in its manufacture has made the American cooperage business the largest in the world. There are upward of 300,000,000 barrels and casks manufactured in this country annually, and the demand increases so that this output must be steadily broadened in order to keep pace with the growth of the business. The largest consumption of barrels is in the cement business, which approximately demands 35,000,000 a year for the trade, while four comes next with a demand for 22,500,000; fence staples, bolts, nuts and nails require 15,000,000, and sugar 16,000,000. Roasted coffee, spices, crockery and fruits and vegetables use up about 5,000,000 barrels each year, while the glassware trade, baking powder, condensed milk, distilled liquor manufacturers and candy, tobacco and cheese makers are big users of barrels, averaging in each line from 1,000,000 to 3,000,000 barrels. The consumption of barrels for molasses, oil, lard and pork is also enormous, while dry paint, glue, snuff, oatmeal, saws, castings and general hardware articles annually increase the demand on the cooperage supply.

## THE WEALTHY PAUPER.

Upon an office stool he sat,

And figured with his pen.  
His pen was new, his years were few,  
His weekly wage was ten.  
But still he scribbled patiently,  
And never said a word;  
And the clinking of the dollars was  
The only sound he heard.

His raise came—and another—  
But still he scribbled away;  
When he had made his pile, he said,  
"He'd take a holiday."  
Yet, while the songs of Springtime  
The souls of lovers stirred,  
The clinking of the dollars was  
The only sound he heard.

And summers fled, and winters  
He closed his ears, as one who hears  
A man's misery;  
And out among the meadows  
There came many a bird—  
But the clinking of the dollars  
Was the only sound he heard.

Age crept up in the nighttime,  
And bowed his busy head;  
His eyes grew dim, and each stiffening limb  
Was weighted as with lead.  
"Was that Death's eddying footstep?"  
Said—"Is a thought absurd?"  
For the clinking of the dollars  
Was the only sound he heard.

Sad voices chant a requiem,  
And still he does not hear;  
Great earth-clocks fall upon his pall,  
But trouble not his ear;  
And even the Choir Celestial  
Won't wake the senses blurred  
By the clinking of the dollars—  
The only sound he heard.  
Cleveland Leader.

## A DAY OF ROSES.

A SCENT of roses made Aymer think of something that he had almost forgotten.

Over long ago and that he had almost forgotten. The roses were everywhere in the end in some transient house to keep out the winter's chill. Thus it may be said that a barrel serves a more useful career than any and its life is much longer than a season.

## HEATING ON SHIPBOARD.

Electricity Being Used Both on Liners and Private Yachts.

The advantages of electric heating in many phases of human activity on land have of late been widely recognized; but the peculiar facility with which the electric current can be employed on shipboard for heating purposes is not so well appreciated, according to Cassell's magazine. It is not too much to say that every characteristic of the electric heater which commands attention on shore is emphasized in its peculiar force in marine work, where compactness is of vital importance, weight at a premium, cleanliness and convenience are prime objects and the heater is particularly adapted to the needs of the shipboard.

## OUR GREAT COAL AREAS.

Pennsylvania is the great coal mining State of the Union, its anthracite and bituminous products amounting to the total combined output of any other State.

Pennsylvania is the great coal mining State of the Union, its anthracite and bituminous products amounting to the total combined output of any other State. Anthracite coal is mined in Pennsylvania in 11,000,000 tons, and bituminous in 11,000,000 tons, which makes a total of 22,000,000 tons. The coal is mined in Pennsylvania in 11,000,000 tons, and bituminous in 11,000,000 tons, which makes a total of 22,000,000 tons.

THE CHILD AT FULL SPEED.

This new athletic posture is a very amusing "event," and is "run off" with one leg hobbled to the broomstick, which takes its place. A look at the accompanying drawing will show you how to prepare for the stirrup race.

## AN AMUSING TRICK.

Say to yourself: "If you will stand on a chair in this room, I can make you come down the very first time I tell you!"

Say to yourself: "If you will stand on a chair in this room, I can make you come down the very first time I tell you!" The person will probably say: "I will stand on the chair, but I will not come down until you tell me to." However, he will get on to the chair just to show you that he doesn't mean to come down directly he's told. As soon as he is up on the chair, say: "Come down!" He will, of course, say: "I won't come down until you tell me to." Then you answer: "Very well, then; unless you wish to remain there for the rest of your life you will have to come down off that chair the first time I tell you, because I do not intend to tell you a second time!" Then, much much laughter, he will have to admit that he is "done"—and descend from the chair.

## FLIGHT WITH HUGO BOSS.

Imagine a jet black bat of fifteen or more feet across, with a long, slender tail, the fins rising and falling like wings with a motion the perfection of grace; wings jet black above, pure white below, flashing alternately black and white as the fishes turned and swung along, standing out against the dark background of the water.

Imagine a jet black bat of fifteen or more feet across, with a long, slender tail, the fins rising and falling like wings with a motion the perfection of grace; wings jet black above, pure white below, flashing alternately black and white as the fishes turned and swung along, standing out against the dark background of the water. The bat was a creature of the sea, and it was a creature of the sea.

1:00 to 5:00 and 7:00 to 9:00 P.M.

The Red Men are to give their  
"last of the season" public picnic, at  
the Park, on Labor Day (Monday, Sept.  
4th). Great preparations are being  
made, and the committee promise that  
it shall be the finest ever. Full particu-  
lars later on.

A. H. Whitmore has bought an  
Orient buckboard automobile, and is  
watching every freight train for its  
arrival. It will prove convenient in  
his paper-hanging business, which calls  
him in every direction for miles around,  
with bundles of paper and a variety of  
implements.

Two notes came to grief on Sun-  
day, while endeavoring to escape the  
road on upper Bellevue. They ran into  
the gutter, below Valley Ave., and  
while struggling to regain the street  
level, each lost a rear wheel. One of  
the vehicles was still there on Monday  
morning. We are told that several  
others had a similar experience.

Among the seven thousand and  
more State Banks in the United States,  
there are but 342 on the "State Bank  
Roll of Honor," made up of those hav-  
ing a surplus and profits in excess of  
their capital. The Peoples Bank stands  
among the 342. Seven State Banks  
only, out of seventeen in New Jersey,  
are on this roll.

## "The Play is the Thing."

The above remark was made by  
little Willie Shakespeare, a few centu-  
ries ago; but, like most of his trite  
sayings, it is just as applicable to  
Hammononton today as it was to Cam-  
den, N. J. (I think that was his native  
place) in those days.

The play in question, which is  
causing such a stir in our little town,  
making the family man cut his gro-  
cery bill, the bachelor his wet groce-  
ries, the boy his cigarettes, and the  
girl her candy, in order to save money  
to buy tickets, is the funny comedy  
"Jane," which will be given at Union  
Hall August 31st and Sept. 2nd.

But why the excitement? Just look  
at the bunch of fun-makers who will  
take part in it; and you will not ask.  
Mrs. E. S. Grant will play the part of  
"Jane." Mrs. Bower as "Mrs. Chad-  
wick." Mrs. DePuy as "Mrs. Pixon."  
Miss Edna Grant as "Lucy Norton."  
Mr. A. Howard Ritter as "William."  
Mr. Nicholson as "Shackleton." Mr.  
Grant as "Kershaw." Mr. DePuy as  
"Pixon." Mr. Coggey as "Claude."

Can you beat it?  
These performances are gotten up  
by Mr. and Mrs. Grant for the benefit  
of St. Mark's Parish, and are under  
the stage management of Mr. Grant.  
The tickets being sold by the members  
of the Church, in advance, give a  
slight advantage to the buyer. They  
are exchangeable for reserved seats at  
Henson's, on Aug. 26th, or after, and  
if enough are sold to take all the seats,  
there will be no sale of tickets after  
that date.

M. L. JACKSON, P. M.

One of our patrons remarked to  
his wife, one night this week, "I think  
it's about time we paid for the REPUB-  
LICAN." She replied, "Yes, they sent  
you a bill about a month ago." "Why,  
I never saw it; where is it?" "I put  
it away, and forgot to give it to you,"  
she said. But in an hour or so we had  
our money, and he had his receipt.  
This little incident set us to wondering  
whether there were not other good  
wives (and husbands) who "forgot,"  
and that the reason why so many of our  
little green reminders do not bring more  
of the "long green" so desirable in our  
business. Please look up the matter.  
A goodly number responded promptly,  
but there are others.

There ought to be some way to  
regulate the speed of automobiles, par-  
ticularly when rounding busy corners  
like that at Elvins store. Numerous  
narrow escapes from accident have been  
observed there, when teams are hitled  
in front of the store, others are coming  
up Bellevue Avenue, and an auto flies  
around the corner without slackening  
speed or sounding a warning. The  
State law apparently makes no provision  
for such case, and expressly forbids any  
regulation by local authorities. Possi-  
bly, when a crash does come, the victim  
will be insured (?) enough to exact a  
special law for the occasion, and enforce  
the penalty without delay.

A faraway party was given  
Miss Mabel Gilbert, on Friday evening,  
Aug. 11th, at the home of Mr. and Mrs.  
Donald M. Chapman, at Elm. After  
dancing and numerous games, refresh-  
ments were served, and all went home  
satisfied that they had had a very good  
time. Among those who were present  
were Mr. and Mrs. D. M. Chapman,  
Mrs. S. W. Gilbert, Misses Helen and  
Bertha Jessup, Lucy Nispling, Clara  
Burd, and Jennie Walker; Messrs.  
Glen Battell, Chas. H. Johnson, John  
Jessup, Jr., Alex. Hoggan, Charles  
Nevinger, and Wm. Teasentz. Mrs.  
Chapman rendered several fine solos,  
at request of the guests.

It would be a public benefit if  
those who have street lamps in front of  
their properties would trim the shade  
trees so that the light might shine out  
and be of some benefit to others. In  
several cases, the lamp can scarcely be  
seen from the street until within a  
few feet of them.

## Sour Stomach

No appetite, loss of strength, nervous-  
ness, headache, constipation, bad breath,  
general debility, sour risings, and catarrh  
of the stomach are all due to indigestion.  
Kodol cures indigestion. This new discov-  
ery represents the natural juices of diges-  
tion as they exist in a healthy stomach,  
combined with the greatest known tonic  
and reconstructive properties. Kodol Dys-  
pepsia Cure does not only cure indigestion  
and dyspepsia, but this famous remedy  
cures all stomach troubles by cleansing,  
purifying, sweetening and strengthening  
the mucous membranes lining the stomach.  
Mr. S. S. Ball, of Ravenswood, W. Va., says:  
"I was troubled with sour stomach for twenty years.  
Kodol cured me and we are now using it in milk  
for baby."
