HURRAH FOR GEN. GARFIELD.

Tune—"Yankee Doodle."

1 Ohio is the banner State
Of all the great Republic.
Who dares the fact to undertake,
We will the money can lick.
Chorus: Garfield leads to victory,
At home or on the far field.
Give a rousing three times three,
Hurrah for General Garfield.

2 The delegates made valiant fight,
Throughout the great convention.
He has healed the party split,
And closed the long contention.
Chorus.

3 The Democrats may skulk and sulk,
While Garfield stock is booming;
The wise may leave their cotton hulk,
That sink to certain doom.
Chorus.

4 They can't deny the fact is true,
And never was a shirker;
He's farmer, statesman, soldier, too,
And loves a faithful worker.
Chorus.

5 The old canal he used to sail
Has led to wider oceans.
The ship of State he cannot fail
To steer through all commotions.
Chorus.

6 He'll guide her as he did the boat
Upon the Lake-Side Sands,
Then every man turn out and vote,
The land plays "Doodle Dandy."
Chorus.

That Park Question.

THE LAST CHAPTER.

MR. EDITOR:—I agree with Mr. Bassett, in saying that perhaps enough has been said on this particular feature of the Park question. I am surprised at the language used and the views entertained on the reply I made to the question—Why will not the Sunday Schools unite with the Park Association in some of their arrangements? I claim that the Sunday School, where the Word of God is studied, is a strictly moral and religious institution. If God's Word is not the text-book, it is not properly a Sunday School—but a School on Sunday. I thought possibly somebody would try to show that racing and its usual adjuncts were somehow or other promotives of morality. If that be the case, I will change my views. One writer seems to think that by dropping religious differences all will be right.

I hope what I have already said will not be misconstrued into opposition to the park. My only regret is that it was not started and continued in a way to secure the co-operation of the people generally.

I fully endorse Mr. Bassett's views in regard to the propriety of having a public park, and of doing all that is necessary to make it an attractive spot. Just here permit me to reproduce what Mr. Bassett said, which is the key to the whole matter. After speaking of the propriety of having a Park, he said: "Just here comes in the question—Can those who are conscientiously opposed to racing connect themselves with an institution that favors or permits racing and its usual attendants of gambling and drinking within its limits?" Thanks; your question is well put—better than I could frame it myself. I am glad of the opportunity to answer in the negative. No man who regards his convictions of right can, without stultifying his conscience, say anything else. I am surprised at Mr. Bassett's conclusions, after assuming and admitting that those conscientiously opposed to racing, etc., cannot favor them in any manner; and after stating that he is thoroughly and decidedly opposed to racing, that he should say the then Editor administered

to me a just and deserved rebuke, because I saw (and I wonder any one can not see) how money or patronage secured on the Fourth of July can be used in the interest of racing in the near future. Does not this come under the head of helping in any manner. The Association have a right to do as they please in this matter, and I think I have a right to give my reasons for not joining them, and why I think the Sunday Schools will not unite, without being stigmatized as a Pharisee, hypocrite, liar, and thief.

I hardly know what Mr. Bassett means by his exhortation to drop religious differences and come together on common ground. If he refers to the case in hand, it looks like saying,—Don't have any established and permanent views concerning moral questions, but be anything that the times and circumstances call for. We have by far too many of this class already.

I know a man who claims to be a great moralist and temperance man—generally conspicuous at temperance meetings,—don't favor giving license to sell rum to townsmen, but only to the traveling public,—talks about the superior wines at Egg Harbor, etc. He belongs to that class who are ready to drop religious differences. I don't believe in ignoring religious convictions under any circumstances.

The reference to religious fairs, "petty religious gambling," as he calls it. If it is gambling, don't call it petty,—gambling is an unmitigated crime,—grab bags, guess cakes, ring cakes, all in the catalogue. No, no, Mr. Bassett, two wrongs never make a right. He says he can readily appreciate the feelings of those who do not feel that the trotting fairs or religious fairs where this petty gambling is practiced are safe places to take their children. I will go a little further, and say I will not attend divine worship, nor allow my children to go (if I can help it), where these things are encouraged and practiced.

Our Next Assemblyman.

MR. EDITOR:—

"Voter" is right in stating that Dr. Bowles has been a consistent, true and strong aggressive Republican; but the great question now is can he be elected? Can he carry the county Republican vote? Can he carry the Hammonton vote now? It is said that he cannot begin to do so. The nominee must be a man that will carry the whole county Republican vote—the situation demands it. But there is another aspirant for the Assembly in Hammonton; his friends will trot him out by and by, and with him as with the other, can he carry the county Republican vote? He will have friends in the county who will labor to secure his election; and we know that there will be others who will do all they can to defeat him, and we know also that he cannot carry the Hammonton vote.

A REPUBLICAN.

ELWOOD, Aug. 12, 1880.

EDITOR REPUBLICAN:—Allow me space in your columns to thank the Hammonton lady patrons of the Philadelphia and Atlantic City Railway for the splendid office coat they so kindly donated to me, in remembrance of services in their behalf. Stangers as most of you are to me, you will pardon me if I use the same medium to express my thanks that you did to present your gift. Therefore, to Mrs. Susan H. Wood, and through her to you, one and all, I tender my most sincere thanks. If giving boners more pleasure than receiving, my friends, you are indeed a happy company; for I assure you it was with no ordinary degree of pleasure I received from Mrs. Wood this token of your kind regards. The event will remain deeply engrained on the tablets of my mind, and in after years, when memory on her magic wings retraces the scenes of the past, I shall consider this act as one of the brightest pictures of friendship.

Respectfully,

CHAS. B. THOMPSON.

Our Washington Letter.

WASHINGTON, D. C., Aug. 16th, 1880.

A prominent gentleman here has received a letter from Senator Blaine, in which he gives positive assurance that Maine will go Republican at the September election; that the party will carry all the Congressional Districts, and will give Garfield and Arthur 7000 majority in November. This information, coming direct as it does from Mr. Blaine, is by far the most encouraging event of the campaign. Maine has been a doubtful State for several years, and this time the Democrats by their successful combination with the Greenbackers, regarded it certain for the "fusion" party. But Mr. Blaine has entered into the campaign this year with unwonted energy, and is giving it his personal supervision. The contents of his letter can be safely taken as an assurance that Maine will remain within the Republican column.

I am quite sure the Republican National Committee could advance the cause if they would print and circulate as campaign documents many of the speeches now being made by Southern Brigadiers, and especially by Southern Congressmen to their constituents. Of course, not knowing better, they are quite sure of Hancock's election, and many are the promises made, contingent upon it. The character of these promises are of interest to all. There is not one, but that has for its object the impoverishment of the Nation and the enriching of the Southern section. The tax on whiskey and tobacco, according to these Southern representatives, is one of the first reforms to be carried into effect. The raising of tobacco, and the distilling of whiskey are to be the great untaxed sources of Southern wealth, "when Hancock comes in." Of course the removal of the tax from these products will cause a deficit in the revenue. It will have to be remedied. With the Democratic party in power, controlled as it is by its South wing, we may be sure that Northern industries will have to bear an additional burden. Will men with taxable interests knowing the tendency of the Democratic party to intense sectionalism, vote for its candidate, and thus pave the way to their own poverty? The Democratic party tries to make us believe that the North and West are full of such men.

If the Democrats watched themselves as closely as they do Senator Conkling, fewer mistakes would be made by that party of blunders. He has been accused of lukewarmness often and upon less grounds, than any other man in the Republican party. He has said, and his friends have said for him, that he will not only speak in New York, but in Indiana and Connecticut.

The contest in Indiana grows in importance as the election day draws near. The Democrats are making a vigorous canvass, and the Republicans, noticing unwonted Democratic activity in that State, are working with a determination to win.

It is now rumored here that the Democratic managers are becoming alarmed, and will cause the Supreme Court to reconsider their decision, and affirm the constitutionality of the amendments, thus postponing the State election until November.

MAXWELL.

The drama finds congenial worshippers at Emerson up in Manitoba. The town has no theatre, but the people didn't mind that, and wouldn't let a theatrical company pass through there without stopping. The Mayor officially guaranteed the actors remuneration out of the city treasury, if the box office didn't pan out well, and "Rosedale" was acted in an old warehouse on a temporary stage. The orchestra seats were soap boxes, and rough planks formed the gallery. There was a packed house, and the audience was so delighted that it eagerly paid over again to witness "Pinafore," which was begun at midnight.

"Who was the first man," was the question which puzzled a public school class in warren county, Kentucky. Four pupils undertook to answer, and their respective versions of the reply were Abe Lincoln, George Washington, Noah, and Eve.

State Convention.

The Convention was held in Taylor Hall, Trenton, on Wednesday, at 10 o'clock, noon, and was called to order by Hon. Amos Clark, of Union, who nominated for temporary Chairman, Judge Hoffman, of Hudson. On taking the chair he addressed the Convention, and reviewed, briefly, the life of the Republican party, and the leading men, who had by their deeds made it the party of liberty, of justice, and equal rights, and closed with a beautiful and touching tribute to our candidate, and the next President, General James A. Garfield. He sat down amid applause and cheers. Just at this moment General Hudson Kilpatrick appeared in one of the boxes, and was received with tremendous enthusiasm. Cheers on cheer went up, particularly from the delegates from the upper part of the State. He was conducted to the stage amid the wildest enthusiasm, and as soon as quiet prevailed he gave one of his ringing speeches, in which he was frequently interrupted with applause. As his name had been mentioned by his friends, as a candidate for the office of Governor, he declined with a high tribute to Hon. F. A. Potts, of Hunterdon, and hoped that gentleman would receive the unanimous vote of the Convention.

The business of the Convention was then proceeded with, and the several Committees were appointed, and then adjourned till 2 o'clock P. M.

Those from the Atlantic delegation on Committees were: S. V. Adams, Credentials; M. L. Jackson, Permanent Organization; Dr. T. P. Waters, Rules; John L. Bryant, Resolutions; C. A. Gross was made Vice President.

At 2 o'clock the delegates convened, and the Committee on Permanent Organization reported the name of Hon. Geo. M. Robeson for Permanent Chairman, with Cummins O. Cooper, and J. Herbert Potts, as Secretaries. On assuming the chair Mr. Robeson made an effective address, reviewing the declaration of principles of the two parties, giving particular attention to the plank in the Democratic platform relating to the tariff and centralization. He tore them to tatters and left them shreds. He showed the untenability of the claims of the opposition, and laid bare the true indication of the representatives of rebellion behind the mask Democratic party assumes. The address was a sledge-hammer blow which Mr. Robeson knows well how to wield, and the appreciation of his force was acknowledged by a hearty and prolonged applause.

The reports of the other committees were heard and adopted. The resolutions were short and were adopted without a dissenting voice. Hon. F. A. Potts, of Hunterdon, was nominated for Governor, by acclamation, by a unanimous and hearty accord. The candidates for electors were then nominated. The Convention was then addressed by Ex-Senator Follinbaugh.

Mr. Hasler, of Bergen, Chairman of the Committee on Resolutions, reported as follows: Resolved, That the Republican party of New Jersey cordially approves and reaffirms the principles set forth in the platform adopted by the National

Convention held in Chicago on the 24th of June, 1892. Resolved, That the Republican party of New Jersey cordially approves of the nomination of General James A. Garfield and Chester A. Arthur for President and Vice President of the United States, and pledges to them our interest and undivided support. Resolved, That, knowing that the very livelihood of hundreds of thousands of our citizens and the most important of the policy of protection to American labor, which our party has ever held against constant attempts of the Democratic party to impair or destroy, and that protection has developed and raised to their present proud and encouraging position in our State such great industries as the iron, silk, pottery and others, and deeming as certainly fatal to those industries the Democratic doctrine of a "tariff for revenue only," the Republican party of New Jersey does in the most unequivocal manner declare its adherence to the principles of protection and a tariff for the benefit of the tolling masses.

Resolved, That, in view of the great expense, and redundant legislation attending yearly sessions of the Legislature, we earnestly commend the proposed amendments of the Constitution providing for ideal sessions, recommended by the last Legislature, to the careful consideration of the people of our State, in order that prior to the meeting of the next Legislature the measure may receive such intelligent consideration as the first action thereof may be wise and satisfactory. Resolved, That we heartily commend and approve of the action of recent successful Republican Legislatures in so reducing the State expenditures that for the first time since the civil war, no State tax is laid upon the people and property of the State, excepting that which is cheerfully contributed to support our admirable system of free education.

The roll of counties was again called to name a new State Executive Committee, and the following were chosen:

First District—W. T. Bailey of Camden and Daniel Sharp of Cumberland.
Second District—E. A. Anderson of Mercer and R. T. F. Thorn of Burlington.
Third District—Charles Robbins of Monmouth and Seth R. Rider of Ocean.
Fourth District—James N. Robinson of Warren and Charles Place of Camden.
Fifth District—M. L. Johnson of Bergen and A. A. Van Hook of Hudson.
Sixth District—R. C. Oakley of Orange and John D. Harrison of Newark.
Seventh District—B. W. Thompson and Wm. T. Hoffman of Hudson.

The Democrats, it would seem, have a machine for turning Republicans into Democrats at a wonderfully rapid rate, so fast do the reports come in. Yes, when these reports are traced, they are found, about nine times in ten, to be without any foundation. While we allow them the exception, now and then, of a Republican who has got bewildered in political fog, the sensible men, conscientious men, who have been Democrats, like many we know of, because it was born in the flesh and bred in the bone, have had their political eyes opened to see what manner of men are controlling and leading the Democratic party, are forsaking it by the scores, and entering the party that advocates equal rights to all, black or white, of whatever race or condition—the Republican party—declaring that they cannot remain in a party whose leaders have abandoned every principle for which our fathers fought and bled, and who will not abide by the results settled by the late war. So rapid are the conversions of leading men of the Democratic party, that one must make a check-list to keep track of them. We suppose the reports of so many going over the other way must be made to keep even with the number the Democrats lose from their ranks.

Garfield will have, counting New York, Indiana and Connecticut among the Republican States, 222 electoral votes. Let him lose Indiana and Connecticut and he will still have 201. Take away Maine from the list just depleted and he will have 191. In addition to these he may lose Oregon and California and still have 185—enough to elect. If he lose New York and carry the other States named Garfield will have 137 electoral votes. If he lose New York, Connecticut and Florida and carry Virginia he will have 186 votes. Or he may lose New York, Connecticut and Indiana and carrying Virginia Florida and New Jersey have 190 votes. The Democrats can only succeed by carrying all the Southern States and New York, New Jersey and Oregon or Connecticut. Losing New York they must carry all the Southern States, New Jersey, Indiana, Connecticut, Maine and all the Pacific States of California, Oregon and Nevada to have 187 votes. The prospect is certainly not discouraging to the Republicans.

Northern Democrats affect to discredit the reports that come from the South, to the effect that Republicans, black or white, are not allowed to go to the polls, or if they do, and vote, that their votes are not counted, and fictitious Democratic votes given. We would ask them if they believed that Republican votes are counted where majorities are announced greater than the entire Democratic vote, in sections where Republicans are in the majority? This was the case in the recent election in Alabama, where an order was issued by Democratic leaders, to count out all the votes except the regular Democratic. But there are none so blind as those who won't see; but shut their eyes to the truth.

General Grubb, of Edgewater, announces that he is no Hancockian, but a Garfield man out and out. Let the Democrats consume the whiskey; we will keep the Grubb. —N. Y. Commercial Advertiser.

Wm. H. Engleish, Democratic candidate for Vice President, has been proved to be a Shylock of the meanest pattern. The documents on file at the Clerk's office of the county in which he lives, show that he has foreclosed 130 mortgages held against poor people, to whom he had loaned money at a high rate of interest, and otherwise distressed poor people. Fine specimen he is for the high office for which he is nominated. No wonder he is unpopular in his own State, and that Indiana is considered no longer doubtful, but sure for Garfield and Arthur. There he is said to be too mean to use his money to promote his election.

Encouraging news comes from Pennsylvania. Mr. Cossin, chairman of the Republican State Committee, says that in each of the several counties of that State, already heard from, there have been responses to the Republican ranks of from forty to fifty soldiers who previously voted the Democratic ticket. Evidently the party that is fighting "for the same principles, for which Lee and Jackson fought," cannot deceive the veterans by putting up a Union General for a figurehead—N. Y. Tribune.

So far as we can see, the "issues" upon which the Democracy is fighting its campaign, is that Garfield is a scoundrel; its principles, that the Republican party has been in power long enough and ought to get out of the way and let Democracy "fill up." If the Democracy has proposed any other "issues" and "principles" than these we wish some one would kindly forward plans and specifications to this office.—Indianapolis News (Rep.)

At a recent Democratic meeting in Bridgeport, Conn., the orator of the evening waxed warm and shouted out, "If there is a Republican in this house, I would like to have him rise and tell his feelings." A man in the back part of the room arose. "Are you a Republican?" said the orator. "How do you feel?" "I feel like one good egg among a bunch of rotten ones." The catchword ended.

It is a significant circumstance that all the pictures of General Hancock, printed for public circulation, represent him in the dress of a civilian. "The reason" for this is the fear of offending the sensibilities of the "Southern Brethren" by showing of their Presidential candidate in the uniform of a Boy in Blue. No man who is ashamed of the Union blue ought to be elected President of this country.

Connecticut cast her electoral vote for General Scott in 1852; for Fremont in 1856; for Lincoln in 1860; for Lincoln in 1864; for Grant in 1868; for Grant in 1872; and for Tilden (with a certificate of 96,000 election law) in 1876. Once Democratic in a Presidential contest in twenty-eight years. This year she will resume her old position in the Republican line.

Wade Hampton is the most honest and frank of all the conspirators of the "Solid South." He boldly proclaims the fact that it now contends for that, for which Lee and Jackson fought for four years. That is what the leaders of the Democracy call conciliation! It is of the kind given by the lion to the lamb.

The New-England Telegram says: "We do not desire to inspire Republicans with a dangerous confidence, but we do not hesitate to say that all the signs of the times point to a decisive Republican victory in Connecticut, next November, on both the National and State tickets."

All nonsense aside, it is a fact that all over the North, from the Pacific coast to the Atlantic, the coming from the Pacific coast is one of substantial and growing confidence, while the "Hancock boom" is very perceptibly subsiding everywhere except in the South.—Chicago Journal (Rep.) David Davis doubtless wishes he were back on that fence. He has been down long enough to find out that a lonely seat on barbed wire is "preferable to a cushioned chair in the Democratic museum."—Burlington Hawkeye (Rep.) Hancock would be a good bait on the Democratic hook for Union soldiers were it not for the fact that the hand of the Solid South can be seen at the big end of the pole.

Sarsaparilla

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effective alternative medicine known or available to the public. The sciences of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures Scrofula and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetters, Humors, Salt Rheum, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give AYER'S SARSAPARILLA a fair trial.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. AYER'S SARSAPARILLA is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and prescribe it. It has been widely used for forty years, and has won the unqualified confidence of millions whom it has benefited.

MUST!

Above product, our "speciety," is the pure unfermented juice of the grape as it leaves the press, and equivalent to this delicious fruit in liquid form. Possessing no alcoholic properties, it is invaluable to Invalids, Temperance people and Churches for sacramental purposes. "Our" MUST must not be mistaken for other so-called unfermented wines, as it is not boiled and hermetically sealed to keep it from spoiling. The only "Process" resorted to by us is to permanently stop fermentation, which naturally must result in the juice remaining as it grew.

The undersigned are now disposing of their new stock prepared from their last grape crop, and warrant that it will keep without special care.

Democratic editors are now dipping their gray goose-quills into some very blue ink.

The only way to adequately punish eloping couples is to compel them to live together ever afterward.

The men who cheered whenever the Union army was defeated are now cheering for Hancock and English.

Westfield, Mass., has a blind physician with a large practice. He is not the only doctor who goes it blind.

A West Philadelphia Irishman was arrested for beating a neighbor's pig, and explained it thus: "Sure, I was only a-batin' a nuisance."

A baby in the house is a well-spring of pleasure so long as it is quiet. The rest of the time it is a tornado of horrors—to the old bachelor-uncle.

Young men who never know what to do with their hands are thankful that it will soon be cool enough to wear them in their pockets once more.

The Atlantic City Review, finding that there is a scarcity of young men at that resort, has cunningly started a theory to the effect that "salt air is good for weak mustaches."

The most pitiable sight in a political campaign is to see a young, ambitious Democratic orator bursting with a desire to fire the world with his eloquence, but utterly unable to find anything in the record of his party to grow eloquent about.

The solid South can find plenty of money to buy shot-guns and keep the ballot-box stuffing machinery in working order, but when the yellow fever or something else breaks out, the solid South suddenly becomes as poor as Job's turkey, and calls on the North for aid.

The corn looks very sickly in some sections.—*Ex.* Send for the corn doctor.

The Democrats talk as if they were running a professional beauty for president.

Do not attempt impossibilities. You can't make good sewing machine oil out of muckilage.

Judging from the appearance of some of the fashionables at the summer resorts it is about time they came home for their health.

If Mark Twain should run for the presidency he would be charged with stealing Adam's watch at the time he was weeping over his grave.

Go to the colored quarter on a pleasant afternoon, if you would see the most fashionable Dinahs out.

A western plumber takes half a column of his local newspaper to advertise "Cast Iron Sinks." But, great Scott! who ever said it didn't?

If some first class public speaker will come here and take the stump, and take it clear out of the State, and keep it there until the campaign is over, he can draw on us for a dollar.—*Titusville Petroleum World.*

Years ago, when it was necessary to raise money to pay the interest on the war debt incurred by the Democratic Rebellion, coal oil was taxed for revenue. It was a very high tax. Coal oil, unlike whiskey and tobacco, was an indispensable article, and the tax was a burden to the poor and people of moderate means. General Garfield introduced into Congress, and had passed, a bill reducing this tax to a nominal price. This as General Garfield expected and intended, was a great relief to the mass of our population. It happened also to operate in the favor of the princely merchants and speculators in oil of Pennsylvania and New York, who had literally their "millions in it," by lessening the amount of capital required to handle oil, and allowing a better per centum of profit. It was a very small matter, for these dealers to make up a purse of \$10,000 as a present to General Garfield, which they did and asked him to accept it. The General replied that he could not accept the gift; he had done simply what he thought was his duty to consumers of oil, with no thought of reference to them or their interests. If incidentally the act was a benefit to them he was gratified, but he had no claim on them. Permission was then asked to present the purse to Mrs. Garfield, and this was declined.—*Cincinnati Gazette.*

"Aren't you afraid you'll blow your lungs through your horn some day?" asked a gentleman at one of our hotels of a fat, red-faced German musician, who was blowing away at his trombone with all his might as he cleaned it in the rear of the hotel. "O no, dot was no danger ov dot," replied the goodnatured musician, laughing heartily; "I hev took good care ov dot." The gentleman went to the kitchen, and getting a piece of raw meat the size of a man's hand slyly slipped into the end of the horn, which pointed over the musician's shoulder, while the German was examining his instrument's mouth piece. Putting the horn to his mouth once more the musician attempted to blow through it. It was stopped up, and he blew and strained until his face was the hue of a boiled lobster and his eyes started from their sockets, the gentleman meanwhile warning him that he would do injury to himself. In another instant there was a gulp and out flew the meat. "Mein gracious! mein gracious! Dot vos my lung, mister, shust as you said. I am a dead man!" exclaimed the frightened horn blower, suddenly turning ghastly pale. The truth was quickly explained to him, much to his satisfaction, and the threatened apoplectic fit averted.

Insurance.

CUMBERLAND MUTUAL Fire Insurance Company.

BRIDGETON, N. J.

Conducted on strictly mutual principles, offering a perfectly safe insurance for just what it may cost to pay losses and expenses. The proportion of loss to the amount insured being very small, and expenses much less than usually had, nothing can be offered more favorable to the insured. The cost being about ten cents on the hundred dollars per year to the insured on ordinary risks, and from fifteen to twenty-five cents per year on hazardous properties, which is less than one-third of the lowest rates charged by stock companies, on such risks—the other two-thirds taken by stock companies being a profit accruing to stockholders, or consumed in expenses of the companies.

The guarantee fund of premium notes being now Three Millions of Dollars.

If an assessment had to be made of five per cent. only, twice within the ten years for which the policy is issued, it would yet be cheaper to the members than any other insurance offered. And that large amount of money is saved to the members and kept at home. No assessment, having ever been made, being now more than thirty years, that saving would amount to more than

One Million Five Hundred Thousand Dollars

The Losses by Lightning.
Where the property is not set on fire, being less than one cent per year to each member, are paid without extra charge, and extended so as to cover all policies that are issued and outstanding.
