In a great many cases a single dose has been sufficient for a cure, and whole fami-lies have been sured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to ours, if its use is continued more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY FILLS will be sufficient.
