Special Council Meeting.

Council Chamber was pretty well filled on Tuesday evening, to discuss (and otherwise) the new paving ordinance before its final passage.

The Mayor being absent, Mr. Wood occupied that seat of honor. There were but two protests against the proposition, and three or four emphatically for it. The others present seemed to take it as a necessary additional burden, which will eventually greatly increase the value of their property.

The ordinance, providing for further extension of sidewalks and curbs, passed second and final reading unanimously.

Messrs. Waas, Black, and Galigue desired to increase the width of their paving one foot, on Central Avenue, which met with Council's approval.

A letter from the Freeholders, in response to one from Town Clerk Seely, advised the Town Engineer and County Engineer toget together and agree on grades on Egg Har-bor Road and Central Avenue,— there being an apparent difference.

Clerk was instructed to notify the Gas Company to close holes on Bellevue, as they are dangerous, and prevent the completion of the road building.

By resolution, Clerk was authorized to issue permits to pave and curb, permit good for sixty days unless otherwise provided,

Contract was read, and Mayor authorized to sign it, with Contractor Spear.

Finance Committee was instructed to look after the procuring of money at best terms possible, and report.

Athletic Association.

Our home team defeated Vineland last Saturday,- 5 to 1. As Lockhart was unable to play, on account of injuries received last week, in Pleasantville, "Wally" Piez covered the third base. He drew three passes and an error, so could not make a hit.

Hammonton scored only four hits, while Vineland had six; but they made six errors, and their pitcher gave six passes. Score:

Hammonton2 1 0 0 0 0 0 2 x-5 Vineland 0 0 0 0 0 0 0 0-0-1

Our travelling team journeyed to Norma, a suburb of Vineland, and defeated their team,-4 to 2. Timely two-baggers by Werner and Beverage, and base-stealing, won the game. A rough diamond was quite a handicap, but our travellers are becoming accustomed to play-

ing on ''larm-yard'' grounds. To-day we play May's Landing. We have won one game of series, to their two.

Next week, Egg Harbor. On Labor Day, two games with Pleasantville.

We are very much pleased with the appearance of Bellevue Avenue where the new concrete sidewalks and curbs have been laid, and can easily imagine how much more attractive the avenue will look when the improvements are all completed. We now hear very little opposition expressed, and predict that every property owner will ere long rejoice with us in the enhanced beauty of the town, and the clean solid walks, which replace the ups and downs so long suffered.

WANTED to hur,—Crauberties and Eleffer Pears, before selling erre, let me quete cash price on same. Welto or phone for prices. Elmer A, Priestley, Elm, N. J.

A committee of the County Freeholders went over the road between Hammonton and Buena Vista, on Tuesday, and were ap-parently convinced that it needed and should have County and State aid. It is said that State Supervisor Stevens also favors this improvement. It seems to us that this would be advisable,-eleven miles of good road to make a connecting lluk between northand south Jersey.

CHRISTIAN ENDEAVOR SOCIETY.

URKEY AND PERSIA AS MISSION FIELDS.

Acts 4:12-31. Missionary work in Turkey and Persia has been to a large extent confined to the nominal Christians of these countries-Armenians, Greeks, Bulgarlans, Nestorlans and Maronitespartly because of the conaticism of the Moslems themselves, but also partly ecause of the determined hostility of he rulers to any attempt to convert Mohammedans. And even the work among these nominal Christians has been greatly impeded by persecutions. which have been connived at. If not actually ordered, by the authorities. Yet in spite of all obstacles very onsiderable success has been achieved. Large numbers of Armenans and many Bulgarians and Nesorians have accepted the evangelical faith. And two great missionary schools, one at Constantinople and the other in Syria, have exerted a very videspread influence for good. In Persia medical missionary work

has created a profound impression, and has won for the missionaries the good will of many prominent Mohammedans, yet the converts of missions n Persia are mostly from among the

Armeniana. The real problem which Christianity has to face in Turkey and Persia, and in all the northern and central portions of Africa, is the winning of Mohammedans, because Moslemlam is very aggressive religion and is still distripping Christianity in the race for universal empire in very large areas: especially in Africa.

In his book "The Moslem World," published by the Young Peoples' Missionary Movement, Mr. Samuel M. Zwemer says that the territory of the furkish empire is well covered by missionary societies. The five principal missions have 637 foreign missionaries in the field, but according to he "Encyclopedia of Missions," "The church-Missionary...Society...(Episco... pul) is the only one that has made a special effort to establish mission work distinctively for Mohammedans." Until recent years the difficulties of the problem and the terror of the Turk worm to have prevented direct work for Moslems, although by printing press, schools, colleges and hospitale many were reached indirectly."

Mr. Zwemer Baya: "When we consider how much the Moslem convert must risk to confess Christ openly, surely there is much o encourage us, and it is with Joy that we can point to results to Mostem lands and to miracles of God's grace. These results have been direet and indirect. The latter have been far greater than the former, and have in God's providence prepared the way for the final assault and the vic-

"The preliminary work has largely een necomplished. It is a romarkable fact that every strategic Moslem entre is occupied by Protestant misnions. No less than thirty cities, with very large Mostem populations, are centres of missionary effort by printhig press, bospital, school, or college; and in each of them, directly or fullrectly, the gospel reaches Moslems, "Another result which we have alendy mentioned in that the bible has been translated into nearly every lanpringe apoken by Modeniu. Thousands of portlona of Scripture are already in one by Moslems, and tens of thou manda of copies are being sold to them every year by colporteurs and interioraries. The Betrut Press alone has bosted over a utillor volumes of the Arable Seriptures since it was founded. The demand for the vermentor Bible in Persia, Avabla, Exppt and the Turklah Empley is phenumeand Nationly bas the Utide been translated and widely distributed, but chio Nictions a birgo and Important hody of Christ Albe other literature is ready for Mostonia In Arable, Persian, Turklah, Urdu and fromadt, the chief literary languages of Intern. "And there have been unconditional urrenders. It is an old falsehood. widely current even among the ignorunt friends of substone, that 'It be no use trying to convert Mohammedann,' and that there have been no onverts from foliam."
