TO ADVERTISERS! We will order
for the insertion of advertisements in
the newspapers of the United States and
Dominion of Canada. To furnish advertisers with
reliable information concerning newspapers and their
rates, and thus enable the most inexperienced to select
intelligently the medium best adapted to any particu-
lar purpose, we issue SEMI-ANNUAL EDITIONS OF
AYER & SON'S MANUAL
FOR ADVERTISERS. 164 pp. pp. Gives the
names, circulation, and advertising rates of several
thousand newspapers in the United States and Canada,
and contains more information of value to an advertiser
than can be found in any other publication. All lists
carefully revised in each edition, and where practicable
prices reduced. The special offers are numerous and
unusually advantageous. It will pay you to examine
it before spending any money in newspaper advertising.
The last edition will be sent postpaid to any address on
receipt of 25 cents by N. W. AYER & SON,
ADVERTISING AGENTS, Times Building, Philadelphia.

Perfectly Prepared.
There was once a perfectly modern girl,
With perfectly modern ways,
Who saw perfection in everything
That happened to meet her gaze.
Such perfectly lovely things she saw,
And perfectly awful too,
That none would have dared to doubt her word,
So perfectly, perfectly true.
The weather, she said, in summer time,
Was perfectly, awfully warm;
The winter was perfect, too, when there came
Some perfectly terrible storm.
She went to a perfectly horrid school,
In a perfectly horrid town;
And the perfectly hateful teachers there
Did things up perfectly brown.
Her lessons were perfectly fearfully long,
But never were perfectly said,
And when she failed, as often she did,
Her face grew perfectly red.
The church she attended is perfectly mag-
nificent, with a perfectly heavenly choir,
And perfect crowds go there to hear
A perfectly stunning choir.
The latest style is perfectly sweet--
The last the perfectest out.
The books she reads are perfectly good--
(Just here we raise a doubt.)
A ride she took was perfectly grand,
On a perfectly gorgeous day,
With a perfectly noble friend of hers,
Who happened to pass that way.
The perfectly elegant falls she'd seen,
When on her way to the lake,
And the graphic description she gave us all
Was simply a modern mistake.
The perfectly splendid foam dashed up,
In a perfectly terrible style;
And the perfectly terrible waves came down
In a perfectly lovely pile.
I might go on with this "perfectly" poem,
And write to the end of time,
But fearing to wear your patience out,
Will bring to an end my rhyme.

Our Washington Letter.

WASHINGTON, D. C., Sept. 8, 1879.
One of our Democratic papers this morning,
in speaking of the Republican victory in Cali-
fornia, says: "It only illustrates anew that no
party has anything to gain, but on the contrary,
everything to lose, by any toleration of disorder
and violence."

It is one of the most cheering indications of
to-day, that even the Democracy is beginning
to realize the bad policy of all the disorder and
violence that has been perpetrated in its name;
that each and all of the murders committed--if
not by the Democratic party--certainly in its
behalf, from that of Owen Lovejoy, the abo-
litionist, to those of Brudrick and Lincoln,
and the tens of thousands of victims of shot
gun and knife clubs and Ku Klux Klans have
made yet more certainly impossible the success
of any effort by that party to capture again the
Government of the United States. Let us
hope that the realization of this fact will some-
what diminish the annual number of political
murders of unarmed and defenceless men and
women in the South committed in behalf of the
Democracy.

Ex-Senator Conover, who has purchased a
Republican paper in Florida, says the State
may be carried for the Republicans in 1880.
Secretary Sherman sold \$40,000,000 or so of
\$10 refunding certificates, through Postmasters
and other Government officials, and did not
lose a cent in the operation. When we consider
how enormous the amount is, and the rapidity
with which the certificates were sold, and that
a thousand or more participated in the sale,
this fact is wonderful.

Ex-Governor Fenton has been lately men-
tioned as one to whom the English Mission
might be offered. Gen. Grant's name is again
spoken of in the same connection.

The Odd Fellows of Memphis make an ap-
peal to their brethren throughout the country
for aid. It is evident that only the frost or
lack of human material will stop the ravages
of the fever in that city. MAXWELL.

County Court.

Court convened in the Court House, at May's
Landing, on Tuesday, at 10:30 a. m. Judge At-
ford Reed presiding and Associate Judges
Cordery, Byrnes and Scull in their seats. Af-
ter opening the court, the roll of the Grand
Jurors was called, and the following answered
to their names:

Israel S. Adams, foreman; A. Stephany,
Jonathan Smith, John Cordery, Dr. Edward
Madden, John Hammond, Timothy A. Byrnes,
Hugo Maas, Capt. John Field, Elihu Ingersoll,
Smith Johnson, H. Keiser, Dr. D. B. In-
gersoll, John Clark, L. G. Rogers, Dr. H. E.
Bowles, James Spafford, Frank Fields, Samuel
Steelman, Walter S. Miller, J. T. Irving, Jos.
Wilson, Asbury Chester.

They were charged by the Judge as to their
several duties, and as to their duty in certain
cases which were to come before them. The
Grand Jury retired, and the Court proceeded
to business.

Over 50 cases were brought to the attention
of the Grand Jury, and over 40 true bills were
found; among these are several of importance,
which will be brought before the Court next
week. About 40 of the cases were from Atlan-
tic City.

Many cases brought before the Grand Jury
were trivial, and should have been settled by
the magistrates by whom they were committed,
and saved trouble and expense to the County.
After the Grand Jury had disposed of all the
business before them it was, on motion of D.
B. Ingersoll, M. D.,

Resolved, That the thanks of this Grand Jury
are due and are hereby tendered to Alexander
H. Sharp, Esq., the Prosecutor of the Pleas for
this county, for his uniform kindness and the
pleasant manner in which he has discharged
his duty to his Grand Jury.

And on motion of the Prosecutor of the Pleas
it was further
Resolved, to tender the thanks of this Grand
Jury to their efficient clerk, Mr. A. Stephany,
for his valuable services.

[And we, as a member of the Grand Inquest,
not being present when the resolutions were
moved and passed, hereby gladly record our
vote among the eyes on the above resolutions.
They are justly merited. H. E. Bowles.]
There were but few cases tried by the Court.
On Tuesday, Lindley vs. Wacoat was an ac-
tion for replevin, and the verdict was for the
defendant; Matrook vs. Boker, of Atlantic City,
was a case to recover extra pay for work; ver-
dict for plaintiff of \$118, with interest since
May, 1878. On Wednesday, Harry Hoffman,
the young man who took Capt. Somerby's
money, in July, plead guilty, and was senten-
ced to two months' imprisonment including the
time he has already been shut up, commencing
August 1st. H. Carr, on two indictments for
assault and battery on an officer, plead guilty,
but said he was drunk and didn't know any-
thing about it and did it in self-defense.
When a man hits another, when drunk, and
don't know anything about it, then he should
be punished for getting drunk.

Smith's Landing Items.

The first passage of autumn begins to show
itself here in the heavy mists. Several
Smith's Landing oyster boats sail for China
teague next week. The prospect of a large
season among the oystermen was never more
promising. The season opens auspiciously and
the quality of the oysters is said to be excellent.
Early in the week several flocks of wild
geese passed over this section to more accept-
able latitudes. Quite a number of persons
from our shore towns attended the Seaville
camp meeting, on Sunday last. From fre-
quent interviews with the farmers hereabouts,
we learn that with most of them the present
season has been a prosperous one. The
public school re-opened last Monday week, with
a good attendance of pupils. Prot. Matthews
still retains the Principalship of the school.
Mrs. Mattie Bowen, of Port Richmond,
who has been down to this place on a short
visit, returned home on Wednesday last.
Misses McCabe, of Camden, spent a few days
last week, very pleasantly, in visiting their
friends in Pleasantville. Revs. James E.
Simon W. and Ezra Lake, ministers of the N. J.
Conference, have been visiting relatives in this
section. Mr. James G. Connor, of Phila-
delphia, has taken up his residence permanently
in Smith's Landing. Mr. Sage, of Pleasant-
ville, will soon commence the erection of a new
house on his property, adjoining his store.
Mr. Samuel Fenton's new residence, at Mt.
Pleasant, is approaching completion. The
carpenters at work on Jos. Risley's new dwell-
ing house, are pushing the work forward rap-
idly. At the regular meeting of the Pleasant-
ville B. & L. Association, on Saturday night
last, money sold at an average premium of 40
per cent., on short loans. Messrs. Daniel
and Joseph Risley are assiduously engaged in
manufacturing 25,000 of Lake's variable color
self-winding tops. An enlargement of St.
John's Church is now contemplated. The change
is absolutely necessary. Handsome tomb-
stones were erected in the Salem M. E. Cem-
etry, last week, over the remains of Mr. Thomas
B. Lake. A monument to the memory of
the late Capt. A. Barrett is shortly to be erected
in Zion Cemetery. "Squire" Ingersoll's wife
has been quite ill. At one time fears were en-
tertained of her recovery. The vessels
commanded by Capt. Henry Daughy, of Ab-
becon, and Griffith Ireland, of this place, both
sustained damage in the recent disastrous
storms. A large number of Egg Harbor
Township Republican-Greenbackers are return-
ing to their first love, since the Maine election.
As the Summer's Point stage was returning
from Abbecon, on Friday evening last, a bold
gave way while passing through Smith's Land-
ing, whereby several of the passengers were
slightly injured. The annual celebration
given under the auspices of the Bethel M. E.
Sunday School, on the 4th inst., passed off
pleasantly, and to the satisfaction and enjoy-
ment of all present. Quite a pleasant fam-
ily gathering, consisting of sixty persons, took
place at the residence of Hon. Simon Lake, on
Wednesday last, to celebrate the 66th birthday
of that gentleman. The event was one of those
happy reunions that help to make our social
life more bright and weave still stronger the
bonds of family love. Mr. Lake was presented
with 10 volumes of the English Encyclopedia,
and his amiable wife with 4 volumes of the
commentator on the New Testament. A most
extended and fuller report of this reunion will
be furnished your readers in your next issue.
We much regret to announce the decease
of A. T. John Scull, who died at the residence
of his son, J. C. Scull, Somers' Point, on the
morning of Saturday last. He suffered ex-
tremely just before he died. It is with a
saddened heart that we speak of the affliction
that has befallen the home of Dr. Edmunds, at
Leedsville, in the sudden demise of his oldest
daughter, Mary, which occurred on Sunday
evening last, from consumption. She was a
young lady, highly respected by a host of
friends, and dearly beloved by her relatives.
Possessed of the most estimable qualities of
christian character, she bore her long and
severe illness with fortitude. Her genial dispo-
sition, combined with her benevolent and kind-
ly spirit, will be greatly missed. Full particu-
lars of the funeral will be given in our next
letter. Meagre as is the number of weeks
designated under the law's penalty (?) that
children shall attend public school, it is mort-
ifying to contemplate the serious fact that a few
parents are to be found hereabouts, as else-
where, with proclivities sufficiently headstrong
to refuse to comply with a righteous injunction
in that regard. Why not, Messrs. Justices,
slightly enforce the compulsory educational
school law?

The Republican.

E. C. DOW, Editor & Proprietor.
E. C. DOW, Associate Editor.
HAMMONTON, ATLANTIC CO., N. J.
SATURDAY, SEPTEMBER 13, 1879.

Timpany was defeated at the New York State Democratic Convention, Robinson, the Tilden candidate, being nominated for Governor.

The force of the trial of the human butcher and outlaw, Gully, for the murder of Miss Chisolm, in Mississippi, has been played in DeKalb, in that state, this week.

As things look at present, the Republicans are in the ascendant, and success in 1880 seems certain to be inscribed on its banner, under which California and Maine have already triumphed, and Ohio is sure to follow suit, and New York is hardly doubtful. It then behooves every Republican in Atlantic County to be up and doing, even though we have only an Assemblyman to elect. It is time some more was being made. We have a United States Senator to elect, and we want the vote from this county for a Republican. There is no doubt that Mr. Jefferys will be the man, but we want to be sure that we elect him. National affairs make it all important that we move in the matter at once, and keep moving.

Republican Victories.

California is one better than we stated last week. The four Congressmen have been elected instead of three, besides the entire State ticket. The Republicans have a majority in the Legislature, and the grand New State can now go on from conquering to conquer, and glorious prosperity.

Maine, also, that last year went wild over Greenback nonsense, has seen the daily and has returned to the Republican fold, and made ample amends for waywardness, by electing a Governor and a majority in both branches of the Legislature, and leading Democrats are huddling like mice with a few hundred home power microscopes to find the Democratic party. But with the exception of now and then a leg, an arm, a skull or two, it can't be said. The Greenbackers, well, they are praying for the rocks and the mountains to fall on them and cover their shame and disgrace. The work goes bravely on. One or two more ten strikes, say in Ohio and New York, and then the Southern Democracy will think the Union Army, the Grand Army of the Republic is dropping some awful bombshells as long range, and they will have to run or surrender. They'll probably run and be shot in the back.

REAL FIRST-CLASS CLOTHING
WANAMAKER & BROWN.
The thoughtful and discriminating portion of the public who purchase
READY-MADE CLOTHING

Will see with even but little consideration that the old house of Wanamaker &
Brown is in a position to give superior advantages to its patrons. These advan-
tages consist in supplying goods that are
FIRST—PROPERLY MADE UP.
SECOND—MATERIALS SHRUNKEN.
THIRD—EXCELLENT IN FIT.

The cut and finish of our Men's and Boys' Clothing is of a character to outrank the
ORDINARY CUSTOM WORK.
We found out long ago, by actual experience that garments bought up from
the Wholesale Stocks are by no means so reliable as those made up under our
own personal supervision. Neither will the cut and general style (after wear-
ing) bear a comparison to our own careful make. By making our own goods the
PRODUCER AND CONSUMER
Are brought in direct contact, and in consequence the latter reaps no small
advantage.

BOYS' AND YOUTHS' CLOTHING.
This forms a very considerable proportion of our business, and we are sa-
tisfied that we can convince any one that we always offer the Handsomest and
Best-Finished Goods known to the trade.
LOW PRICES
Do not always mean good value. On this head we shall only say that when
Style and Quality are taken into account we are not, under any circumstances,
ever undersold, and seldom are the prices which we dealers fall as low as our first
and only one fixed price to everybody.

OUR STOCK IS ENORMOUS.
Especially in this goods, suited to the present weather. Inviting a visit and
recommendations from our friends.
We Remain, Very Respectfully,

Wanamaker & Brown,
The Largest Clothing House in America,
OAK HALL, Sixth and Market,
PHILADELPHIA.

CUMBERLAND MUTUAL
Fire Insurance Comp ny.
BRIDGETON, N. J.
Conducted on strictly mutual principles, of-
fering a perfectly safe insurance for just what
it may cost to pay losses and expenses. The
proportion of loss to the amount insured being
very small, and expenses much less than usual-
ly had, nothing can be offered more favorable
to the insured. The cost being about ten cents
on the hundred dollars per year to the insured
on ordinary risks, and from fifteen to twenty
cents per year on hazardous properties, which is
less than one-third of the lowest rates charged by
stock companies, on such risks; the other two-
thirds taken by stock companies being a profit
accruing to stockholders, or consumed in ex-
penses of the companies.
The guarantee fund of premium notes being
now Three Millions of Dollars.

If an assessment had to be made of five per
cent only, twice within the ten years for which
the policy is issued, it would be cheaper to the
members than any other insurance offered.
And that large amount of money is saved to the
members and kept at home. No assess-
ment having ever been made, being more than
thirty years, that saving would amount to
one million five hundred thousand dollars.
The Losses by Lightning.
Where the property is not set on fire, being
less than one cent per year to each member,
are paid without extra charge, and extended so
as to cover all policies that are issued and stand-
ing.

peculiarity of this factory, which is, towel-
ing and dusters are double instead of single, and

These industries are increasing their amount
of business each year, and they add greatly to
the life of our town. There are other things to
be added to businesses enumerated by the Led-
ger reporter. The Comb factory of Mr. Bates on
Middle Road, and the factory of Mr. Wm. A. A-
coug, on Central Avenue, for the manufacture
of ladies hoods and shawls, which surpass in
taste and elegance any thing of the kind we
have ever seen. We might mention here, that
few towns have more acres of Cranberries than
our own, which bid fair for a good yield of
fruit.

The South Jersey Reporter of the Philadel-
phia Ledger has been writing up its industries,
and includes, of course, Hammonton. After
giving a brief history of the town, he says:
"The settled portion of the tract is believed
to be about five miles square, although at in-
tervals there are wasteful timber tracts. Small
farms of 10 and 20 acres are the principal fea-
ture of the settlement. The culture of fruit is
carried on extensively and affords a profitable
income to the hardy cultivator. Just now the
early pear crop is being gathered. The crop
promises to be one of the largest ever gathered
and the fruit appears exceptionally fine and
large. One acre was sold of Bartlett pears, which
it was returned, sold last week to a Bridgeton
canning firm for \$600, the purchaser to gather
the fruit. Blackberries also are very largely
cultivated, and this season the crop was the
most promising of any heretofore planted. In
gentleman has thirty-two acres planted in
blackberries, from which he shipped 36,000
quarts this season, realizing a profit of \$70-
of \$2000. It is estimated that all kinds were shipped
from Hammonton during the season of 1875.
Grapes are very largely cultivated, and not-
withstanding the rot, about a two-thirds crop
is expected to be gathered. Almost without
exception the dwelling houses of the farmers
and fruit raisers on the tract are of a tasty and
in many instances, of an imposing character—
all indicating thrift and intelligence. The
grounds surrounding the houses are, in a na-
tural way, laid out with taste and attrac-
tiveness, and are adorned with flowers and plants.
Hedges, kept carefully trimmed, bordering the
roads are very generally adopted in place of
fences. The land on the tract lies almost all
level as a floor, and is considered very fertile.
The roads are very wide, with spacious side-
walks, both of which are kept in excellent or-
der. The population is estimated to be 3000.
Hammonton can very properly be called a
town of "magnificent distances." With all the
business houses, with two exceptions, clustered
in the vicinity of the railroad station, near the
southern end of the town, the post-office and all
the churches but one are located a mile out of the
main avenue. Bellevue by name, while the
blacksmith and wheelwright shop is a mile in
another direction, and one of two industrial
establishments towards the still another point of
the compass. Those manufacturing is the prin-
cipal business carried on in the town."
Then follows short notices of the several
factories, L. G. Rogers, the pioneer of the
shoe manufacturing business, having com-
menced in 1870; C. F. Orgood & Co.; T. B.
Tilton & Co.; and the factory on Main Road,
managed by E. Darling, for a firm of Phila-
delphia, and the new firm of Moore & Pack-

An exchange notes the fact that "But-
ler, the banner Democratic county of Ohio,
has, in the last twelve years, suffered a
loss of \$596,500 from defalcations, plun-
dery and peculations of its officials." Per-
haps Ewing was thinking of this county
when he said that business is no more
prosperous now than it was in 1878 and
1877.

In place of Mr. Wright's committee to
inquire into the causes of labor depression
Congress might at its next session ap-
point a committee to inquire into the
causes of our present prosperity. Among
those causes would be found the Repub-
lican protective tariff and the Republican
measures which brought about resump-
tion.
The Phila. Sunday Republic has the
following to say of our favorite railroad
corporation:
The season at the sea-side is not en-
tirely over, but it is not too early to say
that the people of this city, as well as
other localities far and near, are under ob-
ligations to the Camden & Atlantic Rail-
road Company for the unusual facilities
extended to them during the summer.
The schedule time has been carefully ob-
served, the cars have been, with a few ex-
ceptions, comfortable, and, notwithstand-
ing the vast number of passengers, not a
single one has been injured.
Life-Saving Station Burned.
The life-saving station at Cobb's Island
was burned August 27th, with all the con-
tents, including life-boat, life-saving ap-
paratus, saws, &c., comprising alto-
gether a valuable equipment. The total
loss will be \$8,000 or \$10,000.

The C. O. C. College, of Trenton, has an ad-
vertisement in another column, to which we
call attention. This business school has an ex-
cellent reputation for instruction in the prac-
tical business of the times, and prepares the
young man for business positions in com-
mercial life. The Principals are Messrs. Rider &
Allen. Prof. Stewart is instructor in plain and
ornamental penmanship. A large number of
students are in attendance for the full course
for the fall term.
The Peabody Hotel, 8. 8th St., between Wal-
nut and Spruce, is being changed and repaired
the better to accommodate the numerous patrons
of the house. This is a first-class temperance
house, and temperance people should give it
their patronage. It is kept on the European
plan, with rooms from 25 cents a day to \$1 a
day, and with suites of rooms at \$2 a day.
Meals can be obtained at from 15 to 25 cents
each. The table is furnished first-class, and
everything in the best order, and every pains
is taken to make it a home for those away from
home.
More Lighthouses for Dela-
ware River.
The Delaware River, from Newcastle to
Philadelphia, will be greatly improved by
additional lighthouses during the coming
season. It is stated that there will be
certainly six, and probably seven new
lights in the distance mentioned above.
One range, will be on the Pennsylvania
shore, on Tinicum, and will consist of two
lights, one of which will be at the mouth
of Crum Creek, and the other a mile in-
land. Another range will be on the Jer-
sey shore, and the third somewhere be-
tween Newcastle and Marcus Hook.
These lights will prove a great benefit to
the increasing navigation of the river.
Mr. Charles F. Spangler, of the house
of E. Spangler & Co., on Minor Street,
Philadelphia, a few evenings since at Mer-
chantville, gave an exhibition of his skill
as a performer in legerdemain. The en-
tertainment was given to obtain funds for
a benevolent purpose, and the proceeds
were over \$80. The Camden Post, speak-
ing of the entertainment, says:
Mr. Spangler's performance was mas-
terly, which was fully recognized and ap-
preciated by the large and discriminating
audience. Many entirely original tricks
were given, which necessitated more than
ordinary tact and skill, with remarkable
success. In fact, did the gentleman add
ventriloquism to his already pleasing per-
formances, many an older magician would
be forced to jealously guard his laurels.
A rumor from Washington discloses a
nice little plan which the Democrats had
for securing control of a majority of the
State delegations in the House, so as to
be prepared for the emergency of no
election for President by the people. They
were going to decide to unseat Congress-
man Orth, of Indiana, and put his Dem-
ocrat contestant in his seat. This would
enable them to control the Indiana dele-
gation without Orth. If the California de-
legation had been Democratic, the Dem-
ocrats would then have a majority of one
State, and could elect their candidate. As
it is, the Indiana delegation will only en-
able them to tie the House, for each party
will then have nineteen States. There
is no direct provision in the Constitution
for such an emergency, and the result
would be a hopeless deadlock, the only
end-of-which would be to make Vice-
President Wheeler President on the 4th
of March following.—Tribune.
