## DR. JOHN BULL'S Smith's Tonic Syrup FOR THE CURE OF FEVER and AGUE Or CHILLS and FEVER, AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

BULL'S SARSAPARILLA is the old and reliable remedy for impurities of the blood and scrofulous affections—the King of Blood Purifiers.

DR. JOHN BULL'S VEGETABLE WORM DESTROYER is prepared in the form of candy drops, attractive to the sight and pleasant to the taste.

Mr. George William Curtis admits that Government officials may be permitted to contribute to campaign funds.

General Beaver is spoken of for appointment as pension commissioner.

Six thousand people attended the Republican meeting at Burlington, N. J., last night.

General Lord Wolseley telegraphs saying that he wants no more troops in Egypt at present. A flying column will probably be sent to the relief of Khartoum.

Generals Gomez and Maceo are reported to be holding meetings at Key West to raise funds to carry on their campaign in Cuba.

Mr. David Bell, one of the witnesses of Mr. Blaine's wedding in Pittsburg in March, 1851, has related the circumstances of the marriage.

James Gordon Bennett, who reached San Francisco Monday, was considerably shaken up by a collision which occurred while the train was nearing the city.

A whole block, including the Esmond House, was burned at Portland, Ore., Sunday night; total loss, \$120,000.

New York Department of the Grand Army of the Republic has issued a caution against the participation of the organization in politics.

The tenacity with which people abide by their early faith in Ayer's Sarsaparilla can only be explained by the fact that it is the best blood medicine ever used, and not approached in excellence by any new candidate for public favor.

The Comptroller of the Currency has authorized the National Bank of New Jersey, at New Brunswick, to resume business.

A verdict in favor of the receiver was rendered at Trenton in the case of the People's bank and Corn exchange, of Newark, against Receiver Frelinghuysen.

The new comet is not likely to be very brilliant to the Northern Hemisphere.

Henry W. Dinman, the late United States consul at Lisbon, is dead.

Civil Service Commissioner Gregory explains that compulsory assessments are unlawful, but that the Government employee has a right to contribute to campaign funds.

Fifty thousand people attended the Republican meeting at Akron, O., Tuesday, where General Logan spoke.

Mr. Hires accepts the Republican nomination in the First New Jersey Congressional District.

Mr. Blaine reached Philadelphia at midnight, Monday; on Tuesday morning he received a number of visitors, and afterward took a drive in Fairmont Park. In the afternoon he held a public reception at the Union League that was largely attended. In the evening Mr. Blaine reviewed the torchlight procession of nearly 20,000 men, and at 10 o'clock he left on a special train for New York. He expressed himself as greatly pleased at the demonstration in his honor. Mr. Blaine's train arrived in Jersey City at 11:35 P. M., making but one stop.

Hon. A. A. Hardenbergh has offered a prize gold medal to any Hudson county boy in the State Reform School at Jamesburg who will write the best speech within the next three months. On his first visit to the institution Mr. Hardenbergh gave each of the boys there a silver dollar.

The large granite statue of Liberty, twelve feet high, intended to adorn the top of the Battle Monument, Monmouth, was raised to its place Wednesday afternoon, in the presence of President Morris and other members of the commission, and a large assembly of citizens. This completes that part of the structure. There are some minor stones to be placed around the base which will be done this week, leaving only the bronzes to be adjusted. As the latter are not all finished it will be some weeks before they will be placed in position.

Thirty-three thousand one hundred and forty-eight immigrants arrived in the United States during August.

Few books of the present time have received wider commendation and more unstinted praise than "Why I am a Republican," by Geo. S. Boutwell. Senator Anthony says: "The history of the origin, the necessity of the growth of the party, of the enormous development of the country, of its industries, of its population and wealth, under the rule of that party, is sketched with a master hand, and the necessity of its continuance in power is made plain to the comprehension of every intelligent and patriotic citizen." Senator Dawes says: "Gov. Boutwell has taken hold of the work in earnest, and makes it plain why every one who wishes well for his country should be a Republican." Representative Reed, of Maine, says: "The volume is of the utmost value as a careful and succinct statement of those great achievements of the Republican party upon which its fame rests, and which are the best foundation for confidence in the future." Senator Harrison, of Indiana, writes: "It is very concise and very convincing. A perusal of the book is well calculated to make a Republican feel complaisant, and unsettle the faith of a candid Democrat."—It is published by subscription, price, \$1.25. Wm. J. Betts & Co., Hartford, Conn., are the proper parties to correspond with.

When symptoms of malaria appear in any form, take Ayer's Sarsaparilla cure at once, to prevent the development of the disease, and continue until health is restored as it surely will be by the use of this remedy. A cure is warranted in every instance.

The veins of tin discovered in Mason and Cabell Counties, West Virginia, are pronounced by New York experts rich enough to supply a dozen furnaces for a hundred years.

It is thought in Wall Street that William H. Vanderbilt will control both the Erie and West Shore Roads by next Autumn, and will have a virtual monopoly of the lines running West from New York City.

The United States Circuit Court of Pennsylvania, has awarded to the Garfield Memorial Hospital, \$11,500, deposited with Jay Cooke & Co. on account of the Washington Sailors and Soldiers' Home, which has been transferred to the Memorial Association.

The Army of the Cumberland Association, at its meeting at Rochester, N. Y., Thursday, of last week, elected officers for the ensuing year as follows: President, Lieutenant-General Philip H. Sheridan; corresponding secretary, Colonel Henry M. Cist; treasurer, General J. F. Fullerton; recording secretary, Colonel John W. Steele.

Ex-Senator Bruce says the progress of the colored people to be illustrated at the New Orleans World's Fair by exhibits in the mechanical and other arts will be surprising and gratifying. An additional colored commissioner for each state has been appointed with an assistant commissioner for each congressional district.

Application for a temporary receiver for the Bankers and Merchants' Telegraph Company was made in New York.

The French Government has rescinded the order raising the impost duty on woolen and mixed silk goods from 100 to 300 per cent.

John W. Keely, of motor fame, arrived in a special car at Sandy Hook Saturday, for the purpose of making the test of the firing power of his mysterious force that was authorized by Secretary Lincoln. The experiment took place at the Government practice battery at Sandy Hook, and was witnessed by 300 people, among whom were Colonel John Hamilton, Captain William Reed and other experts.

Secretary Teller denies that he requested the resignation of Pension Commissioner Dudley.

The funeral of Jerry McAuley, the converted prize fighter and convict, took place in New York Sunday, and was attended by wealthy ladies and gentlemen, as well as members of the criminal classes.

One shot was found to be projected at the rate of 482 feet per second, the next at 492 feet per second, another at 523 feet per second, or at about one-third the velocity obtained by the Springfield rifle. Three three-inch spruce wood planks were then placed before the gun in order to test the penetrating force of the instrument. A cylindrical steel shot was fired and went entirely through the first plank and half-way through the second.

The People's or Butler party has the floor in Massachusetts this week, its State Convention meeting in Worcester on Wednesday, to be followed by a great ratification meeting in Boston Friday evening.

## A CURE FOR GRAVEL.

A Common and Painful Complaint—A Statement you may Confide in.

It seems to have been reserved for Dr. David Kennedy, of Rondout, N. Y., to accomplish, through his preparation, widely known as KENNEDY'S FAVORITE REMEDY, what others have failed to compass. The unguished truth will be found of vital interest to sufferers from gravel and to the general public.

ANALYST, March 20, 1884.

Dr. D. Kennedy, Rondout, N. Y., writes: "I have never been partial to proprietary medicines, and I believe the majority of them to be nothing better than methods of obtaining money from people who are suffering from chronic and debilitating diseases. But your Favorite Remedy I know by long experience to be a totally different thing. I had been a sufferer from gravel for years, and had resorted to many eminent physicians for relief, but no permanent good came of it. About three years ago your Favorite Remedy was recommended to me. I can give you the result in a sentence. I tried it and it cured me completely. I am confident it saved my life. You can see this letter if you think best."

Yours etc., NATHAN ACKLEY.

Capt. Nathan Ackley was for a long time connected with the Canal Appraiser's office in Albany. He is well known, and writes for no purpose but to do good to others.

As a medicine for all diseases of the Blood, Liver, Kidneys, and Digestive Organs, Kennedy's Favorite Remedy has fairly won its high reputation. Write a desirable to Dr. David Kennedy, Rondout, N. Y.

## Republican County Convention.

A Convention of the Republican voters of Atlantic County is hereby called to meet in City Hall, Atlantic City, on

Saturday, October 12, 1884.

At 11 o'clock A. M. The Republicans of the several Townships, Towns, and Wards will please elect delegates to said Convention on the basis of one delegate for every twenty-five votes, and one for each fraction over twelve, cast for the Republican nominee for Assembly at the last election. A candidate for Assembly, Sheriff, and Coroner is to be put in nomination.

S. D. HOFFMAN,  
Chairman last County Convention.

Under above call, the various wards, towns, and townships are entitled to delegates as follows: Absecon, 2; Atlantic City, 10; Egg Harbor City, 12; Egg Harbor Township, 10; Galloway, 5; Hammonton, 5; Hammonton, 5; Mottville, 2; Weymouth, 2.

We think the Chairman is in error—that by vote of the last Convention, the vote on Coroner was made the basis of representation. We advise the election of delegates accordingly.—Editor of the Republican.

It is so easy for some men to assume that a certain statement is solid truth, and then go on reasoning from that as their foundation. For instance, a writer in the *Prohibition* organ bases his alleged arguments upon his own statement that "New Jersey will go Democratic this year, as usual." We call a halt right there, and reject the balance. New Jersey will, in all probability, resume her honorable place among the Republican States, this year. Please don't forget it.

"E. E. R." in the *Mirror*, says that he heard a Republican speaker (good for him), and then heard a Democrat, and they both stood on the same platform—both talked alike—he could scarcely tell them apart; and urged that as a reason why men should vote the Prohibition ticket. We once heard Rev. E. R. preach from a Bible text, and teach repentance and faith, or eternal death. We heard another Rev., just as eloquent, (each from the same book) that all will be saved: that eternal death was a myth. Yet E. E. R. would not have us reject both, and accept Atheism. Better judge parties as you do men—"By their fruits ye shall know them."

Mrs. Ellen I. Foster, the well known temperance lecturer, in a letter to an Iowa friend, wrote as follows: "I have been chosen by the National Temperance Union superintendent of the department of legislative work and petitions. I must keep myself free from partisanship. As an individual, I cannot and do not support any convictions. Either James G. Blaine or Grover Cleveland will be President of the United States."

See how the National Temperance Union is doing. With us in New Jersey, Buffalo, where Cleveland's home is—or where he lives—has no home—I do not hesitate to say, as for me and mine, as it be the true husband, the honest father, the honest man—James G. Blaine. Further than this, I do not believe the demand for National constitutional prohibition is the "best endorsement of prohibition principles." The prohibition of the liquor traffic is not, by either the letter or spirit of the Constitution, the subject of National legislation. It must come by States. It can come in no other way unless by an armed resistance to law. The State it should be necessary for the General Government as a war measure to aid the States by military intervention. Peaceable revolution according to Constitutional methods, must come by State legislation. So also just as prohibition cannot be carried in a State till a considerable number of voters in the State are themselves Prohibitionists, so National prohibition cannot be a practical issue until a considerable number of States are Prohibition States.

# Manamaker's.

At the very beginning of a new season in dress it is natural to take a general look over the field. We speak of what we see and know, not of what we read in the Fashion Journals and doubt. We have't been long enough in dry-goods to make us an oracle. For that very reason, perhaps, we put our best foot forward, not two or three times a year, but every day in the year.

We're going to print a chance remark of the managing man of the firm that supplies American merchants with the Lupin fabrics: "I'm astonished," said he to the buyer, "at the length you go in bringing over these little extravagances." He referred to the extra-fine fabrics and novelties that constitute so small a part of anybody's trade that very few people, merchants included, know much about them. He referred to the things that cost the most money for the least practical use; things that everybody likes to look at, but very few buy; things that have to be made, even in wild extravagant Paris for the delight of the luxurious world, in very small quantities; things that ladies are wont to value according to richness and rarity; things that are sacred from degradation by the very conditions of their existence, the taste, skill, facilities, capital, history itself, that are in them—it takes Paris, the Parisian spirit, Parisian luxury, Parisian taste, Parisian life, a generation or two of Parisian textile and artistic plant to make them.

The astonishment was out of the fact that a merchant who sells clothing for millions should also be able to sell the richest and rarest of dress for the few. Need we say over and over that the trade of the many is the best possible foundation on which to build up the trade of the few? Exclusive trade we never shall have. Inclusive is better. Better for us, better for you, whosoever you are.

It is worth our while to print this now for the purpose of saying, in the most general way, that we have a most comprehensive collection of stuffs; that nothing in desirable dress is beneath our care, and nothing beyond it.

It is early to say that every sort is already here.

The more substantial things are coming. The most substantial things are always here; they are never new or old. Extravagant things come little by little.

They shoot out of Paris. The world sees and hears nothing. They come in the night. In the morning you read. We keep a buyer in Paris largely to get the first inklings of such.

Having all the world to choose from what have we got to begin with? And that means What is our guess at the fashion September 22?

Plain fabrics have had the best of their day. The drift of fashion is away from perfectly plain, smooth surfaces. So much is clear. The tendency toward the stronger, more capable, effects is equally clear; combinations

# of color, of texture, of stuff.

It isn't worth while to go farther at present. We're guessing what is, not what is to come. There isn't much guessing about it.

Our dress-stuffs, about in softivoigne, harsh chevot, tricot, serge, heavy and coarse-looking serge, camel's-hair, a hairer camel's-hair than ever before, bourette, great curls of rough-looking wool; and the color-strength is equal to the textile vigor. Such is the drift September 22.

The watch is made of the finest materials, and is of the latest design. It is a watch which, if worn for twenty-four hours, can be regulated perfectly, and keeps its time as perfectly as any watch made.

# The Republican.

SATURDAY, SEPT. 27, 1884.

## LOCAL MISCELLANY.

Correspondence solicited upon all topics of local interest. Names of correspondents are requested, not for publication, but as a guarantee of the reliability of the news.

## Caucus.

The Republican voters of the Town of Hammonton are requested to meet at Union Hall on Tuesday evening next, Sept. 30th, 1884, to elect seven delegates to the County Convention.

By order of Ex. Committee.  
Geo. ELVINS, Chairman.  
ONVILLE E. HOVE, Sec'y.

Regular meeting of Town Council this evening.

Charlie King started for Colorado on Tuesday last.

The Collectors' business is no longer said than done.

Burt Pressy was welcomed home by a host of friends, yesterday.

One of Mr. Sturtevant's double houses is about ready for plastering.

Rev. Mr. Glover, of Haddonfield, occupied the Baptist pulpit last Sunday morning.

We advertised for a few hops, last week. Please don't bring any more, we are not running a brewery.

We heard, the other day, that J. Somers Cordery was expected home for a visit, yesterday or to-day.

R. I. Franches, of Bakersville, has lately been granted a patent on a novel—probably for carpenter's use.

Mr. Ellis is enlarging his laundry building, and making it two stories high. A good evidence of prosperity.

The Blaine and Logan Club meeting, last evening, was a special. Regular meeting next Tuesday evening, 30th.

R. D. Whitmore and family are expecting to move back to Hammonton, and have rented a house between the two railroads.

Mr. E. J. Woolley has been quite sick, at Hamilton, N. Y., but is recovering, and expects to be at home the last of next week.

Two deaths of aged persons, this week.—Dr. John Bortollet and Mrs. Small. Funeral services of both were held yesterday.

Jason St. John has purchased the wooded lots on Bellevue Avenue, next to Mr. Elvins', and will build one or two residences thereon.

Less than six weeks of the political campaign remain. The fires will need considerable blowing, if the cauldron is to boil over by Nov. 4th.

Local news is very scarce. Our little town is so quiet and peaceable that we cannot give you anything sensational without descending into scandal.

It is said that the Pennsylvania Railroad Company has purchased the site of Schaeffer's Hotel, at Atlantic City. It is to be used for depot purposes.

Mrs. Elam Stockwell returned, on Tuesday. Her mother and sister, on account of whose serious illness she made a sudden trip to New York State, have been pronounced convalescent.

Mr. B. Warrington brought from Atlantic City a very fine-looking and valuable four-year-old colt. Since his return he has yielded to the arguments of a friend, and exchanged for a fast pacer.

To-morrow (Sunday) evening, at seven o'clock, the regular union quarterly review will be held in the Baptist Church. As is customary, a collection will be taken. These meetings have become a valued feature in the Sunday School work in Hammonton. All invited.

The Blaine and Logan Club met on Friday night, last week. It wasn't a mass meeting, and only members and those wishing to join, were expected. The roll was increased to 120 members, and not one name has been written unless the man himself requested it. The committee on uniforms reported, and after discussion, one hundred were ordered. Officers for the Club were elected, as follows:

President, William A. Elvins.  
Vice-President, A. C. Wetherbee.  
Secretary, J. F. Soullier.  
Captain, L. H. Parkhurst.  
First Lieut., Alex. Attkin.  
Second Lieut., John B. Mick.

Committees were appointed for various purposes, a few remarks were made by several members, and the meeting adjourned.

We seldom saw a more enthusiastic company in Union Hall. They evidently felt the justice of their cause, and were jubilant over the bright prospect of once more winning the battle with ballots.
