W. C. T. U. Convention.

The annual convention of the Wo-
men's Christian Temperance Union of
Atlantic County was held in the Ham-
monton M. E. Church on Thursday,
Sept. 21st, the church being decorated
with cut flowers and plants.

The convention was called to order
by the President, Mrs. J. H. Leedom,
of Atlantic City. Devotions, led by
Mrs. A. C. Fleming, of Absecon,—first,
a song service, then Scripture reading,
and a season of prayer. The Recording
Secretary being absent, Mrs. F. P.
Cheney was chosen pro tem. Roll call
followed, responded to with selections
of Scripture. Minutes of last conven-
tion were read and approved, after
which committees on resolutions, cred-
entials, and courtesy were appointed.

An address of welcome, given by Miss
Bradbury, was responded to by Mrs. G.
C. Jenness, of Pleasantville.

Reports of President, Secretaries, and
Treasurer were heard, followed by those
from the Superintendents of different
departments. Adjourned for dinner,
which was served in the Sunday School
room, and enjoyed by visiting and home
white ribboners. An executive session
of county officers was then held.

The afternoon session was opened
with devotions, led by Mrs. Isabella H.
Demorest, State Cor. Sec. Minutes of
executive session read and approved.
Election of officers came next, resulting
as follows:

President, Mrs. E. M. B. Tilton, of
Absecon.

Cor. Sec'y, Mrs. F. P. Cheney, of
Absecon.

Recording Sec'y, Mrs. Mary Camp-
bell, of Hammonton.

Treasurer, Dr. Eva Lake, of Pleas-
antville.

Reports of work done in the different
departments occupied the rest of the
afternoon, and convention closed with
the doxology. Supper was served in
the adjoining room.

Evening service opened with Scripture
reading by Mrs. Leedom, and prayer
by Pastor W. N. Ogborn, who also in-
troduced the lecturer of the evening,
Mrs. Isabella H. Demorest, of Closter.
The church was well filled, and it the
marked attention which the audience
gave to her address is any indication,
she certainly interested them. God has
called her to speak for temperance, and
nobly does she do her work.

At the close of the address, a collec-
tion was taken during the singing of a
hymn, and the congregation was dis-
missed with the benediction, by Rev.
G. B. VanDyke.

God grant that the awakened interest
in temperance will continue to increase
as time goes on, in the wish of all white
ribboners of Atlantic County.

Useless fretting and worrying brings
more gray hairs to the head, wrinkles
to the face, and cares to the mind, than
old age and actual trouble.

The law that he who will not work
shall not eat, applies to churches.

Base-Ball.

Our home team was defeated by a
decisive score, last Saturday; but we
hear no complaint. The boys played
well, and the Haddonfield team won by
superior all-around work, as will be
seen by those who are competent to
analyze the score. We notice that our
home boys made a record fully equal to
that of our imported players.

Inter-State Fair at Trenton.

The great Inter-State Fair will be held
on September 25, 26, 27, 28, and 29 on
the Fair Grounds, three miles east of
Trenton, on the New York Division of
the Pennsylvania Railroad. As in pre-
vious years, every department will be re-
plete with superior and instructive dis-
plays. The blooded stock exhibit will
be particularly fine, and the daily pro-
gramme of races contains the speediest
classes obtainable. Circus acts of rare
merit and daring, and vaudeville enter-
tainments of all kinds will be presented.
The Pennsylvania Railroad Company
will sell excursion tickets to the Fair
Grounds, including coupon of admission,
at greatly reduced rates from stations
within a wide radius, and special trains
over the New York, Belvidere and An-
boy Divisions will be run through to the
grounds, thus avoiding street-car trans-
fer. The management of the Fair has
put forth extraordinary efforts to make
this year's exhibition even greater than
last year's record-breaking display.

FIEDLER'S.

THE HALF-FORGOTTEN SPINET.

Beneath the rafters, black and bare,
The ancient spinet stands;
The spiders on its yellow keys
Have stretched their tiny strands.
The air is cold and dreary,
The fire is cold and dead;
The spinet's keys are silent,
The spinet's life is dead.

But when a faint old tune
Comes stealing down the stairs,
For then she wakes the spinet—
A ghost with powdered hair,
The spinet's keys are silent,
The spinet's life is dead.

And when a faint old tune
Comes stealing down the stairs,
For then she wakes the spinet—
A ghost with powdered hair,
The spinet's keys are silent,
The spinet's life is dead.

Nellie's Predicament.

ANY years ago I spent the summer with my favorite brother, who had recently married; and was settled with his wife in a charming house in a country village.

During the summer I met with a very amusing adventure; and from it date the beginning of my life's greatest happiness.

One lovely day in July I went down to breakfast full of pleasurable anticipations of a picnic to which I had been invited by some friends, Mr. and Mrs. Forster, who lived near by.

During the summer I met with a very amusing adventure; and from it date the beginning of my life's greatest happiness.

THE SHAMROCK.

Many Misapprehensions About the Plant that Irishmen Love.

One of the daily newspapers reports a "prominent florist and horticulturist" as saying, "There seems to be some strange fatality about the shamrock. It is essentially the flower of Ireland. Nowhere else except in that little island will the plant thrive, and when transplanted, its death is only a question of brief time. Irish it is, and nothing can change it."

This statement is romantic, but hardly scientific. In the first place, no one knows surely what plant is meant when the shamrock is mentioned. It is impossible to know what plant this horticulturist meant. In one part of Ireland one plant is called the shamrock, in another part another plant, and elsewhere in the island still another.

The name is perhaps most widely given to one of the hop-clovers, botanically named *Trifolium lupulina*. This is the plant which is commonly exported from Ireland, especially to London for St. Patrick's day, and often to the United States under the name of shamrock. It may perhaps lay claim to being called the true historical shamrock, although that honor might also be claimed for several other plants.

It is not true that it will not grow elsewhere. It will grow wherever it is properly cultivated, and does grow freely in other countries. Beyond that, the white clover, *Trifolium repens*, is widely understood to be the common shamrock, and is picked and worn under that name in Ireland and elsewhere. It grows nowhere more freely and abundantly than in the United States, and there is nothing characteristically Irish about it.

The black medick, *Medicago lupulina*, is also known as the shamrock. So is the wood-violet, *Oxalis acetosella*. These are the plants which are commonly exported from Ireland, especially to London for St. Patrick's day, and often to the United States under the name of shamrock. It may perhaps lay claim to being called the true historical shamrock, although that honor might also be claimed for several other plants.

Household.

Tonno Savoy—Boll four pounds of the fruit peeled and mixed with one pint of vinegar and two pounds of sugar. Season with cinnamon, cloves and mace. Boll and pour into a corking tightly to exclude the air. If not exposed to the sun, it will keep for years in a dry closet.

Canned Grapes—Wash and pulp the grapes, dropping the pulp in one dish and the skins in another. Squeeze the pulp until soft, then sift through a colander which will retain the seeds. Put the pulp and skins together, and allow one pound of sugar to each four pounds of the fruit. Put over the fire in a preserving kettle; bring to a boil and seal. Canned in this way, grapes will be found good for either sauce or pie.

Peppered Potatoes—Chop fine three green peppers, after removing the seeds, and fry slowly in drippings with a few slices of onion until tender. Chop one quart of potatoes and mix with peppers, season well and serve very hot, garnished with parsley and broiled bacon.

Stuffed Tomatoes (new)—Cut four large tomatoes in half, remove the seeds, and scoop out the insides. Melt one tablespoonful butter and fry a slice of onion in it. Put in the tomato, add half a cup of cream and one cup of bread crumbs. When very hot add the tomato pulp and two-thirds of a cup of shrimps, broken into small pieces. Mix all gently, season with salt, paprika and onion juice, and heap into the halved tomatoes. Sprinkle with buttered cracker crumbs and place on rounds of bread. Bake in hot oven fifteen minutes. Very little salt should be needed, as the shrimps are salt.

Brown Bread Sandwiches—Cut up steamed brown bread in thin slices and spread with Neufchatel or cottage cheese, softened with cream, and in the butter and mixed with minced chives or olives. Cut in strips and serve on a napkin.

Fried Frog Legs—Wash in salted water, roll in cracker dust, then in a mixture of egg milk and lemon juice. Fry one egg slightly heated, and one tablespoonful of fresh milk. One fourth of a teaspoonful of lemon juice. Fry in oil until golden brown. Drain on a paper, and fry in very hot oil. Fry either be sauteed or fried in deep fat. If the latter, will be well to put them into a wire basket and immerse in the boiling fat.

Corn Purée—Grate or slice from the cob sufficient corn to make a pint of corn. Break the corn in two and cook in a porcelain or granite kettle, with sufficient cold water to cover, for one hour. Then strain, cover, for half an hour. Then strain, cover, for half an hour. Then strain, cover, for half an hour.

Pickled Grapes—Pick fresh grapes in a jar for seven pounds of fruit, a quart of vinegar, three pounds of sugar, a tablespoonful of salt, a whole clove and cinnamon stick, each of the other ingredients together for a few minutes, then pour the liquid over the grapes, which are not to be cooked, but a plate should be put over the jar, and set it in a cool place, where it is not to be disturbed for two or three weeks.

The "true shamrock" was an Irish man, the plant which was known by that name among the poet of his father's time. But the botanist has as much trouble in identifying it as he has in identifying the "many-dower" of New England—a name which is applied in different localities to the various species of the saxifrage, to the hepatica, and to two or three other plants. In spite of the fact that the trailing arbutus is the mayflower of New England literature, the word is usually applied to the saxifrage, to the hepatica, and to two or three other plants.

HELD THE FORT.

Perilous Adventure with Chippewa on Lake Athabasca.

An adventure with hostile Indians, seldom surpassed in critical peril and exciting situation, was that of a French Canadian some years ago at Fort Pierre on Chippewa, on Lake Athabasca. One day, when the chief trader was absent on a visit to York Factory, and the other men employed in the station were playing lacrosse upon the ice, this man and an Irishman named McTaggart, who was the only persons left in the fort.

Just then forty Chippewa "braves," who had pretended to have furs to sell, but who had really been watching an opportunity to plunder, came up to the fort and poured inside the stockade. Pierre, the Frenchman, had barely time to bar the main door when they rushed against it, showing plainly their unfriendly purpose. A parley with the chief, through a small sliding trap, resulted in the withdrawal of the Indians outside the stockade, and an agreement to admit the chief alone, with the furs. Pierre thus relates what follows:

I instructed my man, McTaggart, to watch when the Indians were well out of the yard, and when the chief came in to make a dash and fasten the outer gate. I then opened the door. McTaggart slipped out, but had not made his first step when Pierre, who was with him, killed him instantly.

The savages then darted through the half-open door, and, parrying a blow I aimed at him, he seized the bar which fastened the door and threw it outside.

I had by this time got hold of one of my pistols, and pulled it at him as he came toward me flourishing his bloody tomahawk. The bullet took effect, for the savage was hopelessly intoxicated, and he fell backward, where his cries soon gathered his band about him.

Before I could fasten the door the whole gang had burst into the fort. I sprang behind some casks and hid myself, the feeling however, sure that they would find and kill me. There can be no doubt about my fate if the savages had not been more eager for plunder and whiskey than they were for vengeance.

It was, one of them, who rushed to a cask of whiskey, the head of which he stole in with his hatchet, and with the greatest eagerness the whole crowd began to help themselves to the contents.

That they would drink themselves drunk was now my only hope and opportunity, and I quietly kept out of sight behind the empty barrels to await events.

The idlest abandon and general "cutting up" of the savages as they came under the influence of the whiskey were very ludicrous; but you may be sure I kept my laughter to myself. In an hour or so, however, the crowd began to grow more sober, and I saw that I had a stronger hand than the rest.

I now felt that with my pistol in my hand I could fight at least on equal terms, if a fight was necessary; but the rapid precipitation of matters by turn over the cask of whiskey while climbing to reach some plunder that he wanted on an upper shelf. In doing this a live coal was jarred out of the stove into the liquor on the floor, and the room was immediately in flames. The Indian who had caused the catastrophe sprang toward the door, but my pistol ended his career.

The whiskey was soon consumed, and there was but little left, and the fire was put out without doing large damage, but many of the drunken savages on the floor were fatally burned. When the fire came back from the hole and found so many dead Indians and saw the general ruin they were amazed, and supposed I deserved all the credit of the capture of the assassins, etc., when it was merely an accident that had accomplished it.

The effect on the Chippewa was most wholesome, for the survivors of the fort adventure told their tale a terrible story of the pale-faces' "big medicine," and the sort of punishment they wreaked upon Indians who robbed them—Three Trappers.

The quarrel in the Philippines is not a quarrel between Aguinaldo and McKinley, but a crisis in national history which brings out antagonistic tendencies to face one America with another. America has been going one way; now it is proposed that she should reverse and revise. Nor has this been brought about by any deliberate act of the country. So far, the country has not passed upon the question. It is evident that if the executive regime is to secure a popular endorsement, America will have to reborn in the strange likeness of aggression. Will it be an America of greater liberty, or less? Will it be a sea to sustain, or a rock to wreck? Expansion may run up an honest flag. Imperialism's flag is black. — It has all the panoply of piracy. We may win the Philippines; so far we have been lied; but winning the Philippines, must we lose America.

—The Conservator.

It is useless to cry out against the combination of capital. It has been going on for a long time in all the industries. It began in a large way in this country in the railroad business. But there is not an intelligent and well-informed man who does not know that the combination of short railroads so as to make up "through lines," has been of enormous advantage to the country. And there is hardly room for doubt that similar combinations in various branches of trade would be beneficial if over-capitalization did not lead to high prices in order to pay big dividends on stocks and bonds that do not represent any investment. —Press.

The largest Sunday School in the world is at Stockport, England. It was opened in 1805, but many additions have been made to it, until now it has eighty school rooms, some of which will seat more than 300 scholars. The large hall will accommodate 9000. There are about 6000 scholars connected with the school, requiring the services of 500 teachers.

Nine great sacks of mail, weighing about eleven hundred pounds, came to the Hammoncton post-office on Thursday, addressed to J. T. French. That boats all records of mail matter received. The contents proved to be the "Year Book of the Department of Agriculture," for 1895, — and full of valuable information for farmers. Mr. French will endeavor to distribute the books where they will do most good.

LATER.—Investigation brought out a "Report of the Commissioner of Education for 1893-4." Rather ancient, but Mr. French will gladly give you one.

A new style of money order has been adopted by the Post-office Department, and are supplied to each office as soon as the old ones are exhausted. Hammoncton will soon use them. They are about the size of a bank check, and much simpler in detail than those now in use. A receipt is also given for the sender to keep. But it isn't the style that concerns us, so much as the sum they represent, and the desire that they shall be made payable to us. Let 'em come, and make the figure liberal.

By chapter 29 of the laws of 1894, the term of a notary public is made five years. The term of office of every notary appointed previous to 1894 was by that act made to expire on July 4th, 1900. Previous to the law of 1894, notaries were appointed indiscriminately, and with no limitation as to term. After next Fourth of July, there will be scores of notaries in the state who will have to secure new commissions.

Question Answered

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce and they seldom heard of appendicitis, nervous prostration, or heart failure, etc. They used August Flower to clear out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headache and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Sample bottles are at Crowell's Pharmacy.

The W. J. & S. freight buildings have been moved to the north side of the railroad. The main object was to get rid of the switch on the south track, opening toward down trains. Such switches are considered dangerous, and railroad companies are paying almost any price to do away with them. The siding will remain, with a switch on the lower end.

Isaac Burgess, teamster for Henry Kramer, of Folsom, was on his way to Atison with a load of cranberry boxes. On Middle Road, the bidders worked loose and several boxes fell, the driver with them, striking the horses, who were naturally frightened and ran away, dashing pell-mell into one of Herrnhout's teams. There was a confused heap of fallen and struggling horses, with driver John Woulbert in the midst. Happily, he escaped with a few bruises. Burgess has a sprained arm.

The Township Sunday School Convention (including Mullica) will be held in Hammoncton Baptist Church on Friday evening next, Oct. 6th, at 7:30. The session will open with song service, after which Rev. J. W. Marshall, D.D., pastor of the Broadway M. E. Church, Camden, will address the meeting. All the schools will be notified by Secretary Wm. Cunningham, and a full attendance is anticipated. Dr. Marshall is one of the foremost speakers in the New Jersey Conference.

This is Dewey week, and all the land is ringing with the praises of our gallant Admiral, whose triumphant return to his native shore has taken the country by storm. As a fitting souvenir of the occasion, the Philadelphia Inquirer secured a picture of Olympia leaving Manila harbor for the long voyage home. This has been handsomely reproduced in tin printings, with a portrait of the Admiral in one corner, and will be presented free with every copy of to-morrow's (Sunday's) Inquirer.

Story of a Slave.

To be bound hand and foot for years by chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a god-send to weak, sickly, and run down people. Every bottle guaranteed. Only 50 cents. Sold by Dr. G. Crowell, Druggist.

Remarkable Rescue.
Mrs. Michael Curtin, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was. "It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion and Sample bottles free at Crowell's Ph. macy. Sold by dealers in all civilized countries.
