Resolved, That the convention pledge the support of the Republican voters of this county to Mr. Walsh and all the nominees of this convention.

The resolutions were adopted as read by J. E. P. Abbott, offered the following:

Resolved, That hereafter the chairman of the Republican convention be authorized to call a Delegate convention, and that the various townships and cities be entitled to one delegate for every 25 Republican votes or fraction over 12, in the Republican vote for coroners in the respective townships or cities, at the last preceding election.

Adopted.

The candidates were called for, and each addressed the convention, thanking them for the honor extended to them.

The defeated candidates were called for, and each emphatically pledged their support to the whole ticket.

The chairman, Mr. Miller, responded to repeated calls as follows:

I had expected to be a candidate for the Senatorship until yesterday. I made up my mind not to. Had I known, however, that a friend of mine in Mullica Township intended publishing a pamphlet in my favor, I should certainly have been a candidate. Any person wishing to obtain a copy for future reference, can obtain it by applying to Johnny Farrell, manufacturer of "Vanilla paper" at Pleasant Mills.

On motion the convention adjourned.

CHARLEY JAY'S Detective has gone over, brains, body, breeches and boots to the Democracy. We deeply regret that Mr. Jay should have been so controlled by personal malice as to wage war against all his old political friends, just for the sake of punishing a few enemies. Jay's pen is a sharp pointed weapon, though, we think it sheds too much gall for the good of its wielder. We should like to see it, as of old, doing battle for the Republican cause. We believe with Mr. Jay, that men sometimes get their names upon tickets, who are so corrupt, that it is the duty of honest men to scratch them, but we don't believe we ought to oppose a candidate for Governor simply because his infancy was cradled on the other side of the Atlantic. — *Vindland Independent*

A Correspondent writing from New York, says, "It ought to be noted that the movement to get rid of the Ring has now passed, or is rapidly passing, out of Republican into Democratic hands. Thus, Judge Barnard, who granted the injunction, is a Democrat; ex-Mayor Havemeyer, Chairman of the Committee of Seventy, is a Democrat; Andrew H. Green, the Deputy Controller, is a Democrat; Congressman Roosevelt is a Democrat; Charles O'Connor is a Democrat; and, finally, the man most active behind the curtain in having the ring ejected from power, is Mr. Samuel J. Tilden, Chairman of the Democratic State Central Committee."

When Gov. Parker was filling the gubernatorial chair, a Democratic House of Assembly passed a bill to banish colored men from the State, and providing that if a colored man entered the State after date he should at once be arrested and committed to prison. Gov. Parker was in the Executive chair at the time, a leader of the Democratic party, and especially potential with the Democratic legislators, but failed to raise his voice against this barbarous and inhuman act! This was only so far back as 1863, and such were the sentiments of Parker and his party then. Col. Wm. C. Alexander, in his speech accepting the chairmanship of the Democratic Convention, repudiated in behalf of the New Jersey Democracy, the "New Departure" doctrine, and asserted that it had no new theories or doctrines to advocate.

Secretary Boutwell is hard at work again at Washington, but expects to make a few speeches in Illinois at an early day. After all the fuss that the *Tribune* has made about the sending of government clerks abroad with the bonds of the new loan, it turns out that to transmit these bonds in the usual way would cost, for \$50,000,000, \$12,500 for express charges from Washington to New York alone, to say nothing of the much greater charge for shipment to Europe. The guarantee of the carrying companies is worth nothing to the government in a matter of such large amounts, even if the companies were willing to give it. The cost of sending a safe with \$10,000,000, and three Treasury clerks in charge of it, to England, is about \$1,500, or about one-eighth of what it would be by other means. Moreover, the Syndicate foots the bills.

THE CONTRAST

1st. In two years and one month, by Republican economy, the national debt was diminished \$215,765,663 74.

2d. In two years and seven months the public debt of the city and county of New York was, by Democratic extravagance, increased \$63,028,427 71.

3d. In two years and one month, by the Republican policy, the annual outlay for interest was reduced \$12,062,597 97.

4th. In two years and seven months, by the Democratic policy, the annual outlay for interest in a single city was increased more than \$4,400,000.

5th. In putting down the most formidable rebellion known to history, continuing nearly five years, in which time more than two millions of men were engaged, the Republican party contracted a debt scarcely exceeding \$65 per capita.

6th. In simply administering the civil affairs of a single city for a period of two years and seven months, the Democratic party contracted a public debt exceeding \$63 per capita.

In relation to the enormous fraud in New York Secretary Delano, in his Sandusky, Ohio, speech, says:

"This example ought to be sufficient. It illustrates the venality, speculation, and political prostitution which cover the Tammany Democracy, and render it a national atmosphere and presence feculent, obnoxious, and infamous. Here was paid a larger sum for repairs, carpets, and furniture for county offices, than the present Administration paid, in the same year for mail transportation throughout the United States; nearly three times as much as the entire diplomatic expenses for two years past; as much as the yearly cost of collecting the customs revenue; more than all the miscellaneous expenditures of the Interior Department for either year of the present administration, and more than the entire annual expenses of the Indian Bureau. Here is a larger sum paid in eleven months for plastering than the entire expense of the United States for foreign intercourse during the present Administration; and more for plumbing and gas fitting in one year, than the expenses attending all the public buildings and grounds in Washington city. There was paid more money to three men for such expenditures, in one year than was paid for the collection of the entire internal revenue of the country in any year of the present Administration, more than double the expense of the United States courts for two years, and more than all the expense of the Forty-first Congress."

"With such a policy as this transferred to Washington, the Democratic clamor that the national debt must not be paid off now, would be found full of meaning and full of danger. Public credit would fall, and distrust of all public securities be openly avowed. The Government could not long survive such mismanagement."

The present status of the South is fast making up the issues upon which the next Presidential election will turn. The spirit generally manifested there, is the spirit of resistance to our National Government, with a fixed purpose to annul the past, and overturn the present Republican rule. Nothing will be left undone by Southern leaders, and they expect with the negro vote to hold the balance of power, to make the Democratic party a catspaw in their interest as in the days of old, and thus again to take the rule of the nation into their own hands. Then the lovely scenes, once common in Kansas, will return, and the safety of Northern citizens in the South will be what it was before the war. Then Congress will be blessed with F. V.'s from the Old Dominion, and the bowie-knife gentry from the Southwest, and Mr. Sumner may expect a second installment of Southern chastisement for presuming to utter sentiments not approved by the advocates of the peculiar institution. Then the colored race will be reduced to serfdom, schools will be repressed, ignorance will prevail among white and black, and misrule will hold high carnival over the sunny South, like its parentage of a hotter place. Such is just what many Southern men are working for—an age of barbarism. The true Southern stamp is not more than half-civilized, and not half-christianized; he is Kuklux-dyed in the wool, and would not scruple to reduce the negro to something very like slavery, banish every school, and burn every negro school-house. But let them bear rule and no Northern man will risk his life there, unless he is loud-mouthed for the Southern policy. Then the national debt will be repudiated and remuneration for lost slaves and lost time demanded.

This is just what they are working for, and what will be, if the Democratic party succeed; and the question comes to us, are we ready to make the issue? There are no side issues of any account. It stands Southern rule, with Southern ideas and Southern civilization, or Northern civilization, ideas, education, and State policy. And are we prepared to meet the issue? Can any one doubt which is the best for the welfare of the country, the permanency of the government, and the good of society? Can any one hesitate between a rule of ignorance and oppression, and that of education and universal freedom? between the whipping-post and the school room? between repudiation and national honesty? These issues we must meet in the next Presidential election, and it becomes every good citizen and patriot, to set with the party which he conscientiously believes will do most for a wholesome, honest, permanent national government, for universal freedom, and for the advancement of the whole people in education, virtue and true morality. — *Del. SURGICAL.

SILK and COTTON Elastic Stockings, Abdominal Belts, Knee Caps, Unbladder Belts, Anklets, Suspensories, &c. The above articles are now so well-known and recommended by the medical faculty, that little need be said by me; but at the same time I might say that I have been manufacturing them for over twenty years, therefore I can recommend them for durability, comfort and usefulness in all cases of Varicose Veins, Gout, Rheumatism and other weaknesses of the Limbs. The pressure being equal in every part and the fabric porous, renders them agreeable and healthy to wear. Old sores when once healed are prevented from opening again by the use of the **Elastic Stocking.** I could give a number of instances where persons after an outlay of hundreds of dollars have been obliged to give up work, especially where they had to stand; but on wearing the Elastic Stocking, have resumed their daily occupation at once with comfort. The BELTS are invaluable for abdominal weakness, corpulency, and surplus any other use. Rules for measurement will be sent on application to **VINCENT PERRY,** 4811 Miller St., Germantown, Pa.

P. S.—The above articles can be sent to any part of the Union for a few postage stamps.
