VOL. 31.

HAMMONTON, N. J., OCTOBER 14, 1893.

NO. 41

We sold the first drove of Sheep out quick. We have bought about forty more, which cost a little higher, but will sell them at the same low prices, viz: Hind-qrs., 10 c. pr pound; Fore-qrs., 5 c.; Leg, 12 c.

Now is the time to have Corned Beef and Cabbage—this cool weather. We have a few hundred pounds of Corned Beef which we want out of our way before we commence to cut up Pork. Therefore, for a week or ten days, or as long as it lasts, we will sell Corned Beef at prices to astonish you. Every pound warranted good, or money refunded.

FLOUR. FLOUR.

We thought the Flour market had reached its "bed rock" some time ago; but it has again "slumped,"—seems to be bottomless as to prices. We refrain from quoting, only in a general way,—might frighten you. Enough to say, can give

Good Flour, \$3.75 to \$5

Per barrel, with several grades and prices between these extremes. Every bbl. warranted, and delivered free of charge.

Now, just a word on another line. We have a few real bargains in some fine

Imported English Decorated

Dinner, Tea & Toilet Sets.

Note the prices we quote to start them,—

100-piece Dinner Set, 3 styles and colors, \$8.40

56-piece Tea Set, 3 styles and colors, \$3.60

10-piece Toilet Set, 2 colors, \$2.40

We know these are very low figures for these goods, but we want you to have them while they last, which won't be very long. We look for a rush,—“Don't get left.”

DID YOU EVER

Stop to think what a fine piece of mechanism your watch is? and that you are injuring it by letting it run too long without having it cleaned and oiled?

A watch is injured more in one month, when running dirty, than in a year's time when properly cleaned and oiled.

Why neglect to have it cleaned, when you can get it done, and guaranteed, for One Dollar?

AT DUDLEY'S,
HAMMONTON, N. J.

Our World's Fair Letter.

CHICAGO, 1893.

That the greatest study of mankind is man is abundantly demonstrated at the Fair, by taking position on a prominent avenue and observing the individual faces of the great throng as they pass by. Among the noticeable things is the determination visible on every face; people have come to see the Fair and they are determined to make the most of their time, and so you will see them early and late, rain or shine, going about to discover some new nook or corner, hitherto unexplored. Another remarkable fact is the readiness with which people believe what they read or are told concerning the Fair. This condition of affairs is brought about by the marvelously grand and awe inspiring scenes, nowhere equaled in the whole world, size and distance here dwindle into insignificance; time and place also seem to be overcome, and you are more than half persuaded that this is dreamland.

Then there is the amusing side also. Take your place near a Columbian guard or chairboy, who by their uniforms are made a target for questions. Listen to the questions asked for five minutes, and you are ready to testify that man is wonderfully and fearfully made. To illustrate: Not long ago a lady who had read about the "lagoons" wished to know in what building she could find them. Another, in passing by the Utah building, observed the bronze statue of Brigham Young; throwing up her hands in astonishment, she exclaimed, "Well! I didn't know he was a colored man." The men, too, display a wonderful amount of wisdom and sagacity. As the man, standing near Horticultural Hall, inquired where he could find Jackson Park; or the man who came to see everything and began by "taking in" the turnstile marked "exit." We are anxiously awaiting the publication of a new book entitled "Funny things at the Fair."

One of the most interesting places to visit is the Fish and Fisheries building. Its dimensions are 165 by 365 feet. At either end of the main building, and connected with it by arcades, is an annex circular in form, 135 feet in diameter. The total floor area is 3.1 acres. On account of the grace of the architectural lines, the delicate effect of the coloring, and the peculiarly appropriate ornamentations, this structure has been pronounced an architectural poem. The main building contains the general fisheries exhibit. In the west annex will be found the angling exhibit, as well as some interesting and extensive displays made by States.

Most interesting to the general public, however, is the aquarial exhibit in the east annex. In the rotunda is quite a large basin from which arises a mass of rocks, covered with moss and lichens. Crystal streams of water gush out of the clefts and crevices of the rock, and fall to the basin below, which is covered with rushes and weeds and semi-aquatic plants of all kinds. Here gorgeous gold fishes and other beautiful specimens of the finny tribe amuse the spectator, now poisoning delicately then gliding gracefully on. In the gallery is a series of tanks, whose glass fronts occupy more than 3000 square feet of surface. This forms a panorama which rivals the great permanent aquariums of the world, both in size and in variety of specimens. The exhibits consist of everything that science has brought to light from the dark depths of river, lake, sea or ocean. The speckled beauty of the clear stream or lake—the plebeian catfish or sucker, the joy of the youthful angler, the deep sea monster and the shark, the wonderful coral island makers, all are here in lavish profusion.

The supply of salt sea water is brought from the Atlantic ocean. It is condensed to one fifth its original bulk to facilitate in handling and transportation. Lake Michigan furnishes fresh water to restore it to its proper density. The entire salt water circulation, including reservoirs, is 80,000 gallons. The fresh water, exclusive of the reservoirs is 40,000 gallons. Were it possible to locate this aquarium

here permanently, it would prove a valuable attraction to Jackson Park.
ADAM ANTINE.

An interesting matter of fact is that during thirty years of Republican administration, advocating the protection of American industries, there were but 165 bank failures throughout the country, whereas during eight months of this freetrade administration there were 155 bank failures in this country. Thus the disaster among our banks during this brief free-trade reign of terror has almost equaled the disasters that befell the banks of the country under thirty years of protection. What could be more expressive?

Commissioner Lochran reports having suspended 16,000 pensions.

There were over seven hundred thousand paid admissions to the Fair on Chicago day.

AN OLD SOLDIER MADE HAPPY.—“During my term of service in the army, I contracted chronic diarrhoea,” says A. E. Bending, of Halsey, Oregon, “Since then I have used a great amount of medicine, but when I found any that would give me relief it would injure my stomach, until Chamberlain's Colic, Cholera, and Diarrhoea Remedy was brought to my notice. I used it, and will say that it is the only remedy that gave me permanent relief and no bad results follow.” For sale by Cochran, druggist.

Between the Compound
Oxygen Treatment of Dis-
eases and that by the use
of Drugs? It is an import-
ant one.

Drugs are taken into the
stomach. For this reason
their action is not direct.
Compound Oxygen is taken
into the lungs, and there-
fore, comes immediately into
contact with and is absorbed
into the blood.

Drugs, being generally
poisons, act by causing a
disturbance in the body.
Compound Oxygen, being
composed of the elements
of the air, and acting upon
the blood, is not open to this
objection.

But, however it may act,
it has certainly cured many
cases of chronic disease,
in which drugs have failed.
This is the point
of greatest interest to all
chronic sufferers. To all
such we say:

Send for our book of 200
pages, — sent free. Read
for yourselves what Com-
pound Oxygen is, how it
acts, and, above all, what it
has accomplished.

"Come in, Patrick, and take a drop of
something," said one Chicago Irishman
to another. "No, Mike, I am afraid ever
since Tim Flaherty died." "Well, what
about Tim?" "He was one of the
liveliest fellows in these parts. But he
began the drop business in Barney
Shannon's saloon. It was a drop of
something out of a bottle at first. But
in a little while Tim took a few drops
too much, and then he dropped into the
gutter. He lost his place, he lost his
coat and hat, he lost his money; he lost
everything — but his thirst for strong
drink. Poor Tim! But the worst is to
come. He got crazy with drink one day
and killed a man. And the last time I
saw him he was taking his last drop
with a slip-noose around his neck. I
have quit the dropping business, Mike,
I have seen too many good fellows when
whisky had the drop on them. They
took just a drop from the bottle, then
they dropped into the gutter, and then
dropped into the grave. No rum-seller
can get the drop on me any more, and if
you don't drop him, Mike, he will drop
you."

The whisky business is a lawless de-
perado. It tries to "get the drop" on
boys and girls, on men and women, on
politicians and officers. The train robber
presents his pistol with the demand,
"Your money or your life." Rum gives
us no such alternative; its demand is,
"Your money and your life."

Justice Harlan of the Supreme Court
is authority for a remark made in London
the other day that it was his opinion
that if in future a difference should arise
between Great Britain and the United
States, the intervention of strangers
would not be invoked, but that an equal
number of Judges of the highest courts
of both countries would be appointed to
settle the difference.

The Democratic majority in Congress
is more anxious and determined to wipe
out the protective tariff and the laws to
guarantee some measure of honesty in
Federal elections than it is to protect the
financial credit of the country.

"Be jabbers," said a son of Erin the
other day, "they towid us when the
Dimicrats came in power we shouldn't
have to worruk for a livin', and right
they was — devil a stroke of worruk
have I done for a fortnit."

It isn't so much what a man has that
makes him happy as it is what he
doesn't want.

THEY GIVE THEIR REASONS. — Perhaps
some of our readers would like to know
in what respect Chamberlain's Cough
Remedy is better than any other. We'll
tell you. When this Remedy is taken as
soon as a cold has been contracted, and
before it has become settled in the sys-
tem, it will counteract the effect of the
cold and gradually lessen its severity;
and it is the only remedy that will do
this. It acts in perfect harmony with
nature, and aids nature in relieving the
lungs, opening the secretions, liquefying
the mucus and causing its expulsion
from the air cells of the lungs, and re-
storing the system to a strong and healthy
condition. No other remedy in the
market possesses these remarkable prop-
erties. No other will cure a cold so
quickly. For sale by A. W. Cochran, the
druggist.

An Unprecedented Offer!

Great Value for Little Money!

All the Weekly News of the World for a Trifle!

The NEW YORK Weekly TRIBUNE

A twenty-four page journal, the leading Republican family paper of the United
States, is filled with interesting reading matter for every member of a country
family. It is a National Family Paper, and gives all the general news of the
general news of the United States and the world. It gives the events of foreign
lands in a nutshell. Its "Agricultural" department has no superior in the
country. Its "Market Reports" are recognized authority in all parts of the
land. It has separate departments for "The Family Circle" and "Our Young
Folk." Its "Home and Society" columns command the admiration of wives
and daughters. Its general political news, editorials and discussions are com-
prehensive, brilliant, and exhaustive.

A Special Contract enables us to offer
