Edw. E. L. Tice, of this place, has been appointed to a very acceptable position,—that of assistant to Rev. Dr. Lawson, Pastor of the North Baptist Church, Camden. His duties will be varied,—in charge of the church reading room and large library, which is open to the public five or six evenings each week; and other work in connection with the Sunday School and young people's societies. This will suit Mr. T. exactly, for his heart has always been in just this kind of work, and he has shown his ability in that line, both in Hammonton and as Secretary of Atlantic County Sunday School Association. He has, too, an able assistant in his worthy wife, who is an accomplished musician, vocal and instrumental. We extend sincere congratulations.

Last Saturday evening, Roy Allendar was showing a revolver to a friend, on the west side of Bellevue Ave., when it was in some way discharged, and the ball sped across the way and crashed through a plate glass window of Murdoch's shoe store. Fortunately, it struck near one corner, thus materially lessening the heavy bill to be paid by the lad's parents. The street was full of people, and we wonder that no one was struck. Boys should not be allowed to carry fire arms. No one needs them in this peaceable community. Roy called at the store a few minutes after the accident, and arranged to pay the bill for damage.

Even a business depression may have its bright side. Particularly is this the case to the prudent. It comes like winter among the seasons to the farmer as a time of preparation for the activities of the rest of the year. Those who are wise will make use of dull times in preparing for the active business that is sure to follow. Especially should young men and women take this time to get ready to fill the positions that always seek the competent when business is rushing. That many do this is in evidence from the fact that Public School has increased its attendance during the past two years and has now its usual large school.

About noon, on Wednesday, Rev. G. F. Bishop, pastor of the M. E. Church, was found lying unconscious in front of one of the Gabald houses, on Grape Street. As our readers know, Mr. Bishop has been suffering from vertigo almost ever since his arrival in Hammonton, having been twice overcome in the church. For several weeks he has been unable to preach, and being out for a walk; but the exertion was seemingly too much for him, and he fell where found. He was taken into a nearby house and Dr. North summoned. Later he was removed to the parsonage.

Hammonton has a new ballot-box for use this year,—a revised and enlarged, and improved edition of the old one. The voter puts his ticket into the official envelope, this is rolled into a tube, the tube is laid in a miniature cradle, the cradle is rocked and the occupant drops into the box, an alarm bell sounds, the ballot number appears, and the deed is done. The new box is fine, with nickel plated cover and three brass padlocks.

The H. A. A. team will have all the foot-ball they want during the next two weeks. Here is the schedule:

Oct. 24, Pennants.
Oct. 28, at Mt. Holly (probable).
Oct. 31, South Jersey Institute.
Nov. 3, at Cardington, Pa.
Nov. 7, Haddonfield.
This gives us three Saturday games here.

There were eighteen on Saturday, nine on Monday, five on Tuesday, and three on Wednesday,—guesses sent in on the name of the next play of the Acme Club, "The Professor." Just thirty-five votes, the price of the best reserved seat,—strange isn't it? Miss Lizzie Layer sent the first correct answer and gets her ticket free.

A peculiar state of affairs. Wednesday afternoon a drunken man came on the train, wandered about at will, using profane and insulting language, and no one could be found to arrest him; nor could a key of the lock-up be found. A few hours later the Overseer of the Poor locked him up over night.

Mr. P. H. Jacobs, reading a notice of a meeting of the Band of Mercy, pointed to it and said: "That is one of the best things ever organized in Hammonton. Teach children to be kind and considerate in their treatment of dumb creatures, and they will be kind to each other and to everything."

"So be it!" grumped the boatmen, anything is better than this!"

They were put on shore, and the boatman returned with a larger boat; but at the bottom of four gentlemen degraded as these were, the boatman chose to wait before they would let him to discover their trick.

From the well-known fact that hastens the emission of light from phosphorescent substances Charles Henry has inferred that emission might be prevented by heat and experiment has proved the correctness of this theory. Intense cold is powerful as to its preserving to a latent condition in the phosphorescent bodies and opens up the possibility of securing a permanent light constantly, the most and the best are kept from decaying by not turning, ready for use at any time or needed.

Under the Gold Standard.

In a speech at Louisville, Ky., Mr. Bryan said: "Prosperity has never followed the gold standard." This is a remarkable statement. The *Courier Journal*, which has been the leading Democratic journal in the South for years, has collected some facts bearing on the subject, to which we call our readers' attention:

The total wealth of the United States was \$30,000,000,000 in 1870. It was \$55,000,000,000 in 1880. An increase of over 80 per cent under the gold standard.

The wealth per capita of the United States was \$789 in 1870; it was \$1008 in 1880. An increase of 32 per cent under gold standard.

Our foreign trade increased from 1870 to 1880, 44 per cent under the gold standard. In the same time the trade of Great Britain increased only 22 per cent.

The cost of production of the United States increased from 68,225,000 tons in 1870 to 146,827,729 tons in 1880, an increase of 121 per cent under ten years of gold standard.

The iron production of the United States increased from 2,741,833 tons in 1870 to 9,267,703 tons in 1880. An increase of 235 per cent under eleven years of gold standard.

The savings bank deposits of the United States increased about 230 per cent in twenty five years under the gold standard.

The number of depositors in these savings from 1,890,843 to 4,275,849 in the same time, and their savings per capita increased from \$1.20 to \$5.28.

The public debt of the U. S. was \$1,822,377,324 in 1870, or \$58.33 per capita; in 1880 it was \$3,052,112, or \$110.93 per capita, a reduction of more than 50 per cent in the total, and of 61 per cent in per capita indebtedness under the gold standard.

Farm property, including lands, fences and buildings, was valued at \$2,262,000,000 in 1870, and had increased to \$18,270,000,000 in 1880. Farmers owned \$10,000,000,000 worth of improvements and machinery in 1870, and \$24,000,000,000 in 1880.

Farm live stock amounted to \$1,225,000,000 in 1870, and to \$2,215,000,000 in 1880. An increase of more than 80 per cent.

Building and Loan Association deposits were of little consequence in 1870; in 1880 they reached a total of \$300,000,000, and in 1890 amounted to \$750,000,000, all under the gold standard.

The exports from the United States have increased 121 per cent since 1870, under gold standard.

Average wages in manufacturing industries increased from \$2.25 in 1870 to \$4.10 in 1880, or 80 per cent. (See census reports.)

The purchasing power of wages at the same time increased from 14.1 in 1870 to 12.1 in 1880, - taking 1870 as a basis of comparison at 100.

A one-horse plow that cost \$4 a bushel of wheat, or 10.1 bushels of corn, or 27 bushels of oats, in 1870, could be bought in 1880 for 3.8 bushels of wheat, 8.5 bushels of corn, or 11.5 bushels of oats.

M. E. Church services to-morrow. Class meeting at 9:30 a. m. Preaching at 10:30 a. m., and 7:30 p. m. by Rev. W. R. Swain. Sunday School at noon. Epworth League, 6:30 p. m.; topic, "The Inmost Circle" of the "Friends of Christ."

The seventy-fourth annual meeting of the Synod of New Jersey will convene in the First Presbyterian Church of Atlantic City on Tuesday next, the 27th inst., for a three days session. There is much important business to be transacted.

The Golden Rule Band of Mercy met in the Presbyterian church Thursday afternoon, and had an entertaining meeting. Rev. Mr. Watson gave an address which was enjoyed by older and younger members. The band decided to wear gold colored ribbon badges, which will be distributed at the next meeting.

WOOD. On Tuesday, Oct. 20, 1896, at the home of his brother, A. J. Wood, in Hammonton, N. J., Walter W. Wood, aged 45 years. Funeral services were held at his former residence, in Camden, on Friday at 11 A. M., conducted by Rev.

Services at Evergreen Cemetery by his brother, Maunus of M. B. Taylor Lodge, of Hammonton.

Mr. Wood leaves a wife and one daughter, also seven brothers, he being the youngest of eight sons. He had been married twenty-four years - their silver wedding would have been celebrated next July, - and a happier married life is unusual. He was a devoted husband and father, a quiet and unobtrusive man, but well beloved by all who were intimately acquainted with him.

BOOKLEY. On October 20, 1896, at the home of her grandson, Geo. H. Wood, in Hammonton, Mrs. Elizabeth Hickey, aged 70 years. Funeral services were held on Sunday evening, 11th inst., conducted by Rev. H. B. Randall.

Her remains were removed for interment to her old home at Puttfield, Pa., and laid by the side of those of her husband.

Oh, mother, thy gentle voice is hushed, Thy warm, true heart is still, And on thy pale and peaceful face Is resting death's cold smile. Thy hands are clasped upon thy breast, We have kissed thy lovely brow, And in our aching hearts we know We have no mother more.

It effects a permanent cure, and the most dreaded habit, sick headache, yields to its influence. We urge all who are afflicted to procure a bottle and give this remedy a fair trial. Gen. Longstreet, who was one of the
most distinguished officers of the Con-
federate army, said in a recent speech
at Augusta, Georgia: "We have no
apologies for the past, but we do tell
Mr. Bryan that secession and nullifica-
tion and revolution in every conceivable
shape, and particularly in the insidious
form he hints at, have no supporters
down here." Such sentiments, coming
from a man who fought four years for
the cause of secession, show that there
has been a great change of opinion
among the Southerners. The solid
South is a thing of the past.

If there is any other way in which the
workingman can get a dollar, under free
silver coinage, than by working for it,
or for the farmer to get it except by
exchanging his products for it, why does
not Mr. Bryan point it out? He and
his friends have been asked this question
a number of times, but they offer no
word of explanation.

The men who talk loudest on the
street corners for "free silver" are those
who never saved a dollar under the best
financial system this country ever had,
and who would not earn a dollar under
any system.

Boiled down, all that has been said
by the orators and organs resolves itself
into this: How may the breadwinners
of the country best cast their votes so
as to secure a dollar's worth of dollar
for a dollar's worth of work? There is
no 51-cent answer to that problem.

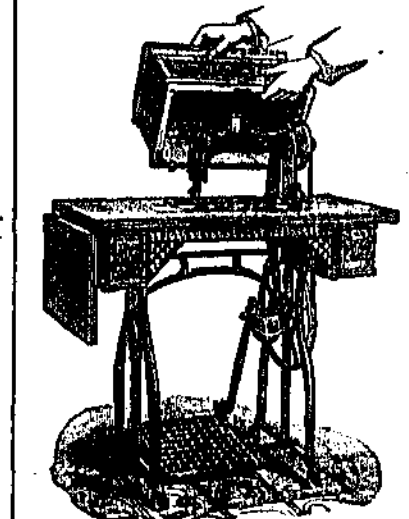

Senator Quay concedes 110 electoral
votes to Bryan, and admits that there
are sixty-seven more which are more or
less doubtful. It will be the aim of the
Republican National Committee to re-
move the doubt from those 67 votes
before election day; and it wouldn't be
at all surprising to see an inroad made
on the 110.

Major McKinley declares that we are
doing too little of our own work and
that foreigners are doing entirely too
much for us. This is undeniably true.
If any one doubts it, let him make a
tour of investigation among our indus-
trial establishments and be convinced.

Wm. J. Bryan has a brother-in-law
who edits a paper at Horton, Kansas.
In a late issue of the paper he says:
"We have known Mr. Bryan for a long
time, and the only sensible thing we
ever knew of his doing was marrying
into our family."

The Discovery saved his Life.
Mr. G. Caillouette, druggist, Beavers-
ville, Ill., says: "To Dr. King's New
Discovery I owe my life. Was taken
in grippe and tried all the physicians for
miles about, but of no avail, and was
given up and told I could not live. Hav-
ing Dr. King's New Discovery in my
store, I sent for a bottle and began its
use, and from the first dose began to get
better, and after using three bottles was
up and about again. It's worth its weight
in gold. We won't keep store or house
without it." Get a free trial at Croft's.
