## All-Hallowe'en.

We doubt whether Hammonton ever before had such a time as on Thursday night.

Commencing about six o'clock, the characters assembled,—as comical and grotesque a crowd as we ever beheld. Members of the band, appropriately disguised, carrying instruments; horseback riders, and hundreds a-foot, paraded the streets for over two hours. One might have thought a menagerie had been let loose. Windows, doors, and sidewalks were packed with on-lookers, as jolly as the masked ones, many wishing themselves young enough to join in the fool tricks.

A fife-and-drum corps added to the music. Tin pans and kettles, hand organs, accordions, tin horns, etc., did everything but keep time and harmony.

So far as real mischief was concerned, we have heard of none, though several special officers were on the look-out.

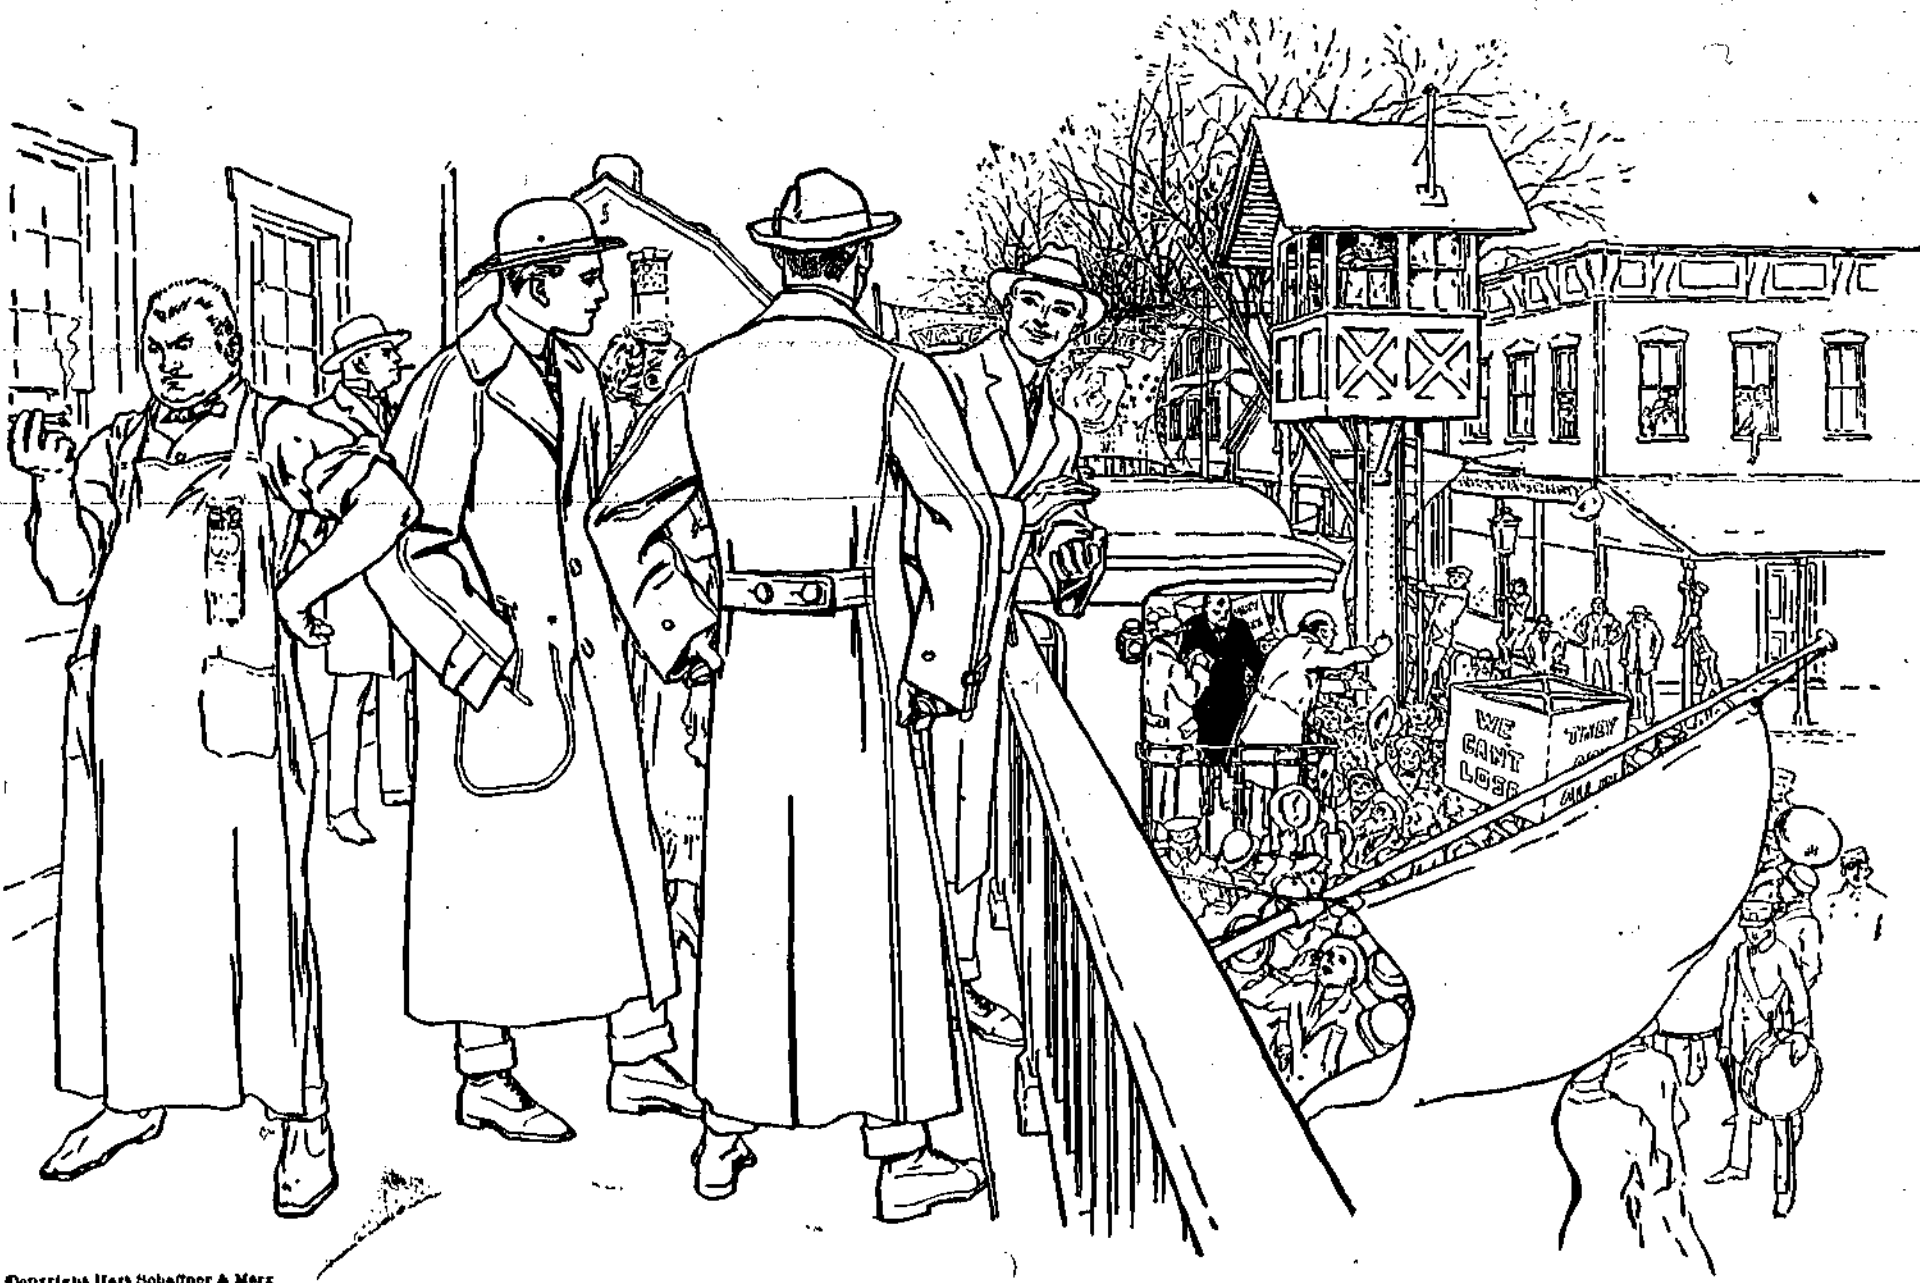

Dr. Crowell may be home to-day, —his foot healing nicely.

Clothes that Hart Schaffner & Marx made for us are far ahead of all other candidates.

When the votes are counted they will be elected by a very large majority of the best dressed men in America.

Your vote for President may, and ought to be, a serious matter to you on November 5th. Your man may win or he may lose; whichever happens, a month from now you will be reconciled to the result, and continue to be a happy citizen. But it is different with Clothes; your vote on that matter is directly in your own personal interest. If you vote right you win a great deal; if you vote wrong, you lose.

We want to see you vote for the Clothes we have assembled. This is the Polling Place.

Young men especially will be interested to see the new Varsity Overcoats. We are making a big hit with these goods, and want one of them to hit you.

**Campaign Notes.**  
HAMMONTON, N. J., Oct. 31, 1912.  
No one but the most confirmed  
old fogey, who has utterly failed to  
read the signs of the times, can fail  
to see that the growth of business in  
this country, and the consequent  
abrogation of state lines, so far as  
trade and commerce are concerned,  
require that State control of all  
public utilities be transferred to  
the Nation. It is the only way to  
prevent endless conflict and confu-  
sion. What the Democratic party  
will do in the future remains to be  
seen; but up to this time they have  
failed to recognize this necessity,  
and if given another chance at our  
coming election, we have reason to  
expect at least four years more of  
ruinous confusion.

In a statement of what Wilson  
has failed to do, and some of his  
misrepresentations, ex-State Sena-  
tor Frelinghuysen has made it very  
clear that the Governor's claim  
that a Republican legislature pre-  
vented him from accomplishing  
any Trust legislation, is wholly  
unfounded.  
Emerson Hough says that a  
friend asked him why he supported  
the Progressive party, and what  
there was in it for him. That man  
could not realize that it was possi-  
ble for any one to work for others  
in this way unless there was some  
grat in it. Gov. Wilson seems  
equally incapable of seeing that it  
is possible that Geo. W. Perkins  
can be so much interested in moves  
that he believes will benefit humani-  
ty, and persistently misrepresents  
both Perkins and Roosevelt.

Having had some dealings with  
Mr. Perkins, in the past, that  
were to his credit as a lover of the  
aesthetic in nature, and as a fair  
dealer, I have been considerably  
interested in what has been said  
about his recent moves; and I  
call attention to the fact that he  
explained very fully, at the start,  
that he was not aiding the Pro-  
gressive party from any business  
motives, but because he felt a deep  
interest in the work laid out for the  
good of humanity.  
I recently saw it stated that this  
same man provided the money to  
buy the Palisades of the Hudson  
and thus saved from destruction  
this unequalled bit of scenery by  
presenting it to the government.  
When more of our wealthy men  
use their surplus cash in measures  
for the good of humanity, and we  
see fewer of those who have official  
duties to perform spending their  
time trying to climb higher, we  
shall be nearer the millennium than  
we are now.

**WM. F. BASSITT.**  
On Wednesday, Town Treasurer  
Davis paid the first \$1000 Water  
Bond, with \$1200 interest. The  
bond was not due until 1915, but  
the Water Commissioners had the  
money, and decided to stop the in-  
terest charge.  
The Independent Fire Company  
meets on Wednesday evening.

**Good Advice to Gunners.**  
MR. EDITOR: As the open sea-  
son is here, allow me to make a  
few suggestions to young hunters.  
The true sportsman needs none of  
my advice, for he knows better  
than to be guilty of such acts as I  
would warn the novice against.  
Get well acquainted with the  
gun you propose to use. Mark  
you, that means much. Next, if  
not already taught, get some one  
who knows to teach you how and  
how not to handle a gun. He will  
tell you never to point a gun at  
any person, or at anything unless  
you mean to shoot; and never  
allow any one to do so to you, if  
you have to knock him down to  
prevent it.  
Never drag a gun by the muzzle,  
from a boat or wagon, or through  
the brush,—such fool tricks give  
the undertaker much business.  
Never pull the trigger unless you  
know positively what you are to  
fire at. However, in case of snuck  
or chicken thieves I would take  
some chances.  
Every year we read of the shoot-  
ing of some one who has been  
mistaken for a deer by his fellow  
gunners. Such crimes (for crimes  
they are) should be punished by a  
life term in prison.  
I have seen people (not real  
hunters) carrying guns on their  
shoulders, holding them with the  
breach in the rear. No one but a  
"didn't-know-it-was-loaded" fool  
would be guilty of such a trick.  
They should be inmates of a home  
for the feeble-minded.  
While I am strongly in favor of  
men and women being taught the  
use of fire-arms, let parents see to  
it that their children have teachers  
who know their business.  
A few years ago, a prominent  
business man of this town gave his

son, seven or eight years old, a toy  
gun. While passing his house the  
next day, the little fellow ran out  
and pointing the gun in my face,  
cried "I'll shoot you!" and pulled.  
Of course the plug did no harm,  
but had his father given the advice  
he should, the boy would not have  
endangered one's eyesight.  
I have used many kinds of guns  
—from flint-lock to repeaters—  
and shot big game,—some with  
leathers, some with fur, some with  
hair, and never met with an acci-  
dent. As a boy, I was taught  
what a gun was for, and the proper  
way to use it.  
**THE HAIR-TRIGGER MAN.**

It was a most excellent lecture,  
Monday evening, by Dr. John M.  
Driver, on "America facing the Far  
East." Speaking from a Biblical  
standpoint, he took up the Jew,  
the Gentile, the Negro, and the  
Chinaman, and placed the mission  
of each in a light rarely thought  
of. The hall was well filled, and  
gave promise of a very successful  
course.

**Where 2=3**

Here are some definite statements and facts to show that you  
either delude yourself or are unknowingly humbugged when you buy  
inferior paint.  
A gallon of low priced paint won't cover more than 200 to  
250 square feet, two coats. The label on the can and the printed  
matter concerning the paint often even tells you that.  
A gallon of  
**Lucas**  
**TINTED GLOSS**  
**PAINT**  
ONCE USED-ALWAYS PREFERRED  
covers at least 300 square feet, two coats.  
When you use inferior paint you must buy three gallons to do  
the work that could be done with two gallons of Tinted Gloss and  
besides you've got to pay for the additional time and labor required  
to apply the greater amount of an inferior paint.  
Remember these things when you buy paint and then you  
won't fool yourself or be fooled.
