## New York Correspondence.

New York, Oct. 31, 1877.

### THE CIGAR MAKERS.

The cigar makers have shown more business capacity than is common among laboring people who strike for what they consider their rights. They have completed their organization, have raised a very large fund, and have organized a "provision kitchen," from which the needy strikers will be fed. The provisions are bought at the lowest wholesale price, and are distributed in such quantities as will keep the strikers in good condition. They have also secured the services of physicians to attend the members of the strikers' families, and, in short, have gone into the business in a thoroughly systematic way.

### AN OLD SWINDLE REVIVED.

A sharper under the name of Evans is flooding the country with this letter:—

New York City.

G. W. Green, Esq.:

Your ticket, 2,450, has drawn a house and lot in Jamaica, Queens Co., N. Y., valued by commissioner of taxes at \$2,500. Mr. Taylor, who had charge of the matter, died at Savannah with yellow fever. I will upon the receipt of \$10 additional have the property conveyed to you by county clerk. The amount is to pay the clerk for his services.

C. L. EVANS.

A great many smart Greenies, who know they have no right to the property mentioned, but who are willing to take advantage of what they consider the mistake of the careless Mr. Evans, send \$10, which is the last of it. It is curious that people will allow themselves to be taken in by devices so transparent.

### THE TEMPERANCE MOVEMENT

is still progressing, though it has not made the headway that its projectors hoped. It is very hard to keep the attention of New Yorkers to any thing but their business for any length of time, and then think what an enormous thing the rum interest is to fight. Yet the league are working away as earnestly as though they were in possession of the enemy's outworks. They have collected some interesting figures to show what tipping houses cost the city. They charge four-fifths of the expense for police, charities for criminals, paupers, or \$4,000,000 to them; to this must be added \$1,000,000 for salaries to extra employees in judicial and other departments; donations to charitable institutions, \$300,000, or a total of \$5,800,000. To offset this there is \$300,000 collected from license fees. These figures are significant. Mr. Little Devereaux Blake made a temperance speech, in the course of which she said that between 1870 and 1874 forty-two women were killed in this city by drunken men—most of them kicked to death.

### POLITICAL.

The contest, this fall, in this city, will be between Tammany on the one hand, and the combined Republicans and anti-Tammany Democrats on the other. Contrary to the usual practice, the Democratic business men have taken hold of the matter, and if they make a fight in dead earnest, they may accomplish something. The respectable element of the American Democracy, aided by the German vote, which is always uncomfortable in any organization which includes the Irish, and the entire Republican party, ought to carry the city, and relieve it from the dead weight of John Kelly Tammanyism. But I am not very sanguine. The leaders of Tammany know their power. They have the revenues of a vast city at their disposal, and they know that a great many men have their pockets full of money. When the forces are all ready for action, and it is known who the workers are, Kelly will sweep down with his money and his place, and then whether it is a success or not, will depend entirely on how many of them he can buy. To succeed, the respectable Democrats, and the independent Germans must draw out of the Democratic ranks quite thirty thousand votes, and with Tammany charging through their lines, it is very doubtful. And then the Rochester convention so divided the Republican party that it is doubtful whether action can be taken which will insure a full Republican vote. I have no faith whatever in the movement, but I do most ardently hope I may be disappointed.

### THE COST OF STRIKES.

The cost of the services of the State Militia during the strike of last summer—time, say one week—foot up nearly \$275,000. It is rather an expensive way of obtaining increase of pay. Probably the cost of the strike in the State, counting destruction and detention, loss of time and everything else, will foot up \$600,000,000. And it all amounted to nothing except to give a lot of demagogues like Schwab and Swinton notoriety. They are trying the same thing over again and may possibly succeed.

### THE GRAIN TRADE.

The papers are exercised over the fact that New York has not had a very large increase of receipts of grain, while Philadelphia, Boston and Baltimore have. It is easy to understand why this is so. New York has laid down upon her "natural advantages," and has failed to conciliate the outside world. The railroads running into New York are managed in the interest of one family—those running into the other cities are managed in the interest of the

cities. The point of the New York magazine is to see how much he can skin out of a bushel of grain—the other cities strive to see at how little they can do the business and live. We have no terminal facilities here, while Baltimore and Philadelphia have. The trade will keep going till this is altered. The West can send to other Atlantic cities, or what is better for them, they can ship down the St. Lawrence to Montreal, and avoid all the extortions that have been put upon them. What New York has got to do to hold her trade is to make the Erie canal free, and to have facilities for doing business cheaply by rail, when the canal is closed, then the old time prosperity will come again.

### THE MEAT TRADE WITH EUROPE

has not been altogether a success, though it is still carried on to some extent. The vessels fitted for this trade are, however, doing just as well in butter and cheese. The Americans are now furnishing England with a large per cent. of these articles that she uses, and the trade is growing rapidly. One of the last steamers took out a thousand boxes of Catawba grapes, and what was queerer still, some hundreds of barrels of Western lager beer for Germany. This is sending coals to Newcastle with a vengeance.

### TRADE

is still good, and more confidence than ever is felt. The season's business thus far has been good, and the look-out for the remainder is excellent. Everybody feels encouraged.

PINTRO.

## Gardner at Home.

The following record of the official type of our Senatorial candidate, is presented for the consideration of his constituents. A perusal of it ought to effectually silence the columnists who have endeavored to smirch the personal, political and official character of Mr. Gardner.

His official life began in July, 1868 when he was appointed Alderman to fill the vacancy caused by the resignation of Mr. Jacob Middleton, and in November of that year he was elected mayor over E. S. Wescoat by a majority of sixty-two (62) in a total vote of one hundred and seventy (170), his administration of the office gave such universal satisfaction, that in 1869 he was renominated by the Republicans, and his nomination unanimously endorsed by the Democrats, this occurred again in 1870 and again in 1871, and it was not for lack of political strength that the Democrats did not nominate a candidate for Mayor, for in 1871 they elected more than a 3 majority, in the city council; in 1872 Mr. Gardner was again nominated for mayor, and against him supported by the Democrats was named, our popular and well known townsman, Dr. Lewis Rood. Mr. Gardner was re-elected by a majority of 24 when the entire Democratic council was elected with a single exception; in 1873 Mr. Gardner refused to be a candidate, but after being out of office one year, so great was the loss of his administrative ability felt by the people, that he was elected in 1874 by a majority of 243, in a vote of about 400, over Robt. T. Eward, who, the following year received a large majority for city council.

In 1875 he was again nominated, his competitor being Major Byrnes, whom they took into camp by a majority of only 180 in a vote total of 464, in 1876 he was again nominated for Mayor against his expressed wish, and while he was absent from the city he positively refused to be a candidate, and another, Dr. Lewis Rood was nominated, and the result was, that for the first time since the incorporation of Atlantic City in 1854, a Democratic mayor was elected by 52 majority, this year however, the Republicans elected the Alderman and 5 Councilmen out of 9 and all the balance of the Republican ticket.

And in this year of our Lord 1877 and of the Independence of the U. S. the 101st, Atlantic City will show its appreciation of the worth of J. J. Gardner as will put too shame those who have been base enough to circulate falsehoods to advance the interests of a political opponent or gratify personal spite engendered on account of a failure to control conventions or receive nominations for position, in opposition to the will of the people.

FAIRPLAY.

## Very Doubtful—the election of Abasalom.

We invite the public to investigate Mr. Gardner's home record.

Three reasons why you should vote for John J. Gardner—Honesty, Capability, Good judgment.

Messrs. Gardner and Smith are unpledged, and come before the people with an excellent record.

Colored men will remember Doughty's opposition to "nigger suffrage," and will hardly be induced to vote for him.

Voters, remember the troubles with the old Camden and Amboy monopoly and vote for Hon. J. J. Gardner for Senator.

Let there be no stay-at-home Republicans, but let every voter come out to a man and vote for Gardner and Smith, honesty and economy.

"Rid me of mine enemy and I am victorious," doubtless thinks Mr. Doughty. Mr. Gardner is a formidable opponent, notwithstanding democratic money.

The Richmond Inquirer intimates that the people of the South love Gen. George B. McClellan. Well, why shouldn't they. He never hurt any of them.—Norristown Herald.

Vote for J. J. Gardner, for Senator, a self-made, representative man, with the ability and courage to faithfully represent the interests of the county in the State Senate.

The Democrat pitches into Mr. Gardner about his dress. Is it fine clothes or intellect that we want in the senate? Jersey men do you wish to vote for aristocracy or intellect?

A vote for Doughty for Senator will be a vote for the repeal of the general railroad law, which has done so much already to advance the interests and prosperity of Atlantic County.

Bearing with him no prejudices, Mr. Gardner will fully and fairly represent the whole people, looking only to the best interests of the State and the constituency represented by him.

Mr. Bird doubtless thought he was putting information where he thought it would do the most good, when he urged and explained reform to the Egg Harbor Democrats, on Saturday last.

Stahl's effusion before the Egg Harbor meeting, on Saturday last, was repeatedly greeted with hisses, but he did not pursue the tactics of "Little Mac" by retaliating. He left that for the audience to do.

It was a very slim reception tendered Gen. McClellan in this county last week, and as the "little hero" glanced over the meagre and scattered assembly, the old desire for more troops" doubtless came over him.

Would you like to have a law passed so that Atlantic City could settle all petty cases at home, instead of sending them all over to Mays Landing, thus saving the county thousands of dollars? Then vote for Gardner.

McClellan still adheres to his old war policy, as was illustrated on the platform from which the speeches were made in this county last week. He sat away back in the rear while his generals did all the battling in front.

The presence of Leon Abbott and others of the same ilk with McClellan, is ominous of the descent of the whole brood of lobby vultures at the State capital in the event of New York—New Jersey—McClellan's election.

Mr. Quinn, what does he know of the wants of our county? or do we want the next house of assembly taught music and learn to dance. We think it would be a good thing though, and then they would not waste so much of our money.

Our Senatorial nominee is an able gentleman of unspotted record and agreeable address. He is a native of the county and identified with its interests. He entertains sound and decided views on all economic questions, and will be a valuable man in the Senate.

McClellan was a costly investment to New York when he squandered five millions of the public money, and received a salary of \$20,000 a year to pay him for superintending the squandering of the millions. What will this kind of a moth do for New Jersey.

Mr. Gardner always talks to some purpose, and as we seldom send such a representative from Atlantic county, but leave all the talking to middle and east Jersey, it will be refreshing, from its novelty, for his constituents to occasionally learn that Atlantic county has spoken—that she has been heard from.

Mr. Smith is one of our old business men; he knows the wants of all, as he has been connected with so many of the industries of the county. All of the business men, farmers, mechanics, and oystermen, want him to go to Trenton to represent them, so that Mr. Quinn can stay at home and have a chance to practice his profession.

Which is the better man to send to the State Senate? The man that left his home and friends and faithfully served his country in her hour of need, risking his own life that we might enjoy freedom, or the man that staid at home, discouraged others from going, and filled his coffers with gold.

Vote for Gardner, the honored soldier.

The voters of Atlantic County require no pledges or exhibitions of the ability to carry water on both shoulders from Gardner and Smith—for senator and assembly, as their past lives and public record give evidence of their honesty and integrity, and the assurance that the best interests of the county will be consulted, and advanced by their votes on all questions affecting the public welfare.

The firm will be open for other engagements after November 6th.—Democrat.

Just so. Abasalom will be engaged in mourning the sorrows of a poor, twice-defeated candidate, and will retire to that peaceful obscurity for which he was undoubtedly born, while the editor of the Democrat, as is his wont, will be engaged in nosing around the fortunate candidates, and by preaching poverty retain the patronage of the State treasury.

What a wonderful man Mr. Abasalom Doughty must be. At Egg Harbor City in one of the Democratic meetings a speaker urged them to vote for Mr. D., because he was not one of those "tam" temperance men, that would take away your liquors, and he has a son at Philadelphia in the liquor business.

Then in other parts of the county he is a strong temperance (?) man, and cites as proof, that his wife once belonged to a temperance society. They forget to say that he had her leave the society.

With John J. Gardner in the Senate and Israel Smith in the Assembly, the Lord only knows the amount of jobbery that some of the Republican schemers who have the inside track, will be ready to "introduce."—Atlantic Democrat.

With John J. Gardner in the Senate and Israel Smith in the Assembly the Democratic State House Ring will be less apt to exercise the fraud and corruption which has been characteristic of the State house Democracy of late. And then the current expense of running a Democratic Legislature, with Doughty and Quinn in the hands of the big Democratic tricksters, the Lord only knows what would become of the State treasury.

In temperance localities, Mr. Doughty, the Democratic candidate for Senator, presents himself as a strict temperance man, and claims the votes of temperance men on this account; while in the German districts and other localities where the liquor interests are large, he claims the suffrages of the people because he is the firm friend of those interests.

As a proof of this, since the nominations were made a Democrat was endeavoring to convince some Germans that Mr. Doughty was not a temperance man, and to clinch his argument he asserted that the day before when Mr. Doughty was in Egg Harbor City, he (Mr. Doughty) got so drunk that the Democrats had much trouble in getting him to the cars and out of town. If required, the affidavits of two or more reputable citizens can be procured to vouch for the truth of this statement.

The up-State Democrats who were transported to this county last week, in their speeches said Gen. McClellan ought to be governor because he had fought for his country and because Gov. Newell had not. Now the Democratic is the last party to revive the issues of the war, but since they have done so we would remind them that it is a poor rule that won't work both ways. If it is good in McClellan's case it is just as good in Mr. Gardner's case. Mr. Gardner was a soldier and Mr. Doughty wasn't. Mr. Gardner fought at the front. Mr. Doughty stayed at home. While McClellan did not receive a scratch, Mr. Gardner was wounded by the enemy's bullet at the battle of Williamsburg. And as, if we adhere to the virtue of the rule, Mr. Gardner's claim on the voters is doubly strong.

## THE

## EATON GOLD and SILVER REDUCTION COMPANY.

Office—No. 20 Church St., N. Y.

GEN'L JOHN C. FREMONT, . . . President.  
PROF. A. K. EATON, . . . Vice-President.  
W. W. HANLY, . . . Secretary.

This Company is founded upon discovering inventions and improvements in the reduction and treatment of Gold and Silver and other ores, which have recently been perfected. It is intended that its business shall be conducted by works of large capacity, which, for governing commercial reasons, will be near the city of New York, as well as by branch works in the mining districts, and by sale of its patent rights to other reduction works in this and foreign countries. The discoveries and improvements upon which the Company is based, have been made by Prof. A. K. Eaton, one of the ablest chemists and metallurgists of the present day. They have been reached during a practical and personal experience in mining and kindred occupations extending over a period of more than thirty years.

Twenty-six years ago Mr. Eaton invented and patented the Amalgamating Plates, which have ever since been in use at all the Gold and Silver Mills throughout the mining region. If the use of these plates were discontinued today, the yield of gold would probably be diminished one-half. In the same way his later discoveries are valuable and effective, and are marked by the same certainty and simplicity. The ores of nearly all the gold and silver mines are rendered more or less difficult by the presence, in combination, of zinc, sulphur, and other elements which gives them a refractory character, and which involves great expense and time in working, and great loss of gold and silver.

It is not too much to say that the great mountain region West of the Mississippi and Missouri rivers is occupied and populated only on account of its mines of gold and silver, and other metals. Over this whole country many of these refractory ores are left unworked, because their working would be too difficult and expensive under present modes of treatment. To all these ores Mr. Eaton's processes directly apply. They render their working comparatively easy and inexpensive, and give immediate value to this idle property, and employment to many thousands of unemployed men. These processes increase the yield as at present had, by from ten to forty per cent. The reports of the Consolidated Virginia and California mines, for the year ending December 31, 1876, show that only 75 per centum of the gold and silver contained in the ore is obtained by their present working, and the combined yield of these two mines for the year was \$28,043,722.00—thirty millions, sixty-two thousand, seven hundred and eighty-two dollars. By the Eaton processes, this yield could have been increased by six or seven millions of dollars. The gold mines of Senator Jones, in the San Joaquin Valley, gave him only 64 per cent. of what the ore contains. These mines are quoted because they are well known, and because every applicant that money and art could derive, under the ablest management, has been used to increase their production. Under Mr. Eaton's processes, it is claimed that out of most ores 97 per cent.—practically all—of the gold and silver can be obtained at much less cost of time and money than is at present required; that Base Bullion can be treated and refined at one-third the cost, and one-fourth the time at present used. In reference to this latter process, Prof. Torrey, U. S. Mint, New York, says: "I believe it to be an entirely new and very useful process. Theoretically, the mechanical and chemical principles on which it is based are correct."

Large amounts of gold and silver are now brought to this city for treatment and for shipment abroad, as also are large quantities of Base Bullion. The process of reduction is greatly facilitated by working together ores of a different character, and the Base Bullion now sent abroad, can be retained for treatment at the works in New York, under the improved process. For the purpose of a general demonstration of these processes, the Company has granted a limited right to a party in New York who is creating works capable of treating twenty-five tons of ore and twenty-five tons of Base Bullion daily, and the buildings and machinery for this purpose are in greater part ready.

They now desire to provide for the immediate erection of the larger works by sale of a limited portion of their patented stock, and it is in order to procure the required money without unnecessary conditions—their acceptance is in this way laid before the public. For this purpose a sufficient amount of stock will be sold at once on dollars per share, being 70 per cent. of the par value, and it is requested that persons who may wish to purchase, will apply personally or by letter to the Secretary of the Company, at No. 20 Church St. in which all communications and orders should be made, and from whom the Prospectus and other and more full information can be obtained.

Organs \$50 upwards.

This cut represents the Trade-Mark that will be found upon the arm of every  
Genuine Singer Sewing Machine.

The name of "The Singer Manufacturing Company" is also printed on  
the top of the arm; all others not bearing this trade mark and name are  
worthless imitations. Beware of them. Buy only of our regular agents. The  
Singer has, for years been the great popular machine, and more of them are  
sold than of all others put together. Last year its sales amounted to 262,316  
machines. It was also the leading machine at the Centennial, and carried off  
more honors than any other, having received four awards and a resolution of  
thanks from the Centennial authorities, and a "scroll of honor" from the ladies  
connected with the Woman's Department of the Exhibition. The Singer, lead-  
ing its competitors in everything else, led them also in reducing prices, by  
placing the machine that formerly sold for SIXTY, at

## Thirty Dollars

and making a like reduction on all other styles. Having skilled agents only to sell our machines, purchasers  
may be sure of getting proper instructions, and are guaranteed satisfaction in every particular. Send for  
circular. Orders by mail promptly attended to.

THE SINGER MANF'G CO.

Philadelphia Office 1106 Chestnut Street.

Can't be made by every agent every month  
in the business we furnish, but those who  
want to work can easily earn a down de-  
posit a day right in their own localities.  
Have no room to explain here. Business  
pleasant and honorable. Women and boys and  
girls do as well as men. We will furnish you an outfit free.  
The business pays better than anything else. We will  
bear expense of starting you. Verbal free. Write  
and see. Farmers and mechanics their sons and daugh-  
ters, and all classes in need of paying work at home,  
should write to us and learn all about the work at once.  
Now is the time. Don't delay. Address Tava & Co  
Augusta, Maine.

\$777 is not easily earned in these times, but  
it can be made in three months by any  
one of either sex. In any part of the  
country who is willing to work steadily  
at the employment that we furnish. \$60 per week in  
your own town. You need not be away from home  
over night. You can give your whole time to the work,  
or only your spare moments. We have agents who are  
making over \$20 per day. All who engage at once can  
make money fast. At the present time money cannot  
be made so easily and rapidly at any other business.  
It costs nothing to try the business. Terms and \$5.  
outfit free. Address at once, J. H. HALLETT & CO.,  
Portland, Maine.

GOLD. Great chance to make money. If you  
can't get gold you can get greenbacks.  
We need a person in every town to  
take subscriptions for the largest,  
cheapest and best illustrated family publication in the  
world. Any one can become a successful agent. The  
most elegant works of art given free to subscribers.  
The price is so low that almost everybody subscribes.  
One agent reports making over \$150 in a week. A lady  
agent reports taking over 400 subscribers in ten days.  
All who engage make money fast. You can devote all  
your time to the business, or only your spare time.  
You need not be away over night. You can do it as  
well as others. Full particulars, directions and terms  
free. Elegant and expensive outfit free. If you want  
profitable work send us your address at once. It costs  
nothing to try the business. No one who engages fails  
to make good. "The People's Journal,"  
Portland, Maine.

fer to any Commercial Agency. Send stamp for Agents'  
Circular. EXCELSIOR MANF'G CO., 110 Dearborn  
St., Chicago, Ill. 6000 Agents wanted.

## GREAT EXHIBITION

OF

## FALL AND WINTER CLOTHING.

We have already laid in as a part of our heavy stock  
one half Million Dollars' worth of Fall and Winter  
Clothing, which is now open to the inspection of the  
public.

## OUR MOTTO.

"We Lead—Never Follow." has not been  
lost sight of in getting up this great stock,  
which represents the Best, the Most Styl-  
ish, and the Latest—for Little Money.

We have brought low prices and stylish goods into  
Philadelphia, and we will continue to do so, and the  
people are showing their full appreciation of our efforts.  
We have no old shop-worn stock to offer you at 50 cts.  
on the dollar. Our goods are all new, this summer's  
make, and we can sell them so low, having bought the  
material in immense lots for cash.

## TO THE BOYS.

Boys' Clothing we would say that never has  
of School suits been so complete and hand-  
some this season. The splendid styles are only  
by the marvellously low prices.

WE ARE THE LEADING AND POPULAR CLOTH-  
ING HOUSE.
