Bank Brothers' Store

New Thought in Shoes.

People formerly expected a certain amount of discomfort in
stylish shoes. They expected it, and they got it.
It was one of the penalties they paid for being stylish.
Nowadays they have outgrown this old belief, and realized
that style doesn't necessarily mean sacrifice of comfort.

WALK-OVER SHOES

have been instrumental in this change of opinion.
Walk-Over Shoes have demonstrated that style, comfort and
service can be satisfactorily combined
in one pair of Shoes.
Stop in our store, and see for yourselves.

Men's Shoes from \$1.50 up to \$4, for dress and ordinary
wear, in all leathers and many styles,
lace and button.

Boys' Shoes from \$1.20 up to \$2.50. Good honest footwear
that will stand good wear.

Ladies' Shoes from \$1.20 up to \$4, in all leathers and many
styles, lace and button.

Children's Shoes from 75 cents up to \$2.

We will help you reduce your shoe bill.

It is estimated that about one-half of all deaths in the civilized world are due to tuberculosis, and chloxy is the most effective of the drugs commonly known as consumption.

From this statement alone one would suppose that the disease is exceeding fatal, and that a person once attacked had little hope of recovery. But when we consider that it is further estimated that nine persons out of every ten who have reached middle life have at one time or another had tuberculosis in the lungs or glands, and have recovered, we must conclude that it is one of the least fatal of serious ailments.

Tuberculosis is an infectious, contagious disease, due to the tubercle bacillus, which is found in the body of the tubercle bacillus. It is not an organ or part of the body, but the most frequent seats are the lungs and the glands.

In young children the intestinal glands are often affected. This causes a gradual wasting away, with diarrhoea and distention of the abdomen. In older children the glands of the neck may become the seat of tuberculous infection; this was formerly called scrofula. The bones and joints are not infrequently attacked especially the hip-joint and the spine. When the spine is affected, the spine is called Pott's disease.

The young are more frequently attacked, the predisposition to the affection becoming less with advancing years, although even the aged are not always immune.

It was formerly believed that the disease was hereditary, for it was seen in families down through several generations. Now the belief is that it is not hereditary, but that possibly the children of the tuberculous inherit a weakness of constitution which renders them less able to resist the growth of the bacilli. They are also more exposed to infection, because they live in the same house with their tuberculous elders and inhale the air laden with tubercle bacilli.

Modern medical science has done much to reduce the mortality of the disease. The belief is that it is not hereditary, but that possibly the children of the tuberculous inherit a weakness of constitution which renders them less able to resist the growth of the bacilli. They are also more exposed to infection, because they live in the same house with their tuberculous elders and inhale the air laden with tubercle bacilli.

CHOCOWA FOREST ARE GOING

Landmarks Vanishing

"We will cut 100,000 feet of lumber every day for the next twenty years from the choctaw forest of the Indians, from whom we have bought the timber as it stands," said a representative of the Frisco Lumber Company to a Kansas City Star writer at Muskogee, Okla.

The statement brings to light a significant condition that exists in the Choctaw forest of the Choctaw nation. The Choctaw nation is a small nation in the south of the United States, and the Choctaw forest is a large forest of the Choctaw nation.

The Frisco company has bought all of the timber within a radius of ten miles of its mill. It is buying more every day. Through an order of court, 25,000,000 feet of timber was bought in one tract from the Choctaw nation of the Choctaw nation. The Choctaw nation is a small nation in the south of the United States, and the Choctaw forest is a large forest of the Choctaw nation.

THEY MIGHT BE HUMAN

Prettiest Girl Was Thoughtless As She Drove to School

"But, Nan Burdick, are you going to risk ordering coffee at a place like this?" cried the prettiest girl. "Hero! Let me taste yours to see if I can stand it. No, thank you," after one sip, "Mercy! I'll take water!"

The young fellow who was serving from behind the counter, flushed as he turned away. "Is the coffee so very bad?" he asked anxiously of a lady who was drinking some of it at the farther corner of the booth.

"No, it is not," she told him, pleasantly. "Thank you. We try to make it as good as we can."

Three months later the same prettiest girl, on her way to California, found herself in Santa Fe for the first time. As usual, during the wait of the overland train there, Indians from the country round were lined up near the station, wearing baskets, making rugs and selling curios. The prettiest girl was fascinated by the sight.

"Isn't he perfectly handsome?" she demanded of her brother, stopping square in front of a young Indian who was looking at her with a stare.

"Look at his pose! I've always thought of them as ugly and dirty, but I'd like to have him for an ornament on the lawn."

"ANTS" OF HERODOTUS

One of the earliest, if not the first, of the ancient historians, Herodotus, was a Greek, and he lived in the fifth century before the Christian era.

"The Father of History" gives a cautious admission of probability, but by no means a cordial assent to the "ants" of the mysterious "repeats and explains."

It was said that, in the extreme northwest of India there existed a race of enormous ants, whose peculiar mission in life was the digging out of gold. Traders, mounted on swift camels, occasionally seized the gold which was accumulated in heaps by these excavating ants. When they returned to the city, they were rapidly seized, pursued by other ferocious guardians of the soil, in the form of fierce wild beasts, which slew them if they caught them.

Among all the ludicrous exaggerations of the ancient historians, this story, which is a remarkable instance of the tendency of the human mind to believe what it wants to believe, is repeated in every tale of the East that is told by compilers and adventures before the days of Herodotus, and is only a variation of the same old story.

It was not until, in recent years, the trans-Himalayan explorers of the Indian Survey recorded their experiences that any light could be thrown on the origin of it.

"I am an explorer, making their way painfully over the terrible altitudes which intervene between India and western Tibet, reached at length the gold mining districts which lie beyond the mountains on the great western plateau. Here they discovered the trans-Himalayan explorers of the Indian Survey recorded their experiences that any light could be thrown on the origin of it."

DROPPED-OUT OF EXISTENCE

Why a Resident of Australia Was Reported as a Suicide

"Three times I have been to the 'suicide' declared John W. Bidleman, a produce merchant of Melbourne, Australia, at the Arlington yesterday, according to the Washington Post. Mr. Bidleman is about 60 years of age and has a face that reveals much individuality."

"No, I did not take poison nor drown myself nor do any of those things that people ordinarily do when they take their own lives," he went on. "I simply dropped out of existence, each day, forgetting the old surroundings and living again in new ones. I have come to believe that the best remedy for despondency is a new environment, to be gained at whatever the cost."

"I was born at Bangor, Me. My father was a carpenter and I grew up into the life of the town about as the ordinary boy would. When I was about 17 years old I developed an insatiable desire to travel, had wanderlust, as the Germans call it. I wanted to go somewhere, but he did not want me to. Everything seemed commonplace and dreary to me and for two years I became more and more depressed until my folks despaired of my health. One night, more than thirty years ago, I accidentally discovered my father's pistol and thought that it was the solution of the difficulty."

"I thought that no existence at all would be better than the one I was living. My mother was dead, and father, I thought, was a failure. But it occurred to me that it was the environment that did not suit me, and that I might better find a new life somewhere else. So I worked my way to New York and, against my will, was shipped on a sailing packet. From there I went to London. I tried to forget the old life, and lived in the new. I entered a mercantile establishment, worked my way up slowly until I earned a fair salary. I married there. The old man had been questioned by seven years, my wife died, and soon I became despondent again. I know London well. Things did not interest me. I felt that I must go somewhere. The loss of my wife at one time made me feel that I must go somewhere. But, for long, and taking my savings, I sailed away to Australia, where I drifted into the produce business and have lived there ever since. But thirteen years is a long time for me to remain in one place. For a year I have had the suicide mania, and now I am going to find some city in the United States to live in the rest of my days."

CHILDREN CLEAN STRAITS

Good Citizens' Club Keeps Neighbors Free from Litter

The Pleasanton, Calif., Citizens' Club has solved the problem of littered streets, in so far as the children of that school are concerned.

At first an attempt was made at abstract teaching, says the Boston Transcript, but it was without effect. Then something practical was devised. Each room held an election and selected four representatives for the Good Citizens' Club, making about fifty in all.

These met and selected officers, divided up the streets of the neighborhood and assigned a portion to each grade, making it absolutely responsible for conditions in its territory. Waste receptacles were needed and the children were instructed in the proper use of them. The children were given a list of things to do and get them.

To keep up interest the teachers are conducted by the various grades which they call their "beats." Healthy emulation has produced most desirable results.

Cleanliness and freedom from possible children should not handle dirty papers, sticks of fruit and other refuse with their fingers, as the manual training teacher got some volunteers from the club and collecting sticks were prepared for the workers.

The results of the experiment are manifest, and many favorable comments have come in from citizens and from the media of the street department. School papers, which may easily be detected, are rarely found on the streets. It is observed, however, that refuse from other sources continues about the same, and it is thought it will probably continue so until adults learn from the children or till the younger generation takes the place of the present careless one.

The principal of the school says that one thing is certain, the members of the Good Citizens' Club of that place school have beat their backs 2,000 times in the course of a single week to pick up papers in our streets with indifference.

"I suppose you enjoy chemical music?" "No," answered Mr. Cumro, "I don't exactly enjoy it. But as a social diversion it's more interesting than trying to keep up a conversation." Washington Star.

It was formerly believed that the disease was hereditary, for it was seen in families down through several generations. Now the belief is that it is not hereditary, but that possibly the children of the tuberculous inherit a weakness of constitution which renders them less able to resist the growth of the bacilli.

JOHN'S OPINION

"John, my little dog, Prince, has something the matter with him. What do you suppose it is?" said the fashionable lady.

"And now, as you kiss him, ma'am?" asked the coachman.

"Of course, I kiss him." "Well, then, perhaps it's microbes he has, ma'am!"—Yonkers Statesman.

"That odious Mrs. Bransley just gave this afternoon to borrow my best parrot. She said her parrot didn't quite match her gown."

"What did you tell her?" "I told her—'Idiot!—don't hear a parrot!'"—Cleveland Plain Dealer.

"Does your new chauffeur give satisfaction?" "Yes, I think we are going to be very well pleased with him. He ran over two people yesterday and managed both times to get away before anybody discovered our number."

"Sweetly Said." The influence of locality upon speech is illustrated by a reply received from a Vermont farmer and quoted in the Boston Record.

"The old man had been questioned by seven years, my wife died, and soon I became despondent again. I know London well. Things did not interest me. I felt that I must go somewhere. The loss of my wife at one time made me feel that I must go somewhere. But, for long, and taking my savings, I sailed away to Australia, where I drifted into the produce business and have lived there ever since. But thirteen years is a long time for me to remain in one place. For a year I have had the suicide mania, and now I am going to find some city in the United States to live in the rest of my days."

"I thought that no existence at all would be better than the one I was living. My mother was dead, and father, I thought, was a failure. But it occurred to me that it was the environment that did not suit me, and that I might better find a new life somewhere else. So I worked my way to New York and, against my will, was shipped on a sailing packet. From there I went to London. I tried to forget the old life, and lived in the new. I entered a mercantile establishment, worked my way up slowly until I earned a fair salary. I married there. The old man had been questioned by seven years, my wife died, and soon I became despondent again. I know London well. Things did not interest me. I felt that I must go somewhere. The loss of my wife at one time made me feel that I must go somewhere. But, for long, and taking my savings, I sailed away to Australia, where I drifted into the produce business and have lived there ever since. But thirteen years is a long time for me to remain in one place. For a year I have had the suicide mania, and now I am going to find some city in the United States to live in the rest of my days."

It was formerly believed that the disease was hereditary, for it was seen in families down through several generations. Now the belief is that it is not hereditary, but that possibly the children of the tuberculous inherit a weakness of constitution which renders them less able to resist the growth of the bacilli.

Modern medical science has done much to reduce the mortality of the disease. The belief is that it is not hereditary, but that possibly the children of the tuberculous inherit a weakness of constitution which renders them less able to resist the growth of the bacilli.

CHOCOWA FOREST ARE GOING

Landmarks Vanishing

"We will cut 100,000 feet of lumber every day for the next twenty years from the choctaw forest of the Indians, from whom we have bought the timber as it stands," said a representative of the Frisco Lumber Company to a Kansas City Star writer at Muskogee, Okla.

The statement brings to light a significant condition that exists in the Choctaw forest of the Choctaw nation. The Choctaw nation is a small nation in the south of the United States, and the Choctaw forest is a large forest of the Choctaw nation.

The Frisco company has bought all of the timber within a radius of ten miles of its mill. It is buying more every day. Through an order of court, 25,000,000 feet of timber was bought in one tract from the Choctaw nation of the Choctaw nation. The Choctaw nation is a small nation in the south of the United States, and the Choctaw forest is a large forest of the Choctaw nation.

Winke—Most divorces are caused by a very common mistake. Winke—What is it? Winke—Many a man in love only with a dimple or a curl makes the mistake of marrying the whole girl.

By W. A. DUPUY

The fire fiend has gone careering through the American forest for the past two months in a way unprecedented in the nation's history. From Maine to California he has run rampant seeking what he might devour, and in every State he has found material in waiting—any conditions favorable to his coming.

"What did you tell her?" "I told her—'Idiot!—don't hear a parrot!'"—Cleveland Plain Dealer.

"Does your new chauffeur give satisfaction?" "Yes, I think we are going to be very well pleased with him. He ran over two people yesterday and managed both times to get away before anybody discovered our number."

"Sweetly Said." The influence of locality upon speech is illustrated by a reply received from a Vermont farmer and quoted in the Boston Record.

CARBOLIZED REMEDY FOR SKIN DISEASES

The Republican.

Issued every Saturday morning.
[Entered as second class matter.]

SATURDAY, NOV. 7, 1908

It is President Taft!

After a vigorous campaign of unusual
effort, William Jennings Bryan has been
defeated for the third time. This result
is the more appreciated because of the
confidence which his managers in all
grades expressed in his ability to elect
the "great Commoner."

Of course, not all returns have been
received, but at this writing, Mr. Taft
seems assured of 320 electoral votes;
Mr. Bryan 163. Necessary to elect, 242.
There are several states to hear from,
but the result cannot be changed ma-
terially.

New Jersey did her part well, giving
about 10,000 Republican plurality. She
gave Roosevelt 50,000; but the recent
commercial depression induced many to
call for a change, and in most places
majorities were reduced.

We sincerely rejoice over the result,
and shall expect governmental affairs to
run on smoothly under the administration
of a man entirely in harmony with
our most excellent President Roosevelt.

To our Democratic readers we have to
say, don't be too hasty in your criti-
cism. Mr. Taft will be President of the
United States—yours and ours—and we
should have sufficient confidence in the
people's choice to give him full opportu-
nity to "make good" in all that he
has promised.

THE PEOPLE SHALL RULE

An aged Hammoncton lady, the widow of
a soldier well-known, wrote this on Wednesday

The Republicans laughed
When they heard of Taft,
But poor Bryan sat there crying,
"Defeated! Defeated!"
Republicans cheated!"
Never mind, Bryan,
If they make of you a fool,
The country is safe, and
"The people shall rule!"

Worthy of Investigation.

We desire to call general attention to
the new anti-cigarette law, which it
will be well for dealers and others to
heed. Here it is:

Hereafter, no person shall furnish
cigarettes or cigarette paper, or tobacco
in the form commonly known as ciga-
rettes, by sale, gift, acting as agent, or
otherwise, to any minor under the
age of eighteen years, and any person
so offending shall be guilty of a misdemean-
or, and on conviction thereof shall be
punished by a fine not exceeding fifty
dollars (\$50), or imprisonment in the
jail of the county where the said viola-
tion was committed for a term not
exceeding three months, or both, at the
discretion of the court before which such
offender or offenders shall be convicted.
—Chapter 17, P. L. 1908, approved
March 17, 1908.

Wo, and others, have seen boys, big
and little, smoking cigarettes and pipes.
Where they secured them is a question.
It is a matter which parents should in-
vestigate, and possibly it might come
under the jurisdiction of the Board of
Education, which has so much author-
ity under State laws, in matters which
affect the welfare of children.

An ex-ronet is talked of by Re-
publicans to Town, to which everybody
in this section will be invited. If decid-
ed upon, it will be well advertised,
made well provided, and everything
done to make everybody happy.

ZAMBONES, New outings—sundae, ya

The Philadelphia Record has
this to say of the Lotus Club Club,
which sang at a banquet to Governor
Stuart: "It was universally agreed that
their was the most artistic and high
class concert ever given by any male
quartette at the Union League."

PINE Washing, tending and mending done.
Corner Egg Harbor Road and Grape St.

NOTICE. All records must be in the
hands of the Clerk of the Board of
Health by the 15th of the month. It will
facilitate matters if immediate notifica-
tion be made to the Board of all births,
deaths, and marriages.

Dr. J. C. DRYDEN,
Recorder of Vital Statistics.

FOR SALE.—12 acres, good house and barn,
also 10 acres, in fruit and berries.
H. Nott, 16th Street and 3rd Road.

We regret to learn that Rev. D.
C. Stewart has resigned the pastorate
of the Presbyterian Church, to take of-
fice Dec. 1st. An elegant speaker, a
gentle gentleman, an earnest worker,
his departure will be a loss to Ham-
moncton. We are told that his future
field has not been decided upon.

Election Day.

The weather was fine, Tuesday, with
bright sunshine and moderate tem-
perature. Hammoncton cast the largest
vote in her history,—804 ballots in all.

There was glimmer enough in the local
campaign, with a three-cornered fight
in several cases; and the whole was
complicated by the Italians, who nomi-
nated nearly a full local ticket and polled
a heavy vote by the use of stickers.

In the first precinct, the badly stuck-
up stickers kept the Board busy all night,
until about 4:15 Wednesday morning;
the second did not complete counting
until ten o'clock. A pretty weary lot
of men, who earned their pay.

The boys had their fun, Wednes-
day night, irrespective of party prefer-
ence. They organized a drum corps,
with tin cans and washbowl, and a
small toy horn for a fife, and paraded
the streets making a delightful (?) racket.

Others gathered several wagon-loads
of old barrels and boxes, and near mid-
night had a huge bonfire on the hall
grounds.

WANTED—Information of a farm in this
county. No attention will be paid
unless exact location, complete description,
lowest price and terms are given. Address at
once, James H. Boggs, 1250 E. 9th St.,
Philadelphia.

Until near midnight, Wednes-
day, a stereopticon was located at the
corner window of Dr. Fisher's office, con-
tinuously made with the Keystone through-
line, and election news thrown onto a
canvas outside. There was a throng of
people out there, and kept themselves
warm by cheers and jokes until Taft's
election was seen to be sure.

MISS Laura P. Dobbs, Graduate Teacher of
Music. For terms, etc., send a card to
"Whispering A.V. College, N. J., and
I will call on you in Hammoncton next week."

WANTED—Homes cleaning or any kind
by the day. Address,
Mrs. Mary, Box 106, Hammoncton.

The contract for R. G. Scudder's
house has been given to a Camden con-
tractor, the work to be done mostly
by Hammoncton mechanics. The cellar
has been dug, and masons are building
foundation walls of Trenton stone.

Walter Verrier has plumbing and heat-
ing contract, and LeRoy Jackson will
put in the electric light system. The
house is to be of the bungalow type,

DO YOU NOT KNOW?
If you do not, you can find out by a very little investigation that

The Hammonton Paint

Is the very best paint that was ever used in Hammonton.

There are scores of buildings that you see every day, painted with the Hammonton Paint eight to twelve years ago, and looking well at the present time.

The Hammonton Paint is sold for less than any other first-class paint. It has no equal, as it works well, covers well, and wears well. Sold by

The public is cordially invited.

The "Doctor Engelhardt," the finest
pink Chrysanthemum, to date,
is now in its glory.

Dee's Laxative Cough Syrup always brings relief to coughs, colds, hoarseness, whooping cough and all bronchial and throat trouble. Mothers especially recommend it for children, as it is pleasant to take. It is gently laxative. Should be in every home. Guaranteed. Sold by City Pharmacy, D. B. Rhone, Prop.

Manzan Pills simply come ready to use with no side attached. Soothes, heals, reduces itching and inflammation. An operation for piles will not be necessary if you use Manzan. Price 50c. Money refunded if not satisfied. Sold by City Pharmacy, D. B. Rhone, Prop.

Itzings Little Liver Pills for biliousness, sick headache, indigestion, constipation, etc. They do not gripe. They keep you well. 25c. Sold by City Pharmacy, D. B. Rhone, Prop.

Hands cracked and bruised from breaking, skin disease, tan, freckles, cuts relieved at once with Pine Salve Carbolyzed (acts like a poultice). Draws out inflammation. Price 25c. Sold by City Pharmacy, D. B. Rhone, Prop.

Wood's Liver Medicine in liquid form for malaria, chills and fever, regulates the liver, kidneys and bladder, brings quick relief to biliousness, sick headache, constipation. Pleasant to take. The 81.00 bottle contains 2 1/2 times the quantity of the 50c size. First dose brings relief. Its tonic effects felt at once. Sold by City Pharmacy, D. B. Rhone, Prop.

What the Kidneys Do.

Their Unceasing Work Keeps
Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily. When unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, discharges, irregular heart, debility, drowsiness, dropsy, deposits in the uric acid. But if you keep the filters right you will have no trouble with your kidneys.

Thos. Baker, living on French St., Hammonton, N. J., says: "I suffered considerably from a dull, heavy pain through the lower part of the body. I was unable to find a remedy that would give me relief, and was at a loss to know from what source the trouble arose until my kidneys became irregular in action. Learning of the merits of Deane's Kidney Pills, I procured a box at the Red Cross Pharmacy, and received great relief. I take pleasure in recommending this excellent remedy to other sufferers."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York; sole agents for the United States.
Remember the name—Deane's—and take no other.

Pinesalve Acts like a
Carbolized poultice. Good
family salve.

AN Amendment to an Ordinance entitled "An ordinance providing for the licensing of circuses, menageries, theatrical exhibitions, moving picture shows, and other amusements," introduced July 6th, 1908, and passed August 15th, 1908.

Amendment introduced Sept. 5, 1908.
Passed October 3, 1908.

Be it ordained by the Town of Hammonton, in Council assembled, that the portion of Section two of said ordinance, relating to the license fee for theatrical or minstrel shows be amended to read as follows: "For theatrical or minstrel shows one dollar (\$1.00) per day for the first week, and twenty-five cents per day thereafter."
[Signed] M. L. JACKSON, Mayor.
Attest: W. R. SEARLY, Town Clerk.
