Put in a basin full of tepid water as much boracle acid as can be placed on a dime. When it has entirely dissolved bathe the eyep gently. Do not be afraid to show the water to get into the stre, as it will remove all inflammation and tend to make this important beauty feature clear and brilliant, at the same time giving a restful and strengthening effect.

The broad collar trimming and jauntity cuts, together with the stylishly cut skirt, are a few of the attractive points in this model. The skirt may be developed in high or regulation waistline. The water is cut low over a guimpe or tucker of lace. Cloth, velvet or silk may be used for this design. The pattern is cut in 5 sizes, as, 36, 38, 40 and 42 inches bust measure. Hammonton's best people are commending Town Council for their action in turning down Angelo Mazzio's application for license. An "inn or tavern" is entirely unnecessary in that locality, would not conduce to the public good, and only have added another place (so NOW IS THE TIME they say) on that road where heads of families and some of a younger generation could "drown their sorrows."

While we heartily endorsed the three Republican candidates for Council, we were only successful in landing two of them. However, we are pleased that so worthy a young man as John F. Baker, whom every one honors and respects, was successful. Mr. Baker did not try for the office, but acceded to the wishes of his friends. As to Freeholder Mr. Osgood has given satisfaction, and doubtless Mr. Hoyle would have done well; but the majority of voters evidently thought,-what's the use of changing?

Town Council's roll will, after noon on New Year's Day, read as follows: F. C. Burt (Mayor), Henry Nicolai, Wilson S. Turner, Robert H. Sharpe, Swain T. Godfrey, John F. Baker, Anton Piez.

Over twenty per cent of those who voted on appropriations, erred marking their ballots, putting their x in the outside column, under the heading "against." There was no such column in the sample ballots sent out.

The election in the County resulted in a triumph for the Republican licket,-every one of their candidates being elected.

That was the fourth fire the writer went

Thus the mail of one family is needlessly called for by children twelve or fifteen times a day for five consecutive days in a day for five consecutive days in Committee the week, without receiving a soli-

This is how a rural editor appealed to his readers; "If you have frequent headaches, dizziness and fainting spells, accompanied by chills, cramps, chilblains, epilepsy and jaundied, it is a sign that you are not well, but are liable to die any minute.
