I Have Drank My Last Blass.

ocomrades, I thank you, not any for me; My last chain is riven himpsforward I'm free! I will go to my bome and my children to hight With no fomes of liquir thier spirits to hight, And with tests in my syss, I will beg my poor wife To forgive me the wreck I made of her life! I have never refused you before!" Let that pass, For I've drank my last glass boys, I've drank my last glass !

Just look at me now, boys, in rags and disgrace, With my bleared, haggard eyes, and my red, bloated

Mark my faltering step and weak, palsled hand. And the mark on my trow that is worse than Cain' brand: ny crownless old hat, and my elbows and knees

Alika warmed by the sun or chilled by the breeze: Why, even the children will hoot as I pass-But I've drank my last glass, boys, I have drank my last glass !

You would hardly believe, boys, to look at me now, That a mother's soft hand was once pressed on my brow. When she kissed me, and blessed me, her darling, her

Ere she iny down to rest by my dear father's side; But with love in her eyes, she looked up to the aky. Bidding me meet her there, and whispered "Good-bye, And I'll do it, God helping ! Your smile I let pass, For I've drank my last gl aar, boys, I have drank my last glass !

Ab ! I realed home but nighti-it was not very late. For I'd spent my last sixpence, and landlords won't

On a poor fellow who, sleft every cent in their till And has nawned his last bed, their coffers to fill. Oh! the torment I felt, and the pange I endured! And I begged for one glass-just one would have cured But they kicked me out doors !- I let that too pass, For I've drank my last glass, boys,

I have drauk my last glass ! At home my pet Busic, with seft golden hair, I saw, thro' the window, just kneeling in prayer, From her pale, bony hands, her torn alseves strung down

While her feet, cold and barn, shrauk beneath her scant And she prayed-prayed for bread, just a poor crust For one crust-on her knees, my pet darling plend;

And I heard, with no penny to buy one, alas! But I've drank my last glass, boys, I have drank my last glass! For Susie, my darling, my web six-year-old. Tho' minting with hunger and shivering with cold, There on the bare floor, asked God to bless me.

And she said, "Don't cry, mamma! He will! for you see, I believe what I sak for I's Them, solor I cropt Away from the house ; and that night when I slept, Next my heart lay the PLEDOB-You smile! Let it pus

But I've drank my last glass, boys, I have drank my last glass ! My darling child saved me. Her faith and her love Are akin to my dear sainted mother's above? I will make her words over, or I'll die in the race, And sever I'll go to my last recting place; And she shall kneel there, and weeping, thank God No drankard lies under that delay strews sod! Not a drop more of poison my lips shall e'er pass

For I've drank my last glass, loys. I have drunk my test glass !

Our Washington Letter.

WARRINGTON, D. C., Nov. 11, 1878. We have advanced so far from the elections of last Tuesday that most of us have assumed our normal relations with the world and each other, though not a few totense Bearbous and the most rampant of Greenbackers find it diffioult pulling up from the douths of despendency into which they were cast by the about descent and utter complition of the sir castle in which they had so long been demiciled. Few Republicans are tound so exacting as to express anything but the profoundest satisfaction with the general results. It cannot be disguised that useday a versicts are almost uniformly inter proted here as force esting a solid North against a solid South hereaf or, if the Bout is so blind and wedded to her ania war idole as to revive the old rightlenger attached to Mason and Dixon's lim We disarmed to her presence to show the smeerity of our desire for the restors tion of traterent teetings and relations between every rection. Every pretext for the persecu tion of Southern Republicans was removed, and the Goneral Government throw the weight of in influence to layer of the miteration of "local Gayetument." About everything was conceded to the Demograts that they could think to ask for, and in return se had the Southern Demecratic party piedged to an observance of the reconstruction legislation of Congress, in letter and spirit, by Hampton, Gorson, Lamar, Ben Hill and a few others who came as the special planipotentiaries of the lately rebellious elements at the South. The liewof Republicans killed, mutilated and driven from their homes during the empaign just closed, cannot be explained away on any theory ether than that our confidence has been abused and that the pledges of good behavior have been repudiated. But from the present indications the pretended election of Democrate in districte heretofere Republican by from \$.000 to 20,000 majority, wil: re not more damagingly on the South than the loss of intoe that number of Rapresentatives fraudulently returned by I maday's alleged

The relative strength of parties in the house of the 46th Congress continues to engress the attention of the political and partines arithme tiolans. The estimates very with the party predilections of these making them; but from the most reliable data now at hand, and leaving California out, it will probably stand about se

follows to a total of 289 members : Bepubli ouns 136, Democrate 157, Greenback 6. In this estimate some of the Orestbuckers have bush given to one or the other of the two great parties secording to their antecedents. The magertainty still amging over some districts made up of towns without, telegraphic or very, libera muil facilities, makes it impossible so give mare accurate figures till the character of the sucerstul candidate shall have been determined:

Except Bourbon Democracy; no oless of men have more eccasion to feel "cut up" over the Empire State's verdict than Mr. Cowaling's personal enemies. Those candid enough to speak their convictions are forced to acknowledge it a personal triumph to the New York Senator, such us is rarely achieved by any man. Ex-Senator and Secretary Chandler also comes in for rath er mure than his proportionate share of the complimentary things said of those specially entitled to Republican gratitude for our tri umph. But now that we have somewhat recovered from the first exhiberating effects of the tidal wave and have dispussionately set about paying the debts we have incurred of the leaders who organized the great victory, the same of Blaine is oftenest heard. He has hardly rested since he put on his armorto lead the Republicans columns in Maine. The reverse sail fered there seems only to have made the criti as I nature of the struggle more apparent to bim and to have inspired him to almost superh offerts. He is said not to have mered a week since he put on the harmen early in August. No figure of all those who have occupied the field in this campaign so accurately this the character which Kearney made ridiculous in applying to Ben Butler, as Biafor's. Whether in Massachusette, beyond the Bocky Mountains, or at intermediate points, his campaigning has boen in the nature of a opptimeous ovats like the conquerors triumphat entry into the by that he has relieved from the besingers and it vividly recalls some episodes in the life of the First Navoleon:

Committees are aiready at riving in anticipa tion of the early convening of Congress. The President and heads of Departments are busy with the annual message and reports.

[For the down Jazair Rapts [1].] Heels over Head.

In his normal condition, man's head is over his heats, so that, when we behuld a use with nis relative position :reversed, we propented him wrong ond up. When this inversion, procoods from sudgen and susapported loss of equilibrium, it usually occasions more or less pain and mortification, and naturally excites our ympathy But when a man purposely misplaces his centre of gravity in order, that his head may be where his heels should be, he sub fore just and we waste no sympathy on him.

But what shall we say of those, who is a fig mative sense, are wrong and up. Of these whose beels may be considered over their beads, because they munifest a desire to exalt them to hat position by giving more time to their education or training One might imagine their brains to be in their beels. Few, however, will claim that a man's beels are his chief and.

And yet when the danging season opens, man Hammoutonisus turn all their thoughts down ward, and dance away their money and their time. This amusement is not to be altogether condemned. We know that it helps too young in acquire case of manner and gracefulness in sotion; and we do not think that the dance step is necessarily the one best delouisted to carry the people over the r ad that leads to dethe medera dence where great liberty of menper and unlicensed speech are encouraged, there muy be no influences leading people one of that mruad road : but such dances are not common in our village. In itself, dancing is a harmless amusement, for right-minded persons, for their purity and modesty, will keep them out of dan gerous forms. It is to be condemned only in its abuse, or excess. It is indulged in to excess when it units people for the discharge of their duties. So for the young it is dangerous when they think of it more than of their studies. As a obserful recreation it will help them, but it hinders them when made their compation. If they wish to go through life heads over head, they cannot dance too much.

The whole North has pronounced for a sound national currency. Why did not the "solid South" go and do likewise? What is there sectional in such an issue that the array of the North in its favor should excite uneasiness? If the "solid Bouth" prefers irredeemable rags to gold and silver, is that any reason why the North should imitate so bad an example? Mr. Clay and Andrew Jackson were both Southern men, and yet both wanted a sound national currency.

Gen, Gilmore has been in Charleston, S. C., for several days, arranging for the transportation of granite and other material for the national jetties in the harbon thers. The work will be commenced en December lat on the Sullivana island of north jetty.

South Carolina. The Election Frauds Reported to Have

A special despatch from Weshington to rleston (S. C.) district, has written a tter to a gentleman in Philadelphia de- Atlantic County Election Returns, eribing the method carried out by the Democrats to make that state solid. The letter stated that in ward three of Charlesten at poll No.1, W. L. Daggett, one of the Demouratio managers, stuffed 2,500 Salse tickets in the box after the poll was closed. The managers, although they found there were 8.569 ballots in the box, declined throwing out any, but returned the vote of that poll as 461 for Mackey, and 3,108 for O'Connor. At the other moll in this ward, through the same kind of an act, the managers returned 121 for Mackey and 1,866 for O'Counor, so that want of the eight to the city was made

to give O'Connor a majority of 4,392, It messy to perceive the impossibility of wating 8,569 men at one poli in the space of twelve hours, yet at this poll the manmgers made a return under oath that 8,569 marsons yoted in that space of time. That would be a steady stream of votes at one pol averaging very nearly five to the minute. It is the height of absurdity to make much an assertion. By this method Charleston city was made to give O'Conmer a majority of 6,587, or a majority meater than the entire Democratic vota of the city. Throughout the county and district, the boxes were stuffed in the more way.

The Democrats not satisfied with stuf Con.ingus. Ang the boxes, finding it impossible to minff the ballot-boxes in ward six, because of the vigilance of the U. S. Supervisors mut out the lights, stole the box, and de stroyed it because it gave Mackey 500 maparity. On Edisto Island where 1,000 Rediesn voters reside, and where the Democrats have only 40 or 50 votes, the Prosocratic Commissioners failed to open the polls, thus actually disfranchising these voters. The Northern Democra cought to be proud of their honorable and **Mest**ric Southern allies. Juhnern.

South Carolina's Cotton crop is excel-lant, but her crup of politicians shows lit-ther no signs of improvement. The majority for Diebee, Republican, in the Second Congressional District of Flor-this is reported to be 235.

Rase Attainable by the Rassmatic.

Yes, although they may despair of relief, it is attainable by rheumatic uniferers, for there is a remedy which carries off, by means of increased solivity of the kidneys—important channels for bleed purification—the arried element to which pathologists the most eminent attribute the painful symptoms—a theory completely borne out by urinary analysis. The mans of this grand depurent is Hostetter's Ritter, a preparation likewise celebrated as a remedy for constipation, which causes containmation of the blood with the bile—and a pertain means of relief in dyspepsis, fever and ague and nervous aliments. It is, perhaps, the finest bonic extent, and is highly recommended as a medicinal stimulant by distinguished physicians and analysis, who pronounce it to be eminently pure and very beneficial. The press also indorses it.

William Grace.

William Grace.
As a general inquiry of "What is Grace's Saive, and who is its originate; "may seem to be a question worthy of being answered, we have been induced to give the following brief, yet trathful account of its history: This Saive its a "weathable presearation, invented in the have been induced to give the following brists, yet tratiful account of its history: This Baive its a vegetable preparation, invented in the seventeenth century by Dr. William Grace, who was surgeon in King James' army, and who from that time always used it in his prowho was surgeon in King James' army, and who from that time always used it in his professional practice, whenever screness or inflammation presented itself. As a medical sgent for the cure of wounds, it was followed with great success, and thousands of the veterans that were wounded in the campaigns of 1868 and 1639 owed to this salve the salvation of their lives. Gol. Blohard Grace, who was Eing James' chamberiain, introduced this fialve into the royal palese, where it was used with the greatest success, and highly exteemed for its virtues in the cure of suces. At the siege of athlone, Col. Grace ordered it to be administered to his compatricts who were wounded during the memorable day of the battle; and it was used with such success that the head surgeon of the army at Anghrim ordered Dr. Grace to manufacture 100 gross, and distribute it among the hospitals before the battle. On the sad defeat at Aughrim, atter dinkle's army took possession of the battle-field, several ambulances, which had been abandoned by the retreating army, were found to contain sealed cases of the Salva. The English surgeons tested it upon their wounded and ascertained its value, and thus were both of the contending armise befriended by it. Both Dr. William Grace and Col. Bichard Grace died in the campaign of 1691—the former of disease, the latter filled in the intrenchments of Athlone, with the figs of his-country wrapped avona him, cheering his men on to victory. After the death of Dr. Grace, the Salve was not used much outside of his family, until the rebellion of 1798, when William Grace, grandfather of the subscriber, applied its virtues, at the battle of Boss. to his brave, consides who fall wounded while fighting for the rights of their country. This salve was quite extensively used in certain localities of Ireland, being furnished fractions by the subscriber, applied its virtues, at the battle of Boss. to his brave, construes who fall wounded while fighting for the rights of their country. This salve was quite extensively used i

A Meddun Death.

There is comething terrible in the thought of having our friends stricken down at our side, without a parting word of endearment or consolation—one moment at our side in the finsh of vigorous life, cheering our hearts with their of vigorous life, cheering our hearts with their loving sympathy; the next at our feet, pale with death, deaf to our cise and heedless of our tears. Every excessively fat person is in instant danger of such a death. Seven-tenths of the victims of obseity die of heart disease or apoplexy. Allan's Anti-Fat, the only remedy for obsetty, reduces the weight by regulating the digestion and assimilation of the food. It is parfectly harmless, and its use will insure in every instance, a reduction of weight, from two five pounds a week.

To be of permanent benefit a medicine must reach the source of the disease. The reason why Scovill's Blood and Liver Sirup is so successful in overcoming acrofulous, syphilitio and eruptive complaints is that it entirely roots out those impurities which give ries to them. The cause of the evil being thus removed and the nursal purity of the disease them. moved and the normal purity of the circulation restored, the skin resumes its original clearness and sorce and pimples disappear. Sold by all drugstets. druggists.
