Be Thorough, Boys.

Whatsoever you find to do,
Do it, boys, with all your might.
Never be a little true,
Or a little in the right.

Trifles even
Lift to heaven.
Trifles make the life of man;
So in all things,
Great or small things,
Be as thorough as you can.

Let no speck their surface dim--
Spotless truth and honor bright;
I'd not give a fig for him
Who says that any lie is white.

He who falters,
Or twists or alters
Little atoms when he speaks,
May deceive me,
But, believe me,
To himself he is a sneak!

Help the weak if you are strong;
Love the old if you are young;
Own the fault if you are wrong;
If you're angry, hold your tongue.

In each duty
Live a beauty.
If your eyes you do not shut
Just as surely
And securely
As a kernel in a nut.

Whatsoever you find to do,
Do it, then, with all your might.
Let your prayers be strong and true--
Prayer, my lad, will keep you right.

Prayer in all things,
Great and small things,
Like a Christian gentleman.
Fall you never,
Now or ever,
To be thorough as you can.

Our lamented Vice-President Hobart
was one of the foremost millionaires in
New Jersey, but he began his career in
humble circumstances. The son of an
honest country school teacher, he had
no special advantage except the blood
of good sturdy stock, and an education
acquired in school and college mostly
through his own determination. He
was not ashamed, when his success in
life came to him, to recall the days when
he sold butter and eggs in a Paterson
grocery store, and when he began his
business and professional career with a
capital of exactly \$1.50. This was but
a little more than thirty years ago, and
offers one more proof to the bright, am-
bitious and struggling boys in America
that the republic has still opportunity
for every honest lad with brains and
courage.

Don't worry about what Republicans
will do about "trusts." The party has
become recognized as the safest business
political organization in the country--
the latest evidence being the present
industrial prosperity seen everywhere,--
and can be depended upon to wisely
manage these corporation affairs. The
problem will be dealt with on just and
patriotic grounds.

The faculty of the University of Pekin,
China, is a large one. It consists of
two presidents, eight Chinese and eight
foreign professors, sixteen assistants,
thirty-two secretaries, and nearly one
hundred minor officers. There are two
hundred and fifty students of modern
languages, nearly half of whom are
learning English.

Mankind worships success, but thinks
too little of the means by which it is
attained,-- what days and nights of
watching and weariness, how year after
year has dragged on and, seen the end
still afar off; all that counts for little in
the long struggle does not at last clean
in victory.

The talent of success is nothing more
than doing what you can do well, and
doing well whatever you do, without a
thought of fame.

The State Treasury will have these
two first-class Republicans in control two
years more,-- Treasurer Geo. D. Swann
and Comptroller Wm. S. Hancock.

No Right to Ugliness.

The woman who is lovely in face, form
and temper will always have friends,
but one who would be attractive must
keep her health. If she has constipation
or kidney trouble, her impure blood will
cause pimples, blotches, skin eruptions
and a wretched complexion. Electric
Bitters is the best medicine in the world
to regulate stomach, liver and kidneys
and to purify the blood. It gives strong
nerves, bright eyes, smooth, velvety
skin, rich complexion. It makes a good-
looking, charming woman of a run-down
invalid. Only 50 cents at Crowell's Drug
Store.

Question Answered.

Yes, August Flower still has the lar-
gest sale of any medicine in the civilized
world. Your mothers and grandmothers
never thought of using anything else for
indigestion or biliousness. Doctors were
scarce, and they seldom heard of appen-
dicitis, nervous prostration, or heart
failure, etc. They used August Flower
to clean out the system and stop fermenta-
tion of undigested food, regulate the
action of the liver, stimulate the nervous
and organic action of the system, and
that is all they took when feeling dull
and bad with headache and other aches.
You only need a few doses of Green's
August Flower, in liquid form, to make
you satisfied there is nothing serious the
matter with you. Sample bottles are at
Crowell's Pharmacy.

SATURDAY, NOV. 26, 1899

The Vice-President's Death.

Garrett A. Hobart, Vice-President of the United States, died on Tuesday morning, Nov. 21st, at his home in Paterson, N. J.

Mr. Hobart had not been well for several months, and spent a portion of the summer at Long Branch, where he did not seem to gain much strength. It was then announced that he would not be able to appear in Washington during the next session of Congress. About a month ago his illness took a decided turn for the worse, and though he rallied later, his physicians gave him but little hope of recovery.

During Monday afternoon, Mr. Hobart's heart showed sudden failure in action, and grew weaker until about midnight, when the patient became unconscious, and died at 8:30.

The whole land is in mourning. A good man has departed. Pure in private and business life, able and honorable in every detail of his public career, he could justly be spared by his family, his state, or the nation.

Attorney General Griggs said: "My relations with the Vice-President have been so intimate for more than twenty-eight years, and my grief at his untimely death is so personal that I cannot speak about him for publication as I might of one whose death did not touch me so closely. As his associate and friend, I can say that he had the clearest intellect, the largest business capacity, the keenest intuition of any man I ever knew; but more remarkable than these qualities were his traits of modesty—amounting almost to diffidence, large-hearted generosity unostentatiously bestowed, of unselfish public spirit in all affairs of town, or state, or country, and, above all, a great heart that never beat except with love and loyalty and sympathy for all the world. His friends will miss him; so will the U. S. Senate; and the President. Indeed, the whole land may well mourn the loss of one of our noblest and best men."

The President deeply mourns the death of his associate and friend. He issued a proclamation announcing the sad fact, and ordering the customary tribute in public offices and at all military and naval stations.

Funeral services will be held to day, at 2 o'clock, in the Church of the Redeemer (Presbyterian), Paterson. There is no provision to-day to fill the vacancy now existing, hence there will be no Vice-President until March 4th, 1901. Wm. P. Frye, of Maine, is now President, pro tem of the Senate, and will preside until his successor is chosen. Should President McKinley die, the Secretary of State would be inaugurated President; the Secretary of the Treasury being next in succession.

Admiral Dewey has been severely criticized this week, because he thought it wise to lead his wife to the handsome home in Washington presented to him by admiring friends all over the country. As usual, the Admiral's head is nearer level than those of his basty critics. Desiring to make the property a permanent Dewey homestead, he decided not to wait until death had made him his operative, and not possible contact and excessive delays, he decided the home to Mrs. Dewey, and she promptly transferred the title to George G. Dewey, the Admiral's only son. This leaves no opportunity for anyone to question the young man's rights. The last deed provides that the house shall be the Admiral's home during life.

The British War Office has arranged for 10,000 plum puddings, weighing over ten tons, to be shipped to the troops in South Africa, in due time for the traditional Christmas dinner of the Briton. This ought to be good news for the Boers, for the resulting mortality will doubtless be as great as that of a big battle.

Agulhass expected other results on the 7th, hence his rapid travel north. Our troops find his trail still warm, and much of his baggage is now in their possession.

Volcanic Eruptions
Are grand, but skin eruptions rob life of joy. Buckton's Arctia Salve cures them! Also Old Runing and Mevee, Burns, Itches, Pains, Chaps, Warts, Bursas, rashes, Chapped Hands, Chills, Bores, Boils, Gums on earth, Drives out poisons and aches. 25 cts. a box. Give satisfaction. Sold by Dr. G. M. Crowl, Druggist.

Shunkard Son report their inability to fill their orders for ground glassware. They have advertised for more skilled workmen, and sent out agents to find such, but have been unsuccessful, so far. Their present force are working over-time. Several Hammoncton boys have been taken in as apprentices, and will be trained to the business. Skilled workmen make from \$12 to \$20 per week, with an average of \$15. A good chance for some of our boys.

There will be a mass meeting in the Baptist Church, Monday evening, Nov. 27th, at 7:45, in the interests of the Law and Order Society of Atlantic County. All of the town officials, and the W. O. T. U. are especially invited. Dr. Metcalf, of Philadelphia, Penna., and Rev. E. A. Elwood, of Atlantic, President of the society, will speak. You believe in law and order don't miss this meeting. The society endeavors to assist the officers in every way possible to enforce laws.

That vacant land north and east of Central school-house ought to be owned by the school district. At the present rate of increase of population, it will not be many years before another substantial addition to our school accommodations will be required. If the glass factory is located here, bringing many new families, our new annex will be filled quickly. Where shall another building be located? Lots south of the Central are small, and the nearest one is not in the market. Better buy that spacious Moore tract next year, and use it as a playground for all the boys in town. It is needed now for that purpose.

That story of "Will Jones" narrow escape turns out to be true. He was one of a squad of pine, seven were shot by the Philippians. Will escaped by lying flat between the railroad rails. A very close call.

The Farmers' Institute proved instructive, as we expected. We noticed many attendants from down in the country. We were unavoidably absent, but will next give our readers the cream of one of the best addresses.

They say "George will not lie," but they do not mind speaking, and misled a reader. For example, we said that there is a mail agent on the Reading's up train at 5:45 p. m. If you will transcribe the figures, to read 5:53, you will have the correct time.

We extend our heart-felt thanks to the friends who so ably assisted us during our late bereavement, and to all sympathetic friends who kindly offered their services and rendered all assistance possible.

Mrs. M. HURLEY and FAMILY, The New York Tribune is now issuing a tri-weekly edition, on every Monday, Wednesday, and Friday.

We have made a contract under which we can supply this tri-weekly edition and the Republican for two dollars a year, to subscribers in Atlantic County.

TO RENT. The second floor of Red Men's Hall. Apply to C. W. AUSTIN.

This proposition made, some weeks since, by a correspondent, to clear Hammoncton Lake of unsightly obstructions, has not yet received any open endorsement. We wish that someone who has the ability to lead would start the movement; there would not be plenty to lead a hand. It is a needed improvement.

Harry McD. Little has put an extensive hot water plant into W. H. Berenshouse's residence. There are ten radiators, which average over 700 pounds each in weight, and connections for three more, using pipes three and four inches in diameter. The contract has just been completed, and works well.

Geo. S. Bennett & Co., now and for many years extensive dealers in glass, in Philadelphia, will agree to take all the window glass that can be made in Hammoncton, making monthly settlements. There is certainly little risk in business conducted under that assurance. The above gentlemen are not connected with the proposed local company.

The Hammoncton Volunteer Fire Company held their monthly business meeting last Monday evening, with D. S. Cunningham in the chair. A "Stocking Scoble" will be held at the home of Mrs. E. C. North on Tuesday evening, Dec. 5th. This little stock we give to you is not for you to wear!

Please multiply your size by 2. And place therein with care—In pants, or in coat—You must be in luck!

We hope it is innocuous. No, if you wear a No. 10, You must be in luck! We hope it is innocuous. With all our hearts with you.

Those who have not received stockings can get them from Mr. Lanz, or at the door. Come, young and old, and enjoy a pleasant evening, and let your children help to buy a new carpet for the living room. It is sunny, come the next evening.

A member of the Hammoncton (N. J.) Water Company was in town on Wednesday. Just what he accomplished we know not; but he asked how many fire-plugs the town had agreed to take, and was told—no one. Then he wanted to know whether they would probably be ordered next March—and was not encouraged to expect anything in that line. The truth is, our people are wearied with long delay, and are in no mood to consider any favors to said company until their plant is in operation. The present look-out is a dry time in Hammoncton, except in the good old-fashion supply from wells.

A CARD.—The undersigned, Sachem and Chief of Records of Shammunkin Tribe, No. 87, Imp'd O. R. M., extend, in behalf of the Tribe, thanks to the brothers and the adoption team of Wawa Tribe, No. 186, of Berlin, for the large number of presents which they adopted the four relatives who joined our Tribe last Saturday's sleep; also to the ladies who assisted the Red Men with their supper on that occasion; also, to the comrades who conferred the Hay-makers' degree upon the twenty-one tramps.

J. M. LEAR, Sachem.
C. W. AUSTIN, C. of R.

The Missionary Meeting in the M. E. Church last Sunday evening, had in it some very interesting features. The introductory address by Robert Steel was very impressive, and left forth the work and worth of missions very clearly. A solo sung by Miss Nellie Montfort demonstrated the result of pains taking practice under a competent teacher. The recitation by Miss Katie Garton, was rendered with deliberation and effectiveness. The class exercise by M. Taylor, Annie Garton, Roy Tillot, Edith Mathis, H. Ogden, and May Scullen, was full of interest. The carefully prepared paper by A. T. Trafford, on Home Missions, secured a fitting climax to an interesting program which included good singing.

FOR SALE OR RENT. Store and room for dwelling, together with a BAKER.

Shammunkin Tribe, No. 87, of the Improved Order of Red Men, held a special council fire on Saturday night last, when they received a visit from a large delegation of the members of Wawa Tribe, No. 186, of Berlin. Four palanquins were elected by Shammunkin Tribe, and the ceremony of adoption was performed by the chiefs of Wawa Tribe. It was done in the most impressive manner, and highly pleasing to the members of the home Tribe. After the adoption ceremony, the Council fire was quenched and a splendid lunch was furnished by the Tribe, under the supervision of a number of the lady members of Little Ha-Ha Council, Degree of Pocahontas. After supper, the members again repaired to the lodge room, where a lot of Haymakers was organized, and twenty-one tramps were initiated into the sublime mysteries of the Hay-loft. Great Sachem Arthur H. Stiles, of Atlantic City, and Great Chief of Records Daniel M. Stevens, of Camden, were with the visitors. Shammunkin Tribe is again on the high road to prosperity; and has prospects of largely increasing its membership during the coming winter months.

When business is slack, and it is necessary to economize in order to make expenses, and some employees must be dismissed, the first matter that bothers the employer is, "Whom shall I let go? who can best be spared?" And so the question is settled by the discharge of the good-for-nothings, the barnacles, the shirks, the makeshifts, somebody's protego, the lazy, and especially those who never half learn their business. Young men should remember that such persons are not the ones who are called to fill responsible and well-paid positions. If you desire a position of prominence, or would like to know the probabilities of your gaining such a position, inquire within! What are you doing to make yourself valuable in the position you now occupy? Are you doing with all your might what your hands find to do? If so, the chances are ten to one that you will become so valuable in that position that you cannot well be spared, and then will be the very time you will be sought out for promotion to a better place.

His Life was Saved.

Mr. J. E. Lilly, a prominent citizen of Hammonton, N. J., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave me great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all Throat and Lung trouble. Regular size 50 cts. and \$1.00. Trial bottle free at Crowell's Drug Store; every bottle guaranteed.

Does it Pay to Buy Cheap?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to another climate? Yes, if possible; if not possible for you, then in either case take the ONLY remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ of disease, but always inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Sample bottles at Crowell's Pharmacy.
