## Town Council Meeting.

All members were present at the regular meeting, last Saturday night.

Highway Committee reported several matters attended to this month.

Fire and Light Committee reported fire on Plymouth Road, commending the Independent Company for effective work. Also mentioned the damage at Electric Light works, and stated that every effort is being made to hasten the repairs.

License Committee reported in favor of renewing N. K. Bowker's liquor license. Later, Council renewed said license. Roll called—five yeas, one nay (Mr. Cunningham).

Clerk reported that the appropriation for town purposes will be insufficient to pay any extraordinary expenses.

Commissioners of Appeal reported abatements and changes of taxes for this year amounting to \$199.42.

The committee introduced an ordinance to provide for the appointment of an Assistant Fire Chief. Passed first reading.

An ordinance was introduced, granting to several named parties permission to build and operate an electric railway across and through the town. Referred to Committee of the Whole, and voted that said committee meet in Council Room on Saturday, Dec. 3rd, at ten o'clock a.m., and that the promoters of said railway, and all interested citizens, be invited to be present and take part in the consideration of the ordinance.

Jos. II. Garton presented the case of Mrs. John Miller, and stated that if the town would pay her passage and other expenses, relatives in England would care for her; otherwise, the town will have to support her. Referred to Law and Order Committee and Overseer of the Poor.

Attention called to needed repairs on Chew Road, Referred, Adjourned.

## Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows; I was in a most dreadful condition. My skin was almost dreadful continually in back and eides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying "Electric Bitters;" and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50 conts per bottle at Dr. G. M. Croweli's Drug Store.

The Best Apple Sauce. "And we had the best apple sauce," said a young girl, when telling of a visit to a dear old aunt. "Wherein did it differ from all other apple sauce?" the mother queried quizzically. For the mother thought she

knew all there was to know about apple "Well, I don't know," said the young nerson, "but it was the best, and she put the sugar in it before she cooked it, and it was so different from any other." It so happened that the mother had occasion to make some apple sauce for ten, and not to be outdone by any auntle, however worthy she might be, the mother also put the sugar in before she cooked the apple, but the young person said it wasn't a bit like auntie's. Now I happened to know just how

this auntie really did make her apple sauce, and will tell you, besides giving you another way, too. Peel tart apples and quarter them; i very large cut the quarters once in two. Have two quarts when peeled, and put them tuto a granite kettle; pour over them two cups of sugar and set on the back part of the range, when there is a fire in it. Let them cook slowly until perfectly clear. Cover them closely. I didn't say anything about the water? No, and that is just where the difference comes in; the apples are cooked in their own inice, and this, combin-

ed with the augar, makes a rich and most delicious syrup, which will almost jell when cold. Don't be afraid of their burning to rha koliše, though they will H the hot fire at first; it will not take long for enough juice to exude to cook them, and they may be stirred until smooth, or the pieces may be left whole. They

must be cooked until they look clear and translucent. For the other recipe, use red apples if you can. Cut up a couple of quarts of apples, or have a couple of quarts when they are cut. Do not pare them. Put them into a small stone jar, put over them two big cups of sugar and cover closely, place in the oven and let them remain for four hours at least. The oven should not be very hot. The apples will come out looking as red us rubles clear through, and tasting so de licious they would lempt even a non-

apple sauce lover to try them .- The Adjusting Watches. Watches are adjusted to heat and cold by being allowed to stand first in room heated with dry heat to 120 de green and then in cold storage, belay

Having conquered the city, it is no great job for him to conquer the girl's heart, for however faint-hearted a woman herself may be she always loves courage in a man. I never saw an exception to that.

The wedding festivity having gone by, Othniel and Achsah are about to go to their own home. However loudly the cynhals may clash and the laughter ring, parents are always sad when a fondly sherished daughter goes off to stay, and Achsah, the daughter of Caleb, knowsthat now is the time to ask almost anything she wants of her father. It seems that Caleb, the good old man, had given as a wedding the content of the properties of the heavenly wail, the the good old man, had given as a wedding. wants of ner father. It seems that Caleb, the good old man, had given as a wedding; present a piece of land that was mountain. It wish I could make you understand the deserts of Arabia, swept with some very hot winds. It was called "a south land." But Achsah wants an addition of property; she want a piece of land that is well watered and fertile. Now it is no wonder that Cole standing results he had leaved. obrsting with dropsies, I hoard au old man in the poorhouse cry out, "Bless the Lord, ol, my soult" I looked around and said, "What has this man gottothank God for?" It makes the lame man leap as a hart, and the dumb sing. They say that the old Purkan religion is a judceless and joyless religion, but I remember reading of Dr. Goodwin, the celebrated Purkan, who in his last moment said: "fathis duing Why. And he gave her the upper springs and the nether springs."

The fact is that as Caleb, the father, gave Acbsah, the daughter, a south land, so Ged gives to us life world. I am very thankful He has given it to us. But I am like Achsah in the fact that I am not satisfied with the portion. Trees and flowers and grass and blue skies are very well in their places, but he who has nothing but this world for a portion has no portion at all. It is a mountainous land, sloping off toward the desert of sorrow, swopt by flery stroccos; it is "a south land," a poor portion for any man that tries to put his "Tis religion that can give "Tis religion that can give
