DR. JOHN BULL'S

FEVER and ACUE Or CHILLS and FEVER, AND ALL MALABIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies over offered to the public for the SAFE, CHETAIN, SPEEDY and PKE-MANERT cure of Agus and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to beer him testimeny to the truth of the assertion that in no case whatever will it full to cure if the directions are strictly followed and carried cut. In a great many cases a single does has been sufficient for a care, and whole families have been sured by a single bottle, with a perfect restoration of the general health. It is, however, present, and in every case more certain to cure, if its use is continued in smaller doese for a week or two after the disease has been cheeked, more especially in difficult and hone-standing eases. Vendily this medicine will not require any aid to keep the hewels in good order. Should the patient, havever, require a cathorife medicine, after having taken three or fare deese of the Tonin, a finale dees of BULL'S HARDER MILLER is the old and will be sufficient.

HULL'S HARRAPANUIA is the old and sulfable remedy for impurities of the blood and Scrothlous offsetions.

WASHINGTON, D. C., December 6, 1884. But one Congressional investigation has disturbed the serenity of this session. That is in connection with payments to Federal election officers, District-Attorneys and Marshals. It is held by Representative Springer's Committee> and considerable testimony has been taken. Many improper and exorbitan payments are alleged to have been made. There is a general belief here that the inquiry is intended to develope facts for the foundation of an attempt to change radically the laws authorizing the appointment of officials, and governing the method of their payment. No one denies that much unnecessary expense is incurred in all the offices mentioned, but there will be a vigorous contest before any bill passes materially altering the number of regular officials or further limiting the power to appoint election

The next investigation will be concerning the election in Cincinnati in October last, and is a result of a motion in the House to impeach U. S. Marshall Wright for illegal acts. Very bitter feeling exists among Democratic Congress men on the sbject.

So far there has been little done in the matter of general legislation. There has been a debate on the Inter-State Commerce bill, but no progress. This Vases, etc., venerable measure seems to be consider ed by Representatives as an excellent and safe one to debate, and they make the best of it. They talk about it session after session, and they may finally pass it; but they know it will be def ated in the Senate, and come up again to be talked about again in the House. I do not mean that the Sena e will squarely vote down such a bill, but that 1. will load it down with amendments. I think few are now in Congress who will remain there until a satisfactory Inter-State Commerce bill is passed.

There appears now to be no prospect of tariff agitation during the session, though no doubt a bill will be introduced, based on Secretary McJulloch's suggestion of a new commission to inquire into any necessary and desirable changes in the tariff rates. There is a prospect, though, that all the domestic taxes on tobacco will be removed, and a possibility that the session will see all internal taxes abolished except those on distilled liquors. The feeling in favor of such change is growing rapidly in the House and among members of both par-

After numerous delays, the capston of the great monument is being put in place to-day. Much remains to be done in the way of perfecting the interior of the structure, improving the grounds a round it, &c., but there is no question whatever of every thing being in readness for the dedication in February next. Interest in the monument in creases constantly, the visitors now numbering thousands daily.

The Swaim court-martial attracts attention from all quarters. At Thurs. day's session of the court-the defendant announced a novel line of defence, and vis. one that I cannot help thinking was illadvised. The main charge against Swaim is irregular and dishonest dealings with a firm of bankers here. The defence now substantially takes the ground that the charge ought not to be entertained because the transactions were in themsolves illegal, being in the nature of stock-gambling.

Lieutenant Mason A. Shufeldt, of the would sit before my tent and distribute Lieutenant Mason A. Shufeldt, of the navy, who recently returned from the exploration of Madagascar, had quite a wonderful experience. As he told the story of his travels to a newspaper man the other day it sounded more like an interesting narrative of interesting adventure from the world of fiction than the actual experience of a young naval officer in the line of duty. "For a long time I had felt a desire to explore some of the unknown Eastern countries," which had you intended to do upon from every direction: Of all the miners that were down there how many would be seen again?

The daughter of Michel was at school. The child questioned still, and repeated any one had spoken of it, and indeed if she have understood? Could she have understood? BOHEMIAN LAND.

Oh far a day together
In the woods so still and green
In the fairest summer weather
That love has ever seen;
To watch the bins aky shining
Waers boughs are intestwining.
And sunlight falls enemrining
The/soft, sweet air between.

Oh for the ringing laughter,
The hours of dreamful case,
The songs that follow after
The preludes of the breeze; For joys we may not number, For strains that softly cumber The folded wings of alumber, As foam lies o'er the seas.

For one day, love, one only,
Through all the fleeting hours,
Her laughter leaves us lonely,
Love's land and light are ours;
Toe seem will cares enthrall us,
Toe seem the world will call us,
The seem its till heful! us, Too soon its ills befall us. As frost befalls the flowers. Leave colder hearts to hearken

The simple household lays; Where leaves and branches darken, Where leaves and branches darking.
We'll list the song love plays.
Then vain the rise and falling
Of freelde voices calling,
While those sweet airs are thralling This brightest day of days.

Oh for a day together In the woods and windy dales n the fairest summer We Dawn fires or starlight pales. Then with that day's declining. To part like extles pining, At sight of sunset shining Upon some home bound sails.

THE HUNDREDTH MAN.

"Nov see here, my friend," said sohn Proctor, his honest eyes looking gravely into the tramp's face as he bal inced a dime on the tip of his finger, I'm not going to read you a homily on the subject of labor, but I want to pre-sent to you a little matter of statistics. You know, as well as I, that the terri-tory is swarming with men of your back to the office. AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lunger none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious ex posure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured:

"In 1857 I took a severe cold, which affected
my lungs. I had a terrible cough, and passed
night after night without sleep. The doctors
gave me up. I tried Ayer's Cherney PreTORAL, which relieved my lungs, induced
sleep, and afforded me the rest necessary
for the recovery of my strength. By the
continued use of the Pectoral a permanent cure was effected. I am now @2 years
old, hale and hearty, and am satisfied your

Croup. - A Mother's Tribute. While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of Ayra's CHERRY PRCTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The does not said that the UHERRY PRCTORAL had saved my darling's life. Can you wonder as our graittude? Bincerely yours.

MRS. ENMA GEDNEY."

"I cannot say enough in praise of AVER'S GENERY PROTORAL, believing as I do that but for its use I should long since have died from lung troubles. K. BEAGDOX." Palestine, Texas, April 22, 1882. No case of an affection of the throat or
