Sincere sorrow was expressed on every hand when the news of the death of Wm. B. Skinner was announced, last Saturday morning, he having passed away on Friday night, Dec. 7th, in the Medico-Chi. Hospital, Philadelphia, aged 79 years. Will, as friends knew him, had been suffering for several months with an affection of the right shoulder, which final diagnosis proved was sarcoma. As a student in Hammonton High School, one of the popular Apollo Orchestra, and during his eleven or more years at the altar at St. Mark's Church, he was esteemed by all. Services were held at St. Mark's on Tuesday morning, and interment at Greenmount.

A CARD.—We desire to publicly express our sincere thanks to the many friends who have expressed, by word and deed, their sympathy in our late affliction, the loss of our son and brother. Also to those who helped to brighten his life during his illness.

During the past week, Folsom has captured some worth-while prizes. Three pupils of the public school were among the successful contestants at the county exhibition at May's Landing. Margaret and John Schmickle won each a first and second prize, on sweet potatoes; and Theodore Whitmyer a first for best exhibit of white potatoes. Potatoes grown by Fred Hille were awarded a cash prize of \$48 at the exhibition given by the Horticultural Society of Newark, this week.

Lieut. John Peeples has accepted a position as an officer of the guard at Hogg Island Shipyard. He has had a long training in the Penna. Militia, and eleven months in the Regular Army on the border, and in Mexico. He has the rare quality of being a good disciplinarian without overbearing, and is well fitted for the position he will fill. Hammonton Home Guard is losing a valued officer. He has made many friends during his short stay in Hammonton. It is sincerely hoped that the rumors of soon-to-be near-by munitions works may turn to reality, and make an opening for a good guard officer nearer home.

Two on Onge Day.

Both fire companies responded to an early morning fire alarm, yesterday, about 6.30, the cause being Tom Santoro's chimney, at Eighth Street and Second Road. No damage was done.

Again, about five o'clock in the afternoon, a small building back of Ongeood's factory took fire, and being stored with barrels of rubber cement, oil and benzine, looked as though factories and near-by buildings were doomed. But with both companies, and plenty of acid and water, in a half hour or less all was over.

SATURDAY, DECEMBER 15, 1917

Camden public schools closed yesterday, for two weeks, to save coal. It was rumored on the street that the Hammonton Board of Education would take similar action, but it is not likely. The plan in the cities is to close during the coldest weather, and make up during June or July, but in a farming community that would not work out satisfactorily.

They say that it will cost much more to kiss under the mistletoe this Christmas, on account of the scarcity of labor in each of Christians' greens.

It is not too early to get into shape that New Year's resolution.

So many people are burning wood now, during the coal shortage and high price, that a warning might be timely, — that your chimney is cleared of soot. That there has been but one chimney fire for several months shows that the people are getting educated up to the danger.

All taxes will be due next Wednesday.

Next week's issue of the Republican is the last before Christmas. If you have anything for the late buyers, and want people to know of it, get your ads in, in early next week.

We have another supply of those excellent pamphlets, "How the War came to America," which our friends are welcome to call and get, at this office.

The thermometer, the past week, hovered about the zero mark, two mornings it registered at two or three above. That is some cold for this time of the year.

The most pitiable fact that we ever read has just been issued by the Manufacturers' and Merchants' Association of New Jersey, in which they say in startling headlines, that "Prohibition is going, not coming," and several other things just as visionary. If they imagine that there are any fools so stupid as to believe the statements in their publications, they must have a mighty poor opinion of the reading public. Yes, Prohibition is going—to come to stay.

Mail your Christmas packages early next week, if you wish them to arrive in time.

Notwithstanding the fact that Bellevue Avenue was a sheet of frozen snow, this week, we saw but one sleigh taking advantage of the winter sport. Youngsters were out, however.

Won't that be a fine thing for poultrymen, — a motor mail route across country to New York? Read the article on the subject.

One of our readers handed us the following definition for the popular word, camouflage, — a fancy name for lying.

We congratulate our townsman, Attorney A. J. King, on reaching the splendid age of ninety years today. He was admitted to the bar in 1851, and has practiced in five different states. He is in remarkably good condition, active, but his eyesight is his only sign of declining years.

People admired those signs gotten up for the High School play, "Silas Marner." They were the handiwork of Miss Lorraine Rogers' pupils, and they certainly reflect much credit on their efficient drawing teacher. Just examine the posters, if you have not already done so.

The New Income Tax.

You won't have to figure out your own income tax all by yourself, hereafter. The Government is going to send out men to help you. It will be up to you to hunt up these men, who will be sent into every county seat town, and some other towns, besides, to meet the people and, bankers and newspapers will be able to tell you when the Government's income tax man will be around, and where to find him. He will answer your questions, wear you to the return, take your money, and remove the wrinkles from your brow. Returns of income for 1917 must be made between January 1 and March 1, 1918.

The Government recognizes that many persons experience a good deal of difficulty in filling out income tax forms. It recognizes, too, that taxpayers resident at points where collector's offices are not easily accessible, find it hard to get proper instruction in the law.

Next year, when every married person living with wife or husband, and having a net income of \$2,000, and every unmarried person not the head of a family and having a net income of \$1,000 for the year 1917, must make return of income on the form prescribed, there will be hundreds in every community seeking light on the law and help in executing their returns. His own and every other collection district in the nation will be divided into districts, with the county as the unit, and a government officer informed in the income tax assigned to each district. He will spend hardly less than a week in each county, and in some counties a longer time, very likely in the courthouse at the county seat town. In cities where there are collector's branch offices, he will be there, and in other cities possibly at the city hall. His office will, in due time, advise postmasters and bankers and send out notices to the newspapers stating when the officer will be in each county. It will be unnecessary for prospective taxpayers to ask his office for forms on which to make returns. The officer who visits their county will have them.

It may be stated as a matter of general information that 'net income' is the remainder after subtracting expenses from gross income. Personal, family or living expense is not expense in the meaning of the law, the exemption being allowed to cover such expenses.

The new exemptions of \$1,000 and \$2,000 will add tens of thousands to the number of income taxpayers in this district, inasmuch as practically every farmer, merchant, tradesman, professional man and salary worker and a great many wage workers will be required to make return and pay tax.

The law makes it the duty of the taxpayer to seek out the collector. Many people assume that if an income tax form is not sent, or a government officer does not call, they are relieved from making report. This is decidedly in error. It is the other way around. The taxpayer has to go to the government, and if he doesn't within the time prescribed, he is a violator of the law, and the government will go to him with its penalties.

Washington Camp has organized a "Social Club," where it is hoped that a room has been fitted up with pool table, card tables, books and magazines, and those of its members who wish can spend quiet evenings. Students are invited.

The Camp made many homes happy at Thanksgiving time, by baskets of provisions donated by members.

Contributions of provisions and money are being received for Christmas, which will be distributed to deserving poor. Those knowing of any such in need will notify Elmer Priestly. There are many in Hammonton who would never ask for aid, but would accept it in that quiet way.

A Boon to Poultrymen.

Announcement of great interest
to poultry and egg men of this sec-
tion has just been made by the
postal authorities. It will also have
a direct effect on the food question,
at least as far as regards poultry
and eggs, and peepable fruits in
season. It is to the effect that on
and after February 1, a motor mail
service will be maintained daily,
except Sunday, between Hammon-
ton, post office and the office in
New York City.

Motor cars will leave the Ham-
monton post office and the New
York post office at 5.30 in the
morning and are due to arrive at
the other end of the route at 3.30
in the afternoon. The route is via
Indian Mills, Lumberton, Colum-
bus, Bordentown, Trenton, Prince-
ton, Newark and Jersey City, stop-
ping at several other points. First
class mail will be carried as well as
registered mail and parcel post
packages.

As there is already a heavy busi-
ness being done by poultry raisers
of this section of Atlantic County,
with New York houses, it is be-
lieved that this daily service, with
known hours of delivery and one
handling of eggs and dressed poultry,
will result in the Hammonton
post office being one of the greatest
clearing houses for poultry in this
section of the country.

It is likely that growers for miles
around will avail themselves of the
new service.

In the spring fresh cut asparagus
and other delicacies can be on sale
in time to grace the tables of weal-
thy New Yorkers at the evening
meal. As such products will
probably arrive in first class shape,
growers will be in shape to get the
best possible prices for their goods.

Bids will be received for the
maintenance of this service until
January 8, at the Hammonton
post office.

My Dear Mrs. Cunningham:

Our first call for special dress-
ings, 10,000 gauze pieces, to be
finished and shipped by the 24th of
December, are now ready to go,
less than two weeks from the time
that we received the message.
This could not have been accom-
plished if it had not been for the
splendid way in which the Ham-
monton Branch came forward. It
was magnificent; and by compari-
son in numbers, you have done
more than the Atlantic City head-
quarters.

Please express to your group of
women my sincere thanks and
appreciation for their very sacred
and enthusiastic cooperation.

We will, no doubt, from time to
time, have demands made upon us,
and I shall look to Hammonton to
again and again help us meet the
call. Most sincerely yours,
May Wood Williams.

Members of the "Christmas Drive
Committee," also the County Ex-
ecutive Committee, will be at the
Parish House this (Saturday)
noon, at lunch, and would like to
meet all Red Cross workers at
that time.

Mrs. H. O. Packard has been
appointed chairman of the local
"Membership Committee" of the
Red Cross.

There will be a benefit at Palace
Theatre, on Monday evening. One
of the features will be the "Star
Spangled Banner."

I wish to thank all the women
for their hearty cooperation in
meeting our first war call. Had it
not been for them the quota could
not have been reached.
Mrs. C. Cunningham,
A. R. C. I.

Red Cross workers meet all day
on Wednesday, Dec. 19th, on
which day we expect to make 1000
gauze pieces. Let all those inter-
ested in Red Cross work come.
Open all day.

Town Council Meeting

Five members constituted last
Wednesday night's session of Town
Council.

The claim of Edward L. Bobet,
for chickens killed by dogs, was
reported favorably by committee
and ordered paid.

Bills ordered paid footed up as
follows:

Town Purposes	\$12.00
Forest Fire	4.00
Highways	10.00
Fire	3.00
Street Lights	10.00
Drainage	12.00
Park	12.00
Sewerage	12.00
Bellevue Improvement	40.00
Total	\$128.00

Chief of Police reported two cases
disposed of,—a suspicious char-
acter and bicycle thief, and two
free lodgers.

Collector's receipts for the month
were \$6700.94.

Clerk reported having received
\$21.00 for licenses.

Wm. Doerfel, Secretary, asked
abatement of sewer tax on the Tell
ice plant, which has been idle the
past year.

A resolution was adopted,
authorizing the advertising for bids
for collector of garbage.

Two ordinances were introduced
and passed first reading. They
were as follows:

Fixing Chief of Police's salary
at sixty dollars per month.

Fixing rates for use of sewer by
canaries.

(Said ordinances will be pub-
lished next week.)

A resolution was adopted, au-
thorizing a temporary improvement
note for \$463, for the payment of
Bellevue Avenue improvements.

The usual monthly anticipation
note was authorized, for \$3000, for
the payment of bills already
ordered paid.

The meeting adjourned at 10.55.

Some Startling Figures.

The food material wasted in making liquor, if saved, would mean
more than enough food to feed the army.

Eleven million pound-loaves of bread daily to help feed hungry
children and women.

Seven billion pounds of potential food power to build physical
strength.

From the grain made into whiskey and beer last year, 4,000,000
people could have been supplied with rye bread for 100 days.

56,000,000 people could have been supplied with corn-meal for
100 days.

16,000,000 people could have been supplied with rice for 100 days.

100,000,000 people could have been supplied with 18 pounds of
rice each.

100,000,000 people could have been supplied with one gallon of
molasses each.

208,000,000 loaves of bread could have been made from the grain.
